CONSENT AGREEMENT AND FINAL ORDER

I. Nature of the Action

1. This is a civil penalty proceeding pursuant to Section 109 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended, 42 U.S.C. § 9609 and by Section 325 of the Emergency Planning and Community Right-to-Know Act (EPCRA), 42 U.S.C. § 11045 and pursuant to the Consolidated Rules of Practice Governing Administrative Assessment of Civil Penalties, and the Revocation/Termination or Suspension of Permits (Consolidated Rules), codified at 40 CFR Part 22. Complainant is the Director of the Air, Pesticides and Toxics Management Division, Region 4, United States Environmental Protection Agency (EPA). Respondent is the Tifton Aluminum Company, Inc.

2. Complainant and Respondent have conferred for the purpose of settlement pursuant to 40 CFR § 22.18 and desire to resolve this matter and settle the allegations described herein without a formal hearing. Therefore, without the taking of any evidence or testimony, the making of any argument, or the adjudication of any issue in this matter, and in accordance with 40 CFR § 22.13(b), this Consent Agreement and Final Order (CAFO) will simultaneously commence and conclude this matter.

II. Preliminary Statements

3. The authority to take action under Section 109 of CERCLA, 42 U.S.C. § 9609, and Section 325 of EPCRA, 42 U.S.C. § 11045, is vested in the Administrator of EPA. The Administrator of EPA has delegated this authority under CERCLA and under EPCRA to the Regional Administrators by EPA Delegation 14-31 and 22-3-A, dated May 11, 1994. The Regional Administrator, Region 4, has redelegated to the Director, Air, Pesticides and Toxics Management Division, the authority under CERCLA by EPA Region 4 Delegation 14-31 dated March 8, 1999, and updated August 6, 2004, and the authority under EPCRA by EPA Region 4 Delegation 22-3-A, dated November 8, 1994. Pursuant to these delegations, the Director of the Air, Pesticides and Toxics Management Division has the authority to commence an enforcement action as the Complainant in this matter.

4. Respondent is a corporation doing business in the State of Georgia.

5. Respondent is a "person" as defined in Section 329(7) of EPCRA, 42 U.S.C. § 11049(7), and Section 101(21) of CERCLA, 42 U.S.C. § 9601(21).
6. Respondent has a "facility" as that term is defined by Section 101(9) of CERCLA, 42 U.S.C. § 9601(9), and by Section 329(4) of EPCRA, 42 U.S.C. § 11049(4).
7. Respondent's facility is located at 250 Southwell Boulevard, Tifton, GA.
8. Respondent is an "owner or operator" of the facility as that term is defined by Section 101 (20)(A) of CERCLA, 42 U.S.C. § 9601(20)(A).
9. Section 102(a) of CERCLA, 42 U.S.C. § 9602(a), required the Administrator of EPA to publish a list of substances designated as hazardous substances which, when released into the environment, may present substantial danger to public health or welfare or the environment and to promulgate regulations establishing the quantity of any hazardous substance the release of which was required to be reported under Section 103(a) of CERCLA, 42 U.S.C. § 9603(a). EPA has published and amended such a list, including the corresponding reportable quantities (RQ) for those substances. This list initially published on April 4, 1985 (50 Fed. Reg. 13474) and is periodically amended. The list is codified at 40 CFR Part 302.
10. Section 103(a) of CERCLA, 42 U.S.C. § 9603(a), and the regulations found at 40 CFR Part 302.6, require a person in charge of a facility or vessel to immediately notify the National Response Center (NRC), as soon as he or she has knowledge of a release of a hazardous substance from such facility or vessel in an amount equal to, or greater than the reportable quantity (RQ).
11. Respondent was in charge of the facility during the relevant period described below.
12. Chlorine is a "hazardous substance" as that term is defined by Section 101(14) of CERCLA, 42 U.S.C. § 9601(14), with an RQ of 10 pounds, as specified in 40 CFR § 302.4.
13. On July 24, 2006, Respondent had a release of chlorine above the RQ at the facility.
14. EPA alleges that Respondent violated the notification requirements of Section 103(a) of CERCLA, 42 U.S.C. § 9603(a), by failing to immediately notify the NRC as soon as Respondent had knowledge of the release of chlorine in an amount equal to, or greater than the RQ at Respondent's facility and is therefore subject to the assessment of penalties under Section 109 of CERCLA, 42 U.S.C. § 9609.
15. Pursuant to Section 109 of CERCLA, 42 U.S.C. § 9609, and 40 CFR Part 19, EPA may assess a penalty of not more than \$27,500 for each violation of Section 103(a) that occurred on or after January 30, 1999 and \$32,500 for violations after March 15, 2004. Civil

penalties under Section 109 of CERCLA, 42 U.S.C. § 9609, may be assessed by Administrative Order.

16. Section 304(a) of EPCRA, 42 U.S.C. §11004(a), and the regulations found at 40 CFR § 355.40, require the owner or operator of a facility at which hazardous chemicals are produced, used or stored, to immediately notify the State Emergency Response Commission (SERC) and Local Emergency Planning Committee (LEPC) when there has been a release of a CERCLA hazardous substance or extremely hazardous substance in an amount equal to or greater than the reportable quantity.

17. Respondent was the owner or operator of the facility during the relevant period, described below.

18. At all times relevant to this matter, the facility produced, used, or stored "hazardous chemicals" as defined under Section 311(e) of EPCRA, 42 U.S.C. § 11021(e), and under 29 CFR § 1910.1200(c).

19. Chlorine is an "extremely hazardous substance" as that term is defined by EPCRA, 42 U.S.C. § 11049(3), with an RQ of 10 pounds, as specified in 40 CFR Part 355, Apps. A & B.

20. On July 24, 2006, Respondent had a release of chlorine above the RQ at the facility.

21. EPA alleges that Respondent violated the notification requirements of Section 304(a) of EPCRA, 42 U.S.C. §11004(a), by failing to immediately notify the SERC and LEPC as soon as Respondent had knowledge of the release of chlorine in an amount equal to, or greater than the RQ at Respondent's facility, and is therefore subject to the assessment of penalties under Section 325 of EPCRA, 42 U.S.C. §11045.

22. Pursuant to Section 325(b) of EPCRA, 42 U.S.C. § 11045(b), and 40 CFR Part 19, EPA may assess a penalty of not more than \$27,500 for each violation of Section 304(a) and 304(c) that occurred on or after January 30, 1999 and \$32,500 for violations after March 15, 2004. Civil penalties under Section 325(b) of EPCRA, 42 U.S.C. § 11045(b), may be assessed by Administrative Order.

### III. Consent Agreement

23. For the purposes of this CAFO, Respondent admits the jurisdictional allegations set out above but neither admits nor denies the factual allegations set out above.

24. Respondent waives any right to contest the allegations and its right to appeal the proposed final order accompanying the Consent Agreement.

25. Respondent consents to the assessment of and agrees to pay the civil penalty as set forth in this CAFO.

26. Respondent certifies that as of the date of its execution of this CAFO, it is in compliance with all relevant requirements of EPCRA and CERCLA.

27. Compliance with the CAFO shall resolve the allegations of violations contained herein. This CAFO shall not otherwise affect any liability of Respondent to the United States other than as expressed herein. Neither EPA nor Complainant waives any right to bring an enforcement action against Respondent for violation of any federal or state statute, regulation or permit, to initiate an action for imminent and substantial endangerment, or to pursue criminal enforcement.

28. Complainant and Respondent agree to settle this matter by their execution of this CAFO. The parties agree that the settlement of this matter is in the public interest and that this CAFO is consistent with the applicable requirements of CERCLA and EPCRA.
