Respondents contend demolition not part of construction activities. 11/27/18 Syman letter states that on Syman's 2nd visit on 9/26/18, pond excavation and other activities had begun and that there was water in unnamed waterway but not yet discharging to river. Inspection occurred on 10/2/18 with significant water in unnamed stream and discharging to river. Richard Fritzley, as an individual (versus Fritzley Consulting LLC), was conducting day to day stormwater activities, met the definition of an operator, and thus should have had coverage under the stormwater CGP.			1	X	\$500.00	8	\$500
