In the matter of: Kelly's Septic Services, LLC, Bellefontaine, Ohio

Docket No. CWA-05-2013-0007

EPA is providing notice of its intent to file a Consent Agreement and Proposed Final Order (Proposed CAFO) against Kelly's Septic Service, LLC (Respondent), for violations of the Clean Water Act. The Respondent is in the business of applying domestic septage to agricultural fields. This Proposed CAFO will settle EPA's allegations that the Respondent violated the Clean Water Act by land applying septage in a manner that did not meet vector attraction reduction requirements, and by failing to prepare and maintain records regarding the land application of domestic septage. The EPA and Respondent have agreed in principle that the Respondent will comply with the Clean Water Act and pay a civil penalty of \$500 to resolve these violations.
