Re: Centre Concrete Company
Administrative Order on Consent
CWA-03-2021-0019-DN

Dear Ms. Williams,

The United States Environmental Protection Agency (EPA) has completed its review of the Centre Concrete Company's compliance with the Administrative Order on Consent (AOC), referenced above, which was filed with the Regional Hearing Clerk, EPA, Region 3 on December 7, 2020. The AOC required, for two years following the effective date of the AOC, that the Centre Concrete Company conduct and submit monthly stormwater management compliance inspections and after every precipitation event that exceeded 0.25 inches of rainfall during a 24-hour period. Based on EPA's review, EPA has determined that Centre Concrete Company has complied with the terms of the AOC and the timeframe of oversight under the AOC has been achieved. Therefore, EPA is terminating the AOC.

Please note that the Centre Concrete Company must still comply with all applicable Clean Water Act (CWA) and National Pollutant Discharge Elimination System (NPDES) permit requirements. Failure to comply with the CWA or a current or future NPDES permit may result in the initiation of an additional enforcement action pursuant to the provisions set forth in Section 309 of the CWA, 33 U.S.C. Section 1319. Therefore, I encourage the Centre Concrete Company to pay close attention to the conditions and requirements in its NPDES permit and uphold standard operations and maintenance procedures to ensure compliance.

Thank you for your cooperation in this matter. If you have any questions or comments, you may contact Ingrid Hopkins of my staff at (215) 814-5437.

Sincerely,

Mark Zolanz, Chief
NPDES Section
Enforcement and Compliance Assurance Division
