The Honorable Larry Fodge
City of Olympian Village
205 Kronos Drive
DeSoto, Missouri 63020

Re: City of Olympian Village, MO
Termination of Administrative Order for Compliance
Docket No.: CWA-07-2007-0092
NPDES No.: MO0101109

Dear Mayor Fodge:

On December 4, 2007, the Environmental Protection Agency issued an Administrative Compliance Order to the Village of Olympian Village, Missouri. The Order required the City to take all necessary measures, to the extent feasible, to remove sludge discharged by the Village to Platin Creek and to develop and submit an Operations and Maintenance Plan to the EPA. The Order was issued under the authority of Section 309(a) of the Clean Water Act, 33 U.S.C. § 1319(a).

The EPA has reviewed the information submitted by the City in response to the required compliance activities of the ACO and has determined that the requirements of the ACO have been met. This letter serves as a notification to the Village of Olympian Village, Missouri, that the EPA is terminating the ACO. The EPA's decision to terminate the ACO is conditioned upon the accuracy of the Village's representation to the EPA in response to the requirements of the ACO.

Termination of this ACO in no way relieves the Village of the obligation to comply with its National Pollutant Discharge Elimination System permit and all applicable statutes and regulations. The Village of Olympian Village should continue to implement the Operations and Maintenance plan submitted as a part of the ACO. The effect of this termination is limited to the requirements imposed under the ACO. The EPA reserves all of its authorities, both legal and equitable, under the CWA and any other statutory, regulatory, or common law authorities of the United States.

If you have any questions relating to this termination letter or the above referenced enforcement action, please contact Kimberly Willis of my staff, at (913) 551-7069.

Sincerely,

A handwritten signature in black ink that reads "Karen A. Flourney". The signature is written in a cursive style with a large, sweeping initial "K".

Karen A. Flourney

Director

Water, Wetlands and Pesticides Division
