Re: Administrative Order regarding Stateline Station, PWS ID #5601525,
Docket # **SDWA-08-2015-0020**

Dear Mr. Simpson:

Enclosed is an Administrative Order (Order) issued by the U.S. Environmental Protection Agency (EPA) under the authority of section 1414(g) of the Safe Drinking Water Act, 42 U.S.C. § 300g-3(g). Among other things, the Order alleges that RBD Ent, LLC, as owner and/or operator of the Stateline Station Public Water System (System), have violated the National Primary Drinking Water Regulations at 40 C.F.R. part 141 (Drinking Water Regulations).

The Order is effective upon the date received. Please review the Order and within 10 days provide the EPA with any information you believe the EPA may not have (e.g., any monitoring that may have been done but not submitted, any updates to the numbers of connections and/or individuals served, etc.). If the EPA does not hear from you, the EPA will assume this information is correct.

If RDB Ent, LLC, complies with the Order, the EPA may close the Order without further action. Failure to comply with the Order may lead to substantial civil penalties and/or a federal court injunction ordering compliance.

The Small Business Regulatory Enforcement and Fairness Act (SBREFA) may apply to this situation. Enclosed is a small business information sheet, outlining compliance assistance resources available to small businesses and small governments, in case these are relevant. SBREFA does not eliminate the responsibility to comply with the Order or the Drinking Water Regulations.

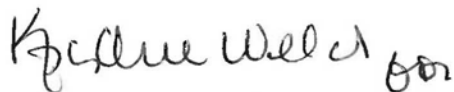

The Order requires public notification of violations of the Drinking Water Regulations. Enclosed please find a public notice template explaining the public notice requirements in more detail.

To submit information or to request an informal conference with the EPA, please contact Kathelene Brainich at the above address (with the mailcode 8ENF-W), via email at brainich.kathelene@epa.gov, or by phone at (800) 227-8917, extension 6481 or (303) 312-6481. Any questions from your attorney

should be directed to Mia Bearley, Enforcement Attorney, who may be reached at the above address (with the mailcode 8ENF-L), via email at bearley.mia@epa.gov, or by phone at (800) 227-8917, extension 6554, or (303) 312-6554.

We urge your prompt attention to this matter.

Sincerely,

Arturo Palomares, Director
Water Technical Enforcement Program
Office of Enforcement, Compliance
and Environmental Justice

RETURN RECEIPT REQUESTED

Crook County Commissioners
c/o Kelly B. Dennis, Chair
P.O. Box 37
Sundance, Wyoming 82729

Re: Notice of Safe Drinking Water Act Enforcement Action Regarding Stateline Station,
PWS ID 5601525

Dear Commissioners:

The Safe Drinking Water Act requires that the U.S. Environmental Protection Agency (EPA) notify locally elected officials of certain enforcement actions taken in their area.

An Administrative Order (Order) is being issued to RBD Ent, LLC, as owner and/or operator of the Stateline Station Public Water System, located in Crook County, directing it to comply with the National Primary Drinking Water Regulations. The violations alleged in the Order are failure to monitor for nitrate and total coliform, and failure to notify the public and the EPA of the violations.

For more details, a copy of the Order is enclosed for your information. **The Order does not require any response or action by the County Commission.** If you have any questions regarding this Order, please contact Kathelene Brainich at (303) 312-6481.

Sincerely,

A handwritten signature in black ink that reads "Arturo Palomares".

2015 JUN 11 AM 10: 23

IN THE MATTER OF:)
RBD Ent, LLC,)
Respondent.)

Docket No. SDWA-08-2015-0020

FILED
EPA REGION VIII
HEARING CLERK

ADMINISTRATIVE ORDER

1. This Order is issued under the authority vested in the Administrator of the United States Environmental Protection Agency (EPA) by section 1414(g) of the Safe Drinking Water Act (Act), 42 U.S.C. § 300g-3(g), as properly delegated to the undersigned officials.
2. RBD Ent, LLC, (Respondent) is a Wyoming corporation that owns and/or operates the Stateline Station Public Water System (System), which provides piped water to the public in Crook County, Wyoming, for human consumption.
3. The System is supplied by a groundwater source accessed by one well. The System's water is untreated.
4. The System has approximately 3 service connections and/or regularly serves an average of approximately 300 individuals daily at least 60 days out of the year. Therefore, the System is a "public water system" as defined in section 1401(4) of the Act, 42 U.S.C. § 300f(4), and 40 C.F.R. § 141.2. The System is also a "transient, non-community water system" as defined in 40 C.F.R. § 141.2.
5. Respondent is subject to the Act and the National Primary Drinking Water Regulations (Drinking Water Regulations) at 40 C.F.R. part 141. The Drinking Water Regulations are "applicable requirements" as defined in section 1414(i) of the Act, 42 U.S.C. § 300g-3(i).

VIOLATIONS

6. Respondent is required to monitor the System's water annually for nitrate. 40 C.F.R. § 141.23(d). Respondent failed to monitor the System's water for nitrate during 2010 and 2014 and, therefore, violated this requirement. Nitrate monitoring was completed on May 13, 2015.
7. Respondent is required to monitor the System's water quarterly for total coliform bacteria. 40 C.F.R. § 141.21(a). Respondent failed to monitor the System's water for total coliform bacteria during the 4th quarter (October-December) of 2014, the 2nd quarters (April-June) of 2010 and 2011, and the 1st quarter (January-March) of 2013 and, therefore, violated this requirement. A sample was taken during the 4th quarter 2014 but was not analyzed as it exceeded the holding time.
8. Respondent is required to notify the public of certain violations of the Drinking Water Regulations. 40 C.F.R. §§ 141.201-141.211. Respondent failed to notify the public of the 1st quarter 2013 total coliform violation cited in paragraph 7, above, and, therefore, violated this requirement. Public notice for the 4th quarter of 2014 total coliform and the 2014 nitrate monitoring violations are not yet past due.

9. Respondent is required to report any failure to comply with any Drinking Water Regulation to the EPA within 48 hours (except where the Drinking Water Regulations specify a different time period). 40 C.F.R. § 141.31(b). Respondent failed to report the violations cited in paragraphs 6 and 8 above, to the EPA and, therefore, violated this requirement.

10. Respondent is required to report any failure to comply with any coliform monitoring requirement to the EPA within 10 days after discovering the violation. 40 C.F.R. § 141.21(g)(2). Respondent failed to report the violations listed in paragraph 7, above, to the EPA and, therefore, violated this requirement.

ORDER

Based on the above violations, Respondent is ordered to perform the following actions upon Respondent's receipt of this Order (unless a different deadline is specified below):

11. Respondent shall monitor the System's water for nitrate as required by the Drinking Water Regulations. 40 C.F.R. § 141.23. Respondent shall report analytical results to the EPA within the first 10 days following the month in which Respondent receives sample results, as required by 40 C.F.R. § 141.31(a). Respondent shall report any violation of the nitrate monitoring requirements to the EPA within 48 hours of the violation occurring, as required by 40 C.F.R. § 141.31(b).

12. Respondent shall monitor the System's water quarterly for total coliform bacteria and, if any sample is positive for total coliform, conduct repeat and additional routine monitoring, as required by 40 C.F.R. § 141.21. Respondent shall report analytical results to the EPA within the first 10 days following the month in which Respondent receives sample results, as required by 40 C.F.R. § 141.31(a). Respondent shall report any violation of coliform monitoring requirements in 40 C.F.R. part 141 to the EPA within 10 days after discovering the violation, as required by 40 C.F.R. § 141.21(g)(2).

13. This Order shall be binding on Respondent, its successors and assigns, and any person (e.g., employee, contractor, or other agent) acting in concert with Respondent.

14. If Respondent (a) leases or sells the System to another person or entity, or (b) contracts with or hires any other person or entity to operate the System, Respondent shall, no later than the date of such lease, sale, or other contract, provide a copy of this Order to the lessee, purchaser, or contractor. No later than 10 days thereafter, Respondent shall notify the EPA in writing of the lease, sale, or other contract, with such notification to include the name and contact information of the person who has leased, bought, or contracted to operate the System. Respondent shall remain obligated to comply with this Order even if Respondent leases the System to another person or entity or hires another person or entity to operate the System.

15. Respondent shall direct all reporting required by this Order to:

U.S. EPA Region 8 (8P-W-DW)
1595 Wynkoop Street
Denver, CO 80202-1129

GENERAL PROVISIONS

16. This Order shall not constitute a waiver, suspension, or modification of any requirement of the Act or Drinking Water Regulations. Issuance of this Order is not an election by the EPA to forgo any civil or criminal action.

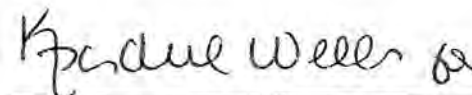

17. Violation of any part of this Order or the Drinking Water Regulations may subject Respondent to a civil penalty of up to \$37,500 (as adjusted for inflation) per day of violation. 42 U.S.C. § 300g-3; 40 C.F.R. part 19.

18. Respondent may seek federal judicial review of this Order pursuant to section 1448(a) of the Safe Drinking Water Act, 42 U.S.C. § 300j-7(a).

19. This Order is effective upon receipt by Respondent and will continue to be in effect until closed by the EPA.

Issued: June 11, 2015.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER STATELINE STATION

SOME DRINKING WATER MONITORING REQUIREMENTS NOT MET IN 2013 and 2014

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 2013 and 2014 we did not complete all monitoring or testing for total coliform and nitrate and therefore cannot be sure of the quality of our drinking water during that time.

What should I do? There is nothing you need to do at this time.

The table below lists the contaminants we did not properly test for, how often we are supposed to sample for these contaminants and how many samples we are supposed to take, how many we took, when samples should have been taken, and the date when the situation was corrected.

Contaminant	Required sampling frequency	Number of samples taken	When all samples should have been taken	When samples were or will be taken
Total Coliform	quarterly	1 taken 1 st quarter 2013, but exceeded holding time	1 st quarter 2013 & 4 th quarter 2014	All other quarters in 2013 & 2014
Nitrate	Annually	None	2014	2015

What happened? What is being done?

Will sample as required in the future. Call Victoria Cross at 307-643-2185 if you have questions.

Please share this information with all the other people who drink this water. Post this notice in a public place for a minimum of 7 days. Send a copy to the EPA after public notice is complete with the dates posted and your signature: Kathelene Brainich, EPA 8ENF-W, 1595 Wynkoop St., Denver, CO 80202 OR fax 303-312-7518.

Instructions for Monitoring Violations Annual Notice--Template 3-1

Template on Reverse

Since most monitoring violations are included in Tier 3, you must provide public notice to persons served within one year after you learn of the violation (141.204(b)). Multiple monitoring violations can be serious, and your primacy agency may have more stringent requirements. Check with your primacy agency to make sure you meet its requirements.

Community systems must use one of the following (141.204(c)):

- Hand or direct delivery
- Mail, as a separate notice or included with the bill

Non-community systems must use one of the following (141.204(c)):

- Posting in conspicuous locations
- Hand delivery
- Mail

In addition, both community and non-community systems must use *another* method reasonably calculated to reach others if they would not be reached by the first method (141.204(c)). Such methods could include newspapers, e-mail, or delivery to community organizations. If you post the notice, it must remain posted until the violation is resolved. If the violation has been resolved, you must post the notice for at least one week (141.204(b)). If you mail, post, or hand deliver, print your notice on letterhead, if available.

The notice on the reverse is appropriate for insertion in an annual notice or the CCR, as long as public notification timing and delivery requirements are met (141.204(d)). You may need to modify the template for a notice for individual monitoring violations. This example presents violations in a table; however, you may write out an explanation for each violation if you wish. For any monitoring violation for volatile organic compounds (VOCs) or other groups, you may list the group name in the table, but you must provide the name of every chemical in the group on the notice, e.g., in a footnote.

You may need to modify the notice if you had any monitoring violations for which monitoring later showed a maximum contaminant level or other violation. In such cases, you should refer to the public notice you issued at that time.

Include in your notice the standard language for monitoring and testing procedure violations in *italics* (141.205(d)(2)). If you modify the notice, you may not alter this mandatory language.

Corrective Actions

In your notice, describe corrective actions you took or are taking. Listed below are some steps commonly taken by water systems with monitoring violations. Choose the appropriate language, or develop your own:

- We have since taken the required samples, as described in the last column of the table above. The samples showed we are meeting drinking water standards.
- We have since taken the required samples, as described in the last column of the table above. The sample for [contaminant] exceeded the limit. [Describe corrective action; use information from public notice prepared for violating the limit.]
- We plan to take the required samples soon, as described in the last column of the table above.

After Issuing the Notice

Make sure to send your primacy agency a copy of each type of notice and a certification that you have met all the public notice requirements within ten days after issuing the notice (141.31(d)).

U.S. EPA Small Business Resources Information Sheet

The United States Environmental Protection Agency provides an array of resources to help small businesses understand and comply with federal and state environmental laws. In addition to helping small businesses understand their environmental obligations and improve compliance, these resources will also help such businesses find cost-effective ways to comply through pollution prevention techniques and innovative technologies.

Small Business Programs

Small Entity Compliance Guides

<http://www.epa.gov/sbrefa/compliance-guides.html>

EPA publishes a Small Entity Compliance Guide (SECG) for every rule for which the Agency has prepared a final regulatory flexibility analysis, in accordance with Section 604 of the Regulatory Flexibility Act (RFA).

Regional Small Business Liaisons

<http://www.epa.gov/sbo/rsbl.htm>

The U.S. Environmental Protection Agency (EPA) Regional Small Business Liaison (RSBL) is the primary regional contact and often the expert on small business assistance, advocacy, and outreach. The RSBL is the regional voice for the EPA Asbestos and Small Business Ombudsman (ASBO).

State Resource Locators

www.envcap.org/statetools

The Locators provide state-specific contacts, regulations and resources covering the major environmental laws.

State Small Business Environmental Assistance Programs (SBEAPs)

www.epa.gov/sbo/507program.htm

State SBEAPs help small businesses and assistance providers understand environmental requirements and sustainable business practices through workshops, trainings and site visits.

EPA's Tribal Portal

www.epa.gov/tribalportal/

The Portal provides access to information on environmental issues, laws, and resources related to federally recognized tribes.

EPA Compliance Incentives

EPA provides incentives for environmental compliance. By participating in compliance assistance programs or voluntarily disclosing and promptly correcting violations before an enforcement action has been initiated, businesses may be eligible for penalty waivers or reductions. EPA has two such policies that may apply to small businesses:

EPA's Small Business Compliance Policy

www2.epa.gov/enforcement/small-businesses-and-enforcement

This Policy offers small businesses special incentives to come into compliance voluntarily.

EPA's Audit Policy

www2.epa.gov/compliance/epas-audit-policy

The Policy provides incentives to all businesses that voluntarily discover, promptly disclose and expeditiously correct their noncompliance.

Commenting on Federal Enforcement Actions and Compliance Activities

The Small Business Regulatory Enforcement Fairness Act (SBREFA) established a SBREFA Ombudsman and 10 Regional Fairness Boards to receive comments from small businesses about federal agency enforcement actions. If you believe that you fall within the Small Business Administration's definition of a small business (based on your North American Industry Classification System designation, number of employees or annual receipts, as defined at 13 C.F.R. 121.201; in most cases, this means a business with 500 or fewer employees), and wish to comment on federal enforcement and compliance activities, call the SBREFA Ombudsman's toll-free number at 1-888-REG-FAIR (1-888-734-3247).

Every small business that is the subject of an enforcement or compliance action is entitled to comment on the Agency's actions without fear of retaliation. EPA employees are prohibited from using enforcement or any other means of retaliation against any member of the regulated community in response to comments made under SBREFA.

Your Duty to Comply

If you receive compliance assistance or submit a comment to the SBREFA Ombudsman or Regional Fairness Boards, you still have the duty to comply with the law, including providing timely responses to EPA information requests, administrative or civil complaints, other enforcement actions or communications. The assistance information and comment processes do not give you any new rights or defenses in any enforcement action. These processes also do not affect EPA's obligation to protect public health or the environment under any of the environmental statutes it enforces, including the right to take emergency remedial or emergency response actions when appropriate. Those decisions will be based on the facts in each situation. The SBREFA Ombudsman and Fairness Boards do not participate in resolving EPA's enforcement actions. Also, remember that to preserve your rights, you need to comply with all rules governing the enforcement process.

EPA is disseminating this information to you without making a determination that your business or organization is a small business as defined by Section 222 of the Small Business Regulatory Enforcement Fairness Act or related provisions.
