CONSENT AGREEMENT AND FINAL ORDER

The Director, Superfund Division, United States Environmental Protection Agency (EPA), Region 6, and Caviness Beef Packing, Inc., (Respondent) in the above-referenced proceeding, hereby agree to resolve this matter through the issuance of this Consent Agreement and Final Order (CAFO).

I. PRELIMINARY STATEMENT

1. This proceeding for the assessment of civil penalties pursuant to Section 113(d) of the Clean Air Act (CAA), 42 U.S.C. § 7413(d), is simultaneously commenced and concluded by the issuance of this CAFO against the Respondent pursuant to 40 C.F.R. §§ 22.13(b), 22.18(b)(2) and (3), and 22.34.

2. For the purposes of this proceeding, the Respondent admits the jurisdictional allegations herein; however, the Respondent neither admits nor denies the specific factual allegations contained in this CAFO.

3. The Respondent explicitly waives any right to contest the allegations and its right to appeal the proposed Final Order set forth therein, and waives all defenses which have been raised or could have been raised to the claims set forth in the CAFO.

4. Compliance with all the terms and conditions of this CAFO shall resolve only those violations which are set forth herein.

5. The Respondent consents to the issuance of this CAFO, and to the assessment and payment of the stated civil penalty in the amount and by the method set forth in this CAFO.

6. The Respondent represents that it is duly authorized to execute this CAFO and that the party signing this CAFO on behalf of the Respondent is duly authorized to bind the Respondent to the terms and conditions of this CAFO.

7. The Respondent agrees that the provisions of this CAFO shall be binding on its officers, directors, employees, agents, servants, authorized representatives, successors, and assigns.

II. STATUTORY AND REGULATORY BACKGROUND

8. Section 112(r)(7) of the CAA, 42 U.S.C. § 7412(r)(7), provides in pertinent part:

(A) In order to prevent accidental releases of regulated substances, the Administrator is authorized to promulgate release prevention, detection, and correction requirements which may include monitoring, record-keeping, reporting, training, vapor recovery, secondary containment, and other design, equipment, work practice, and operational requirements.

* * * *

(B) (ii) The regulations under this subparagraph shall require the owner or operator of stationary sources at which a regulated substance is present in more than a threshold quantity to prepare and implement a risk management plan to detect and prevent or minimize accidental releases of such substances from the

stationary source, and to provide a prompt emergency response to any such releases in order to protect human health and the environment. Such plan shall provide for compliance with the requirements of this subsection.

9. In accordance with Section 112(r)(7) of the CAA, 42 U.S.C. § 7412(r)(7), EPA promulgated the Chemical Accident Prevention Provisions, which are codified at 40 C.F.R. Part 68. These regulations, commonly referred to as the “Risk Management Program” (RMP) regulations, contain requirements for owners or operators of stationary sources concerning the prevention of accidental chemical releases.

10. Pursuant to 40 C.F.R. § 68.10, the owner or operator of a stationary source that has more than a threshold quantity of a regulated substance in a process must comply with the RMP regulations.

11. Pursuant to 40 C.F.R. § 68.12, the owner or operator of a stationary source with a process subject to the “Program 3” requirements of the RMP regulations must, among other things, comply with the prevention requirements of 40 C.F.R. Part 68, Subpart D.

12. Pursuant to Section 112(r)(7)(E) of the CAA, 42 U.S.C. § 7412(r)(7)(E), it is unlawful for any person to operate any stationary source subject to the Risk Management Program requirements and regulations in violation of such requirements and regulations.

III. FINDINGS OF FACT AND CONCLUSIONS OF LAW

A. PRELIMINARY ALLEGATIONS

13. The Respondent is a Texas corporation authorized to do business in the State of Texas. The Respondent’s principal place of business is located at 3255 West Highway 60, Hereford, TX.

14. The Respondent is a “person” as that term is defined in Section 302(e) of the CAA, 42 U.S.C. § 7602(e), and within the meaning of Section 113(d) of the CAA, 42 U.S.C. § 7413(d).

15. The Respondent owns and/or operates a beef slaughtering and processing plant (North American Industrial Classification System Code 311611), located at 3255 West Highway 60, Hereford, TX 79045 (Facility).

16. The Respondent's beef slaughtering and processing plant is a "stationary source" as that term is defined by Section 112(r)(2)(C) of the CAA, 42 U.S.C. § 7412(r)(2)(C), and 40 C.F.R. § 68.3.

17. The Respondent is the owner and/or operator of the stationary source identified in Paragraph 15.

18. At all times relevant to this CAFO, the Respondent was engaged in, among other things, cattle slaughtering and packing.

19. Anhydrous ammonia is a "regulated substances". 40 C.F.R. § 68.130

20. The Respondent's ammonia refrigeration unit is a "process" as that term is defined by 40 C.F.R. § 68.3.

21. At all times relevant to this CAFO, the Respondent's ammonia refrigeration unit had anhydrous ammonia present above the "threshold quantity" of 10,000 pounds as determined by 40 C.F.R. § 68.115.

22. The Respondent's ammonia refrigeration unit is subject to Program Level 3 as defined in 40 C.F.R. § 68.10(d), and must, among other things, comply with the prevention requirements of 40 C.F.R. Part 68, Subpart D.

23. On or about May 18, 2011, an inspection of Respondent's Facility including the ammonia refrigeration unit, identified in paragraphs 20 – 21, was conducted by representatives of EPA pursuant to Section 114 of the CAA, 42 U.S.C. § 7414 ("the Inspection")

B. VIOLATIONS

Count I - Failure to Develop and Submit a Risk Management Program in a Timely Manner

24. 40 C.F.R. § 68.6710 (a) provides the following:

(a) An owner or operator of a stationary source that has more than a threshold quantity of a regulated substance in a process, as determined under § 68.115, shall comply with the requirements of this part no later than the latest of the following dates:

- (1) June 21, 1999;
- (2) Three years after the date on which a regulated substance is first listed under § 68.130; or
- (3) The date on which a regulated substance is first present above a threshold quantity in a process.

25. In July of 2005, Respondent completed construction on its new Hereford Facility and put it into service. At that time the refrigeration system was charged with 18,000 pounds of anhydrous ammonia.

26. Respondent filed its initial RMP on August 11, 2009, more than 4 years after exceeding the threshold quantity.

27. Therefore, the Respondent violated 40 C.F.R. § 68.10 (a), by failing to submit an RMP no later than the date it held more than 10,000 pounds of anhydrous ammonia in a process.

32. Pursuant to 31 U.S.C. § 3717 and 40 C.F.R. § 13.11, unless otherwise prohibited by law, EPA will assess interest and late payment penalties on outstanding debts owed to the United States and a charge to cover the costs of processing and handling a delinquent claim. Interest on the civil penalty assessed in this CAFO will begin to accrue thirty (30) days after the effective date of the CAFO and will be recovered by EPA on any amount of the civil penalty that is not paid by the respective due date. Interest will be assessed at the rate of the United States Treasury tax and loan rate in accordance with 40 C.F.R. § 13.11(a). Moreover, the costs of the Agency's administrative handling of overdue debts will be charged and assessed monthly throughout the period the debt is overdue. *See* 40 C.F.R. § 13.11(b).

Should a penalty charge on the debt be required, it shall accrue from the first day payment is

34. Pursuant to Section 113(d)(5) of the CAA, 42 U.S.C. § 7413(d)(5), any person who fails to pay on a timely basis a civil penalty ordered or assessed under this section shall be required to pay, in addition to such penalty and interest, the United States enforcement expenses, including but not limited to, attorneys fees and costs incurred by the United States for collection proceedings, and a quarterly nonpayment penalty for each quarter during which such failure to pay persists. Such nonpayment penalty shall be 10 percent of the aggregate amount of such person's outstanding penalties and nonpayment penalties accrued as of the beginning of each quarter.

35. This Consent Agreement is considered a "prior violation" for the purpose of demonstrating a "history of noncompliance" under the Clean Air Act Stationary Source Penalty Policy.

B. RETENTION OF ENFORCEMENT RIGHTS

36. The EPA does not waive any rights or remedies available to EPA for any other violations by the Respondent of Federal or State laws, regulations, or permitting conditions.

37. Nothing in this CAFO shall relieve the Respondent of the duty to comply with all applicable provisions of Section 112(r) of the CAA, 42 U.S.C. § 7412(r), and 40 C.F.R. Part 68.

38.
