**COMPLAINANT'S SECOND  
STATUS REPORT**

On March 12, 2014 the Presiding Officer ordered the undersigned to file a "motion for default or other filing" that addresses the delay in this proceeding. After numerous efforts, and since the Presiding Officer's January 6, 2014 Order, the Complainant has made contact with the Respondent in this matter. Since establishing contact, the Respondent has undertaken efforts to re-establish compliance with applicable requirements. At this time, since the Respondent appears to be in compliance with requirements (although upcoming quarterly testing must be performed by Respondent) the parties are able to enter into negotiations to address payment of a suitable penalty and other terms and conditions. The parties are now doing this.

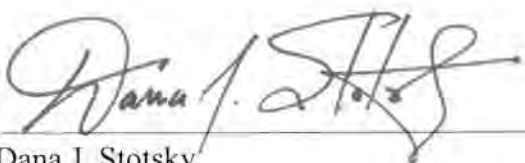

At this time, a settlement in principle has not been reached. Consequently, the Complainant is unable to project a date for filing a Consent Agreement and Final Order in this matter.

Respectfully submitted,  
United States Environmental Protection Agency  
Region 8

Complainant.
