PUBLIC NOTICE
OPPORTUNITY FOR PUBLIC COMMENT ON
PROPOSED COMPLIANCE ORDER, PENALTY COMPLAINT,
AND
NOTICE OF OPPORTUNITY FOR HEARING
AGAINST
RIM OPERATING, INC.,
FOR FAILURE TO COMPLY WITH
UNDERGROUND INJECTION CONTROL REGULATIONS**

PURPOSE OF PUBLIC NOTICE

The purpose of this notice is to solicit written comments on a Proposed Compliance Order, Penalty Complaint, and Notice of Opportunity for Hearing (complaint) [Docket No. **SDWA-08-2010-0079**] that Region 8 of the United States Environmental Protection Agency (EPA) has issued to RIM Operating, Inc., for alleged violations at three facilities located in Section 16, Township 9S, Range 20E of Uintah County, Utah. The complaint alleges violations of the Safe Drinking Water Act (SDWA) and the regulations detailing the requirements of the SDWA's Underground Injection Control (UIC) program. These regulations govern the injection of fluids that may endanger an underground source of drinking water (USDW). The complaint alleges that the company injected fluids in three wells above the allowed pressure and proposes compliance requirements and a civil penalty of \$22,500 for the alleged violation.

EPA desires to receive written comments from any interested party having knowledge of the alleged violations or who can provide any information useful to ensure that the complaint is appropriate. EPA will review and consider all comments received, and will thereafter determine whether the comments, if any, justify the modification or withdrawal of the complaint.

BACKGROUND

Part C of the SDWA (40 U.S.C. §300h *et seq*) requires EPA to regulate underground injection of fluid through wells to assure that underground sources of drinking water (USDWs) are not endangered. Section 1421 of the SDWA (40 U.S.C. §300h) requires EPA to administer UIC programs in States or Indian Reservations that do not have approved UIC programs. Regulation of the UIC Class V Program has not been delegated to the Ute Indian Tribe, therefore, EPA administers the program in accordance with title 40 of the Code of Federal Regulations (40 C.F.R.) parts 124, 144, 146, 147, and 148.

The three UIC wells, which are the subject of this complaint, are Class II wells pursuant to 40 C.F.R. § 146.5, which inject fluid for enhanced recovery of oil or natural gas.

The complaint alleges that RIM Operating, Inc., is in violation of UIC regulations and is subject to appropriate penalties for failing to prevent movement of fluids into a USDW that may cause a violation of a

The complaint alleges that RIM Operating, Inc., is in violation of UIC regulations and is subject to appropriate penalties for failing to prevent movement of fluids into a USDW that may cause a violation of a primary drinking water regulation under 40 C.F.R. Part 142 or otherwise adversely affect the health of persons.

PUBLIC COMMENTS

Written comments on the complaint are encouraged and will be accepted at the address listed below for a period of thirty (30) calendar days after the publication of this notice. Written comments submitted by the public, as well as information submitted by RIM Operating, Inc., will be available for public review as part of the Administrative Record, subject to the provisions of law restricting the disclosure of confidential information. RIM Operating, Inc., may request a hearing. Any person submitting written comments will be notified of and has a right to participate in such a hearing.
