Hi I have a thing or two to say about the Pelican waste water thing going on with the city .I my self have seen the thing that Ray Allard has reported to you people .I had to call the RCA on the city just to get my statement with my monthly invoice .However it is sad that the city has a Dead beat council and also they never have had to manage a business in there life .This is the worst city that I have ever live in that does not do any maintenance to keep the place as it should be .You can e mail me back about this .And if you need me to FAX the info .that I have told you about I can do just that very thing .I have lived here for about 14 years and the mayor her self does not care other than she is a control freak as well .Mr. Daniels is going to take over the town just to the city how bad they mess up he made an offer to the city to buy a building for a nice price but as stupid as they are they said no more less to say and from what I heard the city has less than one million \$ in there account I'm not surprised about that .Also I only get a little over 300 \$ a month on food stamps I'm not proud of it but what little money I make I keep my bills payed on time and as long as I have lived here I have never been on the 90 day late thing on my monthly bill this is sad there are some who owe over \$ 10.000 or more you can look this up .PLEASE email me back on this . Thank you.
