Re: Administrative Order
Docket No. SDWA-03-2022-0107DS

Dear Kylea N. Radcliff:

On July 21, 2022, the United States Environmental Protection Agency Region 3 (“EPA”) filed an Administrative Order against the Greater Harrison County PSD as the owner and/or operator of the Greater Harrison County PSD Lost Creek/Mt. Clare Public Water System (“the System”). The effective date of the Order was August 15, 2022. The Order addressed the requirements of the 2018 America’s Water Infrastructure Act (“AWIA”) (Public Law 115-270), which required public water systems to conduct and submit a certification of their Risk and Resilience Assessment (“RRA”) and to prepare or revise an Emergency Response Plan (“ERP”) by the dates specified in AWIA.

The Order required the System to complete the RRA and submit certification of the RRA completion no later than August 31, 2022. The System then had to revise or complete the ERP and submit certification of the completion or revision of the ERP no later than November 27, 2022. We have received confirmation that the System has completed the requirements of AWIA and of the Order; therefore, EPA is terminating the Order. If you have any questions pertaining to this matter, please contact Andrea Lewis of my staff at (215) 814-2074 or lewis.andrea@epa.gov.

Sincerely,

Renee Bryant, Section Chief
SDWA & Wetlands Section
Enforcement & Compliance Assurance Division
