STATUS REPORT

This status report is provided to this Court pursuant to the "Prehearing Order," dated October 24, 2007. .

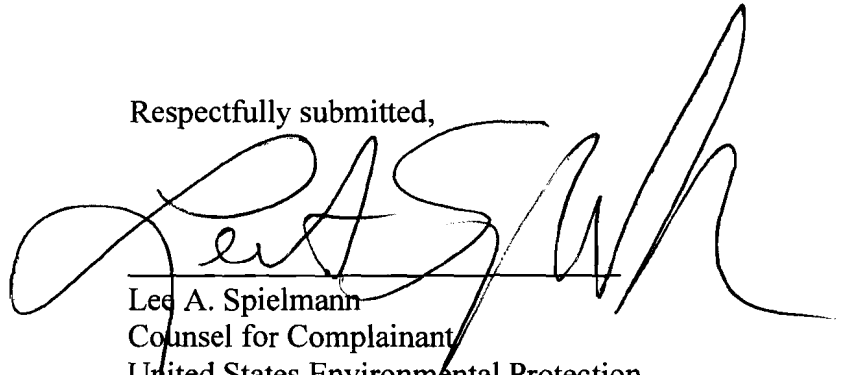

The parties met in a settlement conference on August 16th, and since that time have held periodic discussions. Such discussions have focused not only on settlement amount but also on the possibility of Respondent undertaking a Supplemental Environmental Project. To that end, it is anticipated the parties will shortly have another settlement conference (via telephone); the parties are endeavoring to find a mutually convenient date in the relatively near future.

It is the belief of the undersigned that this case will eventually settle. Based upon the tenor of the conversation during the August settlement conference and the follow-up discussions, it appears that resolution of this proceeding through a formal adjudication is something both parties wish to avoid.

The undersigned will keep this Court informed of the status of the efforts to reach settlement, and of any significant developments in that direction that might occur.
