[Administrative Complaint \(PDF\)](#) (15pp, 417K) June 4, 2010

Description: US EPA Region 5 is providing this notice of its proposal to assess a civil penalty of \$ 92,844 against David Brickles, d/b/a Jack's Septic Service (Respondent) for violations of the Clean Water Act.

This proposed penalty would settle civil violations alleging the Respondent failed to prepare and maintain records regarding land application of domestic septage. The alleged violations are of environmental significance because without adequate records, the U.S.EPA is not able to determine the compliance status of individual septage haulers.

This Proposed Complaint may be subject to further revision as additional facts may require.
