Re: Administrative Order Addendum
Circle J Ranch Public Water System
Docket No. SDWA-08-2013-0008
PWS ID #WY5601165

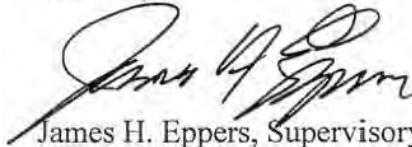

Dear Ms. Anderson:

This letter is an addendum to the Administrative Order (Order) issued January 10, 2013, to the United Methodist Circle J Ranch (Circle J). The purpose of this letter is to approve the January 16, 2013, plan and schedule submitted by Elouise Rossler, the Circle J Ranch Manager, supplemented by a call on February 11, 2013, from Ken Sidel, Sundown Services, Circle J-hired contractor, to prevent future total coliform maximum contaminant level exceedances. The plan and schedule to correct the significant deficiencies required by the EPA 2012 sanitary survey by installing a sanitary seal on both wells and hose bibs on each yard hydrant by May 1, 2013, is hereby incorporated into the Order per paragraph 11 (page 2) of the Order. The additional significant deficiency noted in the sanitary survey, that the wells are potentially under the direct influence of surface water, will be determined via an EPA contractor conducting microparticulate analyses.

Please note that the EPA expects this approved schedule to be met. While not creating any right to an extension, the EPA in its discretion may consider granting an extension to compliance order deadlines under limited circumstances. If unexpected events occur that are beyond the system's control and that may require the system to request an extension of these deadlines, the system is responsible for notifying the EPA well in advance of the deadline dates. The EPA will not consider extending these deadlines without a clear justification for their need. The system must provide the following information in writing for any request for extensions: a description of the work that has been completed and the additional work that may not be completed by the deadline dates, the unexpected events that have occurred or may occur and how the system has attempted to foresee and use its best efforts to overcome these obstacles, and proposed new deadline dates with justification for the length of the proposed new deadlines.

Please contact Kathelene Brainich, Environmental Specialist, at (303) 312-6481 if you have any questions concerning this Addendum.

Sincerely,

James H. Eppers, Supervisory Attorney
