Re: Administrative Order Addendum
Eden Saloon Water System
Docket No. SDWA-08-2012-0023
PWS ID #5600111

Dear Ms. Buckendorf:

This letter is an addendum to the Administrative Order (Order) issued May 10, 2012, to Eden Saloon, Inc. (Eden). The purpose of this letter is to approve the plan and schedule emailed from you to the EPA on September 7, 2012, and revised on September 24, 2012. The plan is based upon technical assistance provided by Dan Chamberlain, Wyoming Association of Rural Water Systems. The plan and schedule shown below are hereby incorporated into the Order per paragraph 17 (page 3) of the Order.

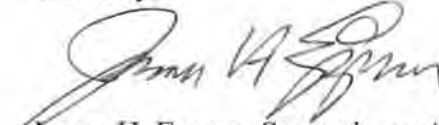

<u>Action</u>	<u>Completion Date</u>
Test inactive well to determine if it is influencing the active well	October 20, 2012
Determine if erosion of the active well's connection and pipe is causing contamination and replace foot valve	October 20, 2012
Sanitary seal on inactive well and backflow preventer on active well	October 20, 2012
Use purchased ice and bottled water at bar and keep public notice posted	October 20, 2012

Please note that the EPA expects this approved schedule to be met. While not creating any right to an extension, the EPA in its discretion may consider granting an extension to compliance order deadlines under limited circumstances. If unexpected events occur that are beyond Eden's control and that may require Eden to request an extension of these deadlines, Eden is responsible for notifying the EPA well in advance of the deadline dates. The EPA will not consider extending these deadlines without a clear justification for their need. Eden must provide the following information in writing for any request for extensions: a description of the work that has been completed and the additional work that may not be completed by the deadline dates, the unexpected events that have occurred or may occur and how Eden

has attempted to foresee and use its best efforts to overcome these obstacles, and proposed new deadline dates with justification for the length of the proposed new deadlines.

Please contact Kathelene Brainich, Environmental Specialist, at (303) 312-6481 if you have any questions concerning this Addendum.

Sincerely,
