Re: Administrative Order Addendum
Anticline Disposal Public Water System
Docket No. SDWA-08-2012-0054
PWS ID #5601635

Dear Registered Agent:

This letter is an addendum to the Administrative Order (Order) issued September 24, 2012, to NGL Energy Partners LP (NGL). The purpose of this letter is to approve the plan and schedule emailed from Nancy MacKenzie, Anticline Disposal's Safety, Health, and Environmental Director, on behalf of NGL to the EPA on November 12 and 26, 2012. The plan and schedule to install a reverse osmosis unit to treat fluoride at Anticline Disposal is hereby incorporated into the Order per paragraph 10 (page 2) of the Order. The final deadline for installing treatment is December 31, 2012.

Please note that the EPA expects this approved schedule to be met. While not creating any right to an extension, the EPA in its discretion may consider granting an extension to compliance order deadlines under limited circumstances. If unexpected events occur that are beyond the system's control and that may require the system to request an extension of these deadlines, the system is responsible for notifying the EPA well in advance of the deadline dates. The EPA will not consider extending these deadlines without a clear justification for their need. The system must provide the following information in writing for any request for extensions: a description of the work that has been completed and the additional work that may not be completed by the deadline dates, the unexpected events that have occurred or may occur and how the system has attempted to foresee and use its best efforts to overcome these obstacles, and proposed new deadline dates with justification for the length of the proposed new deadlines.

Please contact Kathelene Brainich, Environmental Specialist, at (303) 312-6481 if you have any questions concerning this Addendum.

Sincerely,

James H. Eppers, Supervisory Attorney
