

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION 4
INDUSTRIAL STORMWATER ESA

IN THE MATTER OF:) DOCKET NO.: CWA-04-2020-0319(b)
Van Smith Company, Inc.) Expedited Settlement Agreement and Final Order
Respondent.) Pursuant to Clean Water Act Section 309(g)(2)(A)
NPDES Permit No. Unpermitted

The undersigned representative of the United States Environmental Protection Agency (EPA) and Van Smith Company, Inc., a corporation, (Respondent) enter into this Expedited Settlement Agreement (Agreement) to resolve Respondent's civil penalty liability for allegedly discharging industrial stormwater without a permit at the Site. On November 7, 2018, representatives of EPA inspected the Respondent's facility at 1110 Drop Off Dr, Summerville, SC 29483 (Site).

of this Expedited Settlement Agreement and Final Order and shall be made in accordance with the attached Expedited Settlement Agreement Payment Instructions (Payment Instructions), incorporated herein by reference. Respondent agrees to bear its own costs and attorney's fees related to this ESA.

Based on information obtained during the EPA inspection, the EPA finds that: (1) Respondent, who is an owner of the Site, discharged industrial stormwater from the Site without authorization by any permit issued pursuant to the Clean Water Act (Act) in violation of Section 301 of the Act, 33 U.S.C. § 1311]; (2) Respondent is a "person" as defined in Section 502(5) of the Act, 33 U.S.C. § 1362(5); and (3) Respondent is responsible for the alleged violations specified in the attached "Industrial Stormwater Non-Filer Inspection Findings, Alleged Violations, and Proposed Penalty Form" (Alleged Violations Form). The Alleged Violations Form is hereby incorporated into this Agreement by reference.

Failure by Respondent to pay the penalty assessed by this ESA and Final Order in full by its due date may subject Respondent to a civil action to collect the assessed penalty plus interest, attorney's fees, costs and an additional quarterly nonpayment penalty pursuant to CWA § 309(g)(9)(B), 33 U.S.C. § 1319(g)(9)(B). In any such collection action, the validity, amount, and appropriateness of the penalty shall not be subject to review. Pursuant to Section 309(g)(1) of the CWA, 33 U.S.C. § 1319(g)(1), and 40 C.F.R. § 22.38(b), the State of South Carolina was provided a prior opportunity to consult with the EPA regarding this matter.

The EPA also finds, and Respondent admits, that the EPA has jurisdiction over this matter pursuant to Section 309(g) of the Act, 33 U.S.C. § 1319(g). Respondent neither admits nor denies the factual allegations alleged in the Alleged Violations Form.

By signing this Agreement, Respondent certifies that: (1) the alleged violations listed in the Alleged Violations Form have been corrected, and Respondent has submitted true and accurate documentation to the EPA of such correction; and (2) consistent with Section 162(f)(1) of the Internal Revenue Code, 26 U.S.C. § 162(f)(1), Respondent will not deduct penalties paid under this Agreement for federal tax purposes.

The EPA is authorized to enter into this Agreement under the authority vested in the Administrator by Section 309(g) of the Act, 33 U.S.C. § 1319(g), and by 40 C.F.R. § 22.13(b) and § 22.18.

This Agreement, upon incorporation into the Final Order and full satisfaction by the parties, shall be a complete and full resolution of Respondent's liability for federal civil penalties for the violations of Section 301(a) of the Clean Water Act alleged in the Alleged Violations Form. This Agreement does not affect the right of the EPA or the United States to pursue appropriate injunctive or other equitable relief or criminal sanctions for any violations of law or to issue an administrative compliance order, e.g., for any uncorrected violations listed in the Alleged Violations Form. Nothing in this Agreement shall relieve Respondent of the duty to comply with the Act and any regulation, order, or permit issued pursuant to the Act.

Respondent consents to the assessment of a civil penalty and agrees to pay \$40,000. Respondent waives the right to: (1) contest the allegations in the Alleged Violations Form; (2) a hearing pursuant to Section 309(g)(2) of the Act, 33 U.S.C. § 1319(g)(2); (3) appeal the Final Order; and (4) judicial review pursuant to CWA § 309 (g)(8), 33 U.S.C. § 1319(g)(8). The civil penalty will be due within thirty (30) days of the Effective Date

The EPA will provide public notice of this Agreement and a reasonable opportunity for the public to comment on the proposed issuance of this Agreement prior to issuance of the Final Order pursuant to Section 309(g)(4) of the CWA, 33 U.S.C. § 1319(g)(4)(A), and 40 C.F.R. § 22.45.

FINAL ORDER

Having determined that this Agreement is authorized by law, the foregoing Expedited Settlement Agreement is hereby incorporated into the Final Order.

If Respondent does not sign and return this ESA as presented within 30 days of the date of its receipt, or within an extension timeframe approved by EPA, this proposed ESA is withdrawn without prejudice to EPA's ability to file any other enforcement action for the violations identified in the Alleged Violations Form.

IT IS SO ORDERED:

The parties consent to service of this ESA and Final Order by e-mail to the e-mail addresses provided by the parties in the Certificate of Service.

Tanya Floyd
Regional Judicial Officer

This Agreement is binding on the parties signing below. Each person signing this Agreement certifies that he or she has the authority to sign for the party who he or she represents and to bind that party to its terms. The Expedited Settlement Agreement and Final Order are effective the date of filing with the Regional Hearing Clerk. Once the ESA is signed by the Regional Judicial Officer, the original ESA will be filed with the Regional Hearing Clerk. A copy of the filed ESA will be emailed to Respondent.

ENCLOSURE A

Industrial Stormwater Non-Filer Inspection Findings, Alleged Violations, and Proposed Penalty Form

1. Van Smith Company, Inc. (Respondent) owns and operates the concrete ready-mix facility located at 1110 Drop Off Dr., Summerville, South Carolina (Facility). The Facility is identified by Standard Industrial Classification (SIC) Code 3273.
2. Pursuant to Section 402(p)(2)(B) of the CWA, 33 U.S.C. § 1342(p)(2)(B), a National Pollution Discharge Elimination System (NPDES) permit is required for “a [stormwater] discharge associated with industrial activity.”
3. Pursuant to 40 C.F.R § 122.26(b)(14)(ii), “[f]acilities classified within Standard Industrial Classification... 32 (except 323)...” which would include SIC Code 3273 are considered to be engaging in “industrial activity” for purposes of 40 C.F.R. 122.26(b)(14).
4. On November 7, 2018, representatives of the EPA, in conjunction with the South Carolina Department of Health and Environmental Control (SCDHEC), performed a Compliance Stormwater Evaluation Inspection (CSWEI) at Respondent’s Plant 4 Facility at 1110 Drop Off Dr. to evaluate the Respondent’s compliance with the requirements of Section 301 of the CWA, 33 U.S.C. § 1311 and the regulations promulgated thereunder at 40 C.F.R. § 122.26.
5. On December 21, 2018, the EPA issued an Inspection Report to the Respondent. During the CSWEI, the EPA inspectors observed the following:
 - A. The facility had outdoor industrial processes, including but not limited to, process equipment, material storage, product storage, and equipment maintenance and cleaning activities with potential exposure and contribution to stormwater contamination.
 - B. The Plant 4 Facility is a ready-mix concrete manufacturer (SIC Code 3273) but had not submitted an Notice Of Intent for coverage under the existing NPDES General Permit for Storm Water Discharges Associated with Industrial Activities, Permit No. SCR000000.
6. Section 402(p)(2)(B) of the CWA, 33 U.S.C. § 1342(p)(2)(B), and its implementing regulations at 40 C.F.R. § 122.26(b)(14)(vi), as referenced above, require that an industrial facility discharging stormwater into a surface water of the United States must obtain an NPDES permit. The EPA’s industrial stormwater guidance anticipates potential discharges from an industrial site to occur with rain events greater than 0.1 inch. In EPA’s industrial penalty policy, 0.5 inches during a 24-hour period is used as the benchmark for likely stormwater runoff. According to the rain data available for this area, fifty-two (52) of the sixty (60) months during the period of February 2014 to January 2019 have had one or more daily rain events greater than 0.5 inches. Due to the hydrology of the Facility and rainfall data, the EPA has determined that from February 2014 to January 2019, stormwater

associated with industrial activities generally traveled towards the conveyance along the north side and the wetland along the south side of the site. These conveyances direct runoff west towards Kelly Branch which is approximately 0.6 miles downstream and/or Stanley Branch which is approximately 0.3 miles south. The Kelly and Stanley Branch flow southwest to the Ashley River approximately 12 miles downstream. Ashley River is listed as an impaired water for dissolved oxygen.

7. Ashley River is a traditionally navigable water of the United States as defined by Section 502(7) of the CWA, 33 U.S.C. § 1362(7), and its implementing regulation 40 C.F.R. § 122.2.
8. Respondent has violated Section 301 of the CWA, 33 U.S.C. § 1311, by discharging stormwater from the Facility without proper authorization to waters of the United States.
9. Pursuant to Section 309(g)(2)(A) of the Act, 33 U.S.C. § 1319(g)(2)(A), and 40 C.F.R. § 22.13(b), and in accordance with the EPA's September 8, 2016 Supplemental Guidance to the 1995 Interim Clean Water Act Settlement Penalty Policy for Violations of the Industrial Stormwater Requirements, the EPA is assessing a penalty of \$40,000 for the above-mentioned violations.
