CONSENT AGREEMENT

I. Statutory Authority

1. This is a civil penalty proceeding pursuant to Section 309(g)(2)(A) of the Clean Water Act ("CWA"), 33 U.S.C. § 1319(g)(2)(A), and the *Consolidated Rules of Practice Governing the Administrative Assessment of Civil Penalties, Issuance of Compliance or Corrective Action Orders and the Revocation, Termination or Suspension of Permits*, including Subpart I, published at 64 Fed. Reg. 40176 (July 23, 1999), codified at 40 Code of Federal Regulations ("C.F.R.") Part 22 ("Part 22").

2. The authority to take action under Section 309(g)(2)(A) of the CWA, 33 U.S.C. § 1319(g)(2)(A), is vested in the Administrator of the United States Environmental Protection Agency ("EPA"). The Administrator has delegated this authority to the Regional Administrator, Region 4, who in turn has delegated this authority to the Director of the Water Protection Division, who in turn has delegated this authority to the Chief of the NPDES Permitting and Enforcement Branch of EPA Region 4 ("Complainant").

II. Allegations

3. To accomplish the objective of the CWA (defined in Section 101(a) of the CWA, 33 U.S.C. § 1251(a), as to restore and maintain the chemical, physical and biological integrity of the nation's waters), Section 301(a) of the CWA, 33 U.S.C. § 1311(a), prohibits the discharge of pollutants by any person into waters of the United States except as in compliance with an National Pollutant Discharge Elimination System ("NPDES") permit issued pursuant to Section 402 of the CWA, 33 U.S.C. § 1342.

4. At all times relevant to this action, the City of Lewisburg, Tennessee ("Respondent"), was a municipality duly organized and existing under the laws of the State of Tennessee and, therefore, a "person" within the meaning of Section 502(5) of the CWA, 33 U.S.C. § 1362(5).

5. At all times relevant to this action, Respondent owned and/or operated a Publicly Owned Treatment Works ("POTW") including a wastewater treatment plant

("WWTP"), located at P.O. Box 2787, Lewisburg, Marshall County, Tennessee, and its associated Wastewater Collection and Transmission System ("WCTS").

6. The State of Tennessee issued NPDES Permit No. TN0061841 (the "Permit") to the Respondent for the POTW for the discharge of treated wastewaters into navigable waters subject to specific terms and conditions. The WWTP discharges "pollutants" from a "point source" into Town Creek, a "navigable water" as defined at Section 502(7) of the CWA, 33 U.S.C. § 1362(7).

7. The Permit became effective on January 1, 2013, and expires on November 30, 2017.

8. Section 1 of the NPDES Permit establishes effluent limitations and monitoring requirements and Section 2.1.4. of the Permit requires the Respondent to at all times properly operate and maintain all facilities and systems (and related appurtenances) for collection and treatment which are installed or used to achieve compliance with the terms and conditions of the Permit.

9. On May 6-7, 2013, the EPA conducted a Diagnostic Evaluation to assess the overall operation of the WWTP. The Diagnostic Evaluation identified deficiencies related to the operation and maintenance of facilities and systems for collection and treatment as well as effluent violations. The EPA's findings and recommendations were summarized in a Diagnostic Evaluation Report dated September 20, 2013.

10. On March 31, 2014, the EPA sent a Notice of Violation ("NOV") letter to the Respondent regarding deficiencies identified during the inspection. The NOV also addressed NPDES Permit effluent limits exceeded for Total Suspended Solids, Total Suspended Solids Percent Removal, Total Nitrogen Ammonia, Carbonaceous Biochemical Oxygen Demand, Total Settleable Solids, and E. Coli for the period covering January 1, 2009, through November 30, 2013. The NOV also requested, pursuant to Section 308 of the CWA, 33 U.S.C. § 1318, that the Respondent provide a written explanation of the cause for each of the violations listed in the NOV and provide a summary of the corrective actions planned or taken to address the deficiencies and effluent limit exceedances.

11. On April 23, 2014, the Respondent provided a response to the NOV. The response addressed the violations in the NOV and stated that the Respondent purchased and installed a new aeration system which they believe will help in returning the WWTP to compliance with its NPDES Permit limitations. The new aeration system became operational in April 2014.

12. On October 6, 2014, the EPA sent the Respondent an NOV and Opportunity to Show Cause letter notifying the Respondent of additional violations associated with effluent limit exceedances and requesting that the Respondent participate in a Show Cause meeting with the EPA to discuss the violations. The NOV cited effluent limits exceeded for Total Suspended Solids, Total Nitrogen Ammonia, Carbonaceous Biochemical Oxygen Demand, Total Settleable Solids, and E. Coli for the period covering December 31, 2013, through May 31, 2014. The EPA and the Respondent held a Show Cause meeting on October 17, 2014.

13. Respondent has violated Section 301(a) of the CWA, 33 U.S.C. § 1311(a), in that the Respondent has discharged pollutants to navigable waters from a point source not in compliance with its NPDES Permit.

14. Respondent has violated Section 1 of its NPDES Permit, issued pursuant to Section 402 of the CWA, 33 U.S.C. § 1342, by discharging pollutants into Town Creek in excess of the limitations established in its NPDES Permit for Total Suspended Solids, Total Suspended Solids Percent Removal, Total Nitrogen Ammonia, Carbonaceous Biochemical Oxygen Demand, Total Settleable Solids, and E. Coli.

15. The Respondent has violated Section 2.1.4. of its NPDES Permit, issued pursuant to Section 402 of the CWA, 33 U.S.C. § 1342, by failing to properly operate and maintain its WWTP.
