The EPA has decided to close the Administrative Order regarding drinking water violations at the public water system specified in the subject line due to a change in ownership.

The new owner is required to complete corrective action of the insufficient well height significant deficiency.

Please be aware that the System still required to comply with the National Primary Drinking Water Regulations (drinking water regulations), 40 C.F.R. part 141. Violation of the drinking water regulations may result in a court-imposed injunction and/or penalties.
