Re: Librandi's Plating  
Administrative Order on Consent  
CWA-03-2019-0090DN

Dear Mr. Librandi:

The United States Environmental Protection Agency (EPA) has reviewed the compliance of Librandi's Plating (Librandi's) with the Administrative Compliance Order on Consent (AOC), referenced above, which was issued to Librandi's and filed on July 25, 2019. The AOC required compliance with the federal pretreatment regulations and the development and implementation of standard operating procedures (SOPs) regarding exceedances of pretreatment limits. Based on EPA's review, Librandi's has complied with all actions required by the AOC, and EPA is therefore terminating the AOC.

Please note that Respondents must still comply with any applicable Clean Water Act (CWA) requirements and any applicable Federal Regulations. Any noncompliance with the CWA or a current or future NPDES permit could result in the initiation of an additional enforcement action pursuant to the Federal enforcement provisions set forth in Section 309 of the CWA, 33 U.S.C. Section 1319. You are therefore encouraged to pay close attention to all permit conditions at all times and to maintain any plans or Standard Operating Procedures (SOPs) to assure compliance.

Thank you for your cooperation in this matter. If you have any questions, please contact Mike Greenwald of my staff at 215-814-2398.

Sincerely,

Mark Zolandz, Acting Chief  
NPDES Section, Water Branch  
Enforcement and Compliance Assurance Division
