Lead Disclosure Rule Compliance Checklist

1.0 INTRODUCTION

1.1 Purpose

HSE Consulting Services, LLC (HSE) has developed the Compliance Plan on behalf of the Syracuse Housing Authority (SHA) to facilitate compliance with Title 40 of the Code of Federal Regulations (C.F.R.), Part 745, Subpart F, hereafter referred to as the Lead Disclosure Rule.

1.2 Background

The Lead Disclosure Rule was developed after the United States Congress passed the Residential Lead-Based Paint (LBP) Hazard Reduction Act of 1992, also known as Title X. Section 1018 of Title X directed the EPA and the United States Department of Housing and Urban Development (HUD) to require disclosure of known information on LBP and LBP hazards before the sale or lease of Target Housing. The Lead Disclosure Rule is also known as HUD Rule 24 CFR Part 35, Subpart A. This requires that potential buyers and renters of housing built prior to 1978 receive certain information about lead and lead hazards in the residence prior to becoming obligated to buy or rent and provides the opportunity for an independent lead inspection for buyers. Sellers, landlords, and agents are responsible for compliance.

1.3 Applicability

This Compliance Plan applies to SHA and the lease of their owned and/or managed Target Housing or Child-occupied Facilities. Current SHA Target Housing developments include the following:

PROJ. NO.	PROJECT NAME / IDENTIFICATION	YEAR BUILT
AMP 70-01 FAM	Pioneer Family 1031-59 S. Townsend St, Syracuse, NY 13202 901-1055 S. McBride Street, Syracuse, NY 13202 1101 S. Townsend Street, Syracuse, NY 13202 1001 Almond Street, Syracuse, NY 13210	1940
AMP 71-04 FAM	Central Village Family 313 E. Raynor Avenue, Syracuse, NY 13202 312 E. Raynor Avenue, Syracuse, NY 13205	1963
AMP 73-02 FAM	James Geddes Family 300 Tully Street, Syracuse, NY 13204 301 Tully Street, Syracuse, NY 13204	1954
AMP 73-03 FAM	James Geddes Family 301 Fabius Street, Syracuse, NY 13204	1961

NOTE: The addresses listed above represent the addresses of record associated with the various tax parcels that comprise the SHA developments covered by this Compliance Plan. Please refer to Appendix 1 for a detailed listing of individual Target Housing units and/or Child-Occupied Facilities associated with each development.

In addition to pre-1978 residential structures or Child-Occupied Facilities, the conversion of any class of property (i.e., commercial, industrial, etc.) constructed prior to 1978 to residential use makes such property subject to the requirements of 40 C.F.R. Part 745 and this Compliance Plan.

This Compliance Plan for Lead Disclosure is not a replacement for compliance with all applicable requirements and there may be additional and different federal, local and state regulations with which SHA must comply.

2.0 EXEMPTIONS

This Compliance Plan is applicable to the leasing of Target Housing, except as follows:

- A. A foreclosure sale of Target Housing
- B. Lease of Target Housing that has been determined to be LBP free by a EPA Certified LBP Inspector or Risk Assessor.
- C. Short-term lease of one hundred (100) calendar days or less where no extension or renewal of the lease can occur.
- D. Renewal of a lease where SHA has previously disclosed all required information, and where no new information has come into the possession of the lessor.

3.0 DEFINITIONS

1. **Abatement:** a measure or set of measures designed to permanently eliminate lead-based paint hazards or lead-based paint. Abatement strategies include the removal of lead-based paint, enclosure, encapsulation, replacement of building components coated with lead-based paint, removal of lead-contaminated dust, and removal of lead-contaminated soil or overlaying of soil with a durable covering such as asphalt (grass and sod are considered interim control measures). All of these strategies require preparation; cleanup; waste disposal; post-abatement clearance testing; recordkeeping; and, if applicable, monitoring. (For full EPA definition, see 40 CFR 745.223).
2. **Agent:** means any party who enters into a contract with a seller or lessor, including any party who enters into a contract with a representative of the seller or lessor, for the purpose of selling or leasing target housing. This term does not apply to purchasers or any purchaser's representative who receives all compensation from the purchaser.
3. **Certified Inspector:** an individual who has successfully completed an accredited training course, passed the Lead Inspector third party examination, and has a current certification to conduct inspections.
4. **Certified Risk Assessor:** an individual who has successfully completed an accredited training course, passed the Lead Risk Assessor third party examination, and has a current certification to conduct risk assessments.
5. **Child-Occupied Facility:** means a building, or portion of a building, constructed prior to 1978, visited regularly by the same child, under 6 years of age, on at least two different days within any week (Sunday through Saturday period), provided that each day's visit lasts at least 3 hours and the combined weekly visits last at least 6 hours, and the combined annual visits last at least 60 hours. Child-occupied facilities may include, but are not limited to, day care centers, preschools, and kindergarten classrooms. Child-occupied facilities may be located in target housing or in public or commercial buildings. With respect to common areas in public or commercial buildings that contain child-occupied facilities, the child-occupied facility encompasses only those common areas that are routinely used by children under age 6, such as restrooms and cafeterias. Common areas that children under age 6 only pass through, such as hallways, stairways, and garages are not included. In addition, with respect

to exteriors of public or commercial buildings that contain child-occupied facilities, the child-occupied facility encompasses only the exterior sides of the building that are immediately adjacent to the child-occupied facility, or the common areas routinely used by children under age 6.

6. **Common Area:** means a portion of a building generally accessible to all residents/users including, but not limited to, hallways, stairways, laundry and recreational rooms, playgrounds, community centers, and boundary fences.
7. **Contract for the Purchase and Sale of Residential Real Property:** means any contract or agreement in which one party agrees to purchase an interest in real property on which there is situated one or more residential dwellings used or occupied, or intended to be used or occupied, in whole or in part, as the home or residence of one or more persons.
8. **Evaluation:** means a risk assessment and/or inspection.
9. **Housing for the Elderly:** means retirement communities or similar types of housing reserved for households composed of one or more persons 62 years of age or older at the time of initial occupancy.
10. **Lead:** lead includes metallic lead and inorganic and organic compounds of lead.
11. **Lead-Based Paint:** any paint, varnish, shellac, or other coating that contains lead equal to or greater than 1.0 mg/cm² as measured by XRF or laboratory analysis, or 0.5 percent by weight (5000 mg/g, 5000 ppm, or 5000 mg/kg) as measured by laboratory analysis, or whatever the most current regulatory definition of lead-based paint is.
12. **Lead-Based Paint Inspection:** a surface-by-surface investigation to determine the presence of lead-based paint and the provision of a report explaining the results of the investigation. It is performed by a certified inspector or risk assessor.
13. **Lead-Based Paint Free:** means target housing that has been found to be free of paint or other surface coatings that contain lead equal to or in excess of 1.0 milligrams per square centimeter or 0.5 percent by weight, or whatever the most current regulatory definition of lead-based paint is.
14. **Lead-Based Paint Hazard:** means any condition that causes exposure to lead from lead-contaminated dust, lead-contaminated soil, or lead-contaminated paint that is deteriorated or present in accessible surfaces, friction surfaces, or impact surfaces that would result in adverse human health effects as established by the appropriate Federal agency.
15. **Lead-Based Paint Hazard Reduction:** measures designed to reduce or eliminate exposure to lead-based paint hazards, including but not limited to interim controls and abatement.
16. **Lead Hazard Screen:** a method of determining, in buildings in good condition, whether they should have a full risk assessment. The screen uses fewer samples but more stringent evaluation criteria (standards) than regular risk assessments. Also called a risk assessment screen.
17. **Lessee:** means any entity that enters into an agreement to lease, rent, or sublease target housing, including but not limited to individuals, partnerships, corporations, trusts, government agencies, housing agencies, Indian tribes, and nonprofit organizations.

18. **Lessor:** means any entity that offers target housing for lease, rent, or sublease, including but not limited to individuals, partnerships, corporations, trusts, government agencies, housing agencies, Indian tribes, and nonprofit organizations.
19. **Owner:** means any entity that has legal title to target housing, including but not limited to individuals, partnerships, corporations, trusts, government agencies, housing agencies, Indian tribes, and nonprofit organizations, except where a mortgagee holds legal title to property serving as collateral for a mortgage loan, in which case the owner would be the mortgagor.
20. **Pamphlet:** EPA pamphlet titled *Protect Your Family from Lead in Your Home*.
21. **Public Housing Agency (PHA):** any State, county, municipality, or other government entity or public body, or agency or instrumentality thereof, authorized to engage or assist in the development or operation of housing for low-income families.
22. **Purchaser:** an entity that enters into an agreement to purchase an interest in Target Housing, including but not limited to individuals, partnerships, corporations, trusts, government agencies, housing agencies, Indian tribes, and nonprofit organizations.
23. **Residential Dwelling:** means
 - (1) A single-family dwelling, including attached structures such as porches and stoops; or
 - (2) A single-family dwelling unit in a structure that contains more than one separate residential dwelling unit, and in which each such unit is used or occupied, or intended to be used or occupied, in whole or in part, as the residence of one or more persons.
24. **Risk Assessment:** means an on-site investigation to determine and report the existence, nature, severity, and location of lead-based paint hazards in residential dwellings, including:
 - (1) Information gathering regarding the age and history of the housing and occupancy by children under age 6;
 - (2) Visual inspection;
 - (3) Limited wipe sampling or other environmental sampling techniques;
 - (4) Other activity as may be appropriate; and
 - (5) Provision of a report explaining the results of the investigation.
25. **Seller:** means any entity that transfers legal title to target housing, in whole or in part, in return for consideration, including but not limited to individuals, partnerships, corporations, trusts, government agencies, housing agencies, Indian tribes, and nonprofit organizations. The term “seller” also includes:
 - (1) An entity that transfers shares in a cooperatively owned project, in return for consideration; and
 - (2) An entity that transfers its interest in a leasehold, in jurisdictions or circumstances where it is legally permissible to separate the fee title from the title to the improvement, in return for consideration.
26. **Target Housing:** means any housing constructed prior to 1978, except housing for the elderly or persons with disabilities (unless any child who is less than 6 years of age resides or is expected to reside in such housing) or any 0-bedroom dwelling.

4.0 APPLICABLE CODES AND STANDARDS

The following is a summary of various codes and standards that may potentially apply to lead-based paint assessment or lead-based paint hazard reduction activities:

- 29 C.F.R. 1910 - General Industry (OSHA)
- 29 C.F.R. 1910 - Subpart I “Personal Protective Equipment” (OSHA)
- 29 C.F.R. 1910 - Subpart Z “Toxic and Hazardous Substances”
- 29 C.F.R. 1910.1025 - Lead, General Industry (OSHA)
- 29 C.F.R. 1926 - Construction Industry
- 29 C.F.R. 1926.62 - “Lead in Construction” (OSHA)
- 29 C.F.R. 1926.1200 - “Hazard Communication”
- 24 C.F.R. 35 Subpart A - “Lead Disclosure Rule” (HUD)
- 40 C.F.R. 745 - Lead-Based Paint Poisoning in Certain Residential Structures (EPA)
- 40 C.F.R. 745 Subpart E - Residential Property Renovation or “Lead Renovation, Repair, and Painting (RRP) Rule (EPA)
- 40 C.F.R. 745 Subpart F - “Lead Disclosure Rule” (EPA)
- 40 C.F.R. 745 Subpart L - Lead-Based paint Activities or “Abatement” Rule (EPA)
- 40 C.F.R. 745 Subchapter R - Toxic Substances Control Act (EPA)
- Residential Lead-Based Paint Hazard Reduction Act of 1992 - Title X (EPA/HUD)

5.0 LESSOR DISCLOSURE REQUIREMENTS

The Lead Disclosure Rule does not specifically require SHA to conduct any lead evaluation or lead hazard reduction activities, however, SHA is required to comply with the requirements of the Lead Disclosure Rule as set forth in 40 C.F.R. Part 745, Subpart F. Therefore, before a lessee is obligated under any contract to lease Target Housing that is not exempt as described in Section 2.0 of this Compliance Plan, the following shall be required:

- 1) SHA shall provide the lessee with an EPA-approved Lead-Hazard Information pamphlet. A copy of the pamphlet is provided in Appendix 2. English and/or Spanish and/or Somali language version will be provided.
- 2) SHA shall disclose to the lessee the presence of any known LBP or LBP hazards in the Target Housing being leased. SHA shall also disclose any additional information available concerning the known LBP and/or LBP hazards, such as the basis for the determination that LBP and/or LBP hazards exist, that LBP and/or LBP hazards exist, the location of the LBP and/or LBP hazards, and the condition of the painted surfaces.
- 3) SHA shall disclose to the lessee the existence of any available records or reports in their possession pertaining to LBP or LBP hazards in the Target Housing being sold or leased. Such records may include the basis for the determination that LBP and/or LBP hazards exist, the location of the LBP and/or LBP hazards, and the condition of the painted surfaces.
- 4) SHA shall provide the lessee with any records or reports available pertaining to LBP or lead hazards in the Target Housing being sold or leased. This requirement includes records or reports regarding common areas and also includes reports regarding other residential dwellings in multi-family Target Housing when such information is part of an evaluation or reduction of LBP or LBP hazards activity in the Target Housing as a whole.
- 5) SHA shall provide the lessee with the form titled Disclosure of Information on Lead-Based Paint and/or Lead Hazards provided in Appendix 3 and have each section filled out in its entirety.

English and/or Spanish and/or Somali language versions will be provided. When disclosure activities occur after the lessee has been presented with an offer to lease the Target Housing, SHA shall complete the required disclosure prior to finalizing the contract. SHA shall allow the lessee the opportunity to review the information and reject the offer.

6.0 CERTIFICATION AND ACKNOWLEDGEMENT OF DISCLOSURE

For each contract to lease Target Housing, SHA shall include, as an attachment or within the contract, the following elements:

- 1) A Lead Warning Statement with the following language: Housing built before 1978 may contain lead-based paint. Lead from paint, paint chips, and dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 housing, lessors must disclose the presence of lead-based paint and/or lead-based paint hazards in the dwelling. Lessees must also receive a federally approved pamphlet on lead poisoning prevention.
- 2) A statement by the lessor disclosing the presence of known lead-based paint and/or lead-based paint hazards in the target housing being leased or indicating no knowledge of the presence of lead-based paint and/or lead-based paint hazards. The lessor shall also disclose any additional information available concerning the known lead-based paint and/or lead-based paint hazards, such as the basis for the determination that lead-based paint and/or lead-based paint hazards exist, the location of the lead-based paint and/or lead-based paint hazards, and the condition of the painted surfaces.
- 3) A list of any records or reports available to the lessor pertaining to lead-based paint and/or lead-based paint hazards in the housing that have been provided to the lessee. If no such records or reports are available, the lessor shall so indicate.
- 4) A statement by the lessee affirming receipt of the information set out in paragraphs (b)(2) and (b)(3) of this section and the lead hazard information pamphlet required under 15 U.S.C. 2696.
- 5) The signatures of SHA and the lessee certifying the accuracy of their statements, to the best of their knowledge, along with the dates of signature.

7.0 CERTIFICATION AND ACKNOWLEDGEMENT OF INFORMATION RETENTION

SHA shall include the form titled *Disclosure of Information on Lead-Based Paint and/or Lead Hazards* provided in Appendix 3 as an attachment to any lease contract. A copy of the completed attachment or lease contract containing the attachment shall be retained in the Property Management Office for at least three (3) years from the start date of the leasing period.

8.0 LEASE RENEWALS

SHA must comply with the Lead Disclosure Rule during the lease renewal process where new information has come into the possession of SHA and where SHA has not previously disclosed all required information to the lessee. This includes all requirements detailed in Sections 5.0, 6.0, 7.0 and 9.0.

An exception is the renewal of a lease where SHA has previously provided all required information, and where no new information has come into the possession of the lessor.

9.0 COMPLIANCE VERIFICATION

The SHA Property Manager who executes each new or renewal lease contract shall complete the form titled Compliance Checklist provided in Appendix 4 for each new lease or renewal subject to the Lead Disclosure Rule. A copy of the completed checklist shall be retained in the Property Management Office for at least three (3) years from the effective date of the lease contract.

Protect Your Family from Lead in Your Home
(English Language Version)

Protect Your Family From Lead in Your Home

 United States Environmental Protection Agency

United States
Consumer Product
Safety Commission

United States
Department of Housing
and Urban Development

Before 1978?

Did you know that many homes built before 1978 have **lead-based paint**? Lead from paint, chips, and dust can pose serious health hazards.

Read this entire brochure to learn:

- How lead gets into the body
- How lead affects health
- What you can do to protect your family
- Where to go for more information

Before renting or buying a pre-1978 home or apartment, federal law requires:

- Sellers must disclose known information on lead-based paint or lead-based paint hazards before selling a house.
- Real estate sales contracts must include a specific warning statement about lead-based paint. Buyers have up to 10 days to check for lead.
- Landlords must disclose known information on lead-based paint or lead-based paint hazards before leases take effect. Leases must include a specific warning statement about lead-based paint.

If undertaking renovations, repairs, or painting (RRP) projects in your pre-1978 home or apartment:

- Read EPA's pamphlet, *The Lead-Safe Certified Guide to Renovate Right*, to learn about the lead-safe work practices that contractors are required to follow when working in your home (see page 12).

from Lead Hazards

If you think your home has lead-based paint:

- Don't try to remove lead-based paint yourself.
- Always keep painted surfaces in good condition to minimize deterioration.
- Get your home checked for lead hazards. Find a certified inspector or risk assessor at epa.gov/lead.
- Talk to your landlord about fixing surfaces with peeling or chipping paint.
- Regularly clean floors, window sills, and other surfaces.
- Take precautions to avoid exposure to lead dust when remodeling.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe certified renovation firms.
- Before buying, renting, or renovating your home, have it checked for lead-based paint.
- Consult your health care provider about testing your children for lead. Your pediatrician can check for lead with a simple blood test.
- Wash children's hands, bottles, pacifiers, and toys often.
- Make sure children eat healthy, low-fat foods high in iron, calcium, and vitamin C.
- Remove shoes or wipe soil off shoes before entering your house.

Adults and children can get lead into their bodies if they:

- Breathe in lead dust (especially during activities such as renovations, repairs, or painting that disturb painted surfaces).
- Swallow lead dust that has settled on food, food preparation surfaces, and other places.
- Eat paint chips or soil that contains lead.

Lead is especially dangerous to children under the age of 6.

- At this age, children's brains and nervous systems are more sensitive to the damaging effects of lead.
- Children's growing bodies absorb more lead.
- Babies and young children often put their hands and other objects in their mouths. These objects can have lead dust on them.

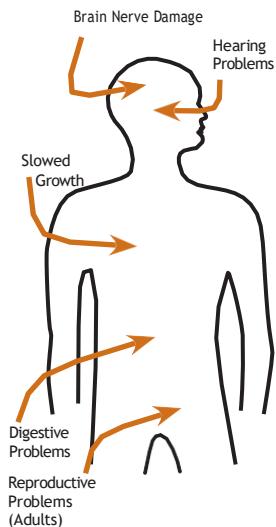

Women of childbearing age should know that lead is dangerous to a developing fetus.

- Women with a high lead level in their system before or during pregnancy risk exposing the fetus to lead through the placenta during fetal development.

Lead affects the body in many ways. It is important to know that even exposure to low levels of lead can severely harm children.

In children, exposure to lead can cause:

- Nervous system and kidney damage
- Learning disabilities, attention-deficit disorder, and decreased intelligence
- Speech, language, and behavior problems
- Poor muscle coordination
- Decreased muscle and bone growth
- Hearing damage

While low-lead exposure is most common, exposure to high amounts of lead can have devastating effects on children, including

seizures, unconsciousness, and in some cases, death.

Although children are especially susceptible to lead exposure, lead can be dangerous for adults, too.

In adults, exposure to lead can cause:

- Harm to a developing fetus
- Increased chance of high blood pressure during pregnancy
- Fertility problems (in men and women)
- High blood pressure
- Digestive problems
- Nerve disorders
- Memory and concentration problems

- Muscle and joint pain

Get your children and home tested if you think your home has lead.

Children's blood lead levels tend to increase rapidly from 6 to 12 months of age, and tend to peak at 18 to 24 months of age.

Consult your doctor for advice on testing your children. A simple blood test can detect lead. Blood lead tests are usually recommended for:

- Children at ages 1 and 2
- Children or other family members who have been exposed to high levels of lead
- Children who should be tested under your state or local health screening plan

Your doctor can explain what the test results mean and if more testing will be needed.

In general, the older your home or childcare facility, the more likely it has lead-based paint.¹

Many homes, including private, federally-assisted, federally-owned housing, and childcare facilities built before 1978 have lead-based paint. In 1978, the federal government banned consumer uses of lead-containing paint.²

Learn how to determine if paint is lead-based paint on page 7.

Lead can be found:

- In homes and childcare facilities in the city, country, or suburbs,
- In private and public single-family homes and apartments,
- On surfaces inside and outside of the house, and
- In soil around a home. (Soil can pick up lead from exterior paint or other sources, such as past use of leaded gas in cars.)

Learn more about where lead is found at epa.gov/lead.

¹ “Lead-based paint” is currently defined by the federal government as paint with lead levels greater than or equal to 1.0 milligram per square centimeter (mg/cm^2), or more than 0.5% by weight.

² “Lead-containing paint” is currently defined by the federal government as lead in new dried paint in excess of 90 parts per million (ppm) by weight.

Hazards

Deteriorated lead-based paint (peeling, chipping, chalking, cracking, or damaged paint) is a hazard and needs immediate attention. **Lead-based paint** may also be a hazard when found on surfaces that children can chew or that get a lot of wear and tear, such as:

- On windows and window sills
- Doors and door frames
- Stairs, railings, banisters, and porches

Lead-based paint is usually not a hazard if it is in good condition and if it is not on an impact or friction surface like a window.

Lead dust can form when lead-based paint is scraped, sanded, or heated. Lead dust also forms when painted surfaces containing lead bump or rub together. Lead paint chips and dust can get on surfaces and objects that people touch. Settled lead dust can reenter the air when the home is vacuumed or swept, or when people walk through it. EPA currently defines the following levels of lead in dust as hazardous:

- 10 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) and higher for floors, including carpeted floors
- 100 $\mu\text{g}/\text{ft}^2$ and higher for interior window sills

Lead in soil can be a hazard when children play in bare soil or when people bring soil into the house on their shoes. EPA currently defines the following levels of lead in soil as hazardous:

- 400 parts per million (ppm) and higher in play areas of bare soil
- 1,200 ppm (average) and higher in bare soil in the remainder of the yard

Remember, lead from paint chips—which you can see—and lead dust—which you may not be able to see—both can be hazards.

The only way to find out if paint, dust, or soil lead hazards exist is to test for them. The next page describes how to do this.

You can get your home tested for lead in several different ways:

- A lead-based paint **inspection** tells you if your home has lead-based paint and where it is located. It won't tell you whether your home currently has lead hazards. A trained and certified testing professional, called a lead-based paint inspector, will conduct a paint inspection using methods, such as:
 - Portable x-ray fluorescence (XRF) machine
 - Lab tests of paint samples
- A **risk assessment** tells you if your home currently has any lead hazards from lead in paint, dust, or soil. It also tells you what actions to take to address any hazards. A trained and certified testing professional, called a risk assessor, will:
 - Sample paint that is deteriorated on doors, windows, floors, stairs, and walls
 - Sample dust near painted surfaces and sample bare soil in the yard
 - Get lab tests of paint, dust, and soil samples
- A combination inspection and risk assessment tells you if your home has any lead-based paint and if your home has any lead hazards, and where both are located.

Be sure to read the report provided to you after your inspection or risk assessment is completed, and ask questions about anything you do not understand.

In preparing for renovation, repair, or painting work in a pre-1978 home, Lead-Safe Certified renovators (see page 12) may:

- Take paint chip samples to determine if lead-based paint is present in the area planned for renovation and send them to an EPA-recognized lead lab for analysis. In housing receiving federal assistance, the person collecting these samples must be a certified lead-based paint inspector or risk assessor
- Use EPA-recognized tests kits to determine if lead-based paint is absent (but not in housing receiving federal assistance)
- Presume that lead-based paint is present and use lead-safe work practices

There are state and federal programs in place to ensure that testing is done safely, reliably, and effectively. Contact your state or local agency for more information, visit epa.gov/lead, or call **1-800-424-LEAD (5323)** for a list of contacts in your area.³

³ Hearing- or speech-challenged individuals may access this number through TTY by calling the Federal Relay Service at 1-800-877-8339.

If you suspect that your house has lead-based paint hazards, you can take some immediate steps to reduce your family's risk:

- If you rent, notify your landlord of peeling or chipping paint.
- Keep painted surfaces clean and free of dust. Clean floors, window frames, window sills, and other surfaces weekly. Use a mop or sponge with warm water and a general all-purpose cleaner. (Remember: never mix ammonia and bleach products together because they can form a dangerous gas.)
- Carefully clean up paint chips immediately without creating dust.
- Thoroughly rinse sponges and mop heads often during cleaning of dirty or dusty areas, and again afterward.
- Wash your hands and your children's hands often, especially before they eat and before nap time and bed time.
- Keep play areas clean. Wash bottles, pacifiers, toys, and stuffed animals regularly.
- Keep children from chewing window sills or other painted surfaces, or eating soil.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe Certified renovation firms (see page 12).
- Clean or remove shoes before entering your home to avoid tracking in lead from soil.
- Make sure children eat nutritious, low-fat meals high in iron, and calcium, such as spinach and dairy products. Children with good diets absorb less lead.

Disturbing lead-based paint or removing lead improperly can increase the hazard to your family by spreading even more lead dust around the house.

- In addition to day-to-day cleaning and good nutrition, you can **temporarily** reduce lead-based paint hazards by taking actions, such as repairing damaged painted surfaces and planting grass to cover lead-contaminated soil. These actions are not permanent solutions and will need ongoing attention.
- You can minimize exposure to lead when renovating, repairing, or painting by hiring an EPA- or state-certified renovator who is trained in the use of lead-safe work practices. If you are a do-it-yourselfer, learn how to use lead-safe work practices in your home.
- To remove lead hazards permanently, you should hire a certified lead abatement contractor. Abatement (or permanent hazard elimination) methods include removing, sealing, or enclosing lead-based paint with special materials. Just painting over the hazard with regular paint is not permanent control.

Always use a certified contractor who is trained to address lead hazards safely.

- Hire a Lead-Safe Certified firm (see page 12) to perform renovation, repair, or painting (RRP) projects that disturb painted surfaces.
- To correct lead hazards permanently, hire a certified lead abatement contractor. This will ensure your contractor knows how to work safely and has the proper equipment to clean up thoroughly.

Certified contractors will employ qualified workers and follow strict safety rules as set by their state or by the federal government.

Reducing Lead Hazards, continued

If your home has had lead abatement work done or if the housing is receiving federal assistance, once the work is completed, dust cleanup activities must be conducted until clearance testing indicates that lead dust levels are below the following levels:

- 10 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) for floors, including carpeted floors
- 100 $\mu\text{g}/\text{ft}^2$ for interior windows sills
- 400 $\mu\text{g}/\text{ft}^2$ for window troughs

Abatements are designed to permanently eliminate lead-based paint hazards. However, lead dust can be reintroduced into an abated area.

- Use a HEPA vacuum on all furniture and other items returned to the area, to reduce the potential for reintroducing lead dust.
- Regularly clean floors, window sills, troughs, and other hard surfaces with a damp cloth or sponge and a general all-purpose cleaner.

Please see page 9 for more information on steps you can take to protect your home after the abatement. For help in locating certified lead abatement professionals in your area, call your state or local agency (see pages 15 and 16), epa.gov/lead, or call 1-800-424-LEAD.

Lead-Based Paint

If you hire a contractor to conduct renovation, repair, or painting (RRP) projects in your pre-1978 home or childcare facility (such as pre-school and kindergarten), your contractor must:

- Be a Lead-Safe Certified firm approved by EPA or an EPA-authorized state program
- Use qualified trained individuals (Lead-Safe Certified renovators) who follow specific lead-safe work practices to prevent lead contamination
- Provide a copy of EPA's lead hazard information document, *The Lead-Safe Certified Guide to Renovate Right*

RRP contractors working in pre-1978 homes and childcare facilities must follow lead-safe work practices that:

- **Contain the work area.** The area must be contained so that dust and debris do not escape from the work area. Warning signs must be put up, and plastic or other impermeable material and tape must be used.
- **Avoid renovation methods that generate large amounts of lead-contaminated dust.** Some methods generate so much lead-contaminated dust that their use is prohibited. They are:
 - Open-flame burning or torching
 - Sanding, grinding, planing, needle gunning, or blasting with power tools and equipment not equipped with a shroud and HEPA vacuum attachment
 - Using a heat gun at temperatures greater than 1100° F
- **Clean up thoroughly.** The work area should be cleaned up daily. When all the work is done, the area must be cleaned up using special cleaning methods.
- **Dispose of waste properly.** Collect and seal waste in a heavy duty bag or sheeting. When transported, ensure that waste is contained to prevent release of dust and debris.

To learn more about EPA's requirements for RRP projects, visit epa.gov/getleadsafe, or read *The Lead-Safe Certified Guide to Renovate Right*.

Lead in Drinking Water

The most common sources of lead in drinking water are lead pipes, faucets, and fixtures.

Lead pipes are more likely to be found in older cities and homes built before 1986.

You can't smell or taste lead in drinking water.

To find out for certain if you have lead in drinking water, have your water tested.

Remember older homes with a private well can also have plumbing materials that contain lead.

Important Steps You Can Take to Reduce Lead in Drinking Water

- Use only cold water for drinking, cooking and making baby formula. Remember, boiling water does not remove lead from water.
- Before drinking, flush your home's pipes by running the tap, taking a shower, doing laundry, or doing a load of dishes.
- Regularly clean your faucet's screen (also known as an aerator).
- If you use a filter certified to remove lead, don't forget to read the directions to learn when to change the cartridge. Using a filter after it has expired can make it less effective at removing lead.

Contact your water company to determine if the pipe that connects your home to the water main (called a service line) is made from lead. Your area's water company can also provide information about the lead levels in your system's drinking water.

For more information about lead in drinking water, please contact EPA's Safe Drinking Water Hotline at 1-800-426-4791. If you have other questions about lead poisoning prevention, call 1-800 424-LEAD.*

Call your local health department or water company to find out about testing your water, or visit epa.gov/safewater for EPA's lead in drinking water information. Some states or utilities offer programs to pay for water testing for residents. Contact your state or local water company to learn more.

* Hearing- or speech-challenged individuals may access this number through TTY

- **Lead smelters** or other industries that release lead into the air.
- **Your job.** If you work with lead, you could bring it home on your body or clothes. Shower and change clothes before coming home. Launder your work clothes separately from the rest of your family's clothes.
- **Hobbies** that use lead, such as making pottery or stained glass, or refinishing furniture. Call your local health department for information about hobbies that may use lead.
- Old **toys** and **furniture** may have been painted with lead-containing paint. Older toys and other children's products may have parts that contain lead.⁴
- Food and liquids cooked or stored in **lead crystal** or **lead-glazed pottery or porcelain** may contain lead.
- Folk remedies, such as “**greta**” and “**azarcon**,” used to treat an upset stomach.

⁴ In 1978, the federal government banned toys, other children's products, and furniture with lead-containing paint. In 2008, the federal government banned lead in most children's products. The federal government currently bans lead in excess of 100 ppm by weight in most children's products.

The National Lead Information Center

Learn how to protect children from lead poisoning and get other information about lead hazards on the Web at epa.gov/lead and hud.gov/lead, or call **1-800-424-LEAD (5323)**.

EPA's Safe Drinking Water Hotline

For information about lead in drinking water, call **1-800-426-4791**, or visit epa.gov/safewater for information about lead in drinking water.

Consumer Product Safety Commission (CPSC) Hotline

For information on lead in toys and other consumer products, or to report an unsafe consumer product or a product-related injury, call **1-800-638-2772**, or visit CPSC's website at cpsc.gov or saferproducts.gov.

State and Local Health and Environmental Agencies

Some states, tribes, and cities have their own rules related to lead-based paint. Check with your local agency to see which laws apply to you. Most agencies can also provide information on finding a lead abatement firm in your area, and on possible sources of financial aid for reducing lead hazards. Receive up-to-date address and phone information for your state or local contacts on the Web at epa.gov/lead, or contact the National Lead Information Center at **1-800-424-LEAD**.

Hearing- or speech-challenged individuals may access any of the phone numbers in this brochure through TTY by calling the toll-free Federal Relay Service at **1-800-877-8339**.

U. S. Environmental Protection Agency (EPA) Regional Offices

The mission of EPA is to protect human health and the environment. Your Regional EPA Office can provide further information regarding regulations and lead protection programs.

This document is in the public domain. It may be produced by an individual or organization without permission. Information provided in this booklet is based upon current scientific and technical understanding of the issues presented and is reflective of the jurisdictional boundaries established by the statutes governing the co-authoring agencies. Following the advice given will not necessarily provide complete protection in all situations or against all health hazards that can be caused by lead exposure.

IMPORTANT!

Lead From Paint, Dust, and Soil in and Around Your Home Can Be Dangerous if Not Managed Properly

- Children under 6 years old are most at risk for lead poisoning in your home.
- Lead exposure can harm young children and babies even before they are born.
- Homes, schools, and child care facilities built before 1978 are likely to contain lead-based paint.
- Even children who seem healthy may have dangerous levels of lead in their bodies.
- Disturbing surfaces with lead-based paint or removing lead-based paint improperly can increase the danger to your family.
- People can get lead into their bodies by breathing or swallowing lead dust, or by eating soil or paint chips containing lead.
- People have many options for reducing lead hazards. Generally, lead-based paint that is in good condition is not a hazard (see page 10).

¿Está planeando comprar o alquilar una casa construida antes de 1978?

¿Sabía que muchas casas construidas antes de 1978 tienen **pintura con base de plomo**? El plomo en la pintura, las partículas y el polvo puede ser un peligro grave para la salud.

Lea todo este folleto para saber:

- Cómo entra el plomo en el cuerpo.
- Cómo el plomo afecta a la salud.
- Qué puede hacer para proteger a su familia.
- Adónde recurrir para obtener más información.

Antes de alquilar o comprar una casa o un apartamento construidos antes de 1978, la ley federal requiere lo siguiente:

- Los vendedores tienen que dar la información que posean acerca de la pintura con base de plomo o los peligros relacionados con dicha pintura antes de vender una casa.
- Los contratos de venta de inmuebles deben incluir una declaración de advertencia específica sobre la pintura con base de plomo. Los compradores tienen hasta 10 días para verificar la existencia de plomo.
- Los propietarios tienen que dar la información que posean acerca de la pintura con base de plomo o los peligros relacionados con dicha pintura antes de que el alquiler entre en vigencia. Los contratos de alquiler deben incluir una declaración de advertencia específica sobre la pintura con base de plomo.

Si emprenderá algún proyecto de renovación, reparación o pintura (RRP, por sus siglas en inglés) en su casa o apartamento construido antes de 1978:

- Lea el folleto de la EPA *Guía de prácticas acreditadas seguras para trabajar con el plomo para remodelar correctamente* para aprender sobre las prácticas de trabajo seguras con el plomo que los contratistas requieren utilizar cuando trabajan en su hogar (ver página 12).

Medidas sencillas para proteger a su familia contra los peligros relacionados con el plomo

Si cree que su casa tiene pintura con base de plomo:

- No trate de remover usted mismo la pintura con base de plomo.
- Mantenga siempre las superficies pintadas en buenas condiciones para minimizar el deterioro.
- Haga que examinen su casa para identificar peligros relacionados con el plomo. Encuentre un inspector certificado o un asesor de riesgos en epa.gov/lead.
- Hable con el propietario para que arregle las superficies con pintura descascarada o picada.
- Limpie con regularidad los pisos, los antepechos de las ventanas y las demás superficies.
- Tome precauciones para evitar la exposición al polvo de plomo al remodelar.
- Al realizar renovaciones, reparaciones o pintura, contrate solamente a empresas de renovación certificadas en prácticas seguras con el plomo aprobadas por el estado o la EPA.
- Antes de comprar, alquilar o renovar su casa, hágala examinar para ver si tiene pintura con base de plomo.
- Consulte con su profesional de la salud sobre pruebas para detectar la presencia de plomo en sus hijos. El pediatra puede comprobar la presencia de plomo con un simple análisis de sangre.
- Lave con frecuencia las manos, los biberones, los chupones y los juguetes de los niños.
- Asegúrese de que los niños coman alimentos saludables, bajos en grasa, y altos en hierro, calcio y vitamina C.
- Quítense los zapatos o lave la tierra de los zapatos antes de entrar a su casa.

El plomo puede entrar en el cuerpo de adultos y niños si:

- Respiran el polvo de plomo (especialmente durante las actividades de renovación, reparación y pintura que alteran las superficies pintadas).
- Tragan polvo de plomo que se ha acumulado en alimentos, superficies donde se preparan alimentos y otros lugares.
- Comen partículas de pintura o tierra que contengan plomo.

El plomo es especialmente peligroso para los niños menores de 6 años.

- A esta edad, el cerebro y el sistema nervioso de los niños son más sensibles a los efectos dañinos del plomo.
- El cuerpo en crecimiento de los niños absorbe más plomo.
- Los bebés y los niños pequeños se llevan las manos y otros objetos a la boca con frecuencia. Dichos objetos pueden estar cubiertos de polvo de plomo.

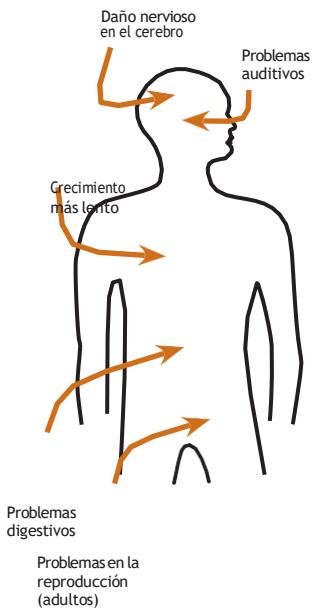

Las mujeres en edad de concebir deben saber que el plomo es peligroso para el feto en desarrollo.

- Las mujeres que tienen un nivel alto de plomo en su cuerpo antes del embarazo o mientras están embarazadas podrían exponer al feto al plomo a través de la placenta durante su desarrollo.

El plomo afecta el cuerpo de muchas maneras. Es importante saber que aun una exposición a niveles bajos de plomo puede afectar al niño gravemente.

En los niños, la exposición al plomo puede causar:

- Daño al sistema nervioso y los riñones.
- Problemas de aprendizaje, desorden de defciencia de atención y disminución de la capacidad intelectual.
- Problemas del habla, del lenguaje y de comportamiento.
- Pobre coordinación muscular.
- Disminución en el crecimiento muscular y de los huesos.
- Daño en la audición.

Mientras que la exposición a niveles bajos

de plomo es más común, la exposición a niveles altos de plomo puede causar efectos devastadores en los niños, incluso convulsiones, pérdida del conocimiento y, en algunos casos, la muerte.

Aunque los niños son especialmente susceptibles a la exposición al plomo, también puede ser peligroso para los adultos.

En los adultos, la exposición al plomo puede causar:

- Daño a un feto en desarrollo.
- Mayor probabilidad de tener tensión arterial alta durante el embarazo.
- Problemas de fertilidad (en hombres y mujeres).
- Tensión arterial alta.
- Problemas digestivos.
- Trastornos nerviosos.
- Problemas de memoria y concentración.

- Dolores musculares y articulares.

Haga que examinen a sus niños y a su casa si cree que esta tiene plomo.

El nivel de plomo en la sangre de los niños tiende a aumentar con rapidez entre los 6 y 12 meses de edad, y tiende a llegar al nivel más alto entre los 18 y 24 meses de edad.

Consulte a su médico en cuanto a la necesidad de examinar a sus niños. Un sencillo análisis de sangre puede detectar la presencia de plomo. Los análisis de sangre para detectar plomo se recomiendan generalmente para:

- Niños de 1 a 2 años de edad.
- Niños u otros miembros de la familia que hayan estado expuestos a niveles altos de plomo.
- Niños que deben examinarse en virtud del plan local o estatal de exámenes médicos.

Su médico puede explicarle los resultados de las pruebas y decirle si es necesario realizar más análisis.

Generalmente, cuanto más vieja sea su casa o centro de cuidado infantil, mayor será la posibilidad de que tenga pintura con base de plomo.¹

Muchas viviendas—incluidas las viviendas privadas, las de propiedad federal y las que reciben ayuda federal— y centros de cuidado infantil construidos antes de 1978 tienen pintura con base de plomo. En 1978, el gobierno federal prohibió el uso por parte del consumidor de pintura que contenga plomo.²

En la página 7, encontrará cómo establecer si la pintura tiene plomo.

El plomo puede encontrarse en:

- Casas y centros de cuidado infantil en la ciudad, el campo o los suburbios;
- Casas y apartamentos unifamiliares privados y públicos;
- Superficies dentro y fuera de la casa; y
- La tierra alrededor de la casa (la tierra puede acumular plomo de la pintura exterior u otras fuentes, tales como la gasolina con plomo que se usaba en el pasado en los automóviles).

Obtenga más información sobre dónde se encuentra plomo en epa.gov/lead.

¹ En la actualidad, el gobierno federal define la “pintura con base de plomo” como pintura con niveles de plomo superiores o iguales a 1.0 miligramo por centímetro cuadrado (mg/cm^2) o con más de 0.5 % por peso.

² En la actualidad, el gobierno federal define la “pintura que contiene plomo” como plomo en pintura nueva seca que supere las 90 partes por millón (ppm) por peso.

peligros de la pintura con base de plomo

La pintura con base de plomo deteriorada (descascarada, picada, pulverizada, agrietada o dañada) es un peligro y requiere atención inmediata. **La pintura con base de plomo** también puede ser un peligro si se encuentra en superficies que los niños puedan morder o que se desgasten mucho, tales como:

- Ventanas y antepechos de ventanas.
- Puertas y marcos de puertas.
- Escaleras, pasamanos, barandas y porches.

La pintura con base de plomo generalmente no es peligrosa si está en buenas condiciones y no está en una superficie de impacto o de fricción, como en una ventana.

El polvo de plomo puede formarse al raspar, lijado o calentar la pintura con base de plomo. También se forma cuando las superficies pintadas que contienen polvo se golpean o frotan entre sí. Las partículas y el polvo de la pintura que contiene plomo pueden acumularse en superficies y objetos que las personas tocan. El polvo de plomo que se ha acumulado puede volver a mezclarse con el aire cuando se aspira o barre la casa, o cuando las personas caminan sobre el mismo. Actualmente, la EPA define como peligrosos los siguientes niveles de plomo en el polvo:

- 10 microgramos por pie cuadrado ($\mu\text{g}/\text{pie}^2$) o más en pisos, incluidos pisos alfombrados.
- 100 $\mu\text{g}/\text{pie}^2$ o más en los antepechos de ventanas interiores.

El plomo en la tierra puede ser peligroso cuando los niños juegan en tierra descubierta o cuando las personas meten tierra en la casa con los zapatos. Actualmente, la EPA define como peligrosos los siguientes niveles de plomo en la tierra:

- 400 partes por millón (ppm) o más en áreas de juego de tierra descubierta.
- 1,200 ppm (promedio) o más en la tierra descubierta del resto del jardín.

Recuerde que el plomo de las partículas de pintura —que puede ver— y el polvo de plomo —que tal vez no pueda ver— pueden ser peligrosos.

La única forma de saber si existe peligro debido a la presencia de plomo en pintura, polvo o tierra es realizando pruebas. En la página siguiente se describe cómo hacer esto.

Puede evaluar su casa de diferentes maneras para determinar si tiene plomo:

- Una **inspección** de la pintura con base de plomo le dirá si su casa tiene pintura con base de plomo y dónde se localiza. Sin embargo, esta inspección no le dirá si en su casa existen actualmente peligros relacionados con el plomo. Un profesional experto en pruebas capacitado y certificado, que se llama inspector de pintura con base de plomo, realizará la inspección de la pintura utilizando métodos como:
 - Máquina portátil de fluorescencia por rayos X (XRF, por sus siglas en inglés).
 - Pruebas de laboratorio de muestras de pintura.
 - Una **evaluación de riesgo** le dirá si en su casa existe actualmente algún peligro relacionado con el plomo debido a la presencia de plomo en la pintura, el polvo o la tierra. También le dirá qué acciones debe llevar a cabo para eliminar estos peligros. Un profesional experto en pruebas capacitado y certificado, que se llama asesor de riesgo, hará lo siguiente:
 - Tomará muestras de la pintura deteriorada de puertas, ventanas, pisos, escaleras y paredes.
 - Tomará muestras del polvo cerca de las superficies pintadas y muestras de tierra descubierta del patio.
 - Hará pruebas de laboratorio con las muestras de pintura, polvo y tierra.
 - Una combinación de evaluación de riesgo e inspección le dirá si en su casa hay pintura con base de plomo, si existe algún peligro relacionado con el plomo y dónde se localizan ambos.

Asegúrese de leer el informe que le entreguen una vez finalizada la inspección o la evaluación de riesgo, y pregunte todo lo que no entienda.

Al preparar un trabajo de renovación, reparación o pintura en una casa construida antes de 1978, los renovadores certificados para prácticas seguras con el plomo (vea la página 12) pueden:

- Tomar muestras de partículas de pintura para determinar si hay pintura con base de plomo en el área que se prevé renovar y enviarlas para analizar a un laboratorio especializado en plomo reconocido por la EPA. En viviendas que reciben ayuda federal, la persona que recolecte estas muestras debe ser un evaluador de riesgo o inspector certificado de pintura con base de plomo.
- Utilizar juegos de pruebas reconocidos por la EPA para determinar si no hay pintura con base de plomo (no se deben usar en viviendas que reciban ayuda federal).
- Suponer que hay pintura con base de plomo y utilizar prácticas de trabajo seguras con el plomo.

Existen programas estatales y federales para garantizar que las pruebas se realicen de modo seguro, confiable y con eficacia. Comuníquese con la agencia estatal o local para obtener más información, visite epa.gov/lead o llame al **1-800-424-LEAD (5323)** para obtener una lista de contactos en su área.³

³ Las personas con impedimentos auditivos o del habla pueden acceder a este número a través del sistema TTY llamando al Federal Relay Service (Servicio Federal de Retransmisión) al 1-800-877-8399.

proteger a su familia

Si sospecha que su casa tiene algún peligro relacionado con pintura con base de plomo, puede tomar algunas medidas inmediatas para reducir el riesgo de su familia:

- Si alquila, infórmeme al propietario si hay pintura descascarándose o picándose.
- Mantenga las superficies pintadas limpias y sin polvo. Limpie semanalmente los pisos, los marcos y antepechos de las ventanas y las demás superficies. Use un trapeador o una esponja con agua tibia y un limpiador para usos múltiples. (Recuerde: nunca mezcle productos de amoníaco con blanqueadores, ya que pueden formar gases peligrosos.)
- Limpie inmediatamente y con cuidado las partículas de pintura sin generar polvo.
- Enjuague bien y con frecuencia las esponjas y las cabezas de los trapeadores mientras limpia las áreas sucias o con polvo, y vuelva a hacerlo cuando termine de limpiar.
- Lávese con frecuencia las manos y también las de sus hijos, especialmente antes de comer, antes de la siesta y antes de irse a dormir.
- Mantenga limpias las áreas de juego. Lave con regularidad los biberones, los chupones, los juguetes y los animales de peluche.
- No permita que los niños muerdan los antepechos de las ventanas ni las demás superficies pintadas, ni tampoco que coman tierra.
- Al realizar renovaciones, reparaciones o pintura, contrate a empresas de renovación certificadas en prácticas seguras con el plomo aprobadas por el estado o la EPA (vea la página 12).
- Límpiese o quítense los zapatos antes de entrar a la casa para evitar meter el plomo de la tierra.
- Asegúrese de que los niños coman alimentos nutritivos, bajos en grasa y altos en hierro y calcio, tales como las espinacas y los productos lácteos. Los niños con una dieta adecuada absorben menos plomo.

Alterar la pintura con base de plomo o remover incorrectamente el plomo puede aumentar el peligro para su familia, ya que esparce aún más el polvo de plomo en la casa.

- Además de la limpieza diaria y la buena nutrición, usted puede reducir **temporariamente** los riesgos relacionados con la pintura con base de plomo tomando medidas, como la reparación de las superficies pintadas que estén dañadas y plantar césped para cubrir la tierra contaminada con plomo. Estas medidas no son soluciones permanentes y necesitarán atención continua.
- Para minimizar la exposición al plomo cuando renueve, repare o pinte su casa, contrate a un renovador certificado por el estado o la EPA que esté capacitado en el uso de prácticas de trabajo seguras con el plomo. Si es una persona que suele hacer los trabajos por su cuenta, aprenda a utilizar prácticas de trabajo seguras con el plomo en su casa.
- Para remover permanentemente los peligros relacionados con el plomo, debe contratar a un contratista certificado para que "remueva" el plomo. Los métodos para remover (o eliminar permanentemente el peligro) incluyen la eliminación, el sellado o el revestimiento de la pintura con base de plomo con materiales especiales. Simplemente pintar sobre la pintura que presenta riesgos con una pintura común no es un control permanente.

Siempre recurra a un contratista certificado que esté capacitado para corregir los peligros relacionados con el plomo de manera segura.

- Contrate a una empresa certificada en prácticas seguras con el plomo (vea la página 12) para realizar proyectos de renovación, reparación o pintura (RRP) a fin de no alterar las superficies pintadas.
- Para corregir permanentemente los peligros relacionados con el plomo, contrate a un contratista certificado para que "remueva" el plomo. Esto asegurará que el contratista sepa cómo trabajar en forma segura y tenga el equipo apropiado para limpiar minuciosamente.

Los contratistas certificados contratarán a trabajadores cualificados y seguirán reglas estrictas de seguridad según lo dicta el estado o el gobierno federal.

Reduciendo los peligros del plomo (continuación)

Si en su casa se realizó un trabajo para remover el plomo o si se trata de una vivienda que recibe ayuda federal, una vez que se termine el trabajo, deben realizarse las actividades de limpieza del polvo hasta que las pruebas de aprobación indiquen que los niveles de polvo de plomo están por debajo de los siguientes niveles:

- 10 microgramos por pie cuadrado ($\mu\text{g}/\text{pie}^2$) en pisos, incluidos pisos alfombrados.
- 100 $\mu\text{g}/\text{pie}^2$ en los antepechos de ventanas interiores.
- 400 $\mu\text{g}/\text{pie}^2$ en los canales de ventanas.

Los métodos para remover el plomo están diseñados para eliminar permanentemente los peligros relacionados con la pintura a base de plomo. Sin embargo, el polvo de plomo puede reintroducirse en una zona de eliminación.

- Usar una aspiradora HEPA en todos los muebles y otros artículos que se devuelvan a la zona de eliminación, para reducir la posibilidad de reintroducir el polvo de plomo.
- Limpiar regularmente los pisos, antepechos y canales de ventanas y otras superficies duras con un trapeador o una esponja húmeda y un limpiador para usos múltiples.

Vea la página 9 para obtener más información sobre las medidas para proteger a su casa después de una actividad de eliminación del plomo. Para obtener ayuda para localizar en su área profesionales certificados que remuevan el plomo, llame a la agencia estatal o local (vea las páginas 15 y 16), visite epa.gov/lead o llame al **1-800-424-LEAD**.

Si contrata a un contratista para que realice proyectos de renovación, reparación o pintura (RRP) en una casa o centro de cuidado infantil construidos antes de 1978 (como centros preescolares y jardines de infancia), el contratista debe:

- Ser una empresa certificada en prácticas seguras con el plomo, aprobada por la EPA o por un programa estatal autorizado por la EPA.
- Utilizar personas cualificadas y capacitadas (renovadores certificados en prácticas seguras con el plomo) que empleen prácticas de trabajo seguras con el plomo específicas, a fin de evitar la contaminación con plomo.
- Darle una copia del documento informativo de la EPA sobre peligros relacionados con el plomo que se titula *Guía de prácticas acreditadas seguras para trabajar con el plomo para remodelar correctamente*.

Los contratistas de RRP que trabajen en casas o centros de cuidado infantil construidos antes de 1978 deben seguir prácticas de trabajo seguras con el plomo que:

- **Contengan el área de trabajo.** Debe contenerse el área para que el polvo y los escombros no se escapen del área de trabajo. Deben colocarse letreros de advertencia, y debe usarse cinta y material plástico u otro tipo de material impermeable.
- **Eviten los métodos de renovación que generan grandes cantidades de polvo contaminado con plomo.** Algunos métodos producen tanto polvo contaminado con plomo que su uso está prohibido. Entre estos métodos se incluyen:
 - Quema o fameado a llama abierta.
 - Lijado, esmerilado, cepillado, uso de pistolas de aguja o limpieza a chorro con herramientas eléctricas y equipos sin cubierta y accesorio de aspiradora HEPA.
 - Pistola de aire caliente a temperaturas superiores a 1100 °F.
- **Limpien minuciosamente.** El área de trabajo debe limpiarse diariamente. Una vez terminado todo el trabajo, debe limpiarse el área con métodos de limpieza especiales.
- **Eliminen los desechos adecuadamente.** Recoja los residuos en una bolsa o lámina de alta resistencia y séllela. Cuando transporte los residuos, asegúrese de que la bolsa o lámina esté bien cerrada para que el polvo y los escombros no se escapen.

Para obtener más información sobre los requisitos de la EPA para los proyectos de RRP, visite epa.gov/getleadsafe o lea *Guía de prácticas acreditadas seguras para trabajar con el plomo para remodelar correctamente*.

Plomo en el agua potable

Las fuentes más comunes de plomo en el agua potable son las tuberías, grifos y accesorios de plomo.

Las tuberías de plomo son más factibles de encontrar en las ciudades más antiguas y en las casas construidas antes de 1986.

El plomo en el agua potable no presenta ningún olor ni sabor.

Para saber con seguridad si tiene plomo en el agua potable, debe hacerla analizar.

Recuerde que las casas más viejas con un pozo privado también pueden tener materiales de plomería que contengan plomo.

Medidas que puede tomar para reducir el plomo en el agua potable

- Use solo agua fría para beber, cocinar y preparar la leche del bebé. Recuerde que hervir el agua no elimina el plomo de esta.
- Antes de beber el agua, deje corriendo el grifo para purgar las tuberías del hogar, tomando una ducha, lave la ropa sucia o lave los trastes.
- Limpie regularmente el filtro del grifo (también llamado aireador).
- Si usa un filtro certificado para eliminar el plomo, no olvide leer las instrucciones para aprender cuándo cambiar el cartucho. El uso de un filtro después de su vencimiento puede hacerlo menos eficaz en la eliminación del plomo.

Comuníquese con su empresa de suministro de agua para determinar si la tubería que conecta su casa a la cañería de agua principal (llamada línea de servicio) es de plomo. Su empresa de agua local también puede brindarle información sobre los niveles de plomo en el agua potable de su sistema.

Para obtener más información sobre el plomo en el agua potable, comuníquese con [Línea directa de la EPA sobre el agua potable](#) (en inglés) al **1-800-426-4791**. Si tiene otras preguntas sobre la prevención del envenenamiento por plomo, llame al **1-800 424-LEAD**.*

Llame a su departamento de salud local o a su empresa de agua para averiguar cómo obtener un análisis del agua de su casa, o visite epa.gov/safewater para ver información de la EPA sobre el plomo en el agua potable. Algunos estados o empresas de servicios públicos ofrecen programas para pagar el análisis del agua de los residentes. Comuníquese con el servicio público de agua local o estatal para obtener más información.

* Las personas con dificultades del habla o la audición pueden acceder a este número a través de TTY llamando al Servicio Federal de Transmisión de Información al 1-800-877-8339.

- **Los hornos de fundición de plomo** u otras industrias que emiten plomo al aire.
- **Su trabajo.** Si trabaja con plomo, podría traerlo a su casa en el cuerpo o la ropa. Báñese y cámbiese la ropa antes de volver a su casa. Lave la ropa de trabajo por separado del resto de la ropa de la familia.
- **Los pasatiempos** que usan plomo, tales como hacer trabajos en cerámica, pintar en vidrio o restaurar muebles. Llame al departamento de salud local para obtener información sobre los pasatiempos en los que puede usarse plomo.
- **Los juguetes y muebles** viejos que pueden haberse pintado con pintura que contenga plomo. Los juguetes viejos y otros productos para niños pueden contener partes con plomo.⁴
- Los alimentos y líquidos cocinados o almacenados en **cristal de plomo**, o en **cerámica o porcelana con esmalte de plomo** pueden contener plomo.
- Los remedios caseros, tales como “**greta**” y “**azarcón**”, que se usan para tratar padecimientos estomacales.

⁴ En 1978, el gobierno federal prohibió los juguetes, otros productos para niños y los muebles con pintura que contenga plomo. En 2008, el gobierno federal también prohibió el plomo en la mayoría de los productos para niños, y actualmente prohíbe el plomo en cantidades superiores a 100 ppm por peso en la mayoría de los productos para niños.

The National Lead Information Center (Centro Nacional de Información sobre el Plomo)

Averigüe cómo proteger a los niños del envenenamiento por plomo y obtenga otra información sobre los peligros relacionados con el plomo por Internet en epa.gov/lead y hud.gov/lead, o llame al **1-800-424-LEAD (5323)**.

Línea directa de agua potable segura de la EPA

Para obtener información sobre el plomo en el agua potable, llame al **1-800-426-4791** o visite epa.gov/lead para obtener información sobre el plomo en el agua potable.

Línea directa de la Comisión de Seguridad de Productos del Consumidor de Estados Unidos (CPSC)

Para pedir información relacionada con el plomo en los juguetes y en otros productos del consumidor, o para denunciar un producto del consumidor inseguro o una lesión relacionada con un producto, llame al **1-800-638-2772**, o visite el sitio web de la CPSC en cpsc.gov o saferproducts.gov.

Agencias del medio ambiente y de salud estatales y locales

Algunos estados, tribus y ciudades tienen sus propias reglas relacionadas con la pintura con base de plomo. Consulte con su agencia local para ver cuáles leyes se le aplican. La mayoría de las agencias también pueden proporcionarle información para encontrar en su área una empresa para remover el plomo, y para conseguir posibles fuentes de ayuda económica para la reducción de los peligros relacionados con el plomo. Obtenga direcciones e información telefónica actualizadas de contactos locales o estatales por Internet en epa.gov/lead, o comuníquese con el Centro Nacional de Información sobre el Plomo llamando al **1-800-424-LEAD**.

Las personas con impedimentos auditivos o del habla pueden acceder a cualquiera de los números de teléfono que se indican en este folleto a través del sistema TTY llamando en forma gratuita al Federal Relay Service (Servicio Federal de Retransmisión) al **1-800-877-8339**.

Ambiental de los Estados Unidos (EPA)

Este documento es del dominio público y puede ser reproducido por cualquier persona u organización sin necesidad de solicitar autorización. La información contenida en este folleto se basa en el conocimiento científico y técnico actual sobre los aspectos presentados, y refleja las barreras jurisdiccionales establecidas por los estatutos que gobiernan a las agencias que han colaborado en su preparación. Al seguir la asesoría que se ofrece, no se obtiene necesariamente una protección total para todas las situaciones o contra todos los peligros para la salud que pueden ser causa de la exposición al plomo.

¡IMPORTANTE!

El plomo de la pintura, del polvo y de la tierra en la casa y alrededor de esta puede ser peligroso si no se maneja adecuadamente

- Los niños menores de 6 años son los que corren mayor riesgo de envenenamiento por plomo en la casa.
- La exposición al plomo puede hacerle daño a los niños pequeños y aun a los bebés antes del nacimiento.
- Es probable que las casas, las escuelas y los centros de cuidado infantil construidos antes de 1978 contengan pintura con base de plomo.
- Aun los niños que aparentan estar saludables pueden tener niveles peligrosos de plomo en el cuerpo.
- Alterar las superficies con pintura con base de plomo o remover incorrectamente la pintura con base de plomo puede aumentar los peligros para su familia.
- El plomo puede entrar en el cuerpo de las personas al respirar o tragarse polvo de plomo, o al comer tierra o partículas de pintura que contengan plomo.
- Las personas tienen muchas opciones para reducir los peligros relacionados con el plomo. Generalmente, la pintura con base de plomo que está en buenas condiciones no es peligrosa (vea la página 10).

Ma Waxaad Qorshaynaysaa Inaad libsato ama Kiraysato Guri La Dhisay Kahor 1978?

Miyaad og tahay in guriyo badan oo la dhisay wixii ka horeeyay 1978 ay leeyihiin **ranjiga liidhka leh?** Liidhka ranjiga, qurubyada soo dhacay, iyo dhasku waxaa leeyihiin sun waxyeelo leh oo caafmaadka u daran.

Akhri buug yarahan oo dhan si aad uogaato:

- Sida liidhku uu u geli karo jidhka
- Sida uu liidhku u saamayn karo caafmaadka
- Waxa aad samayn karto si aad u ilaaliso qoyskaaga
- Halka aad ka heleyso maclumaad dheeraad ah

Kahor inta aanad kiraysan ama iibsan guri la dhisay wixii ka horeeyay 1978, sharciga federalku waxa uu dhigayaa:

- In cida iibinaysaa ay sheegto maclumaadka ranjiga liidhka leh ama waxyeelada ranjiga uu leeyahay kahor inta aanu iibin guriga.
- Heshiisyada iibka gurigaga shirkada waa inay la socdaan digniinta rasmiga ah ee ku saabsan ranjiga liidhka. Cida iibsanaysaa waxa ay haysataa 10 maal mood inuu ka eego liidhka.
- Mulkiilaha inuu sheego maclumaadka ranjiga liidhka leh ama waxyeelada ranjiga uu leeyahay kahor inta aana dhaqan gelin kirada gurigu. Kirada waa inay ku jirtaa digniinta rasmiga ah ee ku saabsan ranjiga liidhka.

Hadii la samaynayo mashaariic ah dayactir, hagaajin, ama ranjiyayn (RRP) ee gurigaaga la dhisey wixii ka horeeyay 1978:

- Akhri waraaqaha EPA, Tilmaamaha Xaqiijinta Badbaadada Liidhka ee Xuquuqda Dayactirka (Lead-Safe Certified Guide to Renovate Right), si aad wax uga ogaato nidaamyada shaqada badbaadada liidhka ee qandaraasла oo looga baahan yahay inuu raaco marka uu ka shaqaynayo gurigaaga (eeg bogga 12).

Talaabooyinka Fudud ee Aad Qoyskaaga Uga Ilaalin

Karto Waxyeelada Liidhka

Hadii aad u aragto in gurigaaga uu marsan yahay ranjiga liidhka leh:

- Ha isku dayin inaad adigu ka baabi'iso ranjiga.
- Wuxuu aad mar kasta ilaalisaa dusha sare ee ranjiga si markaa aad u yarayso in aanu waxyeeloobin.
- Gurigaaga halaga baaro suntan liidhka. Ka raadi bare shatiyeysan ama qiiimeeyaha khatarta epa.gov/lead.
- Wuxuu aad kala hadashaa mulkiilaha gurigaaga sidii loo hagaajin lagaa in aanu ranjigu soo daadan ama qurubyo ayna soo dhicin.
- Wuxuu aad si joogto ah u nadiifsaa dhulka, daaqadaha, iyo meelaha la taaban karo.
- Wuxuu aad ka taxadirtaa inuu idin soo gaadho dhaska marka aad tirtirayso.
- Marka la tirtirayso, dayactiryo, ama la ranjiyaynayo, wuxuu aad qabsataa EPA- ama shirkad u tirtirta si Amaan ah Liidhka oo gobolku ansixiyay.
- Kahor inta aanad iibsan, kiraysan, ama dayactiran guriga, wuxuu aad ka eegtaa ranjiga leh liidhka.
- Wuxuu aad kala tashataa daryeelka caafmaad bixiyahaaga wixii ku saabsan in laga baadho carruurtaada liidhka. Dhakhtarkaaga carruurta ayaa ka baadhi kara liidhka muunada dhiiga.
- Wuxuu aad maydhaa gacmaha, masaasada, kadaabada, iyo alaabta ay ku ciyaaraan carruurtaadu badanaa.
- Wuxuu aad xaqijisaa in aad cuntid cunto caafmaad leh, duxdeedu yar tahay oo leh bir badan, kaalshiyeem, iyo fitaamiin C.
- Wuxuu aad ka saartaa kabaha ama wuxuu aad ka masaxdaa ciida kabaha kahor inta aanu guriga lasoo galin.

Dadka Waawayn iyo Carruurta waxa jidhkooda gala liidhku hadii ay:

- Neefsadaan dhaska (gaar ahaan inta lagu jiro hawlaha sida dayactirka, hagaajinta, ama ranjiyaynta taas oo markaa lagu waxyeelayo ranjiga sare).
- Liqida dhaska liidhka leh kaas oo markaa ku jira cuntada, cunto lagu diyaariiyay meel banaan ah, iyo meelo kale.
- In la cuno qurubyada ranjiga ama ciida ee leh liidhku.

Liidhku waxa uu khatar ku yahay gaar ahaan carruurta ka yar 6 jirka.

- Wakhti xaadirkan, maskaxda carruurta iyo nidaamka neerfuhu waxa ay u nugul yihiin waxyeelada liidhka.
- Jidhka koraya ee carruurta ayaa markaa liqa liidhka.
- Carruurta iyo dhallaanka waxa ay badanaa geliyaan gacmahooda iyo alaabta kale afkooda. Alaabaadkan waxa dhici karta inuu saaran yahay dhaska liidhku.

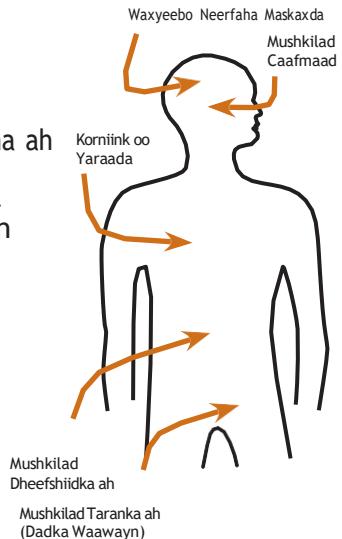

Dumarka gaadhay da'da dhalmada waa inay yaqaanaan in liidhku uu khatar ku yahay uur jiifka.

- Dumarka liidhka sare uu ku jira dhiigooda kahor ama inta ay uur leeyahiin waxa ay khatar ugu jiraan inay qaadsiyyaan uur jiifka luudhka oo uu u dhax maro madheerta inta uu ilmuhi korayo.

Liidhku waxa uu u saameeyaa jidhka qaabab kala duwan. Waxaa muhiim ah in la ogaado in xataa liidhka yar uu carruurta u keeni karo waxyeelo aad u daran.

Carruurta, in uu liidhku soo gaadhaa waxa ay keeni kartaa:

- Waxyeelo nidaamka neerfaha iyo kalyaha ah
- Laxaad la'aan waxbarasho, khalkhalka soo jeedka, iyo hoos u dhac garaadka ah
- Mushkilad hadalka, luuqada, iyo habdhaqanka ah
- Isku xidhnaanta muraqaha oo liidata
- Hoos u dhac murqaha iyo lafaha ah
- Waxyeelo maqalka ah

In kastoo soo gaadhis yar oo liidhka ah ay wax iska caadi ah ay tahay, soo gaadhida liidhka badan waxa uu ku yeelan karaa saamayn aad u daran carruurta, oo ay ku jiraan suuxdin, miyir beel, iyo mararka qaar, dhimasho.

Inkasta oo carruurtu ay si gaar ah ugu nuqul yihii liidhka badan, waxa uu waxyeelo u keeni karaa dadka waawayn sidoo kale.

Dadka waawayn, in uu liidhku soo gaadhaa waxa ay keeni kartaa:

- Waxyeelo korniinka ilmaha uur jiifka ah
- Wixa uu kordhiyaa khatarta ah inuu dhiikar yimaado wakhtiga uurka
- Mushkiladaha dhalmada (raga iyo dumarka)
- Dhiigkar
- Mushkilad dheefshiidka ah
- Khalkhal neerfaha ah
- Mushkilado xasuusta iyo soo jeedka ah
- Xanuun muraqaha iyo laalaabatooyinka jirka ah

Waxa aad baadhaa gurigaaga iyo carruurtaada hadii aad ka shakido in uu liidh leeyahay gurigaagu.

Heerka liidhka dhiiga carruurta waxaa ay u kordhi kartaa si wayn 6 ilaa 12 bilood da'da ah, oo waxa ay ugu badan tahay da'da 18 ilaa 24 bilood.

Waxa aad kala tashataa dhakhtarkaaga wixii shaybaadhka carruurtaada ku saabsan. Shaybaadhka dhiiga muunada ah waxa lagu ogaan karaa liidhka. Shaybaadhka liidhka dhiiga waxa caadiyan lagula taliyaa:

- Caruurta 1 ilaa 2 jirka ah
- Caruurta ama xubnaha kale ee qoyska ee uu saameeyey liidhka heerka sare
- Caruurta lagu shaybaadhay qorshaha shaybaadhka gobolka ama deegaanka

Dhakhtarkaaga ayaa kuu sharixi kara waxa ay ka dhigan tahay natijada shaybaadhka iyo hadii shaybaadhka loo baahan yahay.

Guud ahaan, hadba sidii uu gurigaaga ama xarumaha daryeelka caruurta uu qadiimi u yahay, ayay u badan tahay in uu marsan yahay ranjiga liidhku.¹

Guryo badan, oo ay ku jiraan guryaha gaarka ah, kuwa kaalmada federalka ah, guryaha uu federalku leeyahay, iyo xarumo badan caruurta lagu daryeelo oo la dhisay wixii ka horeeyay 1978 waxa ay marsan yihiin ranjiga liidhka leh. 1978, dawlada federalku waxa ay mamnuucday isticmaalka alaabaaadka macaamiisha ee uu marsan yahay ranjiga liidhku.²

Waxa aad ka ogaataa sida loo ogaado hadii ranjiga uu leeyahay liidh boga 7.

Liidhka waxaa laga heli karaa:

- Guryaha iyo xarumaha daryeelka caruurta ee magaada, miyiga, ama meelaha ka baxsan magaalada.
- Guryaha gaarka loo leeyahay iyo kuwa dadweynaha iyo guryaha dabaqa ah.
- Digaarada banaanka iyo guraha ee guriga, iyo.
- Ciida ku xeeran guriga. (Ciida waxa uu uga iman karaa liidhku ranjiga banaanka iyo meelo kale, sida isticmaalka hore ee shidaalka gaadiidka ee liidhka lagu daray.)

Waxa aad macluumaad dheeraad ah ka ogaataa epa.gov/lead.

¹ “Ranjiga liidhka leh” waxa wakhti xaadirkan ay ku sheegtaa dawlada federalku inuu yahay heer ka badan ama le’eg 1.0 miligiraam sentimeetir iskuweerkiiiba (mg/cm^2), ama wax ka badan miisaanka 0.5%.

² “Ranjiga leh liidhka” waxaa ay ku sheegtaa dawlada federalku inuu yahay liidhka ranjiga isaga oo cusub ku qalalay oo ka badan 90 qaybood milyankiiba (ppm) miisaanka ah.

Ogaanshaha Ranjiga Liidhka Leh iyo Waxyeelada

Ranjiga Liidhka Leh

Marka uu duugoobo ranjiga liidhka leh (dhilmo, soo googo'o, dil dilaaco, ama waxyeeloobo) waa sun oo waxa loo baahan yahay in si dhakhso ah wax looga qabto. **Ranjiga liidhka leh** waxa sidoo kale laga heli karaa meelaha dusha ah taas oo markaa carruurta ay ruugi karaan ama kaas oo markaa inta uu duuboobmo dildilaaci kara, sida:

- Daaqada iyo moorinta daaqada
- Albaabada iyo freemka albaabka
- Jaran jarada, wadiiqada, iyo barandada

Ranjiga liidhka leh caadiyan waxyeelo malaha hadii ay xaaladiisu wanaagsan tahay oo hadii aan la tataabanin ama aan la xoqin meelaha daaqada ah.

Dhaska liidhka waxa uu samaysmi karaa markii ranjiga liidhka leh la xoqo, ciid la mariyo ama la kululeeyo. Dhaska liidhka ayaa sidoo kale samaysmi kara marka bamka ama burushka wax lagu ranjiyaynayo la isku dhufto. Qurubyada ranjiga liidhka leh iyo dhaska waxa uu gaadhi karaa meelaha dusha iyo shayada ay dadku taaban karaan. Dhaska liidhka waxa uu ku dagaa oo uu dib u geli karaa hawada marka guriga la xaaqaayo ama la qalajinaayo, ama marka dadku ay dul socdaan.

EPA waxay wakhti xaadirkan ku sheegtaa heerka liidhka ee dhaska wayxeelada leh:

- 10 micrograms iskuwareeg fuudkiiba ($\mu\text{g}/\text{ft}^2$) iyo wixii ka sareeya ee dhulka, oo ay ku jirto rooga dhulka
- 100 $\mu\text{g}/\text{ft}^2$ iyo wixii ka sareeya daaqada gudaha miisha ay ka xidhanto

Liidhka ciida waxa uu keeni karaa waxyeelo marka ay carruurtu ku ciyaarto ciida ama marka ay dadku usoo qaataan ciida guriga inta ay kabaha usoo raacdoo. EPA waxay wakhti xaadirkan ku sheegtaa heerka liidhka ee ciida wayxeelada leh:

- 400 qaybood milyankiiba (ppm) iyo wixii ka sareeya ee aaga ciyaarta ee ciida leh
- 1,200 ppm (celcelis ahaan) iyo wixii ka sareeya ee ciida ee inta hadhsan ee barxada

Xasuusnaw, liidhka ranjiga soo googo'ay - oo aad markaa arki karto- iyo dhaska liidhka-oo aanad arki karin-labaduba waxyeelo ayay leeyihiin.

Qaabka kaliya ee aad ku ogaan karto hadii ranjiga, ama ciida ay leedahay waxyeelo waa inaad baarto. Bogga xiga waxa uu sharaxaa sida aad taas u samayn karto.

Waxa aad uga baadhi kartaa gurigaaga liidhka dhawr qaab:

- **Baadhitanka** ranjiga liidhka leh waxa uu kuu sheegi karaa hadii gurigaaga lagu ranjiyeeyay ranjiga liidhka iyo halka uu ku yaal. Kuuma sheegeyso hadii gurigaaga uu wakhti xaadirkan leeyahay sun. Xirfadle la tobobaray oo markaa shahaado haysta, oo loo yaqaan baadhaha ranjiga liidhka leh, ayaa samayn doono baadhitaanka ranjiga isaga oo adeegsanaya qaabab, sida:

- Mishiinka raajiga laydhka foloorantiga ah (XRF)
- Baadhitaanka shaybaadhka ee muunada ranjiga
- Qiimaynta khatartu waxa ay kuu sheegi doontaa hadii gurigaagu uu wakhti xaadirkan leeyahay waxyeelo liidh oo dhanka ranjiga ah, dhas ama ciida ku jirta. Waxa ay sidoo kale kuu sheegeysaa talaabada aad qaadayso si aad uga fal-celiso wixii waxyeelo ah. Xirfadle la tobobaray oo shahaado haysta, oo loo yaqaan qiimeeyaya khatarta, ayaa:
 - Qaadi doona muunada ee wixii duugoobay ee albabka, daaqadaha, dhulka, jaran jarada, iyo gidaarka ah
 - Muunada dhaska ee ranjiga dhulka sare u dhaw iyo muunada ciida ee dhulka
 - Waxa ay tahay inaad hesho shaybaadh ranjiga ah, iyo muunada ciida
- Isku-darka baadhitaanka iyo qiimaynta khatarta waxa ay kuu sheegeysaa hadii gurigaaga uu leeyahay ranji liidh kwg iyo hadii gurigaaga uu leeyahay waxyeelo liidh, iyo halka ay labaduba ku yaalaan.

Waxa aad xaqijisaa inaad akhrido warbixinta marka la dhameeyo baadhitaanka ama qiimaynta khatarta, oo waxa aad waydiisaa wixii aanad fahmin.

Marka aad u diyaar garoobayso shaqada dayactirka, hagaajinta, ama rajiyyanta ee guriga la dhisay wixii ka horeeyay 1978, dayactiraha Shaadaa ku Haysta Amaanka Liidhka (eeg boga 12) ayaa:

- Qaadi kara muunada qurubka ranjiga si markaa loo ogaado hadii ranjiga aaga loo qorsheeyay dayactirka uu liidh leeyahay oo waxa uu u diri doonaa shaybaadh ay aqoonsan tahay EPA si uu markaa u qiimeeyo. Guryaha qaata kaalmada federalka, qofka muunada qaadayaa waa inuu ahaadaa baadhe ama qiimeeye khatar ah oo shahaado ku haysta ranjiga liidhka
- Waxa aad isticmaashaa bushqada baadhitaanka EPA si aad u ogaato in aanu jirin ranji liidh leh (laakiin loogu talagalay guryaha aan qaadan kaalmada federalka)
- Waxa aad u qaadataa in ranjiga liidhka uu jiro oo markaa waxa aad ka taxadirtaa shaqada

Waxaa jira barnaamijyo gobolka iyo federalka ah oo markaa lagu xaqiijinayo in baadhitaanka loo sameeyo si amaan ah, lagu kalsoon yahay, oo wax ku ool ah. Waxa aad la xidhiidhaa hay'ada deegaanka ama gobolka si aad u hesho wixii macluumaad ah, booqo epa.gov/lead, ama la hadal **1-800-424-LEAD (5323)** si aad u eego liiska cida lala xidhiidhayo ee deegaankaaga.³

³ Dadka hadalka ama maqalku ku adag yahay waxa ay ka heli karaan lambarka TTY iyada oo markaa kala hadlaya Adeegyada Gudbinta Federalka 1-800-877-8339.

Hadii aad ka shakido in gurigaaga uu leeyahay waxyeelo ranjiga liidhk ah, waxa aad qaadi kartaa tallaaboyin degdeg ah si aad u yarayso khatarta qoyskaaga:

- Hadii aad ku jirto kiro, waxa aad ogaysiisaa mulkiilaha guriga wixii soo go'a ama soo dhaca ee ranjiga ah.
- Waxa aad nadiifsaa meelaha ranjiyasan oo yayna yeelan dhas. Waxa aad nadiifsaa dhulka, daaqadaha, moorinta daaqadaha, iyo meelaha kale todobaad kasta. Waxa aad isticmaashaa masaxaad ama isboonji iyo biyo diiran iyo saabuunta guud ee wax lagu nadiifyo. (Xasuusnaw: weligaa ha isku darin ammonia iyo waxyaabaha jaafeesha aha maadaama oo ay samayn karaan gaas khatar ah.)
- Waxa aad nadiifsaa ranjiga soo daatay isla markaba adiga oo aan markaa dhas abuuraynin.
- Si fican u nadiif isboonjiga iyo masaxaada marka aad ku nadiifnaysid meelaha uskaga leh ama aaga dhaska leh, oo waxa ugu xoqdaa hore iyo dib.
- Waxa aad maydhaa gacmahaaga iyo gacmaha caruurtaada badanaa, gaar ahaan kahor inta aanad cunin cunto iyo kadib marka aad hurdo isku diyaarinaysaan iyo wakhtiga hurdada.
- Waxa aad si joogto ah u nadiifsaa meelaha lagu ciyaaro. Waxa aad maydhaa masaasada, kadaabada, alaabta lagu ciyaaro, iyo xayawaanka caruuusada ah.
- Waxa aad ka ilaalisaa inay carruurtu calaaliyaan ama afka la galaan daaqadaha caagooda ama meelaha kale ah ee la ranjiyeeyey, ama inay cunaan ciida.
- Marka la tirtirayo, dayactiryo, ama la ranjiyaynayo, waxa aad qabsataa EPA- ama shirkad tirtirta si Amaan ah Liidhka oo gobolku Ansixiyay(ee boga 12).
- Nadiif oo waxa aad iska saartaa kabaha inta aanad soo gelin guriga si aad markaa uga hortagto inay kusoo raacdo ciidu.
- Waxa aad xaqijisaa inay carruurtu cunaan cunto nafaqo leh, duxdu ku yar tahay, leh bir badan, iyo kaalshiyeem, sida salahka iyo waxa xoolaha laga sameeyay. Carruurta nafaqada wanaagsan cunaa waxa ay nuugaan liidh yar.

Khalkhalinta ranjiga liihka leh ama inaad si aan munaasab ahayn u tirtirtaa waxa ay kordhisaa inay qoyskaaga ku faafto waxyeeladu oo xataa dhas badan oo liihka ahi uu gurigaaga saameeyo.

- Marka laga tago nadaafada maalin kasta iyo nafaqada wanaagsan, waxa aad si kumeel gaadh ah u yarayn kartaa waxyeelada ranjiga adiga oo markaa qaada tallaabooyin, sida inaad dayactirto ranjiga waxyeloobay ee meelaha muuqda iyo inaad ka beerto doog aaga ciida ee waxyeloobay. Tallaabooyinkan maaha xal waara oo waxa ay u baahan doonaan in si joogto ah loola socdo.
- Waxa aad yarayn kartaa soo gaadhitaanka liihka ee dadka marka la dayactirayo, hagaajinayo ama ay ranjiyaynayaan qandaraasle shahaado ka haysta EPA ama gobolka kaas oo markaa lagu tobobaray isticmaalka nidaamka badbaado ee gobolka. Hadii aad laftaadu shaqadaas qabanayso, waxa aad ogaataa sida aad u isticmaali karto nidaamka badbaadada shaqada ee gurigaaga.
- Si aad sunta uga saarto si rasmi ah, waa inaad shaqaalaysiisaa qandaraasle yareeya khatarta liihka oo shahaado haysta. Qaabka Yaraynta (ama meesha uga saarida khatarta si rasmi ah) waxaa kamid ah meesha ka saarida, moorinta, ama in lagu xidho waxyaabo gaar ah ranjiga liihka leh. Inaad ku dul ranjiyayso ranjiga waxyeelada leh mid caadi ah maaha qaab loogu xakamayn karo si rasmi ah.

Mar kasta waxa aad isticmaashaa qandaraasle shahaaho haysta kaas oo markaa loo tobobaray sidii uu markaa uga shaqayn lahaa liihka si amaan ah.

- Shaqaalaysii Shirkad Badbaadada Liihka Shahaado ku Haysata (eeg boga 12) si ay u samayso mashaariicda dayactirka, hagaajinta, ama ranjiyaynta (RRP) taas oo markaa khalkhalinaya ranjiyaynta dusha.
- Si aad sunta ugu saxdo si rasmi ah, waa inaad qandaraaslahaa aad shaqaalaysiisatay uu yareeyaa khatarta liihka oo shahaado haysta. Tani waxa ay xaqiijin doontaa in qandaraaslahaa uu garan karo sida uu si amaan ah ugu shaqayn karo oo uu markaa u helo agabka nadaafa ee saxda ah ee dhamayskaritan.

Qandaraaslahaa shahaadada haystaa waxaa uu haystaa shaqaale xirfadle ah oo markaa si taxadir ah u raacaya shuruucda amniga ee ay dejiiyen gobolka ama dawlada federalku.

Yaraynta Waxyeelada Liidhka, sii socda

Hadii gurigaaga laga nadiifyay lead ama hadii gurigaagu uu qaato kaalmo federal ah, marka shaqada la dhameeyo., hawlahaa ka saarida dhaska waa in qabtaa ilaa inta tijaabada nadaafadu muujinayso in heerka ugu yar ee dhasku uu jiro kaas oo u baahan heerarka soo socda:

- 10 micrograms isku wareeg fuudhkiiba ($\mu\text{g}/\text{ft}^2$) dhulka, oo ay ku jiraan dhulka roogaga ah
- 100 $\mu\text{g}/\text{ft}^2$ dabaadhka daaqada gudaha
- 400 $\mu\text{g}/\text{ft}^2$ meelaha godan ee daaqa

Abatemnts waxaa loogu talo geley inuu gebi ahaanba meesha ka saaro waxyeelada ranjiga. Laakiin, dhasku waxa uu dib usoo geli karaa meelaha laga saaray.

- U isticmaal faakuyuumka HEPA dhamaan alaabaaadka iyo shayada kale ee lagu soo celinayo aaga, si loo yareeyo inuu soo noqdo naska leadku.
- Waxa aad ii joogto ah ugu nadiif funka, dahaashka daaqada, meelaha godan ee daaqa iyo meelaha kale ee dusha ah maro ama buush iyo nadiifyaha guud.

Fadlan eeg boga 9 wixii macluumaad dheeraad ah ee talaabooyinka aad qaadi karto si aad u ilaalso gurigaaga kadib marka abatement lagu sameeyo. Wixii kaalmada helitaanka xirfadle abatement oo shahaado u haysta oo deegaankaaga ah, la hadal gobolka aa hay'ada deegaanka (eeg boga 15 iyo 16), ama booqo visit epa.gov/lead, ama la hadal 1-800-424-LEAD.

Dayactirka, Hagaajita ama Ranjiyaynta Guri uu Marsan Yahay Ranji Leh Liidhka

Hadii aad shaqaalaysiisato shirkad markaa kuu qabata mashruuc dayactirka, hagaajinta, ama rajiyyaynta (RRP) guriga ama xarunta daryeelka caruurta ah oo la dhisay wixii ka horeeyay 1978 (sida waxbarashada dugsiga kahor iyo xanaanada caruurta), qandaraaslahaagu waa inuu:

- Noqdaa Shirkad Amaanka Badbaadada U shatiyeysan ee ay ansixisay EPA ama barnaamijka gobolka maamulka EPA
- Isticmaalaa shakhs u qalma oo si gaar ah loo tobobaray (Hagaajije Shahaado Amaanka Liidhka Haysta) kaas oo markaa raacaya nidaamka shaqada amaanka liidhka si markaa uu uga hortago sunta liidhka
- Bixiyo waraaqo macluumaadka waxyeelada liidhka EPA, *Tilmaamaha Amaanka Liidhka La Xaqiijiyay ee Tirtirka Saxda ah*

Qandaraaslaha RRP ee ka shaqaynaya guryaha iyo xarunta daryeelka caruurta la dhisay wixii ka horeeyay 1978 waa inuu raacaa nidaamka badbaadada liidhka ee:

- **Xidhiitaanka aaga shaqada:** Aaga waa in la xidhaa si markaa dhaska iyo qurubyadu ayna uga bixin meesha laga shaqaynayo. Calaamad digniin ah waa in lagu dhejiyaa, waana in la isticmaalaa caag ma wixii kale ee alaab ama xabag ah.
- **Waa in la iska ilaaifiya qaabka dayactirka ee markaa soo saaraya dhaska sunta liidhka ee badan.** Qaababka qaar ayaa soo saara liidh isticmaalkooda la mamnuucay. Waxa weeye:
- Danba furan ama tooshka
- Ciida, burburta, qorshaynta, irbadaha, ama qarxinta iyada oo la adeegsanayo agab xoog badan iyo agabka aan markaa qaban karin oo aan nuugi karin dhaska ka imaada
- In la isticmaalo qoriga oo ah heerkul ka badan 1100°F
- **In si wanaagsan loo nadiifyo.** Meesha lagu shaqaynayo waa in maalin kasta la nadiifyaa. Marka shaqadu dhamaato, aaga waa in la nadiifyaa iyada oo markaa la isticmaalayo qaabka nadiifnta gaarka ah.
- **In si sax ah loo daadiyo qashinka.** Waxa aad uruurisaa oo aad afka ka xidhaa bacaga dhaska ama marooyinka. Marka aad qaadayso, waxa aad xaqiijisaa in qashinka la xidho si markaa looga hortago inuu kasoo baxaan dhas iyo qurubyo.

Si aad wax badan uga ogaato shuruudaha EPA ee mashaariicda RRP, [booqo epa.gov/getleadsafe](http://epa.gov/getleadsafe), ama akhri *Tilmaamaha Xaqiijinta Badbaadada Liidhka ee Ka Saarida Saxda ah.*

Liidhka Biyaha La Cabo

Meelaha ugu badan ee liidhku uga yimaado biyaha la cabayo waa beebka iyo qasabadaha liidhka ka samaysan.

Beebabka liidhka waxa ay u badan tahay in laga helo magaaloo yinka iyo guryaha la dhisay wixii ka horeeyay 1986.

Waxa aad urin kartaa ama dhadhamin kartaa liidhka ku jira biyaha la cabo.

Si aad u xaqijiso in liidh uu ku jiro biyaha aad cabayso, waa inaad baartaa biyaha adigoo isticmaalaya shaybaadh.

Waxa aad xasuusataa guryaha qadiimiga ah ee leh ceel u gaar ah waxa sidoo kale ay soo saaraan waxyabo leh liidh.

Talaabooyinka Ugu Muhiimsan ee Aad Qaadi Karto Si Aad U ayarayso Liidhka Biyaha La Cabo

- Waxa aad kaliya biyo qabow u isticmaashaa cabida, karinta iyo qasitaanka caanaha carruurta. Xasuuso, in diirintu ayna biyaha ka saarin liidhka.
- Kahor inta aanad cabin, waxa aad waxoogaa biyaha ku furtaa beebka adiga oo qasadaba furaya, ku mayranaya, dharka, ama adigoo ku dhaqaya alaabta.
- Si joogto ah u nadiif qasabada (oo sidoo kale loo yaqaan aerator).
- Hadii aad isticmaalayso fltare la xaqijiyay si aad uga saarto liidhka, ha iloobin in aad akhrido tilmaamaha si aad u ogaato goorta aad badali karto khadka. Inaad isticmaashaa flterku kadib marka uu dhaco waxa ay keeni kartaa in waxqabadiisa meesha ka saarida liidhku ay yaraato.

Waxa aad la xidhiidhaa shirkada biyaha si aad u ogaato hadii beebku uu ku xidhan yahay gurigaaga ee biyaha ee guud (oo loo yaqaan khadka adeega) inuu ka samaysan yahay liidhka. Shirkada biyaha aagaaga waxa ay sidoo kale bixin kartaa macluumaad ku saabsan heerka liidhka ee ku jira beebabka biyaha.

Wixii macluumaad dheeraad ah ee ku saabsan biyaha la cabayo, fadlan la xidhiidh Khadka Taleefanka Tooska ah ee Amaanka Biyaha La Cabayo ee EPA 1-800-426-4791. Hadii aad qabto wax su'aal ah oo kale oo ku saabsan kahortaga sunta liidka, la hadal 1-800 424-LEAD.*

La hadal waaxda caafmaad deegaanka ama shirkada biyaha si aad u ogaato baadhitaanka biyaha, ama booqo epa.gov/safewater macluumaadka liidhka ku jira biyaha la cabayo ee EPA. Gobolada qaar ama shirkada qaar waxa ay bixiyaan barnaamijyo lagu bixiyo shaybaadhka biyaha ee dadka deegaanka. Waxa aad la xidhiidhaa shirkada gobolla ama deegaanka ee biyaha si aad wax badan uga ogaato.

* Dadka hadalka ama maqalku ku adag yahay waxa ay ka heli karaan lambarka TTY

- **Tumayaasha biraha** ama warshadaha kale ee liidhka ku sii daaya hawada.
- **Shaqadaada.** Hadii aad ka shaqaysyo liidh, waxa aad markaa dharkaaga inta uu soo raaco aad keeni kartaa guriga. Maydho ama badalo dharka kadib marka aad timaado guriga. Waxa aad ku maydhaa dharkaaga shaqada meel ka gaar ah dharka qoyska intiisa kale.
- **Waxyabaha hiwaayadaha ah** ee aad u isticmaasho liidhka, sida inaad samayso dhoobo ama quruurado, ama inaad ranjiyayso alaabta guriga. La hadal waaxda caafmaadka deegaankaaga wixii macluumaad dheeraad ah ee ku saabsan waxyabaha aad ku samayso wakhtigaaga aad fraaqada leedahay ee ku jiri kara liidhka.
- **Alaabta lagu ciyaarto iyo alaabta guriga** ee qadiimiga ah waxaa dhici karta in lagu ranjiyeeyay liidh. Alaabta qadiimiga ah ee carruurtu ku ciyaarto iyo alaabaaadka kale ee carruurta waxa ay kamid noqon karaan waxyabaha leh liidhka.⁴
- Cuntada iyo dareeraha lagu kariyay ama lagu kaydiyay **liidhka kiristalka ah** ama **dhoobada laga sameeyo quruuradaha** waxaa dhici kara inay leeyihiin liidh.
- Dwoooyinka qaar, sida “**greta**” iyo “**azarcon**,” ee loo isticmaalo daawaynta caloosha.

⁴ 1978, dawlada federalku waxa ay mamnuucday alaabaaadka caruurta ku ciyaarto, alaabaaadka kale ee caruurta, iyo alaabta guriga ee la mariiyay ranjiga liidhka leh. 2008, dawlada federalku waxa ay mamnuucday liidhka in badanaa caruurta alaabta la mariyo. Dawlada federalku waxa ay wakhtigan mamnuucday liidhka inuu ka bato 100 ppm miisaabkiisu alaabaaadka caruurta.

Xarunta Qaranka ee Macluumaadka Liidhka

Waxa aad barataa sida carruurta looga ilaaliyo sunta liidhka oo waxa aad ka heshaa macluumaad dheeraad ah oo ku saabsan waxyeelada liidhka Websaytka epa.gov/lead iyo hud.gov/lead, ama la hadal **1-800-424-LEAD (5323)**.

Khadka Tooska ah ee Amaanka Biyaha La Cabayo ee EPA
Wixii macluumaad dheeraad ah ee ku saabsan biyaha la cabayo, la hadal **1-800-426-4791**, ama booqo epa.gov/safewater wixii macluumaad dheeraad ah ee liidhka ku jira biyaha la cabayo.

Khadka Taleefanka Tooska ah ee Gudida Badbaadada Alaabta Macmiilka (CPSC)

Wixii macluumaad dheeraad ah ee ku saabsan liidhka ku jira alaabta caruurtu ku ciyaaraan iyo alaabada macmiilka, ama si looga warbixiyo alaabta macmiilka ee aan amaanka ahayn ama dhaawac la xidhiidha alaabta, la hadal **1-800-638-2772**, ama booqo websaytka CPSC cpsc.gov ama saferproducts.gov.

Hay'adaha Bay'ada iyo Caafmaadka ee Gobolka iyo Deegaanka
Gobolada, qabiilada, iyo magaalada qaar waxa ay leeyihii shuruuc u gaar ah oo la xidhiidha ranjiga liidhka leh. Waxa aad ka eegtaa hay'adaha deegaanka si aad u aragto shuruuccda khuseeya kuwaas. Badanaa hay'adaha waxa sidoo kale laga helaa macluumaadka ku saabsan shirkadaha yareeya liidhka ee aagaaga, iyo meelaha ay macquul tahay in laga helo kaalmada dhaqaale ee yaraynta waxyeelada liidhka. Waxa aad ka heshaa macluumaadka cinwaanka iyo taleefanka saxda ah ee cida lagala xidhiidhayo gobolkaaga ama deegaankaaga Websaytka epa.gov/lead, ama kala xidhiidh Xarunta Macluumaadka Liidhka Qaran **1-800-424-LEAD**.

Dadka hadalka ama maqalku ku adag yahay waxa ay isticmaali karaan mid ka mid ah lambarada taleefanka ee ku qoron buug-yarahen ee TTY iyada oo markaa kala hadlaya Adeegyada Curyaamiinta ee Federalka **1-800-877-8339**.

Maraykanka (ERA)

Shaqada EPA waxa weeye in lagu ilaaliyo caafmaadka bini'aadanka iyo deegaanka. Xafiska EPA ee Deegaanka waxa uu bixin karaa macluumaad dheeraad ah oo ku saabsan shuruucda iyo barnaamijyada ilaalinta liidhka.

Lessor Disclosure Documentation Forms

Disclosure of Information on Lead-Based Paint and/or Lead-Based Paint Hazards

Lead Paint Warning

Housing built before 1978 may contain lead-based paint. Lead from paint, paint chips, and dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 housing, lessors must disclose the presence of lead-based paint and/or lead-based paint hazards in the dwelling. Lessees must also receive a federally approved pamphlet on lead poisoning prevention.

Syracuse Housing Authority Disclosure

- A. Information regarding lead-based paint or lead-based paint hazards
1. Lead-based paint and/or lead-based paint hazards are known to be present in the housing.

Explanation: _____

2. No known lead-based paint and/or lead-based paint hazards are known to be present in the housing.

- B. Available records and reports

1. Syracuse Housing Authority has provided the lessee with all available records and reports relating to lead-based paint and/or lead-based paint hazards present in the housing.

List Documents: _____

2. Syracuse Housing Authority has no records or reports relating to known lead-based paint and/or lead-based paint hazards present in the housing.

Lessee's Acknowledgement (Initial to verify receipt)

- C. _____ I have received copies of all reports and records listed above.
- D. _____ I have received the *Protect your Family from Lead in the Home* pamphlet.

Divulgación de información sobre la pintura a base de plomo y / o peligros de pintura a base de plomo

Advertencia de pintura con plomo

Las viviendas construidas antes de 1978 pueden contener pintura a base de plomo. El plomo de la pintura, las astillas de pintura y el polvo pueden representar riesgos para la salud si no se manejan adecuadamente. La exposición al plomo es especialmente dañina para los niños pequeños y las mujeres embarazadas. Antes de alquilar una vivienda anterior a 1978, los arrendadores deben revelar la presencia de pintura a base de plomo y / o pintura a base de plomo en la vivienda. Los arrendatarios también deben recibir un folleto aprobado por el gobierno federal sobre la prevención del envenenamiento por plomo.

Divulgación de la Autoridad de Vivienda de Syracuse

A. Información sobre la pintura a base de plomo o los peligros de la pintura a base de plomo

1. Se sabe que la pintura a base de plomo y / o los peligros de pintura a base de plomo están presentes en la vivienda.

Explicación: _____

2. No se conocen peligros conocidos de pintura a base de plomo y/o pintura a base de plomo en la vivienda.

B. Registros e informes disponibles

1. La Autoridad de Vivienda de Syracuse ha proporcionado al arrendatario todos los registros disponibles y Informes relativos a los peligros de la pintura a base de plomo y/o de la pintura a base de plomo presentes en la vivienda.

Lista de documentos: _____

2. La Autoridad de Vivienda de Syracuse no tiene registros o informes relacionados con el plomo conocido. Peligros de pintura y/o pintura a base de plomo presentes en la carcasa.

Acuse de recibo del arrendatario (Inicial para verificar la recepción)

C. _____ He recibido copias de todos los informes y registros mencionados anteriormente.
