Re: Administrative Order Violation, Mountain Village Parks Public Water System,  
PWS ID #WY5600221, Docket No. SDWA-08-2017-0032

Dear Mr. and Mrs. Alexander:

On September 12, 2017, the U.S. Environmental Protection Agency issued an Administrative Order (Order) ordering you (Respondents), as owners of the Mountain Village Parks Public Water System (System), to comply with the Safe Drinking Water Act, 42 U.S.C. Section 300f et seq., and its implementing regulations, the National Primary Drinking Water Regulations, 40 C.F.R. part 141.

Our records indicate that you are in violation of the Order. Among other things, the Order included the following summarized requirements (from paragraphs 13 and 14 of the Order):

- Respondents shall monitor the System's water monthly for total coliform. Respondents shall collect a set of three repeat samples for each total coliform-positive sample. 40 C.F.R. §§ 141.853-858. Respondents shall report total coliform analytical results to the EPA within the first 10 days following the month in which Respondents receive sample results. 40 C.F.R. §§ 141.31(a). Respondents shall report any violation of the coliform monitoring requirements to the EPA within 10 days after discovering the violation. 40 C.F.R. §§ 141.861(a)(4).
- Within 30 days after receipt of this Order, Respondents shall prepare Consumer Confidence Reports (CCRs) (to include all information required by 40 C.F.R. §§ 141.153 and 154) for the System for covering the period of 2015 and 2016, distribute the CCRs to the System's consumers and the EPA, and certify to the EPA that the CCRs have been distributed to the System's customers and that the information is correct and consistent with monitoring data previously provided to the EPA. Thereafter, Respondents shall prepare and distribute annual CCRs and provide certifications as required by 40 C.F.R. §§ 141.151-141.155.

A total coliform sample was not collected in November 2018. You have not prepared and distributed to consumers and to the EPA the 2015, 2016, and 2017 CCRs and have not provided the 2015, 2016, and 2017 CCR certifications to the EPA.

**The EPA is considering additional enforcement action as a result of your non-compliance with the Order.** Violating an administrative order may lead to (1) a penalty of up to \$57,907 per day per violation of the Order, and/or (2) a court injunction ordering compliance.

You must complete the following: monitor the System's water monthly for total coliform; and, within 30 days of receipt of this Administrative Order Violation, prepare and distribute to your consumers and to the EPA the 2015, 2016, and 2017 CCRs (all in accordance with the regulations described above) and provide the 2015, 2016 and 2017 CCR certifications to the EPA.
