C. STATUTORY AND REGULATORY BACKGROUND

Clean Air Act, Section 112(R)

10. The objective of Section 112(r)(1) of the Act, 42 U.S.C. § 7412(r)(1), is to prevent the accidental release and to minimize the consequences of any such release of any substance listed pursuant to Section 112(r)(3) of the CAA, 42 U.S.C. § 7412(r)(3), or any other extremely hazardous substance.

11. Section 112(r)(3) of the CAA, 42 U.S.C. § 7412(r)(3), requires the Administrator to promulgate, not later than 24 months after November 15, 1990, a list of regulated substances which, in the case of an accidental release, are known to cause or may reasonably be anticipated to cause death, injury, or serious adverse effects to human health or the environment.

12. Pursuant to Section 112(r)(3) of the Act, 42 U.S.C. § 7412(r)(3), the Administrator initially promulgated a list of regulated substances, with threshold quantities for applicability, at 59 Fed. Reg. 4478 (January 31, 1994), which is codified, as amended, at 40 C.F.R. § 68.130.

13. Pursuant to Sections 113(a) and (d) of the CAA, 42 U.S.C. §§ 7413(a) and (d), whenever the Administrator finds that such person has violated or is violating any requirement or prohibition of Section 112(r) of the CAA, 42 U.S.C. § 7412(r), and its implementing regulations, the Administrator may issue an administrative order and a civil administrative penalty.

14. The Administrator may assess a civil penalty of up to \$59,114 per day of violation up to a total of \$472,901 for each violation. Section 113(d)(1) of the Act, 42 U.S.C. § 7413(d)(1), and 40 C.F.R. Part 19.

Risk Management Plan (RMP)

15. Section 112(r)(7) of the CAA, 42 U.S.C. § 7412(r)(7), requires the Administrator to promulgate regulations that address release prevention, detection, and correction requirements for stationary sources with threshold quantities of regulated substances listed pursuant to Section 112(r)(3) of the CAA, 42 U.S.C. § 7412(r)(3). On June 20, 1996, EPA promulgated a final rule known as the Risk Management Program, 40 C.F.R. Part 68 – Chemical Accident Prevention Provisions, which implements Section 112(r)(7) of the CAA, 42 U.S.C. § 7412(r)(7).

16. The regulations at 40 C.F.R. Part 68 require owners and operators to develop and implement a Risk Management Program at each stationary source with over a threshold quantity of regulated substances. The Risk Management Program must include, among other things, a hazard assessment, a prevention program, and an emergency response program. The Risk Management Program is described in a Risk Management Plan (RMP) that must be submitted to EPA.

17. Pursuant to Section 112(r)(7) of the CAA, 42 U.S.C. § 7412(r)(7), and 40 C.F.R. § 68.150, an RMP must be submitted for all covered processes by the owner or operator of a stationary source subject to 40 C.F.R. Part 68 no later than the latter of June 21, 1999, or the date on which a regulated substance is first present above the threshold quantity in a process.

18. The regulations at 40 C.F.R. § 68.10 set forth how the Chemical Accident Prevention Provisions of 40 C.F.R. Part 68 apply to each program level of covered processes.

19. Pursuant to 40 C.F.R. § 68.10(i), a covered process is subject to Program 3 requirements if the process does not meet the requirements of Program 1, as described in 40

C.F.R. § 68.10(g), and if it is in a specified North American Industrial Classification System code or is subject to the OSHA process safety management standard, 29 C.F.R. 1910.119.

Definitions

20. Section 302(e) of the CAA, 42 U.S.C. § 7602(e), defines “person” to include any individual, corporation, partnership, association, State, municipality, political subdivision of a State, and any agency department, or instrumentality of the United States and any officer, agent, or employee thereof.

21. Section 112(r)(2)(A) of the CAA, 42 U.S.C. § 7412(r)(2)(A), and the regulation at 40 C.F.R. § 68.3 defines “accidental release” as an unanticipated emission of a regulated substance or other extremely hazardous substance into the ambient air from a stationary source.

22. Section 112(r)(2)(C) of the CAA, 42 U.S.C. § 7412(r)(2)(C), and the regulation at 40 C.F.R. § 68.3 defines “stationary source,” in part, as any buildings, structures, equipment, installations or substance-emitting stationary activities which belong to the same industrial group, which are located on one or more contiguous properties, which are under the control of the same person (or persons under common control), and from which an accidental release may occur.

23. Section 112(r)(2)(B) of the CAA, 42 U.S.C. § 7412(r)(2)(B), and the regulation at 40 C.F.R. § 68.3 defines “regulated substance” as any substance listed pursuant to Section 112(r)(3) of the CAA, as amended, in 40 C.F.R. § 68.130.

24. The regulation at 40 C.F.R. § 68.3 defines “threshold quantity” as the quantity specified for regulated substances pursuant to Section 112(r)(5) of the CAA, as amended, listed

in 40 C.F.R. § 68.130 and determined to be present at a stationary source as specified in 40 C.F.R. § 68.115.

25. The regulation at 40 C.F.R. § 68.3 defines “process” as any activity involving a regulated substance including any use, storage, manufacturing, handling or on-site movement of such substances, or combination of these activities. For the purposes of this definition, any group of vessels that are interconnected, or separate vessels that are located such that a regulated substance could be involved in a potential release, shall be considered a single process.

26. The regulation at 40 C.F.R. § 68.3 defines “covered process” as a process that has a regulated substance present in more than a threshold quantity as determined under 40 C.F.R. § 68.115.

D. FINDINGS OF FACT AND CONCLUSIONS OF LAW

27. Respondent is, and at all times referred to herein was, a “person” as defined by Section 302(e) of the CAA, 42 U.S.C. § 7602(e).

28. Respondent is the owner and operator of a facility located at: 14701 Woodforest Blvd, Channelview, Texas 77530 (the “Facility”).

29. On August 30, 2024, there was an incident at the Facility that resulted in an accidental release of 180 pounds of chlorine (the “Incident”). On January 31, 2025, EPA requested follow-up information and Respondent provided a response on February 5, 2025, regarding the Incident and Respondent’s compliance with Section 112(r) of the CAA, 42 U.S.C. § 7412(r), and 40 C.F.R. Part 68 (the “Investigation”).

30. On June 27, 2025, EPA sent Respondent a Notice Letter. On July 8, 2025, and on various other occasions, EPA conferred with Respondent regarding the violations alleged herein and provided an opportunity for Respondent to submit additional information or materials. EPA responded to the information received from Respondent as a result of the opportunity to confer and articulated EPA's position concerning Respondent's compliance with Section 112(r) of the CAA, 42 U.S.C. § 7412(r).

31. The Facility is a "stationary source" pursuant to Section 112(r)(2)(C) of the CAA, 42 U.S.C. § 7412(r)(2)(C), and the regulation at 40 C.F.R. § 68.3.

32. Respondent has a chlorine process at the Facility, meeting the definition of "process", as defined by 40 C.F.R. § 68.3.

33. Chlorine is a "regulated substance" pursuant to Section 112(r)(2)(B) of the CAA, 42 U.S.C. § 7412(r)(2)(B), and the regulation at 40 C.F.R. § 68.3. The threshold quantity for chlorine, as listed in 40 C.F.R. § 68.130 is 2,500 pounds.

34. Respondent has greater than a threshold quantity of chlorine, in a process at the Facility, meeting the definition of "covered process" as defined by 40 C.F.R. § 68.3.

35. From the time Respondent first had on-site greater than a threshold quantity of chlorine in a process, Respondent was subject to the requirements of Section 112(r)(7) of the CAA, 42 U.S.C. § 7412(r)(7), and 40 C.F.R. Part 68 because it was the owner or operator of a stationary source that had more than a threshold quantity of a regulated substance in a process.

36. From the time Respondent first had on-site greater than a threshold quantity of chlorine in a process, Respondent was required to submit an RMP pursuant to 40 C.F.R. §

68.12(a) and comply with the Program 2 prevention requirements in 40 C.F.R. Part 68, Subpart C, and is subject to the OSHA process safety management standard, 29 C.F.R. § 1910.119.

37. Based upon the information gathered during the Investigation, EPA determined that Respondent violated a provision of the CAA.

E. ALLEGED VIOLATIONS

38. The facts stated in EPA Findings of Fact and Conclusions of Law above are herein incorporated.

39. Complainant hereby states and alleges that Respondent has violated the CAA and federal regulations promulgated thereunder as stated below.

Count 1 – Operating Procedures

40. The regulation at 40 C.F.R. § 68.52(a) requires the owner or operator of a stationary source to prepare written operating procedures that provide clear instructions or steps for safely conducting activities associated with each covered process consistent with the safety information for that process. Operating procedures or instructions provided by equipment manufacturers or developed by persons or organizations knowledgeable about the process and equipment may be used as a basis for a stationary source's operating procedures.

41. Based on the response Respondent provided to EPA on February 5, 2025, and confer meetings on July 8 and 15, 2025, it was agreed that Respondent's maintenance procedures failed to include clear instructions for detecting chlorine leaks after maintenance activities and before employees leave the Facility for the evening.

42. Respondent's failure to provide clear instructions or steps for safely conducting an activity associated with a covered process consistent with the safety information for that

process pursuant to 40 C.F.R. § 68.52(a), is a violation of Section 112(r)(7) of the CAA, 42 U.S.C. § 7412(r)(7).

64. Nothing in this CAFO shall relieve Respondent of the duty to comply with all applicable provisions of the Act and other federal, state, or local laws or statutes, nor shall it restrict EPA's authority to seek compliance with any applicable laws or regulations, nor shall it be construed to be a ruling on, or a determination of, any issue related to any federal, state, or local permit. EPA does not, by its consent to the entry of this CAFO, warrant or aver in any manner that Respondent's compliance with any aspect of this CAFO will result in compliance with provisions of the Clean Air Act, 42 U.S.C. § 7401, *et seq.*, or with any other provisions of federal, state, or local laws, regulations, or permits.

65. Nothing herein shall be construed to limit the power of EPA to undertake any action against Respondent or any person in response to conditions that may present an imminent and substantial endangerment to the public health, welfare, or the environment.
