Re: Chem-Fab Site/Lien Hearing Docket No. CERCLA-03-2019-0111LL

Dear Judge Lisa:

I have requested of Mr. Goldman certain analytical results, and further analysis and/or sampling, which were either ordered or requested after trace amounts of contaminants were detected in 1995 at the Site, and EPA statements concerning the existence of contamination at the Site, and/or any and all remediation work to be yet done, or completed.

I have also requested of the Office of Regional Counsel of the PADEP the archived trial testimony of the EPA official or officials concerning the contamination, or the lack thereof, at the Site after the OSC After-Action Report had been issued. This stenographic record is being sought, and may take several weeks to be located and copied. I believe the evidence therein will be significant in the case before you.

Respectfully yours,

Heywood Becker

cc: Andrew S. Goldman, Esq.
