) **DOCKET NO. : CAA-08-2009-0023**

This Expedited Settlement Agreement (also known as a "Combined Complaint and Consent Agreement," hereafter "ESA") is entered into by the parties for the purpose of simultaneously commencing and concluding this matter.

This ESA is being entered into by the United States Environmental Protection Agency ("EPA"), Region 8, by its duly delegated official, the Assistant Regional Administrator, Office of Enforcement, Compliance and Environmental Justice, and by Safeway Denver Distribution Center ("Respondent") pursuant to sections 113(a)(3) and (d) of the Clean Air Act (the "Act"), 42 U.S.C. §§ 7413(a)(3) and (d), and 40 C.F.R. § 22.13(b). EPA and the U.S. Department of Justice have determined, pursuant to section 113(d)(1) of the Act, 42 U.S.C. § 7413(d)(1), that EPA may pursue this type of case through administrative enforcement action.

ALLEGED VIOLATIONS

On January 6, 2009, an authorized representative of EPA conducted a compliance inspection of the Safeway Denver Distribution Center facility located at 4600 Stapleton Drive South, Denver, Colorado, to determine compliance with the Risk Management Plan ("RMP") regulations promulgated at 40 C.F.R. part 68 under section 112(r) of the Act. EPA found that the facility had violated regulations implementing section 112(r) of the Act by failing to comply with the specific requirements outlined in the attached *RMP Program Level 3 Process Checklist-Alleged Violations & Penalty Assessment* ("Checklist and Penalty Assessment").

SETTLEMENT

In consideration of Respondent's facility service size, its full compliance history, its good faith effort to comply, and other factors as justice may require, and upon consideration of the entire record, the parties enter into this ESA in order to settle the violations for the total penalty amount of \$900. An explanation for the penalty calculation is found in the attached *Expedited Settlement Penalty Matrix*.

This settlement is subject to the following terms and conditions:

1. The Respondent by signing below waives any objections that it may have regarding jurisdiction, neither admits nor denies the specific factual allegations contained in the Checklist and Penalty Assessment and consents to the assessment of the penalty as stated above.
2. Respondent waives its rights to a hearing afforded by section 113(d)(2)(A) of the Act, 42 U.S.C. § 7413(d)(2)(A), and to appeal this ESA, and consents to EPA's approval of the ESA without further notice.
3. Each party to this action shall bear its own costs and fees, if any.
4. Respondent also certifies, subject to civil and criminal penalties for making a false submission to the United States Government, that Respondent will correct the violations listed in the Checklist and Penalty Assessment no later than 60 days from the date the ESA is signed by the Respondent.

After the Regional Judicial Officer issues the Final Order, the Respondent will receive a fully executed copy of this ESA and the Final Order. Within twenty days (20) of receiving a signed Final Order, Respondent shall remit payment in the amount of \$900. The payment shall reference the name and docket number of this case and be made by remitting a cashier's or certified check, for this amount, payable to "Treasurer, United States of America," (or be paid by one of the other methods listed below) and sent as follows:

MULTIPLIER FACTORS FOR CALCULATING PROPOSED PENALTIES FOR
VIOLATIONS FOUND DURING RMP INSPECTIONS

<i>(Amt of Chemical in process)</i> <i>x (Threshold Quantity)</i>		1-5*	5-10*	>10*
# of Employees	1-5	.1	.15	.3
	6-20	.15	.3	.4
	21-50	.3	.4	.6
	51-100	.4	.6	.7
	>100	.6	.7	1

*times the threshold quantity listed in CFR 68.130 for the particular chemical use in a process

PROPOSED PENALTY WORKSHEET

Adjusted Penalty = Unadjusted Penalty X Size-Threshold Quantity Multiplier

The Unadjusted Penalty is calculated by adding up all the penalties listed on the Risk Management Program Inspections Findings, Alleged Violations and Proposed Penalty Sheet.

The Size-Threshold Quantity multiplier is a factor that considers the size of the facility and the amount of regulated chemicals at the facility.

The Proposed Penalty is the amount of the non-negotiable penalty that is calculated by multiplying the Total Penalty and the Size/Threshold Quantity multiplier.

Example:

XYZ Facility has 24 employees and 7 times the threshold amount for the particular chemical in question. After adding the penalty numbers in the Risk Management Program Inspection Findings, Alleged Violations and Proposed Penalty Sheet an unadjusted penalty of \$4700 is derived.

Calculation of Adjusted Penalty

- 1st Reference the Multipliers for calculating proposed penalties for violations found during RMP inspection matrix. Finding the column for 21-50 employees and the row for 5- 10 times the threshold quantity amount gives a multiplier factor of 0.4. Therefore, the multiplier for XYZ Facility = 0.4.
- 2nd Use the Adjusted Penalty formula

Adjusted Penalty = \$4700 (Unadjusted Penalty) X 0.4 (Size-Threshold Multiplier)
Adjusted Penalty = \$1880
- 3rd An Adjusted Penalty of \$1880 would be assessed to XYZ Facility for Violations found during the RMP Compliance Inspection. This amount will be found in the Expedited Settlement Agreement (ESA).

Calculation for Adjusted Penalty – Safeway Denver Distribution Center.

Adjusted Penalty = Unadjusted Penalty X Size-Threshold Quantity Multiplier

$$\$900 = \$1,500 \times .6^*$$

* # of employees is 650. Anhydrous ammonia, the RMP regulated chemical exceeds the listed threshold value by 1-5 times.
