To whom it may concern:

This is a formal request for a 30 day extension on Docket No. CWA-06-2019-1738. We are requesting the extension to pursue the possibility of settlement through informal meetings with the EPA. The issue began with an inspection at our oil field production facility known as the Taylor 2 Lease, located in Union County, Arkansas. We have been working diligently to come to a resolution. This matter should be settled within 30 days if the extension is granted.

Sincerely,

Charles B. King
