**AMENDED COMPLAINT AND NOTICE OF OPPORTUNITY FOR HEARING**

This Amended Complaint and Notice of Opportunity for Hearing (“Complaint”) is issued pursuant to Section 325(c) of the Emergency Planning and Community Right-to-Know Act (“EPCRA”), 42 U.S.C. § 11045(c), and 40 C.F.R. §§ 22.13 and 22.14(c).

The Complainant in this action is the Director of the Compliance Assurance and Enforcement Division, United States Environmental Protection Agency, Region 6, who has delegated authority to issue such Complaints in the states of Arkansas, Louisiana, New Mexico, Oklahoma, and Texas. Complainant will show that Thomas Petroleum, LLC (“Respondent” or “Thomas Petroleum”) has violated Section 313 of EPCRA, 42 U.S.C. § 11023, and related regulations.

This Amended Complaint replaces the Complaint filed on February 14, 2019. The amendments found in this Amended Complaint modify the original Complaint by removing Pilot Thomas Logistics, LLC, as a Respondent and withdrawing counts 11, 29, 57, 67, 77, 89, 101,

123, and 135, consistent with Complainant's Prehearing Exchange and the Parties' Joint Stipulations of Fact and Law.

**I. STATUTORY AND REGULATORY BACKGROUND**

1. Section 313 of EPCRA, 42 U.S.C. § 11023, and 40 C.F.R. §§ 372.22 and 372.30 require the owner or operator of a facility that: (a) has ten or more full-time employees; (b) that is an establishment with a primary Standard Industrial Classification ("SIC") major group or industry code listed in 40 C.F.R. § 372.23(a), or a primary North American Industry Classification System ("NAICS") subsector or industry code listed in 40 C.F.R. §§ 372.23(b) or (c), and (c) "manufactured, processed, or otherwise used" a toxic chemical listed under Subsection 313(c) of EPCRA and 40 C.F.R. § 372.65, in excess of the threshold quantity established under Subsection 313(f) of EPCRA, 42 U.S.C. § 11023(f), and 40 C.F.R. §§ 372.25, 372.27, or 372.28 during the calendar year, to complete and submit a toxic chemical release reporting form ("appropriate EPA reporting form") to the Administrator of EPA and to the state in which the subject facility is located by July 1, for the preceding calendar year, for each toxic chemical known by the owner or operator to be "manufactured, processed, or otherwise used" in quantities exceeding the established threshold quantity during that preceding calendar year.

2. According to Section 313(f) of EPCRA, 42 U.S.C. § 11023(f), and 40 C.F.R. § 372.25, the threshold amount for reporting under Section 313(b) of EPCRA, 42 U.S.C. § 11023(b), and 40 C.F.R. § 372.30, is 25,000 pounds for any toxic chemical "manufactured or processed" and 10,000 pounds for any toxic chemical "otherwise used" for the applicable calendar year. 40 C.F.R. § 372.28 sets forth lower threshold amounts for toxic chemicals of special concern.

3. A certification statement (Form A) may be submitted as an appropriate EPA reporting form in lieu of a Form R if all criteria under 40 C.F.R. § 372.27 are met, including that total annual releases and waste management of a listed chemical do not exceed 500 pounds.

4. "Manufacture" as defined by 40 C.F.R. § 372.3, means to produce, prepare, import or compound a toxic chemical. Manufacture also applies to a toxic chemical that is produced coincidentally during the manufacture, processing, use, or disposal of another chemical or mixture of chemicals, including a toxic chemical that is separated from that other chemical or mixture of chemicals as a byproduct, and a toxic chemical that remains in that chemical or mixture of chemicals as an impurity.

5. "Process" as defined by 40 C.F.R. § 372.3, means the preparation of a toxic chemical, after its manufacture, for distribution in commerce: (1) in the same form or physical state as, or in a different form or physical state from, that in which it was received by the person so preparing the substance, or (2) as part of an article containing the toxic chemical. Process also applies to the processing of a toxic chemical contained in a mixture or trade name product.

6. "Otherwise use" as defined by 40 C.F.R. § 372.3, means "any use of a toxic chemical, including a toxic chemical contained in a mixture or other trade name product or waste, that is not covered by the terms 'manufacture' or 'process.'"

7. Section 325(c) of EPCRA, 42 U.S.C. § 11045(c), authorizes the Administrator to assess a penalty for each violation of any requirement of Section 313 of EPCRA, 42 U.S.C. § 11023.

## **II. PRELIMINARY ALLEGATIONS**

8. Respondent is a "person" as defined by Section 329(7) of EPCRA, 42 U.S.C. § 11049(7).

9. This complaint alleges violations at twelve facilities owned or operated by Thomas Petroleum at all relevant times:

- a) **Thomas Petroleum LLC Arkansas** 1894 Highway 124, Damascus, Arkansas (“the Damascus facility”)
- b) **Thomas Petroleum LLC Lafayette** 1306 Petroleum Parkway, Broussard, Louisiana (“the Broussard facility”)
- c) **Thomas Petroleum LLC Hobbs** 3307 W County Road, Hobbs, New Mexico (“the Hobbs facility”)
- d) **Thomas Petroleum LLC Beaumont** 11703 W Port Arthur Road, Beaumont, Texas (“the Beaumont facility”)
- e) **Thomas Petroleum LLC Bridgeport** 1709 Crittendon, Bridgeport, Texas (“the Bridgeport facility”)
- f) **Thomas Petroleum LLC Corpus/Robstown** 4632 Daniel, Robstown, Texas (“the Robstown facility”)
- g) **Thomas Petroleum LLC LaGrange** 450 Airport Road, La Grange, Texas (“the La Grange facility”)
- h) **Thomas Petroleum LLC Laredo** 13497 Port Drive, Laredo, Texas (“the Laredo facility”)

- j) **Thomas Petroleum LLC San Benito** 2050 Utex, San Benito, Texas (“the San Benito facility”)
- k) **Thomas Petroleum LLC Tyler** 1510 N NE Loop 323, Tyler, Texas (“the Tyler facility”)
- l) **Thomas Petroleum LLC Victoria** 9701 US Hwy. 59 N, Victoria, Texas (“the Victoria facility”)

10. At the time the Complaint was filed in this case, the most recent EPCRA 313 annual reports from the facilities identified in Paragraph 9 listed Thomas Petroleum, LLC as the “parent company” of each of the facilities.

11. The facilities identified in Paragraph 9, are “facilities” as defined by Section 329(4) of EPCRA, 42 U.S.C. § 11049(4), and 40 C.F.R. § 372.3.

12. As used in this Complaint, the term “full-time employee” has the meaning defined in 40 C.F.R. § 372.3, and does not necessarily refer to a single person, but rather means 2,000 hours per year of full-time equivalent employment.

13. Each of Respondent's facilities had ten (10) or more full-time employees for calendar years 2012 and 2013.

14. Respondent's facilities' primary Standard Industrial Classification (SIC) code 5171 [petroleum bulk stations and terminals] and/or primary North American Industrial Classification System (NAICS) subsector or industry code 424710 [petroleum bulk stations and terminals] is covered under 40 C.F.R. Part 372, and 40 C.F.R. Part 372 applies to facilities with these primary codes.

15. During calendar years 2012 and 2013, Respondent's facilities “manufactured, processed, or otherwise used” various combinations of naphthalene, diethanolamine, 1,2,4-trimethylbenzene, ethylene glycol, methanol, N-hexane, polycyclic aromatic compounds (PACs), toluene, xylene (mixed isomers), and zinc compounds.

16. Naphthalene, diethanolamine, 1,2,4-trimethylbenzene, ethylene glycol, methanol, N-hexane, PACs, toluene, xylene (mixed isomers), and zinc compounds are toxic chemicals within the meaning of 40 C.F.R. §§ 372.3 and 372.65.

17. Respondent knew, pursuant to 40 CFR § 372.30, the type and quantity of toxic chemicals manufactured, processed, or otherwise used at its facilities during calendar years 2012 and 2013.

18. On October 29, 2014, a representative from EPA conducted an on-site inspection of the Thomas Petroleum Tyler facility, located at 1510 N NE Loop 323, Tyler, Texas. EPA then conducted desk audit investigations into the eleven other facilities named in this Complaint. Those investigations were conducted with Respondent's cooperation, and EPA completed the desk audit report in May 2015.

#### **IV. PROPOSED CIVIL PENALTY**

571. Section 325(c) of EPCRA, 42 U.S.C. § 11045(c), as adjusted by 40 C.F.R. Part 19, authorizes EPA to assess a civil penalty for violations of any requirement of EPCRA Section 313, 42 U.S.C. § 11023.

572. At the time of each of the violations alleged in this Complaint, the maximum daily penalty for each violation was \$37,500.<sup>1</sup>

573. On the basis of the violations described above, Complainant has determined that the Respondent is subject to civil penalties. Complainant proposes to assess penalties based on the considerations described below.

574. Complainant will consider, among other factors, the Respondent's ability to pay a civil penalty. The burden of raising and demonstrating an inability to pay rests with the Respondent.

575. To the extent that facts and circumstances unknown to Complainant at the time of the issuance of the Complaint become known after the Complaint is issued, such facts and circumstances may also be considered as a basis for increasing or decreasing the civil penalty, as appropriate.

576. Pursuant to 40 C.F.R. § 22.14(a)(4)(ii), Complainant is not proposing a specific penalty at this time but will do so at a later date after an exchange of information has occurred.

---

<sup>1</sup> The statutory maximum penalty level under Section 325(c) of EPCRA, 42 USC 11045(c), has been adjusted over time as required by the Federal Civil Penalties Inflation Adjustment Act of 1990 (28 U.S.C. § 2461 note; Pub. L. 101-410), as amended by the Debt Collection Improvement Act of 1996, and most recently, by the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 (28 U.S.C. § 2461 note; Pub. L. 114-74, Section 701). EPA implements these adjustments through rulemaking which are codified in 40 CFR Part 19. As adjusted by the *Amendments to the EPA's Civil Penalty Policies to Account for Inflation (effective December 6, 2013) 15, 2018* and *Transmittal of the 2013 Civil Monetary Penalty Inflation Adjustment Rule* (78 Fed. Reg. 215), 40 C.F.R. § 19.4, the Administrator may assess a civil penalty of up to \$37,500 per violation per day of violation occurring after January 12, 2009 and before November 2, 2015.

577. In accordance with 40 C.F.R. § 22.14(a)(4)(ii), a brief explanation of the severity of each violation alleged and the days of violations (where applicable) is provided below. Penalties are sought for every alleged violation under the statutory penalty authority of EPCRA.

578. In an effort to classify the many counts by their level of severity, complainant has relied on EPA's "Enforcement Response Policy for Section 313 of the Emergency Planning and Community Right-to-Know Act (1986) and Section 6607 of the Pollution Prevention Act (1990) [Amended]," ("Section 313 Penalty Policy") dated February 24, 2017, a copy of which is enclosed with this Complaint. This policy provides for a rational, consistent, and equitable calculation methodology for calculating penalties for particular cases.

579. The Section 313 Penalty Policy is not a settlement policy but is used "to calculate penalties for all administrative actions concerning EPCRA Section 313."

580. The Section 313 Penalty Policy categorizes violations into extent levels and circumstance levels to calculate a penalty.

#### **Extent Levels**

581. The extent level of a violation is based on the quantity of each EPCRA §313 chemical manufactured, processed, or otherwise used by the facility; the size of the facility based on a combination of the number of employees at the violating facility; and the gross sales of the total corporate entity.

#### **Extent Level A**

582. In the first category are violations related to facilities that manufactured, processed, or otherwise used more than 10 times the legal threshold of the chemical and employed more than

50 employees, and where the total corporate entity had more than \$10 million in annual sales. In the penalty policy they are referred to as “Extent Level A” violations.

**Extent Level B**

583. The second category is Extent Level B and includes those violations where the facility either:

- a) Processed, manufactured, or otherwise used more than 10 times the legal threshold of the chemical but did not have both more than \$10 million in annual sales for the total corporate entity and 50 employees at the facility; or
- b) Had more than \$10 million in annual sales for the total corporate entity and 50 employees at the facility, but did not process, manufacture or otherwise use more than 10 times the legal threshold of the chemical.

**Extent Level C**

584. The third category is Extent Level C and includes those violations that do not rise to the level of severity of Extent Level A or B violations. Functionally, this means those violations where:

- a) The facility did not exceed the chemical threshold by 10 times, and
- b) Did not have both more than \$10 million in annual sales for the total corporate entity or more than 50 employees at the facility.

**Circumstance Levels**

585. Circumstance levels range in severity from 1 to 6, with “1” representing the most serious violations.

586. This complaint only alleges violations at circumstance levels 1 and 4.

**Circumstance Level 1**

587. Failing to report in a timely manner is classified as a Circumstance Level 1 violation for Form R reports submitted one year or more after the July 1 due date.

588. Similarly, failing to file an annual certification (Form A) in a timely manner is a Circumstance Level 1 violation.

589. Penalties for Circumstance Level 1 violations are calculated once for each violation.

**Circumstance Level 4**

590. Failing to report in a timely manner is classified as a Circumstance Level 4 violation for Form R reports submitted less than one year after the July 1 due date.

591. For the purposes of this penalty discussion only, Complainant is classifying violations for failing to file an annual certification (Form A) in a timely manner submitted less than one year after the July 1 due date as Circumstance Level 4 violations.

592. Penalties for Circumstance Level 4 violations are calculated on a per-day basis.

**Summary Table**

593. The tables below summarize the counts in this Complaint by category and extent level.

594. The counts for each facility are listed by their corresponding number in this Complaint.

595. The second table also list the number of days of violation for the Circumstance Level 4 violations.

596. In addition to the factors discussed above, the ERP also instructs EPA to consider other factors that may affect the penalty amount, such as the Respondent’s attitude and cooperation, history of violations, and other factors as justice may require.

**V. OPPORTUNITY TO REQUEST A HEARING**

597. **The filing of this Amended Complaint should not require Respondent to file a new Answer or Request for Hearing under 40 C.F.R. § 22.15 unless Respondent desires to deny any of the specific amendments. Complainant notes that Respondent filed an Answer to Complaint, Affirmative Defenses and Request for Hearing on May 20, 2019.**

598. The Respondent has the right to request a hearing. Any request for a hearing must be in writing and must be filed with the following within thirty (30) days of receipt of this Complaint:

599. The Answer should clearly and directly admit, deny, or explain each factual allegation contained in this Complaint with regard to which Respondent has knowledge. Where the Respondent has no knowledge of a particular factual allegation and so states, the allegation is deemed denied. The Answer should state: (1) the circumstances or arguments which are alleged to constitute the grounds of defense; (2) the facts which Respondent disputes; (3) the basis for opposing any proposed relief; and (4) whether a hearing is requested. Hearings held on the assessment of the civil penalties will be conducted in accordance with the provisions of the Administrative Procedures Act, 5 U.S.C. § 551 *et seq.*, and the Consolidated Rules of Practice, codified at 40 C.F.R. Part 22. A copy of 40 C.F.R. Part 22 is enclosed with this Complaint.

600. If an Answer to this Complaint is not filed with the Regional Hearing Clerk within thirty (30) days of receipt, such failure shall constitute an admission of all facts alleged in the Complaint and a waiver of Respondent's right to a hearing under EPCRA. A default order may be thereafter issued by the Presiding Officer in accordance with 40 C.F.R. § 22.17.

**VI. SETTLEMENT CONFERENCE**

601. EPA encourages all parties against whom civil penalties are proposed to pursue the possibility of settlement through informal meetings with EPA. Therefore, whether or not a formal hearing is requested, the Respondent may confer informally with EPA about the alleged violations or the amount of the proposed penalty. The Respondent may wish to have a representative appear at the conference, to be represented by counsel, or both. If a settlement is reached, it shall be finalized by the issuance of a written Consent Agreement and Final Order by the Regional Judicial Officer, and filed with the Regional Hearing Clerk. The issuance of such Final Order shall constitute a waiver of Respondent's right to request a hearing on any matter stipulated therein. Please note that a request for an informal settlement conference does not extend the thirty (30) day period during which a written Answer and/or Request for a Hearing must be submitted.

To explore the possibility of settlement in this matter, please address all correspondence to Mr. James Murdock at the address listed above or by telephone call (214) 665-7302.
