51	Failure to comply with Permit requirements for construction dewatering in order to minimize the discharge of pollutants. (Count each failure as 1 violation.) Use of waters of the US as part of the treatment area is not eligible for an ESA.	Groundwater entered surface water while Operator excavated in a side-channel on the Site on June 26, 2019. Those activities resulted in documented turbid discharges in the Yankee Fork River. Operator employed treatment methods, including sediment socks, to attempt to removed the sediment. Footnote 43 associated with Part 2.4.1 of the CGP identifies sediment traps and sediment socks as appropriate controls. However, the treatment methods were ineffective and turbid discharges still occurred from the Site.	2.4		1	X	\$600	\$600
