Stockett, MT 59480

Re: Administrative Order
Docket No. SDWA-08-2008-0104
PWS ID # MT0003202

Dear Mr. Yatsko:

Enclosed is an Administrative Order issued by the Environmental Protection Agency (EPA) under the authority of the Safe Drinking Water Act (SDWA), 42 U.S.C. section 300g-3(g). Among other things, the Order describes how the Centerville Water Users Assn Public Water System has violated the National Primary Drinking Water Regulations.

The Order is effective upon the date received. Please review the Order and within 10 days provide EPA with any information you believe EPA may not have. If you comply with the Order for twelve months, EPA may close the Order without further action. Failure to comply with the Order may lead to substantial civil penalties and/or a Federal court injunction ordering compliance.

Also enclosed is a small business resources information sheet that describes compliance assistance resources and tools available to small businesses and small governments in case these resources apply to your situation.

You may submit information or request an informal conference with EPA by contacting Eric Finke at the above address or by phone at toll free (866) 457-2690 extension 5026, or (406) 457-5026. For legal questions, the attorney assigned to this matter is Marc Weiner, who can be reached at EPA Region 8, 1595 Wynkoop Street, Denver, CO 80202-1129 (with the mailcode 8ENF-L) or by phone at toll free (800) 227-8917 extension 6913, or (303) 312-6913.

I urge your prompt attention to this matter.

Sincerely,

John F. Wardell, Director
EPA Montana Office

ADMINISTRATIVE ORDER

Docket No. **SDWA-08-2008-0104**

The following Findings are made and Order issued under the authority vested in the Administrator of the U.S. Environmental Protection Agency (EPA) by section 1414(g) of the Safe Drinking Water Act (SDWA or the Act), 42 U.S.C. § 300g-3(g) and its implementing regulations, as properly delegated to the Supervisors of the Legal Enforcement Program of the Office of Enforcement, Compliance and Environmental Justice and the Director of the EPA Montana Office, EPA Region 8.

FINDINGS

1. The Centerville Water Users Association (Respondent) is an association and therefore a "person" within the meaning of 40 C.F.R. § 141.2.
2. Respondent owns and/or operates the Centerville Water Users Association Public Water System (the System), located in Cascade County, Montana, for the provision of water to the public for human consumption.
3. According to records maintained by the Montana Department of Environmental Quality (MDEQ), the System has at least 15 service connections or regularly serves an average of at least 25 individuals daily at least 60 days out of the year and is therefore a "public water system" within

the meaning of section 1401(4) of the Act, 42 U.S.C. § 300f(4). The System is a "transient, non-community water system" within the meaning of 40 C.F.R. § 141.2.

4. Respondent owns and/or operates a public water system and is therefore a "supplier of water" within the meaning of section 1401(5) of the Act, 42 U.S.C. § 300f(5), and 40 C.F.R. § 141.2. Respondent is subject to the requirements of Part B of the Act, 42 U.S.C. § 300g, and its implementing regulations found at 40 C.F.R. § Part 141.
5. According to records maintained by MDEQ, the System is supplied solely by a groundwater source consisting of one well and serves an average of approximately 52 persons daily, year round.
6. MDEQ has primary enforcement authority for the Act in the State of Montana. On March 11, 2008, EPA issued a Notice of Violation pursuant to section 1414(a) of the Act, 42 U.S.C. § 300g-3(a) to the MDEQ regarding the violations at the System. The MDEQ elected not to commence an appropriate enforcement action against the System for the violations within the thirty day time frame set forth in section 1414(a) of the Act, 42 U.S.C. § 300g-3(a).
7. EPA has provided the State, through MDEQ, with an opportunity to confer with EPA regarding this Order pursuant to section 1414(g)(2) of the SDWA, 42 U.S.C. § 300g-3(g)(2).
8. EPA has provided a copy of this Order to MDEQ pursuant to section 1414(g)(2) of the SDWA, 42 U.S.C. § 300g-3(g)(2).
9. EPA is issuing this Order requiring the System to comply with the "applicable requirements" it violated pursuant to section 1414(g) of the Act, 42 U.S.C. § 300g-3(g).
10. An "applicable requirement" includes requirements of an applicable approved State program, such

as Montana's "Public Water Supply Requirements," at Administrative Rules of Montana (ARM) 17.38.101 through 703. See 42 U.S.C. § 300g-3(I).

FINDINGS OF VIOLATION

I. Failure to sample for Nitrate.

- A. 40 C.F.R. § 141.23(d) requires the owner and/or operator of a public water system to collect one water sample per year to determine compliance with the Maximum Contaminant Level (MCL) for nitrate, as stated in 40 C.F.R. § 141.62.
- B. Respondent failed to sample for nitrate in calendar year 2006 in violation of 40 C.F.R. § 141.23(d).

II. Failure to sample for total coliform quarterly and monthly as directed by the State.

- A. 40 C.F.R. § 141.21 requires the owner and/or operator of a non-community public water system using only ground water and serving 1000 persons or fewer to collect one total coliform sample every calendar quarter to determine compliance with the coliform MCL, as stated in 40 C.F.R. § 141.63.
- B. Administrative Rules of Montana (ARM) 17.38.215(1)(b) requires transient, non-community public water systems to sample for total coliform monthly when so directed by the State. Said Montana requirement is part of Montana's approved State program and an "applicable requirement" pursuant to section 1414(g) of the Act, 42 U.S.C. § 300g-3(g). Respondent was directed by the State to begin monthly sampling for total coliform bacteria on November 1, 2005.

- C. Respondent failed to sample for total coliform quarterly during 4th quarter 2003; 1st, 2nd, and 3rd quarter 2005; and monthly as directed by the State during November and December 2005; January, March, April, June, July, September, October, November, and December 2006; and January and April 2007; in violation of ARM 17.38.215(1)(b) and 40 C.F.R. § 141.21.

III. Failure to collect a sufficient number of total coliform samples during a month following a positive total coliform test result.

- A. 40 C.F.R. § 141.21(b)(5) requires public water systems that collect fewer than 5 routine total coliform samples per month and that experience a positive test result to collect at least 5 routine samples during the month following the positive test result.
- B. Respondent failed to collect the required number of samples during the months of August (4 samples were collected) and September 2005 following total coliform positive samples in the preceding months, in violation of 40 C.F.R. § 141.21(b)(5).

IV. Exceeded the Maximum Contaminant Level (MCL) for total coliform bacteria.

- A. 40 C.F.R. § 141.63(a)(2) states that a system which collects fewer than 40 total coliform samples per month is in compliance with the MCL if no more than one sample per month is positive.
- B. More than one total coliform positive sample occurred during August 2005, placing the System in violation of the total coliform MCL at 40 C.F.R. § 141.63(a)(2).

V. Exceeded the Acute Maximum Contaminant Level (MCL) for total coliform bacteria.

- A. 40 C.F.R. § 141.63(b) states that any fecal- or E.coli-positive repeat sample constitutes a violation of the MCL for total coliform, and may present an acute risk to health.

- B. A positive result for a fecal- or E.coli-repeat sample occurred during July 2005, constituting a violation of the acute total coliform MCL at 40 C.F.R. § 141.63(b).

VI. Failure to provide public notice of a violation.

- A. 40 C.F.R. § 141.201 et seq. requires owners and/or operators of public water systems to notify the public of any violations of the national primary drinking water regulations (NPDWR).
- B. Respondent has not provided public notice of the violations detailed in Sections I through V above, in violation of 40 C.F.R. § 141.201 et seq.

VII. Failure to report total coliform monitoring violations to the State.

- A. 40 C.F.R. § 141.21(g)(2) requires public water systems to report any failure to comply with a coliform monitoring violation to the State within 10 days after the system discovers the violation.
- B. Respondent failed to report to MDEQ the violations detailed in Sections II and III above, in violation of 40 C.F.R. § 141.21(g)(2).

VIII. Failure to report total coliform MCLs to the State.

- A. Respondent was required to report any total coliform MCL to the State by the end of the next business day after it learned of the violation. 40 C.F.R. § 141.21(g)(1).
- B. Respondent failed to report to EPA the MCL violations listed in Sections IV and V above and, therefore, violated this requirement.

IX. Failure to report other NPDWR violations to the State.

- A. 40 C.F.R. § 141.31(b) requires public water systems to report any failure to comply with any other NPDWR to the State within 48 hours.

- B. Respondent failed to report to the State the violations described in Sections I and VI above, in violation of 40 C.F.R. § 141.31(b).

ORDER

Based on the foregoing Findings, and pursuant to section 1414(g) of the Act,

IT IS ORDERED:

1. Not later than 30 days from the effective date of this Order, Respondent shall comply with the nitrate sampling requirements, as stated in 40 C.F.R. § 141.23(d), for calendar year 2008. Thereafter, Respondent shall comply annually with the requirements to sample for nitrate.
2. Upon the effective date of this Order, Respondent shall comply with total coliform monitoring requirements, including requirements for monthly routine monitoring as required by the State, as stated in 40 C.F.R. § 141.21 and ARM 17.38.215(1)(b).
3. Upon the effective date of this Order, Respondent shall collect at least 5 total coliform samples during the month following a positive total coliform result, as required by 40 C.F.R. § 141.21(b)(5).
4. Upon the effective date of this Order, Respondent shall comply with the total coliform MCL at 40 C.F.R. § 141.63(a)(2).
5. Upon the effective date of this Order, Respondent shall comply with the acute total coliform MCL at 40 C.F.R. § 141.63(b).
6. Upon the effective date of this Order, Respondent shall comply with 40 C.F.R. § 141.21(g)(2) by reporting any failure to comply with a coliform monitoring requirement to EPA and MDEQ within 10 days.

7. Upon receipt of this Order, Respondent shall report any violation of the total coliform MCL to EPA and the State by the end of the next business day after Respondent learns of it. 40 C.F.R. § 141.21(g)(1).
8. Upon the effective date of this Order, Respondent shall comply with 40 C.F.R. § 141.31(b) by reporting any failure to comply with any other NPDWR to EPA and MDEQ within 48 hours.
9. Upon the effective date of this Order, Respondent shall comply with the public notice requirements at 40 C.F.R. § 141.201, et seq., following any future NPDWR violation.
10. No later than 30 days from the effective date of this Order, Respondent shall return to compliance with 40 C.F.R. § 141.201 et seq. by providing public notice of the violations specified in Findings of Violation I through V in this Order. Respondent shall submit a copy of the public notice to EPA and the State within 10 days of completion of the public notice, as required by 40 C.F.R. § 141.31(d). This notice shall be given by (1) posting the notice in conspicuous locations throughout the distribution system frequented by persons served by the System or by mail or direct delivery to each customer and service connection; AND (2) any other method reasonably calculated to reach other persons served by the System if they would not normally be reached by the notice required above, such as publication in a local newspaper; delivery of multiple copies for distribution by customers that provide their drinking water to others; posting in public places or on the Internet; or deliver to community organizations. The System must repeat the notice annually for as long as the violation persists. If the public notice is posted, the notice must remain in place for as long as the violation persists, but in no case less than seven days.

11. Documents, certifications, analytical results, and public notices required by this Order shall be sent by certified mail to:

Eric Finke
EPA Montana Office
10 West 15th Street, Suite 3200
Helena, MT 59626

and Shelley Nolan, Chief
PWS Compliance Section

GENERAL PROVISIONS

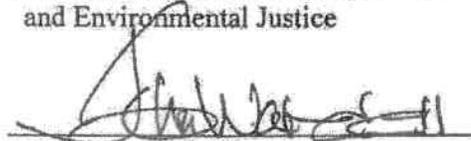

1. This Order does not constitute a waiver, suspension, or modification of the requirements of 40 C.F.R. § 141.1 et seq., or the Act, which remain in full force and effect. Issuance of this Order is not an election by EPA to forgo any civil or criminal action otherwise authorized under the Act.
2. Violation of any term of this Order may subject the Respondent to an administrative civil penalty of up to \$27,500 under section 1414(g)(3)(B) of the Act, 42 U.S.C. § 300g-3(g)(3)(B), or a civil penalty of not more than \$32,500 per day of violation assessed by an appropriate U.S. District Court under section 1414(g)(3)(C) of the Act, 42 U.S.C. § 300g-3(g)(3)(C).
3. Violation of any requirement of the SDWA or its implementing regulations may subject Respondent to a civil penalty of not more than \$32,500 per day of violation assessed by an appropriate U.S. District Court under section 1414(b) of the Act, 42 U.S.C. § 300g-3(b).

4. The effective date of this Order shall be the date of issuance of this Order.

Issued this 18 day of Sept, 2008.
