Subject: Requested action to be taken regarding the 2K7 Water Soluble Paks in shipment with entry number 300-54750162 FIFRA-08-2022-0005

By this memorandum, the U.S. Environmental Protection Agency, Region 8, is informing the Bureau of Customs and Border Protection of the U.S. Department of Homeland Security that the products in the import shipment described below should be **Denied Entry-Refused Delivery** into the United States pursuant to the authority of section 17(c) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), 7 U.S.C. § 136o(c), and the implementing regulations at 19 C.F.R. section 12.114. The entry was marked "Hold Intact," "Refused," and "Re-Export" in ACE by the EPA on October 15, 2021.

The following information pertains to the shipment:

- The importer OSP Microcheck Inc, 820 26th Street North East Bay, Calgary, Alberta T2E7E1 Canada.
- The consignee is OSP Telomer Corporation, 16223 Park Row Drive, Houston, Texas, 77084.
- The broker is Livingston International, point of contact, Brintnell, Randy, rbrintnell@livingstonintl.com.
- The bill number is ODFL20100377033.
- The entry file date was October 9, 2021.
- The quantity is 1,330 pounds of 2K7 Water Soluble Paks.
- The port of entry is Sweetgrass, Montana 3310.
- The country of origin as entered in ACE is Alberta, Canada.

Section 12(a)(1)(F) of FIFRA, 7 U.S.C. 136j(a)(1)(F) provides that it shall be unlawful for any person in any State to distribute or sell to any person any device which is misbranded.

Section 2(t) of FIFRA, 7 U.S.C. § 136(t) defines “pest” as “(1) any insect, rodent, nematode, fungus, weed, or (2) any other form of terrestrial or aquatic plant or animal life or virus, bacteria, or other micro-organism (except viruses, bacteria, or other micro-organisms on or in living man or other living animals) which the Administrator declares to be a pest under section 136w(c)(1) of this title.”

Section 2(p) of FIFRA, 7 U.S.C. § 136(p), defines “label” as “the written, printed, or graphic matter on, or attached to, the pesticide or device or any of its containers or wrappers” and defines “labeling” in part, as “all labels and all other written, printed, or graphic matter – (A) accompanying the pesticide or device at any time; or (B) to which reference is made on the label or in literature accompanying the pesticide....”

Section 2(q)(1) of FIFRA, 7 U.S.C. § 136(q)(1), provides that, “a pesticide is misbranded if –

- (A) its labeling bears any statement, design, or graphic representation relative thereto or to its ingredients which is false or misleading in any particular;
- (B) it is contained in a package or other container or wrapping which does not conform to the standards established by the Administrator pursuant to section 136w(c)(3) of this title;
- (C) it is an imitation of, or is offered for sale under the name of, another pesticide;
- (D) its label does not bear the registration number assigned under section 7 to each establishment in which it was produced;
- (E) any word, statement, or other information required by or under the authority of this Act to appear on the label or labeling is not prominently placed thereon with such conspicuousness (as compared to other words, statements, designs, or graphic matter in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use;
- (F) the labeling accompanying it does not contain directions for use which are necessary for effecting the purpose for which the product is intended and if complied with, together with any requirements imposed under section 3(d) of this Act, are adequate to protect health and the environment; [or]
- (G) the label does not contain a warning or caution statement which may be necessary and if complied with, together with any requirements imposed under section 3(d) of this Act, is adequate to protect health and the environment[.]”

Section 12(a)(1)(E) of FIFRA, 7 U.S.C. § 136j(a)(1)(E) provides that it shall be unlawful for any person in any State to distribute or sell to any person any pesticide which is adulterated or misbranded.

The shipment that arrived at the border for import had a label with the following language, “2K7 Water Soluble Paks, EPA Registration Number, 67420-2, EPA Establishment Number, 67420-CN-01”. The number 67420-CN-01 is not a valid EPA Establishment Number. Therefore, the pesticide is misbranded pursuant to 7 U.S.C. § 136(q)(1) and 40 C.F.R. § 156.10(a)(5), and sale or distribution of the product violates 7 U.S.C. § 136j(a)(1)(E).

The shipment that arrived at the border for import is also in violation of FIFRA section 12(a)(2)(N), 7 U.S.C. § 136j(a)(2)(N), because a registrant, wholesaler, dealer, retailer, or other distributor failed to file reports required by the Act. As required by 19 C.F.R. section 12.114, a Notice of Arrival of Pesticides and Devices, EPA form 3540-1, and a copy of one product label must be submitted.

Therefore, none of the products referenced above in the shipment with entry number 300-54750162 can be allowed entry into the United States.

The Agency hereby notifies U.S. Customs and Border Protection that this merchandise has been refused admission and recommends that this merchandise be re-exported or destroyed within 90 calendar days from the date of this Notice.

On October 15, 2021, the Customs and Border Patrol unit chief in Sweetgrass, Montana, was informed by the EPA that it would deny entry of this shipment.

Please contact Christine Tokarz, the import enforcement coordinator, by phone at (303) 312-6147 or by email at tokarz.christine@epa.gov if you have any questions concerning this matter.
