Subj: Emergency Administrative Order under Section 1431 of the Safe Drinking Water Act, Targhee Village Golf Course, PWS ID# WY5601740, Docket No. SDWA-08-2024-0030

Dear Mr. Sander:

Enclosed is an Emergency Administrative Order (Order) issued by the U.S. Environmental Protection Agency to Cedarcrest, LLC under section 1431 of the Safe Drinking Water Act, 42 U.S.C. § 300i.

The EPA has determined that conditions exist at the Targhee Village Golf Course Public Water System (System) that may present an imminent and substantial endangerment to the persons served by the System. The EPA has made this determination based on a notification from the Teton County Public Health Lab on May 15, 2024, that the System has *E. coli* contamination from the spring-fed source, as described in the Order.

Pursuant to the authority set forth in section 1431 of the Act, 42 U.S.C. § 300i, the EPA is authorized to take actions necessary to protect human health. The Order and its requirements are necessary to ensure adequate protection of public health.

The enclosed Order sets forth the actions that must be taken to ensure that the people served by the System are provided with safe drinking water. The Order requires Cedarcrest, LLC to, among other things, take the following actions: issue a boil water advisory and provide an alternate source of water until notified by the EPA to discontinue; submit a plan and schedule for corrective actions; disinfect and flush the System; and take additional total coliform bacteria samples.

Subj: Emergency Administrative Order under Section 1431 of the Safe Drinking Water Act, Targhee Village Golf Course, Docket No.
