Re: **Dynamic Metal Treating International, Inc., d/b/a Dynamic Surface Technologies International, Inc., Canton, Michigan**
Consent Agreement and Final Order
Docket No. CAA-05-2014-0046

Dear Mr. Epler,

Enclosed please find a fully executed Consent Agreement and Final Order (CAFO) in resolution of the above case. U.S. EPA has filed the original CAFO with the Regional Hearing Clerk on August 27, 2014. Please note Dynamic Metal Treating International, Inc., d/b/a Dynamic Surface Technologies International, Inc.'s (Dynamic's) obligation to pay a civil penalty in the amount of \$19,803 in the manner prescribed in paragraphs 36-41 and please reference your check with the docket number. In addition, Dynamic must complete three Supplemental Environmental Projects worth \$32,422 as prescribed in paragraphs 42-56.

Please feel free to contact Monika Chrzaszcz at (312) 886-0181 if you have any questions regarding the enclosed documents. Please direct any legal questions to William Wagner, Regional Counsel, at (312) 886-4684. Thank you for your assistance in resolving this matter.

Sincerely yours,

Michael E. Hart, Chief
Chemical Emergency

Preparedness & Prevention Section

Proceeding to Assess a Civil Penalty
Under Section 113(d) of the Clean Air
Act, 42 U.S.C. § 7413(d)

Docket No. CAA-05-2014-0046

Consent Agreement and Final Order

Preliminary Statement

1. This is an administrative action commenced and concluded under Section 113(d) of the Clean Air Act (the Act), 42 U.S.C. § 7413(d), and Sections 22.1(a)(2), 22.13(b), and 22.18(b)(2) and (3) of the *Consolidated Rules of Practice Governing the Administrative Assessment of Civil Penalties and the Revocation/Termination or Suspension of Permits* (Consolidated Rules), as codified at 40 C.F.R. Part 22, for violations of Section 112(r) of the Act, 42 U.S.C. § 7412(r), and the implementing regulations.
2. Complainant is the Director of the Superfund Division, United States Environmental Protection Agency (U.S. EPA), Region 5, Chicago, Illinois.
3. Respondent is Dynamic Metal Treating International, Inc., d/b/a Dynamic Surface Technologies International, Inc. (Dynamic or Respondent), a corporation doing business in the State of Michigan.

4. Where the parties agree to settle one or more causes of action before the filing of a complaint, the administrative action may be commenced and concluded simultaneously by the issuance of a consent agreement and final order (CAFO). 40 C.F.R. § 22.13(b).

5. The parties agree that settling this action without the filing of a complaint or the adjudication of any issue of fact or law is in their interest and in the public interest.

6. In order to resolve this matter without litigation, Respondent consents to entry of this CAFO and the assessment of the specified civil penalty, and agrees to comply with the terms of the CAFO.

Jurisdiction and Waiver of Right to Hearing

7. Respondent admits the jurisdictional allegations in this CAFO and neither admits nor denies the factual allegations in the CAFO.

8. Respondent waives its right to request a hearing as provided at 40 C.F.R. § 22.15(c), any right to contest the allegations in this CAFO, and its right to appeal this CAFO.

Statutory and Regulatory Background

9. Section 112(r)(1) of the Act, 42 U.S.C. § 7412(r)(1), provides that it shall be the objective of the regulations and programs authorized under this subsection to prevent the accidental release and to minimize the consequences of any such release of any substance listed pursuant to Section 112(r)(3), or any other extremely hazardous substance.

10. Section 112(r)(3) of the Act, 42 U.S.C. § 7412(r)(3), provides that the Administrator shall promulgate, not later than 24 months after November 15, 1990, an initial list of 100 substances which, in the case of an accidental release, are known to cause or may reasonably be anticipated to cause death, injury, or serious adverse effects to human health or the environment.

11. Section 112(r)(7)(A) of the Act, 42 U.S.C. § 7412(r)(7)(A), provides that in order to prevent accidental releases of regulated substances, the Administrator is authorized to promulgate release prevention, detection, and correction requirements which may include monitoring, record-keeping, reporting, training, vapor recovery, secondary containment, and other design, equipment, work practice, and operational requirements.

12. Section 112(r)(7)(B)(i) of the Act, 42 U.S.C. § 7412(r)(7)(B)(i), provides that within 3 years after November 15, 1990, the Administrator shall promulgate reasonable regulations and appropriate guidance to provide, to the greatest extent practicable, for the prevention and detection of accidental releases of regulated substances and for response to such releases by the owners or operators of the sources of such releases.

13. Section 112(r)(7)(B)(ii) of the Act, 42 U.S.C. § 7412(r)(7)(B)(ii), provides that the regulations under this subparagraph shall require the owner or operator of stationary sources at which a regulated substance is present in more than a threshold quantity to prepare and implement a Risk Management Plan (RMP) to detect and prevent or minimize accidental releases of such substances from the stationary source, and to provide a prompt emergency response to any such releases in order to protect human health and the environment.

14. Under Section 112(r) of the Act, 42 U.S.C. § 7412(r), the Administrator initially promulgated a list of regulated substances, with threshold quantities for applicability, at 59 Fed. Reg. 4478 (January 31, 1994), which have since been codified, as amended, at 40 C.F.R. § 68.130.

15. Under Section 112(r) of the Act, 42 U.S.C. § 7412(r), the Administrator promulgated "Accidental Release Prevention Requirements: Risk Management Programs Under Clean Air Act Section 112(r)(7)," 61 Fed. Reg. 31668 (June 20, 1996), which were codified, and

amended, at 40 C.F.R. Part 68: Chemical Accident Prevention Provisions (Risk Management Program Regulations).

16. “Stationary source” is defined to mean “any buildings, structures, equipment, installations, or substance emitting stationary activities which belong to the same industrial group, which are located on one or more contiguous properties, which are under the control of the same person (or persons under common control), and from which an accidental release may occur.” 40 C.F.R. § 68.3.

17. “Process” is defined to mean “any activity involving a regulated substance including any use, storage, manufacturing, handling, or on-site movement of such substances, or combination of these activities.” 40 C.F.R. § 68.3.

18. Under Section 112(r)(3) of the Act, 42 U.S.C. § 7412(r)(3), the Administrator has listed ammonia (CAS No. 7664-41-7) as a substance which, in the case of an accidental release, is known to cause or may reasonably be anticipated to cause death, injury, or serious adverse effects to human health or the environment. The Administrator has further identified a threshold quantity of 10,000 lbs. for ammonia (CAS No. 7664-41-7) for determining whether sources are subject to the Risk Management Program. 40 C.F.R. § 68.130, Tables 1 and 2.

19. 40 C.F.R. § 68.115 provides that a “threshold quantity of a regulated substance listed in 40 C.F.R. § 68.130 is present at a stationary source if the total quantity of the regulated substance contained in a process exceeds the threshold.”

20. 40 C.F.R. § 68.12 requires that the owner or operator of a stationary source subject to 40 C.F.R. Part 68 shall submit a single RMP, as provided in 40 C.F.R. §§68.150 through 68.185.

21. 40 C.F.R. § 68.12(d) requires that, in addition to meeting the general requirements of

40 C.F.R. § 68.12(a), the owner or operator of a stationary source with a process subject to Program 3 shall meet additional requirements identified at 40 C.F.R. § 68.12(d).

22. Section 113(d) of the Act, 42 U.S.C. §7413(d), and 40 C.F.R. Part 19, provide that the Administrator of the U.S. EPA may assess a civil penalty of up to \$32,500 per day of violation up to a total of \$270,000 for each violation of Section 112(r) of the Act that occurred from March 15, 2004 to January 12, 2009, and a civil penalty of up to \$37,500 per day of violation up to a total of \$295,000 for each violation of Section 112(r) of the Act that occurred after January 12, 2009 and before December 6, 2013.

23. Section 113(d)(1) of the Act limits the Administrator's authority to matters where the first alleged date of violation occurred no more than 12 months prior to initiation of the administrative action, except where the Administrator and the Attorney General of the United States jointly determine that a matter involving a longer period of violation is appropriate for an administrative penalty action.

Factual Allegations and Alleged Violations

24. Respondent is a "person," as defined at Section 302(e) of the Act, 42 U.S.C. § 7602(e).

25. Respondent owns and operates a metal treating facility located at 7784 Ronda Drive, Canton, Michigan, which consists of buildings, equipment, structures, and other stationary items which are located on a single site or on contiguous or adjacent sites, and which are owned or operated by the same person (Dynamic facility).

26. On August 31, 2006, pursuant to Section 112(r) of the Act, 42 U.S.C. § 7412, and implementing regulations, 40 C.F.R. Part 68, Respondent submitted to U.S. EPA an RMP for the Dynamic facility.

27. According to the RMP submitted to U.S. EPA by Respondent, the Dynamic facility:

- a. fell within NAICS Code 68760, as "Metal Heat Treating";
 - b. used ammonia (CAS No. 7664-41-7) as a process chemical during its operations;
- and,
- c. held at least 10,000 lbs. of ammonia (CAS No. 7664-41-7).

28. On February 18, 2009, an authorized representative of U.S. EPA conducted an inspection at the Dynamic facility to determine its compliance with 40 C.F.R. Part 68.

29. The Dynamic facility is a "stationary source," as defined at 40 C.F.R. § 68.3.

30. On August 31, 2006, having held for use in its operations at the Dynamic facility 10,000 lbs. or more of ammonia, Respondent exceeded the applicability threshold established by 40 C.F.R. § 68.130, and became subject to 40 C.F.R. Part 68.

31. Respondent's process is subject to Program 3 requirements because the distance to public receptors, as defined at 40 C.F.R. § 68.30, is less than the distance to the toxic endpoint for a worst-case release assessment under 40 C.F.R. § 68.25, and because the process is subject to the process safety management standard at 29 U.S.C. § 1910.119.

32. Based on the inspection conducted on February 18, 2009, and a review of additional information received by U.S. EPA subsequent to that date, U.S. EPA has identified the following alleged violations by Respondent of the Risk Management Program Regulations:

- a) Failure to maintain documentation on evaluation of consequences of deviation, as required pursuant to 40 C.F.R. § 68.65(c)(1)(v).
- b) Failure to maintain Process and Instrumentation Diagrams, as required pursuant to 40 C.F.R. § 68.65(d)(1)(ii).
- c) Failure to maintain documentation on the relief system design and design basis, as required pursuant to 40 C.F.R. § 68.65(d)(1)(iv).
- d) Failure to maintain documentation on safety systems, as required pursuant to 40 C.F.R.

- § 68.65(d)(1)(viii).
- e) Failure to document that equipment complies with recognized and generally accepted good engineering practices, as required pursuant to 40 C.F.R. § 68.65(d)(2).
 - f) Failure to perform an initial process hazard analysis that identified, evaluated, and controlled the hazards involved in the process, as required pursuant to 40 C.F.R. § 68.67(a).
 - g) Failure to develop and implement written operating procedures that provide instructions or steps for conducting activities associated with each covered process consistent with the safety information, as required pursuant to 40 C.F.R. § 68.69(a).
 - h) Failure to certify operating procedures annually, as required pursuant to 40 C.F.R. § 68.69(c).
 - i) Failure to establish and implement written procedures to maintain the on-going integrity of the process equipment, as required pursuant to 40 C.F.R. § 68.73(b).
 - j) Failure to follow recognized and generally accepted good engineering practices for inspections and testing procedures, as required pursuant to 40 C.F.R. § 68.73(d)(2).
 - k) Failure to ensure that the frequency of inspections and tests of process equipment is consistent with applicable manufacturer's recommendations, good engineering practices, and prior operating experiences or procedures, as required pursuant to 40 C.F.R. § 68.73(d)(3).
 - l) Failure to document the date of inspection or test, the name of the person who performed the inspection or test, the serial number or other identifier of the equipment on which the inspection or test was performed, a description of the inspection or test performed, and the results of the inspection or tests on all process equipment, as required pursuant to 40 C.F.R. § 68.73(d)(4).
 - m) Failure to establish and implement written procedures to manage changes to process chemicals, technology, equipment, and procedures, and changes to stationary sources that affect a covered process, as required pursuant to 40 C.F.R. § 68.75(a).
 - n) Failure to conduct a pre-startup safety review, as required pursuant to 40 C.F.R. § 68.77(b).

33. Section 112(r)(7)(E) of the Act, 42 U.S.C. § 7412(r)(7)(E), provides that after the effective date of any regulation or requirement promulgated pursuant to Section 112(r) of the Act, it shall be unlawful for any person to operate any stationary source in violation of such regulation or requirement.

34. Accordingly, the above-described violations of 40 C.F.R. Part 68 and Section 112(r) of the Act are subject to the assessment of a civil penalty under Section 113(d) of the Act, 42 U.S.C. § 7413(d).

35. Pursuant to Section 113(d)(1) of the Act, 42 U.S.C. § 7413(d)(1), the

Administrator and the Attorney General of the United States, each through their respective delegates, jointly determined that an administrative penalty action is appropriate for this complaint, where the first alleged date of violation, February 18, 2009, occurred more than 12 months prior to the initiation of this administrative action.

Civil Penalty

36. Based on an analysis of the factors specified in Section 113(e) of the Act, 42 U.S.C. § 7413(e), the facts of this case, and factors in the Combined Enforcement Policy for CAA Section 112(r) Risk Management Program, specifically, Respondent's cooperation during the pre-filing investigation and prompt correction of non-compliance, and Respondent's agreement to perform three supplemental environmental projects (SEPs), Complainant has determined that an appropriate civil penalty to settle this action is \$ 19,803.

37. Within 30 days after the effective date of this CAFO, Respondent must pay the \$ 19,803 civil penalty by sending a cashier's or certified check, by regular U.S. Postal Service mail, payable to the "Treasurer, United States of America," to:

U.S. EPA
Fines and Penalties
Cincinnati Finance Center
P.O. Box 979077
St. Louis, MO 63197-9000

The check must note "Dynamic Metal Treating International, Inc." and the docket number of this CAFO.

38. A transmittal letter stating Respondent's name, complete address, and the case docket number must accompany the payment. Respondent must send a copy of the check and transmittal letter to:

Attn: Regional Hearing Clerk, (E-19J)
U.S. Environmental Protection Agency, Region 5
77 West Jackson Boulevard
Chicago, IL 60604

Monika Chrzaszcz (SC-5J)
Chemical Emergency Preparedness and Prevention Section
Superfund Division
U.S. Environmental Protection Agency, Region 5
77 West Jackson Boulevard
Chicago, IL 60604

William Wagner, (C-14J)
Office of Regional Counsel
U.S. Environmental Protection Agency, Region 5
77 West Jackson Boulevard
Chicago, IL 60604

39. This civil penalty is not deductible for federal tax purposes.

40. If Respondent does not timely pay the civil penalty, U.S. EPA may bring an action to collect any unpaid portion of the penalty with interest, handling charges, nonpayment penalties and the United States' enforcement expenses for the collection action under Section 113(d)(5) of the Act, 42 U.S.C. § 7413(d)(5). The validity, amount, and appropriateness of the civil penalty are not reviewable in a collection action.

41. Pursuant to 31 C.F.R. § 901.9, Respondent must pay the following on any amount overdue under this CAFO. Interest will accrue on any overdue amount from the date payment was due at a rate established by the Secretary of the Treasury. Respondent must pay a \$15 handling charge each month that any portion of the penalty is more than 30 days past due. In addition, Respondent must pay a quarterly nonpayment penalty each quarter during which the assessed penalty is overdue according to section 113(d)(5) of the CAA, 42 U.S.C. § 7413(d)(5). This nonpayment penalty will be 10 percent of the aggregate amount of the outstanding penalties and nonpayment penalties accrued from the beginning of the quarter.

SUPPLEMENTAL ENVIRONMENTAL PROJECT

42. Respondent must complete three SEPs designed to protect the environment and public health by improving emergency planning and preparedness.
43. Respondent must complete the SEPs as follows: within 120 days after the filing of this CAFO Respondent shall:
- a. Purchase and install a Single Channel Gas Alarm (Ammonia Detector) system at the facility that will be monitored by a third party;
 - b. Purchase HAZMAT equipment for the Canton Fire Department that will include: 2- Multigas Detectors with PID, 10' probe line and calibration kit, and 1- rapidly deployable multi-sensor gas detection sensor that enables real-time safety and security threat detection;
 - c. Prepare training material and train the Canton Fire Department HAZMAT team on Ammonia Awareness and Safety and on the use of new HAZMAT equipment.
44. Respondent must spend at least \$32,422 to accomplish the projects described in the previous two paragraphs.
45. Respondent certifies that it is not required to perform or develop the SEPs by any law, regulation, grant, order, or agreement, or as injunctive relief as of the date it signs this CAFO. Respondent further certifies that it has not received, and is not negotiating to receive, credit for the SEP in any other enforcement action.
46. U.S. EPA may inspect the facility at any time to monitor Respondent's compliance with this CAFO's SEP requirements.
47. Respondent must submit three SEP completion reports to U.S. EPA within 180 days from the filing of this CAFO. This report must contain the following information:

- a. Detailed description of the SEP as completed, including a copy of all training materials developed;
- b. Description of any operating problems and the actions taken to correct the problems;
- c. Itemized costs of the equipment purchased, training materials developed, and hours associated with the development and the distribution of training;
- d. Certification that Respondent has completed the SEP in compliance with this CAFO; and
- e. Description of the environmental and public health benefits arising from the SEP (quantifying the benefits and pollution reductions, if feasible).

48. Respondent must submit all notices and reports required by this CAFO by first class mail to Monika Chrzaszcz of the Chemical Emergency Preparedness and Prevention Section at the address specified in paragraph 38, above.

49. In each report that Respondent submits as provided by this CAFO, it must certify that the report is true and complete by including the following statement signed by one of its officers:

I certify that I am familiar with the information in this document and that, based on my inquiry of those individuals responsible for obtaining the information, it is true and complete to the best of my knowledge. I know that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.

50. Following receipt of the SEP completion reports described in paragraph 47, above, U.S. EPA must notify Respondent in writing that:

- a. It has satisfactorily completed the SEPs and the SEP reports;
- b. There are deficiencies in the SEPs as completed or in the SEP report and U.S. EPA will give Respondent 30 days to correct the deficiencies; or
- c. It has not satisfactorily completed the SEPs or the SEP reports and U.S. EPA will seek stipulated penalties under paragraph 52.

51. If U.S. EPA exercises option b, above, Respondent may object in writing to the

deficiency notice within 10 days of receiving the notice. The parties will have 30 days from U.S. EPA's receipt of Respondent's objection to reach an agreement. If the parties cannot reach an agreement, U.S. EPA will give Respondent a written decision on its objection. Respondent will comply with any reasonable requirements U.S. EPA imposes in its decision. If Respondent does not complete the SEPs as required by U.S. EPA's decision, Respondent will pay stipulated penalties to the United States under paragraph 52, below.

52. If Respondent violates any requirement of this CAFO relating to the SEPs, Respondent must pay stipulated penalties to the United States as follows:

- a. Except as provided in subparagraph b, below, if Respondent did not complete the SEPs satisfactorily according to the requirements of this CAFO, Respondent must pay a penalty of \$25,197.
- b. If Respondent did not complete the SEPs satisfactorily, but U.S. EPA determines that Respondent made good faith and timely efforts to complete the SEPs and certified, with supporting documents, that it spent at least 90 percent of the amount set forth in paragraph 44, Respondent will not be liable for any stipulated penalty under subparagraph a, above.
- c. If Respondent completed the SEPs satisfactorily, but spent less than 90 percent of the amount set forth in paragraph 44, Respondent must pay a penalty of \$5,000.
- d. If Respondent did not submit timely the SEP completion report, Respondent must pay penalties in the following amounts for each day after the report was due until it submits the report:

<u>Penalty Per Violation Per Day</u>	<u>Period of Violation</u>
\$100	1 st through 14 th day
\$200	15 th through 30 th day
\$500	31 st day and forward

53. U.S. EPA's determinations of whether Respondent completed the SEP satisfactorily and whether Respondent made good faith and timely efforts to complete the SEP will bind Respondent.

54. Respondent must pay any stipulated penalties within 15 days of receiving U.S. EPA's written demand for the penalties. Respondent will use the method of payment specified in paragraphs 36-41, above, and will pay interest, handling charges, and nonpayment penalties on any overdue amounts.

55. Any public statement that Respondent makes referring to the SEP must include the following language, "Dynamic Metal Treating International, Inc. undertook this project in settlement of an enforcement action brought by the United States Environmental Protection Agency for violations of the emergency planning requirements of the Clean Air Act."

56. For federal income tax purposes, Respondent will neither capitalize into inventory or basis, nor deduct any amount of the \$32,422 expenditure incurred in performing the SEP, and any amounts spent in excess of that will be handled in compliance with all applicable tax laws and regulations.

General Provisions

57. This CAFO resolves Respondent's liability only for federal civil penalties for the violations alleged in this CAFO.

58. The CAFO does not affect the right of U.S. EPA or the United States to pursue appropriate injunctive or other equitable relief or criminal sanctions for any violation of law.

59. This CAFO does not affect Respondent's responsibility to comply with the Act and other applicable federal, state, and local laws. Except as provided in paragraph 57, above, compliance with this CAFO will not be a defense to any actions subsequently commenced pursuant to federal laws administered by Complainant.

60. Respondent certifies that to the best of its knowledge it is complying with 40 C.F.R. Part 68.

61. The terms of this CAFO bind Respondent, its successors, and assigns.

62. Each person signing this consent agreement certifies that he or she has the authority to sign for the party whom he or she represents and to bind that party to its terms.

63. Each party agrees to bear its own costs and attorneys' fees in this action.

64. This CAFO constitutes the entire agreement between the parties.

65. The effective date of this CAFO is the date when this CAFO is filed with the Regional Hearing Clerk's office.
