Count I

19. The reporting threshold for lead that is manufactured (including imported), processed, or otherwise used during the 2013 calendar year is 100 pounds. 42 U.S.C. § 11023(f) and 40 C.F.R. § 372.28.

ANSWER: CAMtek admits that it used a tin/lead solder, which contained lead, at its facility in 2013. Except as expressly admitted, any additional allegations are denied.

21. Lead is a chemical identified at Section 313(c) of EPCRA, 42 U.S.C. § 11023(c), and listed at 40 C.F.R. § 372.65.

ANSWER: CAMtek admits that the failure to timely submit a Form R for lead for the 2013 calendar year is a violation of the applicable statutory provisions setting forth the date for submission of the Form R.

Proposed Penalty

26. Complainant proposes that the Administrator assess a civil penalty against Respondent for the EPCRA violations alleged in this Complaint as follows:

Count I

Failure to submit timely a Toxic Chemical Release Inventory Reporting Form for lead for calendar year 2013:

CAS No. 7439-92-1.....	\$24,080
Total Proposed Civil Penalty	\$24,080

ANSWER: CAMtek objects to the Proposed Civil Penalty as follows:

1. The Total Proposed Civil Penalty of \$24,080 is excessive under the Penalty Matrix set forth at page 11 of the Enforcement Response Policy for Section 313 of the Emergency Planning Community Right-To-Know-Act (1986). Other factors militate for a lessening of the penalty level and/or a decrease in the proposed penalty:

- In 2014, when the Form R for 2013 was due, CAMtek had sales of less than \$10,000,000.

- CAMtek is a manufacturer of printed circuit board assemblies and other electronic assemblies. In 2013, CAMtek's operations involved use of a tin/lead solder where tin was the primary component of the solder.

- CAMtek used less than ten times the threshold of the §313 limit for lead in 2013.

- CAMtek employed 65 or less employees in 2013 and 2014.

- CAMtek is a manufacturer of printed circuit board assemblies and other electronic assemblies. CAMtek's operations involved use of a tin/lead solder where tin was the primary component of the solder.

- For 2014, CAMtek reported a financial loss of nearly \$700,000 on its federal tax returns. CAMtek is financially unable to pay the proposed penalty.

2. CAMtek further cooperated during an inspection at its facility as conducted by an EPA representative. CAMtek attempted to reach the EPA representative for additional assistance after his visit regarding the completion of the Form R, but a response was not received.

3. CAMtek enjoyed no economic benefit from the non-compliance at issue.

HEARING REQUEST

CAMtek respectfully requests that it be heard before an Administrative Law Judge in this matter.

Respectfully submitted,

CAMTEK, INC., RESPONDENT
