DISPUTE OF THE ALLEGED VIOLATIONS AND REQUEST FOR HEARING

Count 1: Failure to comply with section2025(x)(2) of the Truck and Bud Regulation. the Regulation to Reduce Emissions of Diesel Particulate Matter, Oxides of Nitrogen, and other Criteria Pollutants, from In-use Heavy-duty Diesel-fueled Vehicles.

Norco denies the allegations herein. The complaint alleges that Norco failed to submit records to show compliance. Norco submitted many records at the request of representatives of the EPA. Norco feels that they submitted enough evidence to show they were complying with the spirit and the letter of the law.

Norco initially filed the documents asked for in the original letter from the EPA. The data used was inaccurate and in subsequent conversations with representatives of the EPA, Norco corrected the data. None of the data from the original submission should be considered.

We ask that this complaint be dismissed or request a hearing.

Thank You

A handwritten signature in blue ink that reads "A-G. Hollenstein". The signature is written in a cursive, flowing style.

A.G. Hollenstein
