more detail with anyone who is proceeding pro se just to make sure you have a grasp of how the hearing goes. And certainly, if you have any questions at all, you just let me know. I'm happy to explain.

2.0

The complainant, or Region 7 -- I kind of use the terms interchangeably -- bears the burden in the case. And so they have the burden of persuasion, and they need to go first when it comes to presenting their case.

So before each witness testifies, I'll place them under oath so that their testimony is sworn. The Region will conduct their direct examination of their witness, after which you will have an opportunity to cross-examine that witness based on the testimony that they've offered on direct. I then give the parties the opportunity for any redirect and even any recross, if something comes up, and then usually, end it there. I'll follow that same process with each of the Region's witnesses. And I'll actually follow that process with you and your witnesses once their case-in-chief rests and you begin your presentation. You'll be conducting direct. They'll be conducting cross. Same process.

opportunity to file any motions to conform the transcript. Basically, it's just if there are any typos or any mistakes that you want to make note of. I typically rule on that in advance. If they're really minor, sometimes I'll even incorporate it into the initial decision.

But after that is done, there will be a briefing period whereby each side has the opportunity to submit post-hearing briefs. I tend to stagger them but, you know, we'll just see. But I -- I let you know about that via post-hearing briefing order, and it gives you deadlines to submit your initial brief and then any reply brief. And once all that's done, then I go about the business of reviewing everything and writing an initial decision.

This case is going to involve liability as well as penalty. It will cover both of those issues. And that can take some time. So we do try to work efficiently, but we're also pretty detailed and thorough, and that just takes time. So we do the best we can.

Obviously, any decision I issue is appealable. Should one side or sometimes both disagree with my decision, you can appeal to the

Page 14

Before we begin with the witnesses, I do give the parties the opportunity for any brief opening statements if you wish and any brief closing remarks before we conclude, if you wish. You don't have to. You can. It's all considered argument. So I generally caution to make them brief because really, what I'm looking at is the evidentiary record that's going to be created from this hearing. That will consist of testimonial evidence when each witness testifies as well as documentary evidence for any documents that are admitted into evidence. And I think we've got some housekeeping to do in that regard in just a minute. But that will consist of the evidentiary record.

And then once the hearing closes, that concludes any and all evidence. After we finish -- which, you know, I don't know how long it will take us. I understand that you've reduced the number of witnesses to just what you think is really necessary, and that's great, to preserve time and resources. So whether that takes us into two days or three, whatever the case may be, once we finish, what happens is the transcript, which is the official record for this proceeding, will then be sent out to both parties. You'll have an

Page 16

Page 15

Environmental Appeals Board and then thereafter into the -- into an Article III court.

Any questions at all about that process, Mr. Pierce?

MR. PIERCE: No, ma'am.

THE COURT: Okay. And from the Region? MR. MUEHLBERGER: No. Your Honor.

THE COURT: Okay. A couple of housekeeping notes. The courtroom opens early, earlier than I'm used to, which is wonderful in case we want to get started early. I understand that they open at 7. The doors open at 7 and close at 5. So we can keep that in mind just for scheduling purposes for tomorrow and if there's a third day. I'm happy to start early and work, you know, right up until we can if that helps shorten the amount of time you'll have to be here.

I know it's stressful on litigants. So I like to try to do all that I can to minimize that as much as possible.

There's no cafeteria in here, but lots of lunch spots. So we'll obviously take a break for lunch. I defer to you all as to how much time you want. I come prepared either way. So we can take an hour. We can take less. I'll kind of go

Page 17 Page 19 1 over that with you when the time comes. And I try 1 repeated attempts to contact him. So it's unclear 2 2 to be mindful of taking comfort breaks throughout whether or not he will be present. 3 3 the proceedings, but if I get absorbed and forget, THE COURT: Okay. Was service effectuated? 4 4 MR. MUEHLBERGER: We -- we got -- there was a please don't hesitate to just let me know you'd 5 5 like a five, ten-minute break just to collect signature, right, at the -- what was it? Oh, yeah. 6 6 yourselves, use the restroom, whatever the case may UPS said that they had left it at the door, but we 7 7 be. Just kind of keep me on track with that, okay, did not get a signature. So no, we did not get 8 8 so everyone is comfortable. service effectuated. 9 9 Any questions about some of those basic THE COURT: Okay. So what's the plan with 10 logistics? 10 that? Are you -- if he doesn't then appear, do 11 MR. MUEHLBERGER: No. 11 you -- you're just going to proceed without him? 12 THE COURT: No. Okay. Let me get a quick 12 Or did --13 rundown of the witnesses. I did jot them down. 13 MR. MUEHLBERGER: Yes, Your Honor. EPA's 14 Jennifer shared information with me with this last 14 position is that we don't need Mr. Robinson's 15 prehearing conference that she held with you all. 15 testimony. What we have in the record is 16 But if you would, just to make sure that we're all 16 sufficient for proving the elements of our case. 17 on the same page. I'll begin with the Region. 17 THE COURT: Okay. All right. Okay. All 18 Can you just give me the names of the 18 right. And then we'll talk about Mr. Sprague in 19 witnesses you intend to call as part of your direct 19 just a second. 20 case. 20 Mr. Pierce, can you review with me the 21 MR. MUEHLBERGER: Yes, Your Honor. First, 21 witnesses you intend to present as far as your case 22 I'd like to introduce Erin Kleffner. She will be 22 on behalf of Adamas and yourself? 23 representing the EPA Region 7, and she is a 23 MR. PIERCE: Yes, Your Honor. I'd 2.4 compliance officer in this case. 24 be -- Ernie Sprague would be one of the witnesses. 25 THE COURT: Okay. Thank you. Welcome. 25 Michelle Pierce and myself will be the witnesses on Page 18 Page 20 1 MR. MUEHLBERGER: We also plan to call James 1 behalf of myself and Adamas. 2 2 Courtney, formerly of IHS, Indian Health Services, THE COURT: Okay. So I had notes of two 3 3 now works for the National Park Service. He will other individuals, Sean Bad Bear and Dana be participating via video conference through Eaglefeathers. You're not planning to call them? 4 4 5 5 Teams. We also plan to call Ernie Sprague, who is MR. PIERCE: Your Honor, Sean Bad Bear is 6 in attendance right now. And I've got a question 6 unable to be in attendance, and as well as 7 7 about that as well. Mr. Eaglefeather. He has a conflict that does not 8 8 THE COURT: Okay. allow him to be here. And I didn't have time to 9 9 MR. MUEHLBERGER: Mr. Sprague has asked if he make motion or subpoena. 10 could attend the full hearing. But I wanted to 10 THE COURT: Are you comfortable proceeding 11 make it very clear with the Court that he's also a 11 without them? 12 witness that we are -- that we plan to call. And 12 MR. PIERCE: Yes, Your Honor. 13 so I want to just leave it to the Court whether or 13 THE COURT: Okay. So let's talk a moment, 14 14 not that you're okay with his attendance. then, about Mr. Sprague. Basically, I think it 15 THE COURT: Okay. We'll deal with that in 15 comes down to an issue of sequestration and whether 16 just a second. 16 or not either side wishes to have the witnesses 17 MR. MUEHLBERGER: Sure. 17 sequestered throughout the process. I usually 18 18 THE COURT: Do you have another witness? defer to both sides about that rather than sua 19 MR. MUEHLBERGER: That's everybody. 19 sponte, on my own. Since you're both calling him, 2.0 THE COURT: Those three? 20 I don't know what the position is on that. 21 MR. MUEHLBERGER: Yeah. 21 Are you comfortable having him remain in 22 22 THE COURT: Okay. the proceeding throughout, Mr. Pierce? MR. PIERCE: Yes, Your Honor. 23 MR. MUEHLBERGER: We also -- just for the 23 24 record, we issued a subpoena to Tom Robinson. We 24 THE COURT: Okay. And Mr. Muehlberger, how 25 have not heard back from Mr. Robinson after 25 about you?

Page 21 Page 23 1 MR. MUEHLBERGER: Your Honor, given the low 1 particular piece of evidence. Those are two very 2 number of witnesses in the case, I think we're fine 2 distinct concepts. 3 If anyone needs me to elaborate, please with proceeding. 3 4 4 THE COURT: Okay. All right. So say. Even some of the most experienced litigators 5 5 Mr. Sprague, where are you? Okay. So aren't always familiar with that distinction. 6 6 you're -- good morning. You're welcome to just So even though it comes in and it's a 7 remain in the courtroom for now. 7 fairly, I would say, liberal policy with regard to 8 8 MR. SPRAGUE: Thank you. the evidentiary rule that we follow, EPA has it 9 9 THE COURT: Okay. And, I mean, this is an identified in our rules. I could read it to you. open hearing. But just so I know, who is the other 10 10 There are lots of, like, double negatives, which 11 11 gentleman in the gallery? kind of drive me crazy. But basically, it goes to 12 12 MR. BREEDLOVE: Your Honor, my name is Dan relevance, materiality, not being unduly 13 Breedlove. I'm with the Environmental Protection 13 repetitive. They're kind of common concepts, 14 14 particularly in an administrative context, for what Agency. 15 15 THE COURT: Oh, you're just observing? is allowed, which can also include hearsay. But 16 MR. BREEDLOVE: Yes, ma'am. 16 that is something distinct from the amount of 17 17 THE COURT: Okay. No problem. weight I afford any particular piece of evidence 18 18 based on the totality of the record. Okay. So we have that squared away. 19 Mr. Sprague will remain throughout. Let's just 19 So even if it's in the record and it's 20 20 talk about one final housekeeping matter before we admitted, you can always argue how much weight I 21 get started, and that is with regard to the joint 21 should assign a particular piece of evidence based 22 22 set of stipulated facts, exhibits, and/or on a variety of factors that you want to argue 23 23 testimony. I think we're going to need to spend about. Hearsay, I suppose, being one of them, but 24 just a few minutes on this because I also need to 24 others too. 25 review just a few things here based on the final 25 Is that -- is that clear, Mr. Pierce? Page 22 Page 24 1 exhibits that came in. 1 MR. PIERCE: It is, Your Honor. 2 2 So I'm prepared to honor this joint set THE COURT: Okay. And Mr. Muehlberger or 3 3 Ms. Kacsur, any questions about that? of stipulations that was previously submitted, 4 MR. MUEHLBERGER: No, Your Honor. 4 which would provide for the stipulation of both 5 5 THE COURT: Okay. All right. So do you want sides to the admissibility of all evidence included 6 in complainant's prehearing exchange and 6 to just offer all of that in now and get that out 7 7 of the way since there aren't any -- it sounds like Supplements 5 on or before July 25, 2022. By my 8 8 account, that amounts to CX1 through CX58. Am I there aren't going to be any foundational 9 9 correct? challenges to admissibility? 10 MR. MUEHLBERGER: Yes. 10 MR. MUEHLBERGER: Complainant continues to 11 THE COURT: Okay. And then also a joint 11 stipulate to the admissibility, Your Honor. 12 12 THE COURT: Okay. And how about you, stipulation to the admissibility of all evidence 13 included in respondent's prehearing exchange and 13 Mr. Pierce? 14 14 MR. PIERCE: Your Honor, I do have some Supplements 5 on or before the same date of July 15 25, 2022. And by my account, that was RX1 through 15 challenges. But I believe I can -- as you stated, 16 16 RX28; is that correct? I can challenge them directly. So I will admit to 17 MR. PIERCE: That's correct. Yes, Your 17 the stipulations and then challenge them directly 18 18 to the weight. Honor. 19 19 THE COURT: Okay. Any issues with me THE COURT: Okay. All right. So you 20 20 admitting this, these exhibits in the beginning understand the concept that I'm getting at with 21 or -- I mean, by stipulating to the admissibility, 21 regard to those two things? 22 22 MR. PIERCE: Yes, Your Honor. I can it basically dispenses with foundational issues and 23 23 challenge the entire stipulation or I can challenge that type of thing. Of course, the parties always 24 have the ability to argue, present argument with 24 the weight of the evidence as it's presented. 25 25 regard to how much weight I should attribute any THE COURT: Right. By stipulating,

Page 25 Page 27 1 hearing so that by motion, if you wanted to 2

If something wasn't stipulated to, then -- and this would apply to both sides -- you'd have to have a witness come in, testify about the document, authenticate it, and cover other foundational bases before you could then admit it, offer it for admission into evidence. By stipulating to the admissibility of that, you're sort of going past all of that.

But the important point that I wanted to make is that even though the evidence is in the record, a separate -- I am separately tasked with having to review all of that evidence and determine how much weight I want to place on any piece of it when I'm coming to a decision in the case. MR. PIERCE: I appreciate the clarification.

Under that context, there are some challenges that I would like to make to the stipulations.

THE COURT: You no longer wish to stipulate? MR. PIERCE: That's correct, Your Honor.

24 THE COURT: And why is that?

25 MR. PIERCE: So, Your Honor, when we withdraw your stipulation so that there was time for me to rule in advance of the hearing and for arrangements, you know, obviously, to be made to deal with that.

But I would also point out that the same would hold true with regard to your evidence. So if the stips don't come in, it applies to everybody

MR. PIERCE: Yes, ma'am.

11 THE COURT: So, you know, it's just something 12 to keep in mind if you still wish to challenge 13

> MR. PIERCE: I do. And I believe the burden is on the EPA.

THE COURT: Okay. Mr. Muehlberger, did you have any -- or Ms. Kacsur -- Kacsur?

MS. KACSUR: Kacsur. It rhymes with Frazier. THE COURT: Kacsur. Okay. All right. I'm

spelling it phonetically. Thank you.

Any response before I make a ruling?

22 MR. MUEHLBERGER: Yes, Your Honor. Just a

23 few points. I would like to point out that under

24 Part 22, respondents had the same opportunity that

25 EPA did to call witnesses, to use the subpoena

Page 26

Page 28

1 initially came to the agreement of these 2 stipulations, it was understood that witnesses

3 would be available for cross-examination and would

be here at the hearing so that we could

5 authenticate the particular evidence on hand. I 6 was notified basically at the 11th hour that many

of those witnesses will not be available for me to cross-examine and will not be here to testify

9 today.

> And just going based upon the rules of practice from the administrative law judge, page 39, it seems like those stipulations where they cannot be here to testify and cross-examine wouldn't be admissible.

THE COURT: Um, well, I would say this: You should realize, too -- I mean, it's up to my

17 discretion --

MR. PIERCE: Sure.

THE COURT: -- whether or not I'm going to allow you to now no longer stipulate, especially since we're at the hearing.

22 MR. PIERCE: Sure.

23 THE COURT: Because I think you were advised

24 that if you wanted to make those types of

25 challenges, it needed to be done in advance of the authority under Part 22. To our knowledge,

2 Mr. Pierce did not contact any of the witnesses,

including Mr. Robinson or Ms. Sheri Bement, that he 3

named as someone that he wanted to see present at

the hearing.

As far as providing this at the 11th hour, we've made it very clear in each of our prehearing conferences where we were with respect to calling the witnesses and who was going to be able to attend. I'd also like to add that, you know, part of our plans to cover this hearing over a four-day period were based on that motion for stipulation so that we wouldn't have to lay a foundation. So I think as far as expediency is concerned, that that would have a big impact on the length of the hearing. So for those reasons, we would oppose any motion at this point to withdraw stipulations.

THE COURT: Okay. Um, my ruling is going to be that I'm going to honor this joint set of stipulated facts, exhibits, and/or testimony. I think at this moment at the hearing right now, we're really far beyond withdrawing that. And I also think it, frankly, behooves both sides for me to honor this. Because otherwise, there's very

Page 29 Page 31 1 1 complainant has presented. But let me just -- I little you all could be able to present on both 2 2 just want to make sure we're all on the same page sides with respect to the matter based on your 3 drastically reduced witness list. And I just think 3 right out of the gate to be very clear up front. 4 4 it's the fair thing to do at this stage. We're 5 5 here. We're ready to begin. So any desire or MR. PIERCE: Yes, Your Honor. 6 6 motion to try to withdraw that prior stipulation THE COURT: So I just want to run through 7 7 should have been done before now. So I'm going to these with you. And I'll ask complainant to follow 8 8 along, too, just so you can make sure that we're honor it. 9 9 all in agreement here. Certainly, if you wanted to disagree 10 with that ruling, I mean, it's something you could 10 So looking at those final hearing 11 11 always include as a basis for appeal if you wish. exhibits from respondents, obviously, RX1 through 12 12 But as I said, I think it's really the benefit of RX18, actually 19, all are -- all begin with that 13 both sides for me to do that. 13 RX designation. There's -- after that, there is an 14 14 So with that said, I will go ahead and I RX20 identified as the TERO letter of Sean Bad 15 15 just guess at the outset admit into the record CX1 Bear, which correlates to what was proposed 16 through CX58 and RX1 through RX28. 16 prehearing. Same with RX21, letter to Frank 17 17 (Whereupon, Complainant Exhibits Nos. Backbone. Am I correct so far? MR. PIERCE: Yes, Your Honor. 18 18 CX1 through CX58 were admitted into evidence.) 19 (Whereupon, Respondent Exhibits Nos. RX1 19 MR. MUEHLBERGER: We've seen these exhibits, 20 20 through RX28 were admitted into evidence.) Your Honor. 21 THE COURT: I understand that you've 21 THE COURT: Okay. And then jumping up to 22, 22 22 submitted those final exhibits to the court there's the placeholder. That's RX22. And that 23 23 remains a placeholder for the 308 responses from reporter, as well as I was able to access them via 24 24 Tom Robinson that I believe is contained in OneDrive. Is that -- or Share. I get the terms 25 25 confused. But I basically was able to get ahold of complainant's exhibits. Page 30 Page 32 1 them. Am I right? 1 MR. PIERCE: That's right. 2 2 MR. MUEHLBERGER: Yes, Your Honor. That's THE COURT: Okay. Agreed, Mr. Pierce? 3 3 MR. PIERCE: Yes, Your Honor. correct. THE COURT: Okay. And I think that that 4 MR. PIERCE: Yes, Your Honor. 4 5 5 THE COURT: Now, with respondent's final holds true also for RX23, which is for the D&R 6 exhibits, I need to just cover a couple of quick 6 Disposal, the 308 response that's contained in 7 7 points. Complainant, did you go through them? complainant's exhibits. 8 8 MR. MUEHLBERGER: Yes, Your Honor. MR. PIERCE: Yes, Your Honor. 9 9 THE COURT: Okay. Because the way they THE COURT: Okay. And also for RX24, which 10 came -- I basically looked at them. And I 10 is for the 308 responses from NCUC, also contained 11 appreciate that I think Mr. Pierce took what had 11 in complainant's exhibits. 12 been previously submitted as a proposed -- as 12 MR. MUEHLBERGER: We agree, Your Honor. 13 proposed exhibits, a kind of consolidated document 13 THE COURT: Okay. 14 that I think had 25 through 28, and you broke that 14 MR. PIERCE: Agreed, Your Honor. 15 out into each individual one, which is fine. 15 THE COURT: Okay. All right. So that brings 16 Great, actually. But the way that they are 16 us to 25, what would be RX25. And that's where I 17 17 got to the document titled, "Gmail, Compliance with described here in this, you need to open each one 18 to see what exhibit it is. 18 503." That's RX25. That aligns with what was 19 19 So I just went through to look to see submitted as a proposed exhibit prehearing, right? 20 which one correlated with which. And in doing so, 20 MR. PIERCE: Correct. Yes, Your Honor. 21 I also noted that there were three documents 21 MR. MUEHLBERGER: If I can just take a second 22 22 included that had not, as far as I could tell, been to look at the document. 23 23 THE COURT: Sure. part of the prehearing exchange. Two of them, I 24 don't know how much it matters because I think it's 24 MR. MUEHLBERGER: We're fine with that, Your 25 duplicated with what respondent -- or with what 25 Honor.

Page 33 Page 35 1 THE COURT: Okay. And the document titled, 1 THE COURT: -- to be able to do it. Okay. 2 2 "Gmail, Dion, August 24, 2018 payments" is what So is it your understanding as well that that Plain 3 3 corresponds to RX26. And that appears in the English Guide is a duplicate of their CX36? 4 MR. PIERCE: Yes, Your Honor. 4 document when you open it. I'm just trying to 5 5 identify it up front based on the title of it THE COURT: Okay. All right. And then the 6 6 alone. Is that -next one is the land application sewage sludge 7 7 MR. PIERCE: Yes, Your Honor. document. And I made a note to myself that it 8 8 THE COURT: Okay. looked like it was a possible duplicate of RX16. 9 9 MR. MUEHLBERGER: We're fine with that Is that right? 10 exhibit, Your Honor. 10 MR. PIERCE: I believe so. Yes, Your Honor. 11 THE COURT: Okay. And then the next document THE COURT: Okay. Is that your 11 12 12 titled, "Gmail, Notice to cease and desist" understanding, too? Was that the one? Yeah. I 13 13 corresponds to RX27; is that right? think there was just a little bit of a page 14 14 MR. PIERCE: That is correct, Your Honor. difference, 103 pages versus 105. 15 15 MR. MUEHLBERGER: We're fine with that as MR. MUEHLBERGER: We're familiar with that 16 document. And however you want to have that 16 well, Your Honor. 17 17 entered into evidence, we're fine. THE COURT: Okay. And then lastly, the 18 18 letter to Senator Daines for Bryce Redgrave, July THE COURT: Okay. I think it was already 19 RX16, so I'm just going to leave it alone. 19 12, 2019, corresponds to RX28. 20 20 And then -- so I think we're squared MR. PIERCE: That's correct. Yes, Your 21 away there. The only other standalone document 21 Honor. 22 that I don't see -- I see as new, actually, is an 22 MR. MUEHLBERGER: No objections, Your Honor. 23 23 THE COURT: Okay. All right. So we've got NWPR fact sheet overview that has -- that looks to 24 24 RX1 through 28. Those also are admitted into be or purports to be from EPA's fact sheet, 25 25 Navigable Waters Protection Rule, regarding a time evidence. That leaves three remaining documents in Page 34 Page 36 1 here that were sent to the court reporter and to me 1 frame of January 23, 2020. I'm not really sure how 2 2 that are not actually marked as respondent's this is relevant, but... What was the purpose of 3 3 exhibits and have now been offered into evidence by including it? 4 4 stipulation or admitted. But I see some MR. PIERCE: Um, Your Honor, it obviously 5 5 talks about navigable water and how that's duplication, so I feel like it's worth covering or 6 pointing out. 6 determined. The EPA has brought this as a Clean 7 7 Water case and has identified a creek that actually The first is with the Plain English 8 8 Guide Part 503 Biosolids Rule. It's a PDF in is non-navigable. That would provide guidance for 9 9 respondent's final exhibits. From what I could it. It was also something that was submitted with 10 10 a previous motion to dismiss during this tell, it appeared to be a duplicate of 11 11 complainant's Exhibit 36; is that right? proceeding. THE COURT: Okay. Well, um, you know, the 12 12 MR. MUEHLBERGER: That's correct. And we 13 13 don't have any issue with entering that into navigable waters issue is, even as we speak, under 14 14 development based on a recent Supreme Court case. evidence on the other side. 15 15 THE COURT: Well, I'd rather not go down that But more importantly, I believe that the law I have 16 to apply is the law that was in effect at the time 16 road --17 17 of the alleged incidences giving rise to this MR. MUEHLBERGER: Okay. 18 enforcement action. And my understanding is those 18 THE COURT: -- simply because I think it's 19 19 incidences allegedly took place in the July-August just going to muddy the record. We've got RX1 20 2018 time frame. Am I correct? 20 through 28 coming in. If it's already in your exhibits, you can refer -- Mr. Pierce, you can 21 21 MR. MUEHLBERGER: That's correct. 22 22 MR. PIERCE: Correct, Your Honor. refer to the complainant's exhibits for any 23 THE COURT: Okay. So anything happening 23 arguments as well. It benefits you in that 24 after the fact and still in development I don't 24 regard --25 believe is appropriate for me to be considering. I 25 MR. PIERCE: Perfect. Thank you, Your Honor.

Page 37 Page 39 1 1 THE COURT: Okay. So I won't admit this believe I'm obligated to consider the law in effect 2 2 at the time of the incidences that gave rise to document. But obviously, you can -- you can 3 3 this allegation in this administrative enforcement argue the legal issue as you wish in, you know, 4 4 complaint, not something that's happened after the post-hearing. 5 5 fact and that may very well be changing as we MR. PIERCE: Yes, Your Honor. 6 6 THE COURT: Okay. All right. Okay. So 7 7 we're squared away with the exhibits. Anything So I don't see the relevance of it. You 8 8 can make whatever arguments you wish in briefing else before I offer the parties the chance for any 9 9 type of opening statement or to simply begin the and certainly question witnesses as you wish as 10 long as it's relevant to what I have before me. 10 11 11 But I think I'm committed to the law that was in MR. MUEHLBERGER: None from complainant, Your 12 12 effect at the time, not what's happened Honor. 13 subsequently. Is there any difference of opinion 13 THE COURT: Mr. Pierce? 14 on that? 14 MR. PIERCE: No, Your Honor. 15 MR. PIERCE: Yes, Your Honor. I think, based 15 THE COURT: Okay. All right. Then I'll ask 16 16 upon the Supreme Court decision you're speaking of, complainant to go ahead and please -- did you want 17 if we only applied the law at the time, the Supreme 17 to make an opening statement? 18 Court wouldn't have any reason to review that. 18 MR. MUEHLBERGER: Yes, Your Honor. 19 That decision was made -- their decision is made 19 THE COURT: Okay. Please go ahead. 20 based upon real-time information, not based upon 20 MR. MUEHLBERGER: Thank you, Your Honor. 21 the law as it was at the time and whether that law 21 May it please the Court -- is the 22 was applicable. So if we do it as based upon the 22 microphone on? Got it. 23 law at the time, but that law was not applicable or 23 THE COURT: Okay. Now I can hear you. 24 ruled to not be something that the EPA was allowed 24 MR. MUEHLBERGER: Let's try again. 25 to have within their authority, then are we really 25 /// Page 38 Page 40 1 ruling on a law that is something that should be 1 COMPLAINANT'S OPENING STATEMENT 2 2 applied. MR. MUEHLBERGER: May it please the Court, 3 3 THE COURT: Yeah. I understand the point once again, my name is Chris Muehlberger, and I with respect to the constitutionality -- of a 4 4 represent the Environmental Protection Agency. 5 5 Your Honor, this case involves the constitutionality issue. But it's still on the 6 books. The Clean Water Act is still in force. 6 preparation and application of sewage sludge on a 7 7 cropland in 2018 in Lame Deer, Montana. Putting Regulation is still on the books. So I'm not 8 8 really convinced of that position. this case in its most simple terms, when 9 9 But did the Region have anything to say? respondents Nathan Pierce and his company, Adamas 10 MR. MUEHLBERGER: Yeah. I've got two 10 Construction and Development Services, wanted to 11 comments, Your Honor. First, I'd like to point out 11 get paid for managing that sludge project, 12 12 Mr. Pierce repeatedly and unambiguously asserted the Navigable Waters Protection Rule was vacated in 13 federal district court in I think it was 2022. 13 that he was in charge and solely responsible for 14 14 completion of the sludge project. But when it came The other point that I'd like to make is 15 we are prepared to discuss the waters of the United 15 time to comply with Clean Water Act regulations for 16 16 States issue post-Sackett, if that comes up. which Mr. Pierce was responsible, he repeatedly and 17 17 unambiguously asserted that it was somebody else's The Region agrees with your assessment 18 18 that the applicable regulations are the ones at the iob. 19 19 time of the violation. Having said that, we're It's important to note that respondents 20 20 prepared to argue the waters in this kind of repeatedly describe themselves throughout the 21 post-Sackett environment as well. 21 record as managers and supervisors of the sludge 22 22 THE COURT: Okay. And that's -- you know, removal and application project. As such, EPA will 23 23 demonstrate that they were required to create and it's a legal issue, so I assume that's just 24 something that you all can cover in briefing. 24 maintain records under EPA's biosolids regulations.

And respondents were required to submit those

25

25

MR. MUEHLBERGER: Yes, Your Honor.

Now I want to emphasize something here. These are not mere paperwork violations. The EPA regulates biosolids in order to prevent harm to human health and the environment. Without these records, there's no way for EPA to determine if bacteria, other pathogens or heavy metals that can be found in sewage sludge has the potential to harm local waterways, aquatic life, or humans that may come into contact with that sludge.

During these proceedings, respondents will argue that other parties were responsible for creating, maintaining, and submitting those biosolids records. However, EPA will demonstrate by a preponderance of the evidence that, 1, respondents repeatedly held themselves out to be exclusively in charge of the 2018 sludge removal and application project; 2, respondents demanded compensation for their leadership role in that project; 3, respondents repeatedly discussed the

Page 43

Firstly, I'd like to bring to your attention that the EPA faces limitations in presenting substantial number of witnesses who can provide direct testimony regarding the events in question. Consequently, the EPA may rely on hearsay evidence during this proceeding. I wish to emphasize that hearsay evidence lacks the same level of reliability and credibility as direct testimony. Rest assured, though, I will try to due diligently cross-examine any such evidence to ensure a thorough examination of the facts.

I'd like to draw your attention to 40 CFR 503.11(h), which defines land application concerning sewer sludge disposal. The EPA may contend that I conducted these activities. However, I firmly assert that the actual work performed by independent contractors, namely Tom Robinson and Ernie Sprague, in relation to a contract that was created by the government, IHS, with the Northern Cheyenne Utility Commission, to whom I was a subcontractor. The testimony of Ernie Sprague will substantiate these facts.

Furthermore, the EPA may allege that I failed to respond to their information requests. I want to clarify unequivocally that I not only

Page 42

repeatedly said that they would comply with all

biosolids regulations with other parties and

applicable biosolids regulations; respondents -- 4,

3 respondents performed operator duties at the Lame 4

Deer Publicly-Owned Treatment Works and repeatedly

5 held themselves out as POTW operators; and lastly,

6 as a result, it's EPA's position that respondents

7 were the only parties in a position to create,

8 maintain, and produce all of the records required

under the Clean Water Act.

With that, EPA is prepared to call its first witness.

THE COURT: All right. Thank you,

Mr. Muehlberger.

Mr. Pierce, did you want to make an opening statement?

MR. PIERCE: Yes, ma'am. Yes, Your Honor. I sure do.

RESPONDENT'S OPENING STATEMENT

MR. PIERCE: Your Honor, may it please the Court -- excuse me. May it please the Court, I

stand here before you today as a pro se litigant seeking fair and equitable resolution to this case.

22 23 It's crucial to shed light on certain fundamental

24 issues that underpin this case, which I believe is

25 essential to comprehending the situation at hand. Page 44

responded, but also directed the EPA to the precise location where the requested information could be found and the persons who could provide them with the exact documentation that they were looking for, the most responsible thing that I could do as I was not the person who physically did the work that they were claiming.

Ernie Sprague, who is here today as an independent contractor, holds a unique perspective on the events in question. His testimony will provide valuable insight into the authenticity of the EPA's request for records and the circumstances surrounding my involvement in this case. I firmly believe Mr. Sprague's testimony will demonstrate that I was unfairly targeted by the EPA and that the EPA's actions are not in line with the principles of fairness or transparency. I ask that you consider Mr. Sprague's independent perspective as we move forward with these proceedings.

It is imperative to recognize that although the EPA may argue that I was charged -- that I was in charge, the factual context contradicts this assertion. The Northern Cheyenne Utility Commission was the primary contractor and maintained control of the facilities

Page 45 Page 47 1 throughout the project. I was not the 1 THE COURT: Yeah. I think just for the 2 decision-maker in this scenario and was, in fact, 2 purposes of the record, as long as you clearly 3 denied access to the facilities as well as other 3 identify which exhibit number it is that you're 4 4 contractors, including Mr. Sprague, that was questioning about so that the testimony is clear, I 5 outside of my control. 5 think we're good. And then I'll follow along as 6 6 In closing, this hearing gives us an 7 7 opportunity to rectify the situation and put into MR. MUEHLBERGER: Thank you. 8 8 the record the true facts beyond what the EPA is THE COURT: Okay. And if at any point, you 9 9 attempting to state here today. I thank you for know, there's a question, Mr. Pierce, if you need a 10 the opportunity to represent myself as well as 10 second to follow or whatever, or if I do, I'll 11 11 Adamas Construction in these proceedings. chime in just so we're all staying on track. Okay? 12 12 THE COURT: Thank you, Mr. Pierce. MR. PIERCE: Yes, Your Honor. 13 Okay. Complainant, if you'd call your 13 THE COURT: All right. Great. 14 first witness. 14 Please go ahead. 15 MR. MUEHLBERGER: I will. One question, Your 15 MR. MUEHLBERGER: Thank you. 16 16 17 THE COURT: Sure. 17 DIRECT EXAMINATION 18 MR. MUEHLBERGER: Erin Kleffner will be our 18 BY MR. MUEHLBERGER: 19 first witness, and she'd like to have a copy of the 19 Q. Ms. Kleffner, can you provide and spell 20 20 applicable regulations and biosolids guidance with your name for the record, please? 21 her up at the stand for reference. Is that 21 A. My name is Erin Kleffner. And it's 22 22 permissible? spelled E-R-I-N, K-L-E-F-F-N-E-R. 23 23 THE COURT: Sure. Q. And where do you currently work, 24 MR. MUEHLBERGER: Thank you. 24 Ms. Kleffner? 25 THE COURT: Sure. 25 A. I work at EPA Region 7. Page 46 Page 48 1 MR. MUEHLBERGER: We'd like to call Erin 1 Q. Okay. And can you name your title and 2 2 Kleffner to the stand, please. describe your position, please? 3 3 A. I'm a compliance officer for Region 7 in 4 4 ERIN KLEFFNER, the water branch. So typically, what my position 5 5 called as a witness on behalf of the Complainant, does is we will receive inspection reports or 6 having been first duly sworn testified as follows: 6 complaints, sometimes annual reports for biosolids. 7 7 We will review those, determine if there are any 8 THE COURT: Thank you. Please have a seat. 8 violations present, and then based on that, we will 9 9 The witness has been sworn. Please go either provide compliance assistance or take an 10 ahead, Mr. Muehlberger. 10 enforcement action. 11 11 MR. MUEHLBERGER: Thank you. We're going to Q. Okay. And when you say that you take 12 pull up the exhibits here on the screen. If we 12 enforcement actions, what does that look like? 13 13 could just have a minute here, please. What does the agency do when it is taking an 14 THE COURT: Sure. 14 enforcement action? 15 15 MR. MUEHLBERGER: One of the housekeeping A. So our enforcement actions are usually 16 16 broken down into two different cases. We can things while we're working on this that I wanted to 17 point out, as we show the exhibits on the screen 17 either take a penalty, or we can do a compliance 18 order to help a facility get back into compliance 18 and zoom in on some of the text here, you will not 19 19 with the regulations, or we can do both of those at see the Complainant's Exhibit Number, which is at 20 the same time. 20 the bottom of the screen. If you prefer, we can 21 zoom in so you can see it initially and -- or 21 Q. Thank you. 22 22 Can you describe your educational sorry -- zoom out and then zoom in to the relevant 23 23 background? text. I will also, of course, be highlighting what 24 A. I have an undergraduate degree in 24 the exhibit is as we go through. So just whatever 25 ecology and conservation from Northwest Missouri 25 the -- what you prefer.

Page 49 Page 51 1 1 State University. And I also received a master's Q. So concerning your biosolids work, have 2 degree in environmental assessment from the 2 you taken enforcement cases under biosolids? 3 University of Kansas. 3 A. I have. 4 4 Q. Okay. And within your studies, was Q. Okay. About how many cases do you think 5 5 there any area of expertise? you've worked on? 6 6 A. Yes. So both my undergrad and my A. Approximately ten. 7 7 master's degree. My master's degree in particular Q. Okay. So let's talk about biosolids. 8 8 has a foundation in biological sciences. So a lot What is that? 9 9 of the coursework was in water quality, soil A. So biosolids, also known as sewage 10 science, hydrogeology, that kind of stuff. And 10 sludge, is basically -- it can be solids, liquids, 11 11 semisolids. It's basically the leftover from the then, in addition, on my master's degree, my 12 12 treatment process at a domestic wastewater capstone project was on biosolids land application. 13 13 treatment facility. Q. Okay. So you talked about how your 14 14 studies included both a science background and also Q. Okay. And what do folks do with 15 15 study of the regulations; is that correct? biosolids? 16 A. Yes. Yeah. We also had a law in 16 A. So there's a couple of options on what 17 17 regulations class that we completed. you can do with biosolids. Most commonly, 18 18 biosolids are land applied. It's a beneficial use Q. And can you talk a little bit how this 19 overlap between science and the regulation informs 19 as a replacement for fertilizer. They can also be 20 20 the work that you do now? landfilled. There's also an option for surface 21 21 disposal. And then some facilities also A. So the biological sciences background 22 22 gives the basis for the regulations. And then it incinerate. 23 23 also helps me to determine, whenever there is a Q. And why does EPA regulate biosolids 24 24 lapse in regulations or a violation in regulations, under the Clean Water Act? 25 if there are impacts to the environment from that. 25 A. So there's two different factors there. Page 50 Page 52 1 1 They are regulated under the Clean Water Act Q. Okay. Can you talk a little bit about 2 the work that you did after you completed your 2 because they do come from a point source. It's a 3 3 byproduct from a wastewater treatment facility. education? A. So after I -- well, actually, during my 4 4 And then, in addition, in particular for land 5 5 master's degree program, I was an intern for EPA application, once biosolids are land applied, it 6 Region 7. After I finished my master's degree, I 6 does have the capacity to potentially affect a 7 7 was converted to a full-time employee. water body from runoff. 8 8 Q. Did you go straight to EPA, then, after Q. Okay. Let's talk about that a little 9 9 you received your degree? bit. What are some of the potential environmental 10 10 risks associated with biosolids? A. Yes. My master's degree, yes. 11 Q. Okay. How long have you been with the 11 A. So biosolids, in terms of the 12 12 regulations, there are a couple different factors agency? 13 A. About eight years. 13 that are incorporated into it. You have pathogens, 14 14 metals content, and then also site restrictions and Q. Okay. And you testified earlier that 15 vou work on enforcement cases. About how many 15 management practices. 16 16 enforcement cases have you conducted at EPA? So for something like metal content, any 17 17 A. Approximately 25. exposure to metals over a certain amount is 18 18 detrimental to wildlife and humans both. In terms Q. And can you talk about some of the areas

of wildlife, it has the capacity to change

behavior, reproductive growth, that kind of thing.

It can also even result in death for some wildlife.

effects that have kind of like an Alzheimer's-type

effect. So it can affect memory, cognitive

function, that kind of stuff.

In humans, it can cause cancer or other

19

20

21

22

23

24

25

19

20

21

22

23

24

25

of specialization that you work at at EPA?

and for the first couple years, I did a lot of

to other parts such as industrial stormwater,

general NPDES programs.

A. So when I first started as an intern,

biosolids work. Since then, I've kind of moved on

construction stormwater, some Section 404, and

Page 53

For pathogens, obviously, any exposure to a pathogen such as fecal coliform, E. coli, salmonella, et cetera, has the capacity to make any

human sick. That is also true for some wildlife.

5 It can also displace in a water body more

look like?

beneficial organisms. So if you introduce
 salmonella into a water body, that can also replace
 what would normally be there.

And then additionally, for management practices and site restrictions, site restrictions are mostly based on keeping humans away from biosolids. Management practices are more to keep biosolids in place.

So if you don't follow an agronomic rate calculation, they're overapplied, they do run off into a water body. That can result in something like -- it's called eutrophication. So that's an overabundance of nitrogen within a water body. And that has several impacts. It can cause an overgrowth of plants and algae in bacterial communities. It can lower the dissolved oxygen content. It just, in general, throws off the balance of a water body.

Q. Thank you.

And can you walk us through what is a

discrete conveyance. It can be a pipe, a tunnel, a ditch, anything that has a point that discharges into a water body.

Q. Okay. And when you say "water body" there, are all waters regulated under the Clean Water Act?

A. Not exactly. So for the Clean Water Act, at least outside of wetlands, which are at issue right now but, it would be relatively permanent waterways, and then traditionally navigable waters.

Q. And let's talk a little bit about the owner/operator that you talked about. What is an operator of a point source?

A. So an operator would be someone that either is at a facility or does an activity that would be covered under the NPDES program.

Q. Okay. And when you say NPDES, what do you mean by that?

A. That stands for NPDES. It's the National Pollutant Discharge Elimination System. And that is basically what regulates the discharge of pollutants from a point source into a water of the United States.

Q. Thanks.

Page 54

typical biosolids enforcement case? What does that

A. So biosolids come to Region 7 through two ways. We do have an annual reporting requirement for facilities that meet that threshold. So there's an annual report for some facilities. We also do take complaints. Once we have gotten that information and reviewed what is available to us, most of the time we will issue a Clean Water Act 308 information request to gather more information to determine if there are violations or if there are more violations than what is indicated in the complaint or annual report. And then based on that, we will determine if we want to do a compliance order or a penalty.

Q. Thanks.

So let's talk a little bit about that Section 308 authority that you just described. Who is required under the Clean Water Act to respond to a Section 308 request?

A. It would be an owner or operator of a point source.

Q. Okay. Let's break those down a little bit. What is a point source?

A. A point source would be any kind of

Page 56

Page 55

What kind of duties do operators point sources typically perform in your experience?

A. In my experience, an operator basically runs the facility. They do operations and maintenance. That can include the collection system and the wastewater treatment facility itself. So working on lift stations, fixing pumps, making -- adding, you know, any chemicals that need to be added. It can also vary. Something as simple as if it's a lagoon system, it can be mowing the berms. So something simple for maintenance.

Generally, treatment operators, unless it's contracted out to a lab, will also take samples. And they're usually present for inspections by the state or the federal government.

Q. In your experience, have you ever seen operators do biosolids work at the point source?

A. Yes.

Q. Or the wastewater treatment facility?

A. Uh-huh.

Q. Have you worked with operators in the enforcement work that you've done at EPA?

A. I have.

Q. Okay. And can there be more than one operator at a regulated point source?

Page 57 Page 59 1 A. Yes. Yeah. 1 then also a vector attraction reduction was met 2 Q. Does an operator have to have some kind 2 through one of the first eight options within Part 3 3 of official certification in order to be an 503 regulations. They would also need to maintain 4 4 operator? 5 5 A. No, they do not. As a land applier, if vector attraction 6 6 Q. Can an operator be a contractor of a reduction was achieved through a physical means 7 7 such as incorporation or injection, that would be wastewater treatment facility? 8 8 the responsibility of the land applier. They would A. Yes. 9 9 also need to maintain information such as site Q. Okay. And just to make one thing clear, 10 we've used the terms "wastewater treatment 10 restrictions and management practices. Management 11 practices would include something like an agronomic 11 facility" and "publicly-owned treatment works." Do 12 12 you consider those terms to be synonymous? rate calculation. 13 13 A. Yes. Q. Okay. How does one prepare sewage 14 sludge? 14 Q. Okay. So you just testified that an 15 15 operator can be a contractor. Have you ever seen A. So preparation can be through physical 16 means. It can be dewatering. It can be 16 that happen in any of the enforcement cases that 17 stabilization. It can be through composting. 17 you've worked on? 18 There are a number of options. But basically, 18 A. Yes. Generally, it happens a lot more 19 preparation is anything that would change the 19 in -- actually, it happens a lot in biosolids and 20 quality of the biosolids from its initial form. 20 construction stormwater. But for biosolids, I have had a case where a facility contracted out their 21 Q. Okay. What does it mean to dewater 21 22 sewage sludge? 22 biosolids operation to a separate company. The A. So dewatering is just what it sounds 23 23 company took it. They did some sampling. They 24 like. It is taking excess water out of biosolids 24 further processed the biosolids. So they became a 25 25 to reduce the total solids content. preparer of the biosolids, and they ended up land Page 58 Page 60 1 applying it over the concentration for metals. So 1 Q. And how does sewage sludge typically get 2 2 they did not have their sample results prior to applied when it's land applied? 3 3 land application. So they had a metal ceiling A. Depending on the solids content, it can 4 concentration violation, and we did take a penalty 4 be broadcast spread. It can be spread as compost. 5 5 for that case. However you want to get it onto the land, there's 6 O. Thanks. 6 any number of options to get it on there. 7 7 Q. Okay. So what happens if the preparer In your experience as a compliance 8 8 or applier of sewage sludge does not provide officer, has EPA ever concluded that a contractor 9 9 that was performing operator duties was liable for records to others involved in the sludge removal 10 Clean Water Act violations? 10 project? 11 11 A. Yes. A. It would be difficult for them. Site 12 12 restrictions would be probably okay. Vector Q. Have you ever seen a contractor doing 13 13 operator duties at a regulated facility that was attraction reduction, if they were to do a physical 14 method, it would probably be okay. It's really 14 not a certified operator? 15 15 A. Yes. kind of an issue whenever it comes to management 16 practices. 16 Q. Okay. So let's talk a little bit about 17 It is also the responsibility of a land 17 the recordkeeping requirements in the biosolids 18 applier to make sure prior, before the land 18 regulations. Can you generally describe what those 19 application, that they do meet Part 503 19 are? 20 regulations. But in addition, it is land applier's 20 A. Yeah. So it's broken down into two 21 21 different parts depending on the role in the responsibility to calculate an agronomic rate, and 22 22 that information is usually found in the lab biosolids land application. It's broken down into 23 results such as nitrogen content. 23 preparer and land applier.

MR. MUEHLBERGER: I'd like to show the

24

25

A preparer would need to maintain

records for metals concentration, pathogens. And

24

25

Q. Thanks.

Page 61 Page 63 1 1 references were changed. And I was under the witness 40 CFR 503.12. 2 2 impression it went from preparer to applier, so... BY MR. MUEHLBERGER: 3 Q. Ms. Kleffner, do you recognize this set 3 MR. MUEHLBERGER: Your Honor, I think 4 4 of regulations here? throughout all of the -- all of our filings, EPA 5 5 A. Yes. has argued that the respondents were both the 6 6 Q. And could you read what it says there preparer and applier. We're prepared to go through 7 under 503.12(d)? 7 the regulations, the 503.12 regulations that apply 8 8 A. D? to this case. It's part of the testimony that we 9 9 Q. Yes, please. plan to have Ms. Kleffner testify to. 10 A. "The person who prepares bulk sewage 10 THE COURT: Well, I just -- you know, I don't 11 11 want to go outside the bounds of the complaint of sludge that is applied to agricultural land, 12 12 the charging document because that's what -- that's forest, a public contact site, or a reclamation 13 13 what I'm confined to. And so for purposes of not site shall provide the person who applies the bulk 14 14 sewage sludge written notification of the confusing the record either, I want to make sure 15 15 concentration of total nitrogen as nitrogen on a that, one, my understanding is correct. 16 dry weight basis in the bulk sewage sludge." 16 So should we take a look at -- do you 17 17 Q. Thank you. want to take a look at this second amended 18 18 complaint? Am I misremembering that the regs were Can you read 503.12(f), please? 19 A. "When a person who prepares bulk sewage 19 changed to refer to appliers rather than preparers? 20 20 sludge provides the bulk sewage sludge to a person MR. MUEHLBERGER: Your Honor, if we could 21 21 take just about five minutes and take a look at who applies the bulk sewage sludge to the land, the 22 22 this -person who prepares the bulk sewage sludge shall 23 23 THE COURT: Sure. provide the person who applies the sewage sludge 24 24 MR. MUEHLBERGER: -- and return, I'd notice and necessary information to comply with the 25 requirements in this subpart." 25 appreciate that. Page 62 Page 64 1 Q. Thank you. 1 THE COURT: Yeah, absolutely. Do you want a 2 2 So how does a preparer or applier of break, or do you want me to just stay on the 3 3 sewage sludge, how do they typically create records record? 4 during the course of a land application project? MR. MUEHLBERGER: Yeah, let's take just a 4 5 5 MR. PIERCE: Your Honor, I guess I have to short break would be great. Thank you. 6 object to relevance. We're here for the 6 THE COURT: Okay. Why don't we take ten 7 7 application. And that's the assertion of the EPA, minutes, and then I'll address the objection once 8 8 is that there was an issue with the land you've had a chance to take a look. And I might 9 9 application. I don't understand why we're focusing take a look myself. 10 10 MR. MUEHLBERGER: Thank you. on a preparer. THE COURT: Okay. You can respond. 11 11 THE COURT: Okay. 12 MR. MUEHLBERGER: Your Honor, EPA is arguing 12 (Whereupon, a brief 13 that respondents were both the preparer and applier 13 recess was taken.) 14 14 of the sewage sludge in this case, and as such, THE COURT: All right. Back on record after 15 were responsible for the recordkeeping requirements 15 a brief break. I pulled up a little bit of 16 16 for both sections of the regulations. information, too, about the second amended 17 MR. PIERCE: That's not how their filing 17 complaint so I can follow along. 18 18 comes off, Your Honor. So if you could, then, just if you 19 THE COURT: Yeah. Let me actually confirm 19 would, Mr. Muehlberger, go ahead and just, I guess, 2.0 20 some things with you. I'm going from memory respond to the objection. And if you would, 21 here, so I might be mistaken. But I thought when 21 explain a little bit about the preparer language as 22 22 you -- when the complaint was amended, the it relates to the claims in the second amended 23 regulatory references were changed. We had a 23 complaint.

MR. MUEHLBERGER: Sure. And thank you for the break. You can look at a document a thousand

24

25

24

25

second amended complaint, and while the proposed

penalty wasn't changed, I thought the regulatory

Page 67 Page 65 1 times, but you sometimes need to reread it to 1 also references in the complaint under the 2 2 familiarize yourself. generalized paragraphs with respect to preparers 3 3 So as for the complaint, EPA states in and appliers, what -- I guess what -- how would any 4 4 paragraph 13 in the regulatory and statutory obligations a preparer would have under 503, how 5 5 framework the definition of preparer. We allege in would that relate to the specific Claim 1 that's 6 6 paragraphs 35, 46, and 47 that respondents were, in before me? Is there a connection there that I need 7 7 to be aware of? And I think that that's what's fact, the preparers of sludge. 8 8 And then as far as the counts are going in Mr. Pierce's objection. 9 9 concerned, we allege that respondents failed to MR. MUEHLBERGER: Yes, Your Honor. Under 10 create, produce, and submit records under Part 10 the applicable regulations under 503, a preparer of 11 503.17 of the biosolids regulations and don't limit 11 sewage sludge is required to create records, 12 12 it to preparers or appliers. including doing sampling, and then they are 13 13 required to provide those results and other records As to changing the regulatory citation 14 14 for the amended complaint, I'm going to have to the applier of the sewage sludge. If they don't 15 15 Ms. Kleffner testify as to why the -- the necessity provide those records, then the applier can't 16 to change that citation. 16 create, maintain, and produce records under the 17 17 THE COURT: Okay. So -- okay. Just so that biosolids regulations. EPA is alleging that the 18 I'm following here, with regard to the first claim 18 respondents were both the preparers, that they 19 of the -- bear with me here just while I pull up a 19 failed to provide the necessary records to the land 20 20 few notes. So with regard to Claim 1, the failure appliers, and did not submit to the agency the 21 to develop and maintain records, that regulatory 21 required records under the biosolids regulations 22 22 provision that applies to that claim is what? and under Clean Water Act Section 308. MR. MUEHLBERGER: It's 503.17, which applies 23 23 THE COURT: Okay. So --2.4 to both preparers and land appliers of sewage 24 MR. PIERCE: Your Honor, may I say something? 25 25 sludge. THE COURT: You certainly may. Let me just Page 66 Page 68 1 THE COURT: Okay. Now the markup -- and I'm 1 finish one thought to make sure I'm -- at least I 2 2 not trying to argue with you here, but I want to think I'm clear. 3 3 MR. PIERCE: Yes, ma'am. make sure that I'm clear right out of the gate or just to get all the --4 4 THE COURT: So if I'm understanding the 5 5 MR. MUEHLBERGER: Sure. framework, then, is part of the -- and I think 6 THE COURT: The markup that I have provides 6 you've already answered this. So is part of the 7 7 for a citation to 503.17(a)(4)(ii). And it says relevance, then, with regard to references to a 8 8 that the following records shall be retained by the preparer that regardless of who applies the sewage 9 9 person who applies bulk sewage sludge, and then sludge, the preparer is in possession of some 10 there's a list, A through E? 10 information that would then presumably be provided 11 MR. MUEHLBERGER: That's right. 11 to the applier and be available to be provided in 12 THE COURT: Okay. So it was my understanding 12 response to a 308 request for information? 13 13 from this language that the actual records that are MR. MUEHLBERGER: That's correct, Your Honor. 14 THE COURT: So that part of it, would that 14 alleged to have not been developed and maintained 15 15 by respondents are records that relate to the then feed into Claim 2 in this complaint in terms 16 16 person who applies the bulk sewage sludge. of responding to the 308 request, the preparer 17 MR. MUEHLBERGER: That's right. And our 17 responsibilities? 18 18 changing of the regulatory citation, we just wanted MR. MUEHLBERGER: So the regulations are a 19 19 to make sure that we had the correct recordkeeping bit complicated. Under 503, they're required to 20 20 requirements based on the class of the sludge, the create and maintain records. Under Section 308,

they're required -- an owner/operator of a point

source is required to provide records to EPA if

violation. And in this case, we are arguing that

respondents were preparers and land appliers of

there's an allegation of a Clean Water Act

21

22

23

24

25

21

22

23

24

25

regulations.

pathogen -- the potential pathogens that would be

in that sludge, and then what an applier would be

required to create and maintain under the biosolids

THE COURT: Okay. Recognizing that there is

Page 69 Page 71 1 sewage sludge and that they performed operator 1 But yeah, I did see a lot of overlap, 2 2 duties, and combined, they are required to submit but some distinctions as well between the records 3 3 those records to the agency. that were sought as an applier versus a preparer. 4 4 THE COURT: Okay. Okay. Mr. Pierce -- thank But I think on relevancy grounds, I'm 5 5 going to overrule the objection because there are you. 6 6 Mr. Pierce, go ahead. references in the second amended complaint to a 7 7 MR. PIERCE: Yes, Your Honor. It seems like preparer. But I guess I would just caution that to 8 8 if the EPA is claiming that I am the preparer, and the extent you can, just, I guess, be very clear 9 9 I had an obligation to give it the applier, and I about, you know, the actual claims that are before 10 am also the applier, wouldn't I be giving it to 10 me that I'm ruling on. I've got the two claims in 11 11 myself? Which is a pretty obvious question. the complaint, and those are what are charged. 12 12 But also, the other question that's sort So, you know, just recognizing the 13 13 distinctions between some of the general paragraphs of glaring is the regulation cited is for land 14 14 applier. When they asked and they sent the letter in the complaint and the specifics that are alleged 15 15 to me, it was for records for a land applier. So with regard to the particular records and which 16 if you're asking for records under a specific law 16 they apply to, and then the 308 request would be 17 17 and that is for a land applier, I believe that's helpful so that when I get back to drafting this 18 18 the relevance here, and it should stick with land thing, it's not confusing. 19 19 applier regardless of how they try to tailor it. MR. MUEHLBERGER: Yeah. Your Honor, given 20 20 THE COURT: Okay. Any response before I the complexity of the regulations, we will try our 21 21 hardest to walk through each of the citations and rule? 22 22 MR. MUEHLBERGER: Yes. Many of the how they apply in this case. 23 23 THE COURT: Okay. Thank you so much. As requirements for preparers and appliers are the 24 24 I've said, I've overruled the objection on same. We'll be walking through both of the 25 25 citations throughout the course of the testimony, relevancy grounds. And we'll just move forward at Page 70 Page 72 1 so you'll see that many of the recordkeeping 1 this point. 2 2 requirements are the same for both preparers and MR. MUEHLBERGER: Okay. Thank you. 3 3 **DIRECT EXAMINATION - Continued** appliers. And then I'd just also like to add that 4 4 BY MR. MUEHLBERGER: 5 5 the complaint unambiguously asserts that the Q. Ms. Kleffner, are you ready to pick up 6 respondents were preparers and appliers and 6 where we left off? 7 7 A. Yes. responsible for submitting records under Section 8 8 308. And the counts were not changed as a result Q. Okay. In a biosolids case, can there be 9 9 of us changing the regulatory citation in the more than one preparer? 10 complaint, so there's no prejudice against the 10 A. Yes, there can. 11 respondent here. This has all been clearly laid 11 Q. Can there be more than one land applier? 12 12 out in the complaint. A. Absolutely, yes. 13 MR. PIERCE: Your Honor, I don't believe that 13 O. And would it be EPA's position that each 14 14 the documents required for a preparer are the same preparer and applier could be responsible for the 15 for an applier or the information needed for a 15 biosolids recordkeeping requirements? 16 16 preparer is the same as an applier. So I A. Yes. 17 17 don't -- I believe that's inaccurate. O. Okav. 18 18 MR. MUEHLBERGER: They're not exactly the THE COURT: I'm sorry. I just want to make 19 19 same, but there are many overlaps. And you'll see sure you're getting picked up. I can hear you just 20 20 this as we go through the regulations. fine, but I want to make sure the mic's picking up. 21 THE COURT: Yeah. That I do remember because 21 Are we good?

THE REPORTER: Yes, thank you.

BY MR. MUEHLBERGER:

THE COURT: Okay. Perfect. Go right ahead.

Q. Ms. Kleffner, do the recordkeeping

22

23

24

25

22

23

24

25

I -- it's been a bit, you know, because we --

thank you for the indulgence.

unfortunately, we had to postpone the hearing a few

times, one of which was attributable to me. So

Page 73 Page 75 1 1 requirements change based on the content of the 2 2 A. So biosolids in its entirety is a sewage sludge? 3 3 A. Yes, they do. self-implementing regulation, so we rely heavily on 4 4 Q. Okay. And can you describe how they may being able to collect information from a preparer 5 5 differ depending on the content? or a land applier or as part of the annual 6 6 A. Sure. So biosolids are broken up into reporting requirement for some facilities. Without 7 two different classes based on the amount of 7 being able to collect those records, we would have 8 8 pathogens that are present. There's Class A no way to assess whether a facility is in 9 9 biosolids and Class B biosolids. Class A biosolids compliance with Part 503 or not. 10 have a lower pathogen content that's allowable, and 10 Q. Okay. And how does that speak to the 11 11 because of that the management practices and site potential harm that may occur from misapplication 12 12 restrictions for Class A are less than Class B. So of sewage sludge, for example? 13 13 Class A, you don't have to have -- you don't -- you A. So without having those records, 14 14 still need to maintain records, but management something like management practices where you're 15 15 practices and site restrictions are nixed in that doing an agronomic rate calculation, we would not 16 recordkeeping requirement. 16 be able to verify that it wasn't applied too close 17 17 For Class B, you still need to have to a water body or that there -- you know, there 18 18 wasn't public contact with it. All of that, we those records maintained. 19 19 Q. Do the recordkeeping requirements change would be unable to discern. 20 20 based on where the sewage sludge is applied? Q. Okay. Let's turn to this case 21 21 A. Yes, they do. specifically. 22 22 Q. Okay. And what types of lands might How did EPA Region 7 first get involved 23 23 change the requirements for biosolids with the case involving Nathan Pierce and Adamas 24 24 recordkeeping? **Construction and Development Services?** 25 25 A. So the recordkeeping requirements would A. So this was a referral complaint from Page 74 Page 76 1 change based on whether it's a public contact site 1 Region 8. 2 2 or a non-public contact site. So in this instance, MR. MUEHLBERGER: And I want to make sure I'm 3 3 this was applied to an agricultural field, so you pronouncing it correctly. Is it Adamas or Adamas? would still need to maintain some of the site 4 4 MR. PIERCE: Adamas. 5 5 restrictions and management practices. If it was MR. MUEHLBERGER: Okay. I apologize. 6 on a public contact site, you're assuming that 6 7 7 it's also a Class A so that it would be less I'd like to show the witness 8 8 recordkeeping. Complainant's Exhibit 9, et. page 1. 9 9 Q. Okay. And do biosolids need to be BY MR. MUEHLBERGER: 10 applied close to water in order for the 10 Q. Ms. Kleffner, do you recognize this 11 11 recordkeeping requirements to kick in? document? 12 12 A. Yes. A. No. It's just wherever they're applied. 13 13 Q. Okay. Thanks. Q. And can you please read the highlighted 14 14 Are preparers and appliers of sewage portion on page 1? 15 15 sludge required to turn over biosolids records to A. "A property owner in Lame Deer, 16 16 EPA even if they're not an owner or operator of a Tommy Robinson" -- followed by a phone 17 number -- "contacted the IHS on 8/27/2018 to 17 point source? 18 A. Yes. 18 express dissatisfaction with the sludge application 19 19 Q. Has EPA ever required preparers or on his property from the Lame Deer lagoon 20 20 appliers of sewage sludge who were not operators to desludging operation." 21 turn over biosolids records? 21 Q. And when you say IHS, what is IHS? 22 22 A. We have. A. That would be Indian Health Services. 23 23 MR. MUEHLBERGER: I would like to show the Q. Okay. What happens if a preparer or 24 24 land applier fails to provide records under the witness Complainant's Exhibit 9, page 4. 25 25 biosolids regulations or Clean Water Act Section

Page 77 Page 79 1 1 of information that we ask for. It includes metals BY MR. MUEHLBERGER: 2 2 concentration; pathogen concentration; vector Q. Okay. Ms. Kleffner, to your 3 3 recollection, is this a continuation of that same attraction reduction, what kind was used; 4 4 inspection report that you received from IHS? management practices, including agronomic rate 5 A. Yes. 5 calculations; and site restrictions. We also do 6 6 Q. Okay. Can you please read the include in there if anything doesn't meet Part 503 7 7 highlighted portion on this page? requirements, such as metals or pathogens, we ask 8 8 A. "The subcontractor performing the sludge either what happened to the biosolids, if it was 9 9 removal work, Nathan Pierce from Adamas landfilled or if it was further processed. 10 Construction." 10 Q. So the information that you're looking 11 Q. And how did EPA get this report from 11 for in this 308 request, does that match the 12 IHS? 12 recordkeeping requirements that are under Part 503? 13 A. So Indian Health Services sent it to 13 A. Yes. 14 Region 8. Region 8 sent it to Region 7. It 14 Q. Would respondents have been required to 15 happened that way because Region 7 is the Biosolids 15 submit the biosolids records to EPA regardless of 16 Center of Excellence, so we take all enforcement 16 whether or not they were an owner/operator of a 17 and annual report review. We basically run the 17 point source? 18 program for biosolids nationwide. 18 A. Yes. 19 Q. And from your knowledge of this case, 19 Q. Okay. Thanks. 20 can you describe the relationship between Nathan 20 Okay. Ms. Kleffner, this is page 6 of 21 Pierce and Adamas Construction? 21 Complainant's Exhibit 11. In looking at this, is 22 A. He is the owner of Adamas Construction. 22 there anything that we missed here as far as 23 Q. So if we're referring to either Pierce 23 information that you were requesting from Nathan 2.4 or Adamas in this case, we're referring to the 24 Pierce or Adamas Construction? 2.5 same? 25 A. I don't think so. Page 78 Page 80 1 A. Yes. 1 Q. Okay. All right. Moving on here. 2 2 O. Okav. MR. MUEHLBERGER: So I'd like to pull up 40 3 MR. MUEHLBERGER: So I'd like to show the 3 CFR 503.17, please. I think it's the next one witness Complainant's Exhibit 11, et. page 1. 4 4 over. There you go. 5 5 BY MR. MUEHLBERGER: BY MR. MUEHLBERGER: 6 Q. So after you got this report from IHS, 6 Q. Ms. Kleffner, do you recognize these 7 7 what did EPA do next? regulations? 8 8 A. So we sent an information request to A. I do. 9 9 Mr. Pierce looking for records, basically, for this Q. Okay. And can you describe what these 10 land application project. 10 regulations are? 11 Q. Okay. And why did the agency decide to 11 A. So this is the Part 503 biosolids 12 12 send this 308 request to Nathan Pierce and Adamas regulations for recordkeeping. 13 13 Q. Okay. And I'd like you to go through **Construction?** 14 14 A. He was the person listed in the what the recordkeeping requirements would be for an 15 complaint. 15 applier of sewage sludge. 16 16 A. Okay. Q. Okay. Does the --17 MR. MUEHLBERGER: Actually, I'd like to show 17 Q. Go ahead. 18 18 the witness Complainant's Exhibit 11, et. page 6. A. Oh, go ahead. 19 19 BY MR. MUEHLBERGER: Q. Under what subpart? 20 20 Q. While we're looking for that document, A. So it would be (a)(4). 21 Ms. Kleffner, can you tell us what kinds of 21 Q. Okay. Could you please read this 22 22 information were you looking for from respondents regulatory citation? 23 23 A. "If the pollutant concentrations in Part when you sent them the 308 request? 24 24 A. So for a biosolids case, we kind of -- I 503.13(b)(3) and the Class B pathogen requirements 25 25 don't want to say a template, but we do have a set in 503.32(b) are met when bulk sewage sludge is

Page 81 Page 83 1 respondents after you got the complaint from IHS; applied to agricultural land, forest, a public 1 2 contact site, or a reclamation site: 2 is that correct? 3 "The person who prepares the bulk sewage 3 A. Yes. 4 4 sludge shall develop the following information and Q. Okay. So looking at Complainant's 5 5 shall retain the information for five years: Exhibit 12, et. page 1, can you describe what 6 6 "The concentration of each pollutant happened after that? 7 listed in 503" -- or "in Table 3 of 503.13 in the 7 A. So we received a letter from a law firm. 8 8 The date at the top is October 17th, 2018. And it bulk sewage sludge. 9 9 "The following certifications was basically just asking for a 60-day extension to 10 statement." 10 respond to the information request. 11 11 Q. Go ahead and read the C and D, please. Q. And this is an attorney that represented 12 12 A. Okay. the respondents in this case, correct? 13 "A description of how the Class B 13 A. Yes. 14 14 pathogen requirements in Part 503.32(b) are met. O. Okav. 15 15 "When one of the vector attraction MR. MUEHLBERGER: I'd like to show the 16 reduction requirements in 503.33(b)(1) through 16 witness Complainant's Exhibit 13, et. page 1. 17 (b)(8) is met, a description of how the vector 17 BY MR. MUEHLBERGER: 18 18 attraction reduction requirement is met." Q. Can you please describe this document? 19 Q. Thank you. 19 A. This is an e-mail from Dan Breedlove of 20 2.0 MR. MUEHLBERGER: I'd like to show the Region 7. And it's just responding to the attorney 21 witness Complainant's Exhibit 12, et. 1. 21 assigned saying that we would extend for 30 days. 2.2 22 THE COURT: Which exhibit, Mr. Muehlberger? Q. Did EPA receive the information that 23 23 MR. MUEHLBERGER: Complainant's Exhibit 12, they requested from respondents within that 30-day 2.4 24 et. page 1. period? 25 THE COURT: CX12. Okay. 25 A. We did not. Page 82 Page 84 MR. MUEHLBERGER: Your Honor, I apologize for 1 1 Q. Okay. 2 asking this, but could we take a quick five-minute 2 MR. MUEHLBERGER: I'd like to show the 3 3 break to get some technological issues straightened witness Complainant's Exhibit 14, et. 1. 4 out here as far as the exhibits are concerned? 4 BY MR. MUEHLBERGER: 5 5 THE COURT: Sure. Q. Ms. Kleffner, do you recognize this 6 MR. MUEHLBERGER: Thank you. 6 document? 7 7 THE COURT: Yeah. No problem. A. I do. 8 8 (Whereupon, a brief Q. And can you describe it, please? 9 9 recess was taken.) A. This is a pre-filing letter. It was 10 THE COURT: Okay. Brief break. Back on the 10 sent on March 4th, 2019, to Mr. Pierce. 11 record. Please go ahead. 11 Q. Okay. Can you describe what is a 12 MR. MUEHLBERGER: Thank you, Your Honor. We 12 pre-filing letter? 13 13 apologize for the technical difficulties here. A. So a pre-filing letter from EPA is just 14 14 an offer, basically, to provide information and to We're going to be switching over from using the 15 15 laptop to show exhibits to the projector up here. go over any of the potential violations that we 16 16 THE COURT: Okay. have discussed, and then discuss any settlement 17 MR. MUEHLBERGER: Thank you. 17 that we would want to do between the two parties. 18 18 Q. Through a pre-file letter, what is EPA I'd like to show the witness 19 seeking in this case? 19 Complainant's Exhibit 12, page 1. Are you able to 20 A. We were seeking a penalty. 20 see that okay, Your Honor? 21 THE COURT: Yes. 21 Q. Okay. Could you please read the 22 22 highlighted portion on that pre-file letter? MR. MUEHLBERGER: Thank you. 23 A. "Under Section 309 of the Clean Water 23 BY MR. MUEHLBERGER: 24 Act, the EPA is authorized to seek penalties and 24 Q. So, Ms. Kleffner, earlier you testified 25 25 mitigation for violations of Sections 308 and 405 that you issued an information request to the

Page 85 Page 87 1 1 collection systems operated by NCUC, and active and of the Clean Water Act. To determine the 2 2 planned projects within the Lame Deer collection appropriate penalty amount, the EPA considers 3 various factors, such as the nature, extent, and 3 system and at the lagoon. 4 4 "Based on our discussion with gravity of the violation; any prior history of 5 5 violations; the economic benefit gained; and the Mr. Pierce, all manholes within the Lame Deer 6 6 degree of culpability. Based on these factors, the collection system were inspected for infiltration 7 7 EPA has determined a civil penalty is appropriate annually and collection system vacuuming and 8 8 in this case. Before assessing a penalty, however, jetting was performed on an as-needed basis, 9 9 primarily to address blockages." we request a meeting to discuss any measures your 10 company has taken to comply with the Clean Water 10 MR. MUEHLBERGER: I'd like to show the 11 11 witness Complainant's Exhibit 5, et. page 6. Act and for you to provide any information that may 12 12 BY MR. MUEHLBERGER: warrant a reduction in penalty." 13 13 Q. Thank you. Q. Is this a continuation of the inspection 14 14 MR. MUEHLBERGER: I'd like to show the report? 15 15 witness Complainant's Exhibit 5, et. page 1. A. Yes. 16 BY MR. MUEHLBERGER: 16 Q. Could you also read the highlighted 17 17 Q. Ms. Kleffner, do you recognize this portions on this page? 18 18 A. "Mr. Pierce indicated the grinder had document? 19 A. I do. 19 not been sufficiently reducing the size of solids 20 20 Q. And what is this? to prevent interference with the lift station 21 21 pumps." A. This is an inspection report. It's 22 22 MR. MUEHLBERGER: I'd like to show the dated July 20th of 2018. It was an inspection 23 23 witness Complainant's Exhibit 5, et. page 7. conducted by EPA Region 8 at Northern Cheyenne 2.4 Utilities Commission facilities. 24 BY MR. MUEHLBERGER: 25 Q. The date here says July 20th, 2018. But 25 Q. Also part of the same inspection report? Page 86 Page 88 1 do you recall when you received this inspection 1 A. That's correct. 2 report? 2 Q. Okay. Could you please read the 3 3 A. We received this in April 2019. highlighted portions? 4 Q. Did you receive this inspection report 4 A. "During the inspection, Adamas 5 5 Construction was preparing Cell 2 for sludge after you issued the pre-file letter to the 6 respondents? 6 removal. 7 7 A. We did. "Mr. Pierce stated all gate valves at 8 8 O. Okav. transfer stations between cells were broken, 9 9 MR. MUEHLBERGER: I'd like to show the meaning there was no way to control or retain flow 10 10 within the lagoon system." witness Complainant's Exhibit 5, et. page 1. I'm 11 sorry, page 5. 11 "As such, we agreed to request records 12 BY MR. MUEHLBERGER: 12 via e-mail after the inspection. A records request 13 O. Is this a continuation of the inspection 13 was e-mailed to Ms. Bement on June 21, 2018. As of 14 14 this report, no records have been received in report that you just referenced? 15 A. Yes. 15 response to this request." 16 16 Q. Could you please read the highlighted Q. Ms. Kleffner, what does this inspection 17 17 portions on this page? report tell you about Mr. Pierce's role at the Lame 18 18 Deer POTW? A. "However, Adamas Construction and 19 19 Development Services, PPLC, Adamas Construction, A. He fulfilled operator duties at the 20 20 representative Mr. Nathan Pierce, NCUC contractor, 21 was present and indicated he would be able to 21 Q. Were the duties that he was performing 22 22 address many of our inspection questions. similar to operator duties that you've experienced in other EPA enforcement cases? 23 23 "Mr. Pierce and Mr. Courtney presented 24 an overview of NCUC's wastewater operations, 24 A. Yes. 25 25 monitoring procedures, and recent SSOs from Q. Okay. Let's talk a little bit about the

Page 89 Page 91 1 Lame Deer POTW. What did you learn about the POTW A. June 14th, 2019. 2 itself from this inspection? 2 Q. And could you read the highlighted 3 A. So reviewing this inspection report, 3 portion here? 4 4 A. "It is the position of Adamas that the it's a three cell lagoon that operates in sequence. 5 5 So as the water goes in, it has detention time in size of the entity involved excluded 503 6 6 each lagoon. It continues through each of the regulation, as is being asserted." 7 7 cells before discharging through a point source MR. MUEHLBERGER: I'd like to show the 8 8 into Lame Deer Creek. witness Complainant's Exhibit 17, et. page 2. 9 9 BY MR. MUEHLBERGER: Q. Earlier, you testified about NPDES 10 permits. Does this facility have an NPDES permit? 10 Q. Is this a continuation of that same 11 communication from respondent's attorney? 11 A. It does. 12 12 Q. Okay. And why does it need one? A. Yes. 13 13 A. So as a facility that discharges Q. Could you please read the highlighted 14 pollutants from a point source into a water of the 14 portion starting with "According to"? 15 15 United States, that would fall under the NPDES A. "According to the 'EPA Land Application 16 of Sewage Sludge' - a Guide for Land Appliers on program and require it to have a permit. 16 17 the Requirements of the Federal Standards for the 17 Q. Okay. 18 18 MR. MUEHLBERGER: I'd like to toggle over to Use or Disposal of Sewage Sludge, 40 CFR Part 503,' 19 'EQ sludge is considered comparable to standard 19 the laptop here and show the witness 40 CFR 122.1. 20 BY MR. MUEHLBERGER: fertilizer products. Therefore, land appliers of 20 21 EQ sewage sludge have no requirements to meet under 21 Q. Do you recognize this part of the 22 the Rule.' 22 regulations, Ms. Kleffner? 23 23 A. I do. "According to 2.8 Reporting, 40 CFR 24 24 Q. And can I have you read 122.1 at (b)(1)? 503.18, the reporting requirements under Part 503 25 apply to major municipal NPDES permittees and Class 25 A. "The NPDES program requires permits for Page 90 Page 92 1 the discharge of pollutants from any point source 1 1 Sludge Management Facilities. Major 2 into waters of the United States. The terms 2 municipal" --3 3 MR. MUEHLBERGER: I'd like to show the 'pollutant,' 'point source,' and 'waters of the 4 United States' are defined at 122.2." 4 witness Complainant's Exhibit 17, et. page 3. 5 5 BY MR. MUEHLBERGER: Q. So, Ms. Kleffner, is it presumed that a 6 facility that has an NPDES permit, that that 6 Q. Can you keep reading there, please, 7 7 facility will discharge into a water of the United Ms. Kleffner? 8 8 States? A. Sure. 9 9 A. Yes. -- "NPDES permittees are publically 10 10 owned treatment works, POTWs, with a design flow Q. Thank you. 11 Okay. Let's get back to the projector 11 rate equal to or greater than 1 million gallons per 12 12 day and POTWs with a service population of 10,000 here. I'd like to get back to your interaction 13 13 with respondents after you sent the pre-file people or more. 14 14 "Neither my client nor the Lame Deer letter. 15 MR. MUEHLBERGER: And I'd like to show the 15 Lagoons qualify as a POTW and are therefore exempt 16 witness Complainant's Exhibit 17, et. page 1. 16 from reporting under the rule." 17 17 BY MR. MUEHLBERGER: Q. Ms. Kleffner, does -- do respondents 18 18 Q. Do you recognize this document? meet the exemptions of Clean Water Act reporting A. Yes. 19 19 requirements under the biosolids regulations as 20 Q. And what is this? 20 outlined in this response? A. They do not. 21 A. This is an e-mail from Mr. Gallus, who 21 22 22 was representing Mr. Pierce. Q. And why don't they? 23 23 A. So what Mr. Gallus is describing in his Q. Okay. And could you read the 24 highlighted portion -- I'm sorry. What's the date 24 e-mail is talking about annual reporting 25 25 on this document? requirements, and that is the requirement to report

Page 93 Page 95 1 1 annually to the EPA for the previous year. That provided to EPA. EPA is unable to prove the 2 2 does not exempt a facility, even if they don't meet veracity of the claims you are making regarding the 3 3 those requirements, from having to report records waste without appropriate documentation. 4 4 as requested. "The reporting requirements under 40 CFR 5 5 Q. Okay. So is it EPA's position that Part 503 apply to any person who prepares sewage 6 6 respondents were still required to produce sludge that is applied to the land, to any person 7 7 biosolids records under the regulations? who applies sewage sludge to the land, to sewage 8 8 A. Yes. sludge applied to the land, and to the land on 9 9 Q. In this response, did EPA receive any of which sewage sludge is applied. 10 the information that they requested in the 10 "EPA requests that compliance with the 11 11 Clean Water Act Section 308 letter within 10 days." September 25th, 2018 information request? 12 12 A. We did not. Q. And did EPA in fact get the records that 13 13 O. Okav. they requested within that 10-day period? 14 MR. MUEHLBERGER: I'd like to show the 14 A. We received some documents. 15 15 witness Complainant's Exhibit 18, et. page 1. Q. I think it would help if I move on to 16 THE COURT: Let me just interject real quick. 16 the next exhibit. 17 17 MR. MUEHLBERGER: Certainly. A. Yeah, I think so. 18 18 THE COURT: Because I -- just for clarity for MR. MUEHLBERGER: I'd like to show the 19 the record. I believe you had inquired before 19 witness Complainant's Exhibit 19, et. page 1. 20 20 hearing if it was okay to highlight certain THE WITNESS: Okay. 21 sections just to kind of streamline the testimony, 21 BY MR. MUEHLBERGER: 22 22 and I said that that was fine. I think Ms. Almase Q. Do you recognize this document? 23 23 communicated that to me it was raised prehearing. A. I do. 24 So just for clarity, what the final 24 Q. Okay. And can you describe it, please? 25 exhibits that you submitted to the court reporter 25 A. This is an e-mail from Adamas Page 94 Page 96 1 that will be in the official record don't contain 1 Construction and Development Services to Sara 2 2 this highlighting, right? Hertz Wu. The date is July 2nd, 2019. 3 MR. MUEHLBERGER: That is correct. 3 Q. Can you read the highlighted portion, 4 THE COURT: Okay. So that's just, really, a 4 please? 5 5 demonstrative aid when you refer to the A. "Our company was as given the directive 6 highlighting portions on the transcript when it 6 from NCUC GM Sheri Bement and Northern Cheyenne 7 7 comes out. I just want to make sure that it won't tribal president Jace Killsback to proceed with 8 8 appear as highlighting in the final exhibits. sludge removal and application, and, a, NCUC would 9 9 MR. MUEHLBERGER: That's correct, Your Honor. take the sludge samples or would be responsible for 10 THE COURT: Okay. All right. I just wanted 10 sludge samples. 11 that clarification now for the transcript and for 11 "The attached pre-construction meeting 12 anyone reviewing. Go ahead. 12 minutes show clearly that Indian Health Services 13 MR. MUEHLBERGER: Thanks. I'm showing the 13 informed NCUC they were responsible for all work, 14 witness Complainant's Exhibit 18, et. page 1. 14 and they specifically state at bullet point number 15 BY MR. MUEHLBERGER: 15 4, 'NCUC is ultimately responsible for following 16 Q. Do you recognize this document? 16 503 regulation or requirements." 17 A. I do. 17 Q. Okay. To your knowledge, did NCUC ever 18 18 perform any sampling of the sludge in this case? Q. And what is this? 19 A. This is an e-mail from Sara Hertz Wu of 19 A. No. Q. Who performed the sampling of the 2.0 EPA Region 7 to Mr. Gallus. And the date is June 20 21 21st, 2019. 21 sludge? 22 22 Q. Can you read the highlighted portions A. Mr. Pierce. 23 23 MR. MUEHLBERGER: Okay. I'd like to show the here, please? 24 A. "The documents requested in the Clean 24 witness Complainant's Exhibit 19, et. page 10. If 25 Water Act Section 308 letter still need to be 25 we could look at the top of the document, please.

Page 97 Page 99 1 Thank you. 1 question. But did EPA receive any other sample 2 BY MR. MUEHLBERGER: 2 results from the sludge application project? 3 Q. Do you recognize this document? 3 A. We did not. 4 4 A. I do. Q. Okay. Were the lab results that you 5 5 Q. Okay. And can you describe it, please? received from Mr. Pierce sufficient to answer EPA's 6 6 A. This is titled, "Lame Deer Lagoon Sludge questions under the information requests that they 7 7 Removal." It's a pre-construction meeting agenda. sent back in September of 2018? 8 8 And the date is May 17th, 2018. A. In part. So the lab results had 9 9 Q. And was this document submitted by nitrogen content, pathogen, and metal sampling. 10 Nathan Pierce to the EPA? 10 But it did not include the final agronomic rate 11 11 A. Yes. calculations, site restrictions, or other 12 12 Q. Okay. And can you please read the management practices, or vector attraction 13 13 reduction. highlighted portion? 14 14 A. "Subcontractor: Nathan Pierce, Adamas MR. MUEHLBERGER: I'd like to show the 15 15 PLLC." witness Complainant's Exhibit 19, et. page 31. 16 MR. MUEHLBERGER: I'd like to show the 16 BY MR. MUEHLBERGER: 17 17 witness Complainant's Exhibit 19, et. page 12. Q. Was this also part of the response that 18 18 vou received from Nathan Pierce to EPA? Could we look at the top of the document here? 19 19 A. Yes. Thank you. 20 20 BY MR. MUEHLBERGER: Q. And can you describe this document, 21 21 Q. Do you recognize this document? please? 22 22 A. This is an e-mail. It's titled, "Update A. I do. 23 23 Q. Also submitted by Nathan Pierce to EPA? LD lagoon project." It's from Adamas Construction 2.4 24 to James Courtney of Indian Health Services. The A. Yes. 2.5 Q. Okay. And what is this document? 25 date is July 13th, 2018. Page 98 Page 100 1 A. This is lab results from samples taken. 1 Q. Okay. And can you read the highlighted 2 And it's dated August 2nd, 2018. The header has 2 portions, please? A. "We pumped and dewatered a significant 3 3 Adamas Construction. 4 O. Okav. 4 amount of sludge on Wednesday. 5 5 MR. MUEHLBERGER: I'd like to show the "We will be on-site today pumping 6 witness Complainant's Exhibit 19, et. page 26. 6 sludge. We should be ready to begin hauling and 7 BY MR. MUEHLBERGER: 7 application next week." 8 8 O. Can you describe this document? Q. Ms. Kleffner, what do these highlighted 9 9 A. This is a chain of custody for the lab references say to you about Mr. Pierce's 10 results. 10 involvement with the sludge project? 11 Q. Okay. And who's listed as the point of 11 A. So it mentions dewatering, so that 12 contact on this chain of custody? 12 indicates that he would have been a preparer. And 13 A. Adamas Construction and Nathan Pierce. 13 then it also talks about hauling an application 14 O. Okav. Are there other lab results in 14 next week, so that would make him a land applier as 15 the record that also have Adamas Construction 15 16 listed as the point of contact in the submittal 16 MR. MUEHLBERGER: I'd like to show the 17 that you received from Mr. Pierce? 17 witness 40 CFR 503.17. So if we could toggle over 18 A. No. This is the only submittal we 18 to the laptop, please. 19 received. 19 BY MR. MUEHLBERGER: 20 Q. Okay. And what does this tell you about 20 Q. Ms. Kleffner, you testified earlier that 21 Mr. Pierce's involvement with the sludge 21 both preparers and land appliers of sewage sludge 22 application project? 22 are responsible for recordkeeping requirements 23 A. So he took both soil and sludge samples 23 under Part 503; is that correct? 24 for it. 24 A. That is correct. 25 Q. Okay. And I think you answered this 25 Q. Can you locate the relevant regulations

Page 101 Page 103

in 503.17 that apply to preparers?

2.4

A. So it would be 503.17(a)(4)(i) would be for preparers.

Q. And looking at this information or this citation here, what kind of information are preparers of sewage sludge required to keep and maintain?

A. So they are required to keep and maintain pollutant concentrations. If you scroll down a little bit further, it will say there's a certification for vector attraction reduction, depending, of course, on what option is chosen for that. And then Class B, pathogen requirements.

Q. Thank you.

Ms. Kleffner, in any of the responses that you received from Nathan Pierce or Adamas Construction or the attorneys, did you get the information that you requested in the September 25th, 2018 request for information?

A. We only received part of it. We would have gotten what would have been necessary for a preparer, but we were missing a significant amount of information for a land applier.

Q. Can you walk us through what information was missing that you requested?

that.

Q. Let's talk about vector attraction. What is that and why is it important for EPA to receive that information?

A. Vector attraction reduction is what is necessary to reduce the attractiveness of biosolids to wildlife and other potentially disease-carrying organisms. So that would mean that you're keeping away any type of bugs or wild animals. If you have an instance where it's -- the biosolids are really attractive to wildlife, they will get into the biosolids, and then it has the potential to make its way off site and potentially have contact with other animals or humans.

Q. You testified that management practices helps to -- EPA to discern whether or not sewage sludge was overapplied. Is that correct?

A. Yes.

Q. What else is important about management practices for purposes of the biosolids regulations?

A. Purposes of management practices is to make sure that the biosolids stay on the site that they were intended to be land applied on. So management practices include making sure that you

Page 102

A. Sure. So we -- as a land applier, we were missing site restrictions, verification that vector attraction reduction was achieved through a physical method, and then management practices. The most significant thing for management practices were the agronomic rate calculations, since that was the initial complaint from Region 8 was that the biosolids were overapplied.

Q. Okay. Let's break down each of these here.

Why is it important that EPA receive site restriction information from biosolids preparers or appliers?

A. Site restrictions are based on public -- not public contact, but contact with the site in general. So site restrictions have a couple different requirements in it. Like if you are going to graze cattle on a site, you need to make sure that it's within a certain amount of time after the land application. If you're growing certain foods or turf grasses, that also needs to be within a certain amount of time after land application. So site restrictions basically keep people and animals away from biosolids for a period of time to ensure that there's no effects from

Page 104

apply biosolids a certain amount of distance away from a water body, that they're not overapplied, that they're not applied to land that's flooded or frozen. So it's just ensuring that biosolids stay where they are supposed to be on-site.

Q. How does a failure to submit the biosolids recordkeeping information impact EPA's ability to do its job?

A. So if we don't have the information, it is pretty much impossible for us to determine if a violation is present or if Part 503 has been followed.

Q. How could the agency's inability to do its job in that respect have impacts on human health or the environment?

A. So there's no way -- there would be no way for us to determine if management practices were followed. We would be unsure if humans have come in contact with it or if the biosolids have washed off into a water body. There's just no way to determine if the biosolids are doing their job in the way that this regulation was designed to do.

MR. MUEHLBERGER: I'd like to show the witness Complainant's Exhibit 21, et. page 1.

Page 105 Page 107 1 BY MR. MUEHLBERGER: A. No. 2 2 Q. So did Pierce ever submit the required Q. Ms. Kleffner, do you recognize this 3 document? 3 information under that September 2018 information 4 4 A. I do. request? 5 5 Q. And can you describe it, please? A. No. 6 6 A. This is an e-mail from Sara Hertz Wu of MR. MUEHLBERGER: I'd like to show the 7 7 Region 7 to Christopher Gallus and myself. I'm witness Complainant's Exhibit 26. 8 sorry. It's CCed to Christopher Gallus and myself. 8 MR. PIERCE: Your Honor, can I get the number 9 9 It was originally sent to Adamas Construction. The of that last exhibit? Sorry. 10 date is Thursday, July 18th, 2019. 10 THE COURT: Sure. I think it was -- was it 11 11 Q. And just as a reminder of these parties, CX21, et. Page 1? 12 12 who is Sara Hertz Wu? MR. Page 113 Page 115 1 Construction billed to NCUC. The received date on 1 A. This is an NCUC general fund payment 2 2 it is December 7th of 2018. voucher payable to Adamas Construction. 3 3 Q. And can you read the highlighted MR. PIERCE: Your Honor, I object to this 4 4 document. It's dated 2017, before the incident portions, please? 5 5 A. It details sludge pumping twice and then that is in question here. 6 6 sludge application to Robinson Field. THE COURT: Okay. It's already in evidence. 7 7 Why? What is the -- can you respond to the date Q. Were respondents seeking payment for 8 8 their involvement with the sludge removal and 9 9 application project? MR. MUEHLBERGER: Certainly. Your Honor, 10 A. Yes. 10 this document speaks to Mr. Pierce's involvement as 11 MR. MUEHLBERGER: I'd like to show the 11 an operator at the Lame Deer POTW, which would make 12 witness Complainant's Exhibit 43, et. page 6. 12 him subject to Clean Water Act Section 308 13 13 THE COURT: Just quickly before you move on information requests. 14 to that, can you quickly just identify the exhibit 14 MR. PIERCE: Your Honor, the document simply 15 numbers again for the last two invoices you just 15 shows a payment made. It doesn't give any 16 covered? 16 indication as to an operator status. 17 MR. MUEHLBERGER: Certainly. 17 THE COURT: Can you respond, Mr. Muehlberger? 18 THE COURT: I'm trying to keep up, but... 18 MR. MUEHLBERGER: Certainly. May I respond 19 MR. MUEHLBERGER: And I can slow down, too. 19 by asking the witness a question about operators? 20 THE COURT: It's okay. I don't want to 20 THE COURT: Sure. 21 interrupt and as long as Mr. Pierce is following 21 MR. MUEHLBERGER: Is the operation of a 22 along. But I just wanted to make a quick note of 22 muffin monster a typical duty of a POTW operator? 23 23 THE WITNESS: Yes. It's part of the 24 MR. MUEHLBERGER: Sure. The first exhibit is 24 operation and maintenance of the system. 25 Complainant's Exhibit 43, et. page 28. The second 25 MR. PIERCE: Your Honor, I think a more valid Page 114 Page 116 1 is CX43, et. page 7. 1 question: Can a contractor work on a muffin 2 THE COURT: Thank you. 2 monster without being an operator? 3 MR. MUEHLBERGER: You're welcome. 3 THE COURT: Okay. Hold on just a second. I 4 BY MR. MUEHLBERGER: 4 was about to say that since the exhibit is already 5 5 Q. Okay. Looking at CX43, et. page 6. Can admitted into evidence, I think the question is 6 vou please describe this document? 6 certainly an appropriate one just for cross. So 7 7 A. This is an e-mail from Adamas make a note of it, and then just cover it when you 8 8 Construction and Development to Sheri Bement. The cross-examine, and you can get into the date 9 9 date on it is Friday, November 24th, 2017. relative to the alleged violations. Certainly, I 10 10 understand the reason for bringing it up. But the Q. Can you please read the highlighted 11 11 portion? document is already in evidence, so I think the 12 A. It says, "Please find the attached 12 best course of action is for you to question about 13 13 invoice for the muffin monster and east-side it and bring those points out through testimony. 14 MR. PIERCE: Yes, ma'am. 14 project." 15 15 Q. Ms. Kleffner, can you please define what THE COURT: Okay. So please go ahead, 16 16 is a muffin monster? Mr. Muehlberger. 17 A. So a muffin monster is typically used in 17 MR. MUEHLBERGER: Thank you. 18 BY MR. MUEHLBERGER: 18 treatment facilities. It's essentially a garbage 19 19 O. Can you please read the two highlighted disposal in some sense. It's a grinder to grind up 20 lines on this document? 20 solids before it goes into the treatment system. 21 Q. Thank you. 21 A. It says, "East side restoration, muffin 22 22 monster." And then it says life station, but I'm MR. MUEHLBERGER: I'd like to show the 23 assuming it says, "Lift station, Invoice Number 23 witness Complainant's Exhibit 43, et. page 65. 24 NCUC-05-2017." 24 BY MR. MUEHLBERGER: 25 25 Q. And can you tell us the amount that Q. Can you describe this document, please?

	Page 117		Page 119
1	Adamas was seeking through this invoice?	1	MR. SPRAGUE: Can I
2	A. \$1,176.56.	2	THE COURT: Oh, yeah. No, no, no. I can't
3	MR. MUEHLBERGER: I'd like to show the	3	have you chime in.
4	witness CX43, et. 66.	4	MR. SPRAGUE: Okay.
5	BY MR. MUEHLBERGER:	5	THE COURT: Yeah. But yeah. No. You're
6	Q. And again, Ms. Kleffner, is this all	6	an observer. Sorry. You haven't been sworn, and
7	part of the response that you received from NCUC	7	it's really inappropriate. You're just here to
8	for your information request?	8	observe.
9	A. Yes.	9	So you're drawing from experience in
10	Q. Okay. Can you describe this document,	10	past cases that you've looked at?
11	please?	11	THE WITNESS: Yes, ma'am.
12	A. This is a check from NCUC's general fund	12	THE COURT: Okay. All right. Well, I will
13	made payable to Adamas Construction Services, PLLC,	13	overrule the objection. But I think it's worth you
14	in the amount of \$1,176.56.	14	delving into a little bit on cross, Mr. Pierce, to
15	Q. Does that amount match the invoice that	15	kind of further pull out what you might want to
16	was submitted by Adamas Construction?	16	get.
17	A. Yes.	17	MR. PIERCE: That's your purview, Your Honor.
18	Q. Did Adamas Construction receive payment	18	THE COURT: Okay. Go ahead.
19	from NCUC for operator duties?	19	MR. MUEHLBERGER: Thank you. I'd like to
20	A. Yes.	20	show the witness Complainant's Exhibit 43, et.
21	MR. MUEHLBERGER: I'd like to show the	21	page 9.
22	witness Complainant's	22	BY MR. MUEHLBERGER:
23	MR. PIERCE: Objection, Your Honor.	23	Q. Can you describe this document, please?
24	THE COURT: Uh-huh.	24	A. This is an e-mail from Dion Killsback to
25	MR. PIERCE: He asked if that was payment for	25	Adamas Construction and Development. And it's
	Page 118		Page 120
1	operator duties. She doesn't know whether that	1	dated Friday, August 24th of 2018.
2	payment was for operator duties or what the payment	2	Q. And again, was this part of the
3	was for.	3	submittal that NCUC sent to EPA based on its
4	THE COURT: Can you respond to that?	4	information request?
5	THE WITNESS: I based on the invoice that	5	A. It is.
6	was listed on there, I would say that the duties,	6	Q. And to your knowledge, who is Dion
7	lift station recovery, muffin monster, those I	7	Killsback?
8	would consider operator duties in my professional	8	A. He was the attorney for NCUC, I think.
9	judgment.	9	Q. Can you please read the first
10	THE COURT: And what do you base that on I	10	highlighted line here?
11	guess when you say your "professional judgment"?	11	A. "I have informed you that the NCUC is
12	Is that what experience are you drawing from in	12	responsible for the performance of the sludge
13	forming that conclusion?	13	removal and Adamas Construction, as a
14	THE WITNESS: So, generally, I work	14	subcontractor."
15	with and this happens more often whenever we	15	Q. Does this change did this change your
16	have a compliance order that goes out to a	16	mind as far as your determination that Mr. Pierce
17	facility. As part of those compliance orders, we	17	was responsible for the sludge removal and
18	will put in, I guess, requirements for a facility	18	application project?
19	for upgrades that they need to make as part of	19	A. No. I mean, it confirmed it that he was
20	their duties. It's up to them if they want to hire	20	part of that project.
21	out that or not. But generally, in a smaller	21	Q. Can you read the next highlighted line,
22	system like this, upgrades and updates are made by	22	please?
23	an operator of a facility.	23	A. "It was understood that Adamas
24	MR. SPRAGUE: Your Honor?	24	Construction would complete the application of the
25	THE COURT: Yes.	25	remaining stored sludge."

Page 121 Page 123 1 1 THE COURT: Okay. That, in many cases, are Q. And the next line, please? 2 2 A. "In order to process your payment, there authored by other people? 3 3 are several things that must occur. Number 1, THE WITNESS: Yes. THE COURT: Okay. Go ahead. 4 4 application of sludge should be completed; Number 5 5 2, the documentation to support your work should MR. MUEHLBERGER: Thank you. Showing the 6 also be completed." 6 witness CX43, et. page 12. 7 7 Q. What does this document tell you about BY MR. MUEHLBERGER: 8 8 Mr. Pierce's involvement with the sludge project? Q. Is this a continuation of that same 9 9 A. That he directed and did the land letter that you were just describing? 10 application project. 10 A. Yes. 11 MR. MUEHLBERGER: I would like to show the 11 Q. And can you read the highlighted 12 12 witness CX43, et. 11, please. portion, please? 13 BY MR. MUEHLBERGER: 13 A. "Montana DEQ wastewater Class 1C and 2E 14 14 Q. Was this also part of the submittal from operator." 15 15 NCUC? MR. MUEHLBERGER: I'd like to show the 16 A. It was. 16 witness CX43, page 13. 17 Q. And can you describe this document, 17 BY MR. MUEHLBERGER: 18 18 please? Q. Can you read the highlighted portions, 19 A. This is a letter from Mr. Pierce about 19 please? 20 20 the NCUC GM vacancy. And it's dated December 4th A. It's titled, "Bio/Resume for Nathan 21 21 Pierce." 22 22 "I have been able to develop the skill Q. Can you read the highlighted portion, necessary to help foster better water and sewer 23 23 please? 24 A. "I am respectfully submitting my name 24 systems." And then it goes on to list "Montana 25 25 for consideration to the open position, as the 'application' wastewater operator Class 1C and 2E, Page 122 Page 124 1 general manager for the Northern Cheyenne Utility 1 Operator I.D. Number 8733." 2 Commission. 2 O. Is Mr. Pierce holding himself out to be 3 3 The company owned by my wife and myself an operator in this document, Ms. Kleffner? 4 has been operating for the betterment of the NCUC 4 A. Yes. 5 5 MR. MUEHLBERGER: I'd like to show the since the Boys and Girls Club break and assisted in 6 most of the other water and sewer breaks on the 6 7 7 MR. PIERCE: Objection, Your Honor. The Northern Cheyenne reservation since that time." 8 8 document clearly states application. Q. Did this document indicate to you that 9 9 Mr. Pierce performed operator duties for NCUC? THE COURT: Um, I --10 10 MR. PIERCE: Seems like we're leading the A. Yes. 11 11 MR. MUEHLBERGER: I'd like to show the witnesses to draw conclusions as well. 12 12 THE COURT: Yeah. I understand. And that's witness CX43, page 12. THE COURT: Real quickly, did you ever speak 13 13 part of -- you know, there was some clarification I 14 14 just did in a couple of the questions I had. So I with Mr. Pierce personally about any of this, or 15 15 are you drawing these conclusions just from your think, A, some of this is appropriate for you to 16 delve into when you cross, and, B, you know, just 16 reading of the records? 17 17 remembering what I pointed out earlier, just THE WITNESS: Just from my reading of these 18 because there's evidence in the record is 18 records. The only time that Mr. Pierce -- I talked 19 19 independent of how much weight I afford it based to Mr. Pierce was we had a pre-filing negotiation on, for example, certain arguments you might be 20 20 call. Attorneys were present. But usually, after 21 somebody is represented by an attorney, I don't 21 making and pointing out here. 22 22 So it's -- you know, it's not to say contact respondents. 23 that I'm not taking note of what your objections 23 THE COURT: Okay. So you're drawing 24 are. It's just a question of where best to address 24 conclusions based on your reading of a document? 25 them. The documents are in. They're going to stay 25 THE WITNESS: Yes.

Page 125 Page 127 1 BY MR. MUEHLBERGER: in. But certainly, delve into some of these points 1 2 on cross and make any arguments you wish about how 2 Q. Can you describe this document, please? 3 much weight I should afford certain pieces of 3 A. This is a check from NCUC Contract 4 4 evidence based on what I have before me and who's Services to Adamas Construction Company. The date 5 testified about them. 5 is June 8th, 2018. It is in the amount of \$22,950. 6 MR. PIERCE: Yes, ma'am. 6 And it says at the bottom, "Adamas Construction, 7 THE COURT: Okay. Go ahead, Mr. Muehlberger. 7 Mobilization Payment Number 1." 8 MR. MUEHLBERGER: I'd like to go back to 8 MR. MUEHLBERGER: Let's look at CX43, page 9 9 CX43, page 12, please. 10 BY MR. MUEHLBERGER: 10 BY MR. MUEHLBERGER: 11 11 Q. Can you describe generally what this Q. Ms. Kleffner, can you read starting 12 12 with, "Currently I have"? document is? 13 13 A. This is an invoice from Adamas A. It states, "Currently I have 14 14 certification or licenses that include but are not Construction to NCUC. 15 15 limited to the following: General contractor, Q. Can you read what it says under "labor" 16 independent contractor, real estate broker, 16 there, please? 17 asbestos removal and handling, contract law, 17 A. "Technical consulting on various IHS, NC 18 18 Tribal Government, and NCUC meetings. Various Harvard" -- and then it goes on to state the DEQ 19 operator -- "project management, construction site 19 project coordinations to include coordination with 20 20 safety coordination, confined space operations, NC PACE to remove two separate sewer line 21 TERO" -- and it lists the number -- "design and 21 obstructions." 22 22 installation of water and wastewater systems." Q. And the next line under "labor," please? 23 23 Q. Does this paragraph indicate that A. "Post office main line break. Three 24 2.4 Mr. Pierce holds a certification as a Montana DEQ Adamas Construction employees onsite." 25 wastewater Class 1C and 2E operator? 25 MR. MUEHLBERGER: I'd like to show the Page 126 Page 128 A. Yes. 1 1 witness CX43, et. page 43. 2 Q. Does it say anywhere in this paragraph 2 BY MR. MUEHLBERGER: 3 3 that this is an application only? Q. Can you describe this document, please? A. This is another check from NCUC general 4 4 5 5 fund made to Adamas Construction Services in the MR. MUEHLBERGER: Okay. I'd like to move on 6 to Complainant's Exhibit 43, et. page 3. 6 amount of \$1,419.55. 7 7 BY MR. MUEHLBERGER: MR. MUEHLBERGER: Let's look at CX43, et. 8 8 page 44. Q. Can you please describe this document? 9 9 A. This is a check from the NCUC general BY MR. MUEHLBERGER: 10 fund paid to Adamas Construction Services. The 10 Q. Can you please describe this document? 11 date is 2/7/2018, and it is for \$4,655. 11 A. This is another invoice from Adamas 12 MR. MUEHLBERGER: I'd like to show CX43, et. 12 Construction and Development Services billed to 13 13 14 BY MR. MUEHLBERGER: 14 Q. Okay. And can you read the highlighted 15 Q. Can you describe this document, please? 15 portion, please? 16 A. This is another check from NCUC Contract 16 A. "One-third portion of the shared cost of 17 17 Services to Adamas Construction Services. The date the Structural Engineering Assessment and Report 18 is 12/12/2018, and it is in the amount of 18 for the Boys and Girls Club, Northern Cheyenne 19 19 \$6,620.86. Nation." And the total is \$1,419.55. 20 Q. And can you read the highlighted portion 20 Q. And does that amount match the check 21 underneath that? 21 that you just looked at on the previous page? 22 22 A. It says, "Lagoon Project." 23 MR. MUEHLBERGER: Okay. I'd like to look at 23 MR. MUEHLBERGER: Looking at Complainant's 24 CX43, page 34. 24 Exhibit 43, et. page 48. 25 25

Page 163 Page 161 1 1 MR. PIERCE: So I guess her scope of O. Thank you. 2 2 MR. MUEHLBERGER: Skipping ahead to CX 45, knowledge would be as a compliance officer, not as 3 3 a contract specialist and what the contracts page 16. 4 4 BY MR. MUEHLBERGER: interpreted or mean. So if that means 5 5 Q. Could you please read the highlighted compliance --6 6 portion there? THE COURT: That's my understanding. 7 7 A. "It is also important to" -- it says Were you representing anything else, 8 8 not, but I'm assuming that says "note the property Mr. Muehlberger? 9 9 MR. MUEHLBERGER: No, Your Honor. owner, Tom Robinson, was the applier of the sludge. 10 My client, by EPA definition, was the sludge 10 THE COURT: Okay. It's based on her -- it's 11 based on her knowledge as a compliance officer. preparer." 11 12 That's been my take on it throughout. 12 Q. Based on your experience as a compliance 13 MR. PIERCE: Yes, Your Honor. 13 officer, in reviewing this record, Ms. Kleffner, 14 THE COURT: Okay. And again, you can make 14 what does this tell you about NCUC's involvement in 15 15 the arguments you want to, but it's -- it's not the sludge project? 16 going to prevent the testimony, I think, at that 16 A. They contracted it out to Adamas -- or 17 17 point. It's really more arguments about weight. Adamas, I'm sorry -- to oversee --18 You can certainly delve into some questions on 18 MR. PIERCE: Objection, Your Honor. There's 19 19 nothing for the witness to base her opinion on. 20 MR. PIERCE: I certainly appreciate that. I 20 And she does not have any firsthand knowledge of 21 think they could have brought witnesses to speak 21 what happened, what she's testified. 22 directly to this that they failed to bring, and 22 THE COURT: So you're basing -- what you are 23 they identify it as people being crucial to making 23 about to say, you're basing on what? 24 this point. 24 THE WITNESS: Based on the agreements and the 25 25 e-mail traffic and the contract between NCUC and THE COURT: You know, I have what I will have Page 162 Page 164 1 Mr. Pierce, that would tell me that it was 1 before me, and that's it. This is the evidentiary 2 2 contracted out, the land removal or the sludge hearing. This is what I'm going to have to base a 3 3 preparation and land application was contracted out decision on. And that's -- and that's really all and directed by Mr. Pierce and his company. 4 4 of it. So you can -- you know, you can make 5 5 THE COURT: Okay. It's kind of going back to whatever arguments you want to. But at the end of 6 the same thing. I recognize that, based on the 6 the day, I will be basing my decision on the 7 7 witnesses that are available, they didn't evidentiary record created from this proceeding. 8 necessarily offer all of the documents that are 8 Whether there be holes or no holes or 9 9 being -- that have been admitted into the record. circumstantial evidence or some direct evidence, 10 So that's just going to apply, I think, probably 10 I'm left with the record I'm left with, and it's 11 throughout the proceeding. 11 not always so perfect. So that's -- that's all on 12 So they're already in. And, you know, 12 my shoulders. But again, just be mindful of what I 13 13 the Region is going to present their case and try said early on about making arguments about weight 14 to connect up things as they can. And you're 14 when -- you know, post-hearing. And draw out what 15 welcome to cross about it, but I recognize that 15 you want on cross. 16 already. So it's a sustainable objection, but I'm 16 MR. PIERCE: Yes, ma'am. 17 going to allow her to testify based on what she 17 THE COURT: Okay. Did you have more 18 understands from the documents that are before her 18 questions? 19 as a compliance officer and in that capacity alone 19 MR. MUEHLBERGER: I do, Your Honor. For 20 because she obviously didn't author them. 20 clarification, was that objection sustained or 21 And I assume you didn't speak to these 21 overruled? individuals? 22 22 THE COURT: Well, it's a sustainable 23 THE WITNESS: No, I did not. 23 objection, but -- because you don't have personal 24 THE COURT: Okay. So it's based on that 24 knowledge. But I think that it's going to be 25 scope of knowledge. 25 recurring issue throughout all of this, right? I

Page 165 Page 167 1 mean, these were stipulated to. So challenges with 1 Your Honor. 2 regard to admissibility I am not entertaining. 2 THE COURT: Okay. All right. Please go 3 So I'm assuming that there's a certain 3 ahead, Mr. Muehlberger. 4 4 **DIRECT EXAMINATION - Continued** amount of reliability in what has come into the 5 record. But that is a separate -- well, I 5 BY MR. MUEHLBERGER: 6 shouldn't say it's separate. Really, all of the 6 O. Ms. Kleffner, as compliance officer for 7 7 evidentiary rules are targeted toward reliability. EPA, is it your job to make compliance 8 8 But I think in an administrative setting, as I said determinations? 9 9 in the beginning, there's a separate analysis that A. Yes. 10 falls on me with respect to how much weight I 10 Q. Do you make compliance determinations 11 assign any particular piece of evidence. A piece 11 based on records received from other parties? 12 of evidence can come into the record, and when I'm 12 A. Yes, we do. 13 reviewing everything, I may give it no weight. 13 Q. Does that include other government agencies? 14 So I feel like that's something I kind 14 15 of need to drive home in a lot of these proceedings 15 A. Yes. 16 because it's not always understood. There isn't a 16 Q. Does that include other EPA regions? 17 jury. It's just me. So I'm able to parse a lot of 17 18 those things out, and I have to determine where the 18 Q. And do you base your conclusions about 19 weight of the evidence is and where I can place the 19 violations or noncompliance based on a record 20 20 most reliance. So some of these arguments I think review? 21 21 go to that. A. Yes. 22 22 MR. MUEHLBERGER: I'd like to show the I think we're also getting into an area 23 23 of contract law, frankly, in terms of witness Complainant's Exhibit 46, et. page 23. 24 subcontractors agreements, general contractor 24 BY MR. MUEHLBERGER: 25 responsibilities and liabilities. Those are legal 25 Q. Do you recognize this document? Page 166 Page 168 1 issues. Feel free to delve into them when you 1 A. Yes, I do. 2 2 brief the case. I think they're certainly relevant Q. Okay. And was this submitted by IHS to 3 here. I know I will be. So I would encourage you 3 EPA? A. Yes. 4 to consider that as well. 4 5 5 But with that said, it is a sustainable Q. And can you please read the first two 6 objection. But I'm allowing you to read what's on 6 highlighted lines? 7 7 A. "To whom it may concern. My name is the page, and based on your expertise and 8 8 Michelle Pierce and I am wife and co-owner of experience as a compliance officer, you can provide 9 9 your opinion of what you think it represents, Adamas Construction and Development with my 10 understanding you don't have personal knowledge for 10 husband, Nathan Pierce." 11 11 each and every one of these documents. Q. And the next highlighted line, please. 12 THE WITNESS: Yes. 12 A. "She even had Nathan sign to be her 13 13 THE COURT: Okay. Is that clear enough? sewer operator since none of her crew members MR. MUEHLBERGER: It is, thank you. 14 including herself could get certified." 14 15 15 THE COURT: Okay. Q. And who is the "she" in this statement, 16 16 MR. MUEHLBERGER: And I'd also like to state to your knowledge? 17 17 MR. PIERCE: Objection, Your Honor. it's 12:15 right now, and I just want to let the 18 THE WITNESS: In the previous --18 Court know that we've got maybe 15, 20 more minutes 19 19 THE COURT: Hold on. This is basically a left in direct examination here. 20 recurring objection that I think you have based on 20 THE COURT: Okay. That's great. I 21 21 appreciate the timeline. So you can finish up with personal knowledge, right? 22 22 MR. PIERCE: Well, personal knowledge -- and your direct. And then, unless you don't want to 23 it seems like we're just leading the witness. In 23 break, we can take a break, and then you can pick 24 addition, this is already evidence, and it's 24 up with your cross. But you have time --

already been included. So, I mean, it's something

25

MR. PIERCE: I think a break would be great,

25

Page 171 Page 169 1 that you can simply read. We don't need the 1 portion on this? 2 witness to draw a conclusion. 2 A. "Sheri did not come to the site to see 3 THE COURT: Understood. But I do think that 3 what was being pumped, how it was being pumped or 4 4 it's important that the point here is you're a what the crew was doing to meet the contract 5 5 compliance officer, and you had something to do needs." 6 6 with the development of this enforcement action, Q. Again, in your experience as a 7 right? 7 compliance officer, what does this document tell 8 8 THE WITNESS: Yes. you about NCUC's involvement with the sludge 9 9 THE COURT: So what you considered, what you project? 10 focused on, I think is important for me to know. 10 A. They had a very hands-off approach to And your responses in that context, I'm allowing. 11 it. Basically, they contracted it out and were 11 12 12 So I will -- I guess for the sake of done with it. 13 efficiency moving forward, I will recognize that 13 Q. In your experience, could NCUC have been 14 14 you have a standing objection to any testimony responsible for the biosolids records in this case? 15 15 being offered that did not come from personal A. No. In order for them to have records 16 knowledge of this witness. But her testimony is 16 to keep, they would have had to have sampled, which 17 17 based on her review as a compliance officer, what they did not. 18 18 MR. MUEHLBERGER: Okay. I'd like to show the she considered, what she drew from the documents 19 before her from that documentary review in bringing 19 witness Complainant's Exhibit 9, page 1, which is 20 20 this action. And it's in that context that I'm the very first exhibit that we showed at the 21 allowing her testimony. 21 beginning of her testimony. 22 2.2 So, I mean, you know, you don't need to BY MR. MUEHLBERGER: 23 repeat that objection. If you have another 23 Q. Can you refresh our memory? What is 2.4 objection, by all means. But I don't need to say 24 this document? 25 25 the same thing over and over again because I think A. This is -- it's titled, "Technical Page 170 Page 172 1 I've already beaten it to death. 1 Assistance Record." And this is Indian Health 2 MR. PIERCE: Sure. 2 Service's report after they got a complaint from 3 3 THE COURT: Okay. Go ahead and respond. Mr. Robinson. Q. Could you read the sentence that begins, 4 THE WITNESS: Okay. So the "she," in it if 4 5 5 you look at the previous paragraph, it talks about "The subcontractor has also"? 6 Sheri Bement. So that would be Sheri Bement. 6 A. "The subcontractor has also been 7 BY MR. MUEHLBERGER: 7 refusing to provide the target application rates 8 8 for the sludge, laboratory tests, and application O. And who is Sheri Bement again? 9 9 A. She was the general manager for NCUC. logs." 10 MR. MUEHLBERGER: Showing the witness 10 Q. In your estimation from this document, 11 Complainant's Exhibit 46, et. page 24. 11 who's the subcontractor referred to here? 12 BY MR. MUEHLBERGER: 12 A. That would be Mr. Pierce and Adamas. 13 He's identified later in the document as the 13 Q. Is this a continuation of that same 14 14 subcontractor. letter? 15 15 A. Yes, it is. Q. Ms. Kleffner, is it your conclusion that 16 16 Q. Can you please read the highlighted Adamas -- I'm sorry, I'm going to keep 17 17 mispronouncing that -- Adamas and Pierce were portion at the bottom? 18 18 A. "It was determined then that Adamas operators at the Lame Deer POTW? 19 19 A. Yes. Construction would do the lagoon project alone with 20 Q. Is it your conclusion that Adamas and 2.0 no use of NCUC equipment or staff, but NCUC would 21 remain the prime contractor of the contract." 21 Pierce prepared sewage sludge? 22 MR. MUEHLBERGER: Showing the witness CX46, 22 A. Yes. 23 Q. Is it your conclusion that Adamas and 23 et. page 25. 24 24 Pierce applied the sewage sludge? BY MR. MUEHLBERGER: 25 25 A. Yes. Q. Can you please read the highlighted

Page 175 Page 173 1 Q. Out of all of the parties in this case 1 A. "If the pollutant concentrations in 2 that we've been referencing here -- Ernie Sprague, 2 Section 503.13(b)(3) and the Class B pathogen 3 Tom Robinson, NCUC, and Adamas and Pierce -- who's 3 requirements in 503.32(b) are met when both sewage 4 4 the only person that could have created and sludge is applied to agricultural land, forest, a 5 maintained all the records necessary to respond to 5 public contact site, or reclamation site." 6 6 EPA and comply with the recordkeeping requirements? Q. Okay. Let's break this down a little 7 7 A. That would have been Adamas. bit further. So let's look at the very first line 8 8 Q. And how did you arrive at that of the pollutant concentrations in 503.13(b)(3). 9 9 MR. MUEHLBERGER: So could we look at conclusion? 10 A. So as a preparer, he sampled, he had the 10 503.13(b)(3), please? Thank you. 11 11 results for the nitrogen contents and for the BY MR. MUEHLBERGER: 12 12 metals and pathogen. From that pathogen content, Q. Ms. Kleffner, can you describe how this 13 13 it was determined it was a Class B, which part of the regulations apply to this specific 14 14 determines the recordkeeping requirements. 15 15 In addition to that, since he did not A. So for all land application projects, a 16 16 sampling for the metals listed in Table 3 is provide any of the lab results to the other 17 required as part of that. And this is a monthly 17 subcontractors, it would have been impossible for 18 18 them to calculate agronomic rate without those average concentration. This is a relatively small 19 amount of biosolids that were land applied. So 19 results. So, being precluded from having those 20 only a single metal sample is required. Within 20 results, the other subcontractors couldn't have 21 21 this, biosolids cannot be land applied over the fulfilled the agronomic rate recordkeeping 22 amounts listed in Table 3. So in order to verify 22 requirement as required by Part 503. 23 23 that the biosolids meet Part 503, you would need to Q. Thank you. 24 24 I'd like for you now to walk us through retain the sampling for metals in this instance. 25 2.5 Q. Thank you. the specific recordkeeping requirements found in Page 174 Page 176 1 Section 503 or Part 503 and how they apply 1 MR. MUEHLBERGER: Can we go back to 503.17, 2 specifically to this case? So could we toggle over 2 please? BY MR. MUEHLBERGER: 3 3 to the recordkeeping requirements under Section Q. Okay. So after 503.13(b)(3), it says, 4 503.17, 40 CFR 503.17. 4 5 5 "and the Class B pathogen requirements found in Earlier, you testified that Adamas and 6 Mr. Pierce are the appliers of sewage sludge in 6 503.32(b)." Could you talk how this specifically 7 7 applies to this case? this case; is that correct? 8 8 A. Yes. A. Yes. So, like I talked about earlier, 9 9 Q. Okay. I'd like you to talk about the Class -- there's two different types of biosolids. 10 10 There's Class A and Class B. So in order to meet relevant requirements under the recordkeeping 11 requirements. So, as the applier, where would you 11 Class A, there's two requirements. You must both 12 12 pass the pathogen test, which has 1,000 NPN dry find those requirements on 503.17? 13 A. That would be 503.17(a)(4)(ii) --13 weight basis limit. And then in addition to that, 14 14 you also need to process the biosolids within a Q. Okay. 15 A. -- would be the layout application 15 very specific set of requirements within Part 503. 16 requirements. 16 So both of those requirements are required to meet 17 MR. MUEHLBERGER: Okay. I think you just 17 Class A. 18 passed it. Okay. Great. Could we go back to 18 Class B is a little less stringent. And

based on the lab results that we received from

Mr. Pierce, it would not meet Class A. He didn't

prove up that it was treated in a way that would

make it Class A. And also, the sampling results

did not meet Class A. So it would have met Class

For Class B, there's also a requirement.

19

20

21

22

23

24

25

Subpart 4 there? Thank you.

BY MR. MUEHLBERGER:

says after Number 4 there?

A. Yes.

Q. Is this the relevant part of the

regulations that applies to land appliers?

Q. Okay. Could you please read what it

19

20

21

22

23

24

25

Page 179 Page 177 1 It's seven samples in a geometric mean of that 1 since he prepared, land applied, he directed, he 2 2 sample. It only -- a single sample was taken. But was present for all of that, that was the best 3 3 based on my best professional judgment and the contact in order for us to get all of the 4 4 recordkeeping requirements fulfilled. sample results, I think it was somewhere around 5 5 28,000 for fecal coliform. That would make it MR. MUEHLBERGER: Your Honor, could I have 6 6 Class B biosolids. one minute, please? 7 So Class B can either be determined 7 THE COURT: Sure. I had a question or two to 8 8 through sampling, which is what most facilities do. follow up on, but you go ahead first. 9 9 It's a lot easier than trying to meet the other MR. MUEHLBERGER: Thanks. 10 half, which would have been through a treatment 10 (Whereupon, there was a 11 regime. So these were Class B based on the lab 11 pause in the proceedings.) 12 results that were initially submitted to us. 12 MR. MUEHLBERGER: Your Honor, whenever you're 13 13 Q. Thank you. ready to ask questions, we're ready. 14 14 THE COURT: Okay. When you mentioned that Going back to the relevant regulation 15 here, then it goes on to say, "If the pollutant 15 the respondents didn't give the sampling results, 16 16 concentrations are met when bulk sewage sludge is the lab results to anyone else in order for those 17 applied." Does this case involve bulk sewage 17 other individuals or subcontractors to comply, do 18 sludge? 18 you know if he shared those lab results with anyone 19 A. Yes, it would be bulk sewage sludge. 19 or any entity? 20 Bulk sewage sludge is usually what happens with 20 THE WITNESS: Not that I'm aware of. I 21 most biosolids. If it is prepared in a Class A 21 don't think in our discussions with -- well, the 22 manner and it is sold or given away in containers 22 attorney's discussions with the other 308 23 or bags, it would be considered bagged biosolids. 23 respondents, I don't think anybody else had a copy 24 But this is just a broadcast of a relatively large 24 of those lab results. 25 amount of biosolids in relation to what is normally 25 THE COURT: And you got them how? Page 178 Page 180 1 seen, so it would be bulk sewage sludge. 1 THE WITNESS: They were originally turned in 2 2 O. And then finally, the regulation goes on to us in June with that e-mail from Mr. Pierce and 3 3 his attorney, Mr. Gallus. to say, "If the sewage sludge is applied to 4 agricultural land, forest, a public contact site or 4 THE COURT: Okay. You may or may not know 5 5 this in your role, but if you do, let me know. I a reclamation site." What applies in this specific 6 case? 6 mean, do you know what the process generally is 7 7 A. This would be agricultural land. And when someone obtains these samples, where they tend 8 8 we base that off of -- at the initial Indian to get sent to? 9 9 Health Services inspection report had photographs, THE WITNESS: Yeah. For -- so as Part 503, 10 it looked like an agricultural field. There 10 and then just usually, Part 136 in general has 11 were -- it wasn't a golf course or there weren't 11 stipulations on how you can treat biosolids. 12 other homes around. That information. And then 12 They're usually sent to labs that are 13 whenever we received an additional contract, it 13 EPA-certified, is another thing that we look for 14 14 also stated that it was going to be applied to a with them. So they'll take a sample. They will 15 barley field, which would be an agricultural area. 15 preserve them as necessary. And that's all 16 16 Q. Ms. Kleffner, why did EPA not initiate indicated on the chain of custody, which we've 17 17 an enforcement action against any of the other covered earlier, and it's sent to the lab for 18 18 processing. And, of course, it needs to also meet parties in this case besides Mr. Pierce and Adamas 19 Construction? 19 a holding time in addition to that. So that's 20 20 A. So, based on the sampling, Mr. Pierce another Part 136 requirement. 21 conducted the sampling. He did not give any 21 So all of that is met. It's processed 22 22 results to any other parties that we're aware of. by the lab. The lab will send it back to whoever

submitted the work order or whoever is on the work

THE COURT: Was this an EPA-certified lab

23

24

25

order for submittal.

23

24

25

It would have been very difficult for Mr. Robinson

and Mr. Sprague to create and generate the entirety

of the Part 503 regulations. In addition to that,

Page 181 Page 183 1 that these samples -- these results came from? 1 something up. Let me take a look here. Okay. 2 2 THE WITNESS: Yes. Just bear with me one second. 3 3 MR. MUEHLBERGER: Take your time. THE COURT: Okay. So they would have 4 4 THE COURT: I'm just trying to track this. possession of the test results as well? 5 5 THE WITNESS: Yes. The lab would. All right. 6 6 THE COURT: Okay. In addition to the person MR. MUEHLBERGER: Your Honor, can I ask you a 7 7 question? requesting them --8 8 THE WITNESS: Yes. THE COURT: Sure. I just don't want to 9 9 THE COURT: -- who gets -- who gets them? confuse myself, so... MR. MUEHLBERGER: It seems like maybe some of 10 THE WITNESS: Uh-huh. 10 11 THE COURT: Okay. I guess that's all I 11 the confusion -- if you feel like we've not 12 12 really had to follow up on. adequately gone over how the preparer requirements 13 13 Anything else? of the recordkeeping requirements apply 14 MR. MUEHLBERGER: No further questions, Your 14 specifically to this case, I'm happy to have the 15 Honor. 15 witness also testify to that similar to what we 16 THE COURT: Did you want to cover, 16 just did with the land applier regulation. 17 though -- I think at one point you mentioned 17 THE COURT: Yeah. I don't think it was that. 18 explaining why there was a regulatory cite change 18 I thought -- I actually thought -- and again, this 19 in the amended complaint. 19 is going back from memory, so I don't want to 20 MR. MUEHLBERGER: Sure. 20 create confusion here if I'm simply misremembering. 21 BY MR. MUEHLBERGER: 21 I thought there was actually a change in the 22 Q. Ms. Kleffner, can you describe why we 22 particular citation that dictated specifically what decided to -- why EPA decided to change the 23 23 records needed to be developed and maintained. I 24 regulatory citation in the complaint? 24 thought there was an actual difference in the way 25 A. Sure. So when we originally looked at 25 the complaint charged it, which was why I gave Page 182 Page 184 1 the complaint, we realized we had cited 1 respondent the opportunity to file another answer. 2 2 503.17(a)(5), which applies to cumulative pollutant And I have to believe that that was the case or I 3 3 loading. would not have given him the opportunity to file 4 4 So in some instances where you have another answer. But it's been a while, and so I'm 5 5 biosolids that are continually applied to a site trying to put my hands on it. But it's a big over an extended period of time, probably, you 6 6 record. So I'm trying to go through here. 7 7 I can maybe -- you're going to be here. know, decades of biosolids land application, it 8 8 becomes important that you maintain those records You're going to be here available for cross. So 9 9 and track the cumulative loading for metals on that rather than delay further, I can take a look at 10 site. 10 this over lunch. And if I need to come back and 11 11 So under 503.17(a)(5), that is for just ask a question or two, I'll hop in. 12 cumulative loading. It has an indefinite 12 MR. MUEHLBERGER: Okay. So I'll have the 13 13 recordkeeping requirement rather than the 5 here, witness go through the specific records under the 14 14 which is not appropriate for this site. As far as regulatory provision that we just discussed and 15 15 we knew, this was the first biosolids application also talk about how that would be different than if 16 at Mr. Robinson's property. So the cumulative 16 it was under Subpart 5. 17 17 pollutant loading would not have applied for this. MR. PIERCE: Your Honor, I think the review 18 It was better served under 503.17(a)(4). 18 would be good. I remember exactly the way you 19 19 Q. And Ms. Kleffner, did EPA's changing of remember, and that is the reason why. 20 20 THE COURT: Okay. All right. Yeah. I don't the citation or amendment of the complaint to 21 21 change the citation, did it change either of the want to -- I certainly don't want to create more 22 counts that EPA alleged against Adamas and 22 confusion than might already exist by my questions. 23 Mr. Pierce? 23 But it's -- you know, it's important because I 24 24 A. It did not. always go back to what the charging document is, 25 THE COURT: Okay. I just want to clear 25 and that is what governs everything. So I just

Page 185		Page 187
want to make sure that there is no ambiguity about	1	look at the first amended complaint, the second
= -		amended complaint. And, Ms. Kleffner, your
		testimony helped clarify the difference for me,
		what I was thinking I was remembering and what
		actually took place. So I'll just note that the
		changes that I had in my head which you clarified
	7	actually pertain to changing the regulatory cite
		in the first amended complaint from 503.17(a)(5)
		to it was actually (a)(5)(ii), I think to
		503.17(a)(4)(ii) in the second amended complaint.
		And based on that difference between (a)(5) and
		(a)(4), that's why I felt it appropriate to give
-		respondents the opportunity to file a new answer.
-		So hopefully, that clears up the record
_		with regard to the judge's confusion, and if you
		all had anything you needed to say about that. If
		not, we'll just move on.
		MR. MUEHLBERGER: Nothing from complainant,
		Your Honor.
		THE COURT: All right. Anything?
		MR. PIERCE: Nothing from the respondent,
-		Your Honor.
		THE COURT: Okay. All right, great. So you
		are all finished with your direct, right,
		Mr. Muehlberger?

Page 189 Page 191 1 1 THE COURT: All right. Great. MR. PIERCE: I do not, Your Honor. 2 **CROSS-EXAMINATION** 2 THE COURT: Okay. Let me just locate it. I 3 3 BY MR. PIERCE: think it's in CX36. Is that what this is that 4 4 Q. Ms. Kleffner, welcome to Montana. Um, we're looking at? Does complainant have it up for 5 5 can you read for us what 503.11(h) states? you or do you have it up yourself? 6 6 A. "Land application is the spraying or MR. PIERCE: I have it up myself, Your Honor. 7 7 spreading of sewage sludge onto the land surface, THE COURT: Okay. I think it said CX36, the 8 8 the injection of sewage sludge below the land Plain English Guide. And you're on page --9 surface or the incorporation of sewage sludge in 9 MR. PIERCE: 51, I believe, Your Honor. 10 the soil" --10 THE COURT: Okay. Perfect. Please go ahead. 11 THE REPORTER: I'm sorry. Can you slow down. 11 BY MR. PIERCE: 12 THE WITNESS: I'm sorry. Do you need me to 12 Q. So, Ms. Kleffner, can you read this 13 13 restart? portion for us? THE REPORTER: Just from where you left off. 14 14 A. "If the landowner or leaseholder is also THE WITNESS: Okay -- - "the injection of 15 15 the land applier of the biosolids, that person must 16 sewage sludge below the land surface, or the 16 follow the applicable provisions of the Part 503 17 17 incorporation of sewage sludge into the soil so rule for land appliers as described in this 18 that the sewage sludge can either condition the 18 chapter. If the land-applying operation is of 19 soil or fertilize crops or vegetation grown into 19 sufficient size or concern to the permitting 20 20 the soil." authority, the landowner or leaseholder applier 21 BY MR. PIERCE: 21 might also be required to obtain a permit for the 22 22 Q. So you would agree that a person who land application activities." 23 23 engages in that activity would be a person who Q. So you would agree that this states that 24 24 applies sludge to the land? if the landowner or leaseholder is the person who 25 A. Yes. 25 applies, that they are also responsible for Page 190 Page 192 1 1 complying with 503 regulations, correct? Q. Okay. 2 2 THE COURT: And that was 11(h), 503? A. Yes. 3 3 MR. PIERCE: 503.11(h), yes, Your Honor. Q. Okay. THE COURT: Okay. Thank you. 4 4 MR. PIERCE: Your Honor, at this point, can I 5 5 MR. PIERCE: Can you switch to the plain have my assistant put some slides on the projector 6 English? 6 7 7 BY MR. PIERCE: THE COURT: Absolutely. 8 Q. Do you recognize this document, 8 BY MR. PIERCE: 9 Ms. Kleffner? 9 Q. While we're doing that, Ms. Kleffner, 10 A. Yes, I do. 10 earlier, you testified that I did not provide 11 Q. And can you explain to us what this 11 anybody the agronomic weight of which the sludge 12 document is? 12 should be applied; is that correct? 13 A. So this is the Plain English Guide that 13 A. Correct. 14 was put out by EPA. It's just a description of the 14 MR. PIERCE: Can we get the first slide up? 15 regulations without having to read the regulations. 15 BY MR. PIERCE: 16 Q. So this tries to help citizens sort of 16 Q. Ms. Kleffner, the lagoon 17 get through all of the confusion that is 503, 17 project -- excuse me. Sorry. The lagoon project, 18 correct? 18 was that project initiated by a government agency? 19 19 A. I would assume it was initiated by NCUC. 20 Q. Okay. And can you read the highlighted I don't know the background behind that. 20 21 portion for us? 21 Q. So you have not had an opportunity to 22 A. Sure. 22 review the bid contract that IHS put out? 23 THE COURT: Just real quickly, just the 23 A. I'm sure it was probably included. I'm 24 exhibit number, too, so we can connect all the 24 not -- I'd have to see the exhibit to know which 25 dots. Do you have it handy there, Mr. Pierce? 25 one you're talking about.

Page 193 Page 195 1 Q. I believe it was part of the 430-some 1 though. Each time you refer to a document you need 2 2 to orient me to which one it is. If you don't have pages of exhibits. 3 THE COURT: That would have been --3 an exhibit number handy, even just identifying what 4 4 BY MR. PIERCE: it is, do you have a --5 Q. So you are aware, though, that IHS had a 5 MR. PIERCE: Can you just scroll to the 6 bid packet related to the sewer lagoon project? 6 bottom real quick? 7 7 A. Yes. The Indian Health Services, I MS. PIERCE: Uh-huh. 8 8 think was part of the payment process, yes. MR. PIERCE: Your Honor, we're dealing with 9 9 Q. And Indian Health Services directly RX5, page 1. 10 entered into a contract with the Northern Cheyenne 10 THE COURT: Perfect. Go right ahead. 11 11 Utility Commission. Is that not also part of the BY MR. PIERCE: 12 12 record? O. Ms. Kleffner, can you read the 13 13 A. Yes. That would be because Indian highlighted portion to us? 14 Health Services works only with tribal entities. 14 A. "Receive and apply biosolid sludge from 15 15 the frac tanks located at the Lame Deer Lagoons in 16 Q. Thank you for your testimony. Just 16 Lame Deer, Montana at an agronomic rate and haul it 17 "yes" or "no" will work. Thank you. 17 to the barley field with Pivot line owned or leased 18 18 So with that contract, was there a by Tom Robinson, in compliance with U.S. 40 EPA 503 19 representative of IHS that was in contact with you? 19 regulations. Subcontractor further agrees to prep 20 2.0 A. After the complaint or during the -the field and till the sludge incorporating it into 21 21 Q. Before the complaint. the soil within six hours. Must apply to 50 acres 22 2.2 A. No. We did not contact Indian Health at a max application rate of 22,000 gallons per 23 23 Services until after the complaint was made. This 2.4 did not involve Region 7. That would have been 24 Q. Would that last sentence not be an 25 agronomic rate? 25 through Region 8, the home region. Page 194 Page 196 1 1 A. No. There's -- it is based on an Q. So James Courtney and yourself didn't 2 2 have any conversations prior to the complaint. Is assumption on what the nitrogen content is. You 3 3 would need more information than that to properly that your testimony? 4 calculate agronomic rate. 4 A. To the complaint that EPA Region 7 or 5 5 the complaint that was made against -- I think -- I Q. Would you be surprised that this is the 6 think we're confusing the term "complaint." The 6 exact agronomic rate given by IHS in their bid 7 7 complaint that came from the landowner or the contract? 8 8 complaint that was filed by EPA? A. I am not aware of an agronomic rate by 9 9 Q. So the complaint that was filed from Indian Health Services. 10 10 EPA. Your testimony earlier was -- from my Q. So you would say that you haven't 11 recollection is that this was brought to you by 11 reviewed the record thoroughly enough to make that 12 12 determination? Region 8, and that's how you became aware of this 13 13 MR. MUEHLBERGER: Objection, Your Honor. project; is that correct? 14 14 A. Yes. And we did talk with Mr. Courtney Respondent is testifying. 15 after we received the complaint, yes. 15 MR. PIERCE: It's an accurate question as to 16 16 whether or not they reviewed the record. They have Q. Okay. MR. PIERCE: So I don't see the slide up 17 claimed they have thoroughly reviewed the record, 17 18 18 Your Honor. here. 19 THE COURT: I'll overrule the objection. Is 19 BY MR. PIERCE: 20 20 Q. Going back to the previous question there anything in the record that you've reviewed 21 about agronomic rate. 21 that would permit you to answer his question? 22 22 A. Uh-huh. THE WITNESS: That that was the Indian Health 23 23 Services calculated rate? I do not recall a Q. Can you please read the highlighted 24 24 calculation by Indian Health Services. portion? 25 25 THE COURT: Okay. Hold on just one second,

Page 199 Page 197 1 BY MR. PIERCE: 1 we became aware that it was a preparer and land 2 2 applier issue or that he was a preparer and land Q. If Indian Health Services provided an 3 agronomic rate that matched this exact description, 3 applier. 4 4 BY MR. PIERCE: would you then consider this to be an agronomic 5 5 rate provided to other people? Q. So you would agree that your initial 6 6 A. It could be. I would need more request for information was for the application 7 information based on this. I know there was some 7 portion? 8 8 discussion with Indian Health Services in prior A. So the 308 request that EPA sends out 9 9 dealings whether the dewatering was conducted the for biosolids in general just contains usually the 10 way that it was supposed to. So the total solids 10 same amount of information. We ask for general 11 would eventually -- would have changed the 11 information. 12 12 agronomic rate. As a land applier, if you weren't the 13 And I'm not sure if this contract was 13 preparer, we would have expected, based on Part 503 14 14 done before or after Indian Health Services. I regulations, that you would have the ability to 15 15 think there's a lot of assumptions here about this respond to the metals and pathogen content as well 16 agronomic rate. That the sludge was dewatered to a 16 as a land applier since that would have been given 17 17 certain amount, whether or not it was actually to you by the preparer and sampler. 18 dewatered to that, and then if it was actually 18 MR. PIERCE: Can we get the next slide up? 19 19 applied --So this is going to be RX9 et. 1, Your Honor. 20 20 Q. Thank you. I appreciate that. THE COURT: Okay. 21 THE REPORTER: I'm sorry. "If it was 21 BY MR. PIERCE: 22 22 Q. Ms. Kleffner, can you read the actually applied" --23 THE WITNESS: At this rate. 23 highlighted portion to us? 24 THE REPORTER: Thank you. 24 A. "The Northern Cheyenne Utility 25 25 MR. PIERCE: Thank you. Can we go to --Commission, NCUC, was the prime contractor and Page 198 Page 200 1 BY MR. PIERCE: 1 permit holder on the project referenced for the 2 2 O. Ms. Kleffner, in Ms. Hertz Wu's e-mails request for information. Adamas has asked the NCUC 3 3 to provide the requested technical information." and your e-mails and in the requests from the EPA, 4 Q. So can you explain to the Court what 4 do you identify primarily records for application 5 5 or do you identify records for preparation of this is in relation to? 6 sludge in your e-mails? 6 A. So this was from -- this is the response 7 7 A. So when we first received the complaint, to the information request that EPA sent to you. 8 8 as far as we knew based on the information given by Q. So would you agree that Adamas and/or 9 9 Indian Health Services, that it was just a land our attorney pointed to the EPA where the documents 10 application issue, which is --10 you were seeking could be found? 11 11 Q. Thank you. A. In part, NCUC, if they were just the 12 A. -- why we identified --12 preparer -- it was clear from the complaint that 13 13 THE COURT: No, she needs to finish her was given to Indian Health Services that NCUC at 14 14 answer. It was an open-ended question. most would have been the preparer of the biosolids, 15 15 MR. PIERCE: Okay. so they would only have part of those records. The 16 16 THE COURT: It wasn't a question that called land application portion, which was, again, 17 for "yes" or "no," so she needs to finish. 17 indicated in that original complaint, that 18 18 Go ahead. information would be available from the land 19 19 THE WITNESS: Right. Sorry, I lost my train applier. So that information was never turned in, 20 20 of thought. and NCUC would not have that information. 21 So based on the information from the 21 Q. Did you receive the information that 22 22 complaint, we knew that it was, at a minimum, a you're requesting and that the documents require 23 23 land application issue. It wasn't until we from Ernie Sprague? 24 24 received some other information later on that A. We received part of the information. 25 25 indicated that it was dewatered by Mr. Pierce, that Q. What information is missing?

Page 201 A. So we received some of the management practices, some of the site restrictions. He did have a location in hauling logs. Mr. Sprague did have an agronomic rate calculation that was included in his response; however, Mr. Sprague's agronomic rate calculation was based off of a septage constant for the state of Montana, which is not accurate in this instance where septage, it is assumed that it's just domestic waste and that there's a solid -- a nitrogen content that can be assumed in general. Whenever you have biosolids that is coming from a domestic wastewater treatment facility, the nitrogen content can vary depending on what the treatment process is. So this is

MR. PIERCE: Okay. Can we get the next slide? I think that's the same one.

MS. PIERCE: That's just the second page. BY MR. PIERCE:

Q. Ms. Kleffner, when was the complaint initially filed from Tom Robinson?

A. That would have been August of 2018. We did not receive it until the beginning of September 2018.

Q. So you said August 2018?

A. I think so. I'd have to look at the exact date. But I think it was the end of August when he made that complaint.

MR. PIERCE: Can we go up to the date real quick? Okay. And can we go to the bottom? Sorry. I just need to see the exhibit number.

MS. PIERCE: Sorry.

MR. PIERCE: Your Honor, RX10, et. 1.

THE COURT: Okay. Thank you.

Page 202

abilities, given that he received an information request from the federal government. But it was not an accurate response.

Q. Did you follow up with Mr. Sprague explaining to him that it wasn't accurate and asking for any further information?

No, I did not follow up with him.

Q. So you were able to locate records, find them, find out that they were a bit inaccurate, but you didn't follow up afterwards to try to get any corrections?

A. No. Based on Mr. Sprague's response and the fact that we knew that he did not have access to the lab results necessary to calculate the agronomic rate, the correct agronomic rate, there was no need to follow up with Mr. Sprague.

Q. How do you know that he didn't have access to those lab results?

A. I don't think whenever we've discussed with Mr. Sprague that he said that he received lab results.

Q. Did you ask him?

A. I did not directly ask him, no. That would have come from an attorney.

Q. Did you hear anybody in the room ask him

Page 204

BY MR. PIERCE:

Q. Ms. Kleffner, do you recognize this e-mail?

A. I do.

Q. And is this an e-mail exchange between you and Mr. Courtney?

A. Yes.

Q. And can you give us just a brief rundown of what you're discussing in this e-mail?

A. So Mr. Courtney contacted me. He had some questions about some biosolids calculations. I'd have to go back and read through it. But I think the gist of it was that he wanted to resolve some issues that you had brought up previously, and he wanted to double-check with EPA as to the validity of those representations.

Q. Can you read the highlighted portion?

A. "Mr. Pierce as an applier should not be changing the quality of the biosolids. A sludge judge should not be used to determine the total solids contents of biosolids as sludge judges are used to determine the amount of freeboard left in the lagoon or grease trap."

Q. Did this e-mail come before the complaint from Mr. Robinson?

Page 205 1 1 A. No, this came after. Yes, it came to that time line if you're following, I guess, 2 2 after. It was April of 2019. 3 3 Q. So are you sure you had this discussion 4 4 with Mr. Courtney after Mr. Robinson made the 5 5 complaint? 6 6 A. Um, the complaint that Mr. Robinson made 7 7 to Indian Health Services came to EPA in September 8 8 of 2018. So this e-mail was from April of 2019. 9 9 So, yes. 10 10 Q. Would it surprise you that this e-mail 11 11 was dealing with the sludge that was in the tanks 12 12 before it was applied? 13 A. I think whenever Mr. Courtney discussed 13 14 14 this with me, this was the issue that was trying to 15 15 be resolved between Adamas and Indian Health 16 Services as to how much the biosolids were 16 17 17 dewatered. 18 18 Q. Correct. So that was a decision 19 19 between -- a dispute between Indian Health and 20 20 Adamas as to how much the sludge was dewatered 21 21 before it was applied, correct? 22 22 A. Yes. And it's not uncommon for

Page 207

where this is going? THE WITNESS: Right. So just to clarify the time line. So the original complaint was made in August of 2018. It came to EPA Region 7 in September of 2019. That -- or in 2018. Excuse me. That same month, September 2018, we sent out our information request to Mr. Pierce. We did not receive a sufficient response. We sent it again. We had this conversation with Mr. Courtney.

I think what has happened, we had photographs of biosolids on the field from the land application. So what I'm -- and this is an assumption on my part, I fully admit that -- is that the biosolids land application happened. I don't know if there was sludge left in the tanks and it still needed to be land applied. But I'm not -- I'm not sure what the question is asking. But that's my assumption is that there could be sludge left in the frack tanks that still needs to be applied.

THE COURT: Is that what would explain the dewatering conversation going on after a land application? Because I think that's -- that was the point.

Page 206

25

THE COURT: And is it your position that, if I'm understanding this correctly -- and I'm not in this industry, obviously -- that the dewatering discussions would come before application would take place?

MR. PIERCE: Correct. Yes, ma'am. And the testimony of the witness was is they didn't have any conversations with Mr. Courtney until after the complaint had happened. This directly refutes what the witness has already said.

THE COURT: I understand. I'll overrule the objection. Can you -- do you know, can you respond

THE WITNESS: Yeah, it could be. It happens a lot. Sometimes at facilities -- and this is totally within the realm of possibility that facilities know that they don't have the appropriate land. Or something happens, they need to reprocess. Whatever happens, they need to dewater further. We'll store biosolids and then complete an application at a later time.

So it's not to say that land application didn't happen in August of 2018. It's entirely possible that this could be a continuation. But I don't know for sure.

THE COURT: Okay.

BY MR. PIERCE:

Q. Ms. Kleffner, can you read the portion right after the highlighted piece there?

A. "Total solids would be necessary to calculate the agronomic rate necessary to apply. However, it's only a small part of the necessary information needed to calculate the proper agronomic rate for the site."

Q. And so in this discussion here, it details that I was trying to explain to James Courtney that the use of a sludge judge was inappropriate and that the total solids wasn't the

Page 211 Page 209 1 1 only thing within the sludge concentration in order Q. What do you base that information on? 2 2 to come up with the agronomic rate to apply. A. Based on the information that they don't 3 3 Wouldn't that indicate that this happened before have the lab results necessary to calculate 4 4 application? agronomic rate appropriately. And I'm not --5 5 A. Not necess -- like, we've already talked Q. Do you have any evidence to support that 6 6 about this, but that it is possible to store and 7 further concentrate biosolids and break up the 7 A. I'm not an attorney. I don't do 8 8 application. contract law. All I know is that typically you 9 9 Q. So you have no -cannot contract away any liability --10 MR. PIERCE: I'll move to a different line of 10 Q. Correct. 11 11 A. -- as a contractor -questioning, Your Honor. 12 12 THE COURT: Okay. O. And so NCUC was the main contractor --13 BY MR. PIERCE: 13 THE REPORTER: I'm sorry. I didn't get the 14 14 end of her answer. Q. If the agronomic rate that was given in 15 15 the contract that I supplied to Tom Robinson THE WITNESS: As a contractor or a 16 matches that of the IHS and matches the agronomic 16 subcontractor, you cannot contract away liability. 17 17 rate that would be recommended, would it be a BY MR. PIERCE: 18 18 change in your testimony that I, in fact, gave that Q. A contractor cannot contract away 19 19 liability? information? 20 20 A. I don't think so. We didn't have any of MR. MUEHLBERGER: Objection, Your Honor. 21 the supporting documentation to prove that the 21 He's asking the witness to make a legal conclusion. 22 22 agronomic rate was calculated correctly. Even if MR. PIERCE: Actually, if I could finish my 23 23 it's written into a contract, that doesn't mean question. 24 that it necessarily happened that way. And I know 24 THE COURT: Okay. Finish your question. 25 that, based on some of the information that NCUC 25 I think we are getting into a legal Page 210 Page 212 1 and Indian Health Services had given to us, there 1 question. But you finish in case I -- in case 2 was some dispute over how appropriately the 2 there's more to it that makes it a mixed question, 3 biosolids were dewatered. So I don't know that 3 a fact of law. 4 that was actually the solids content necessary to 4 BY MR. PIERCE: 5 5 come up with that agronomic rate calculation. Q. So a contractor -- a contractor cannot 6 Q. But you have no proof that it wasn't, 6 contract away liability. Is it possible for NCUC 7 correct? 7 to get out of their reliability because they 8 8 A. I think it would -breached their contract? 9 9 Q. That would be a "yes" or "no," please. THE COURT: Okay. 10 A. I'm sorry. Can you repeat the question? 10 MR. MUEHLBERGER: Objection. That calls for 11 Q. You have no proof that it wasn't, 11 speculation. And he's also making a conclusion 12 correct? 12 that the witness can't testify to. 13 A. No. 13 THE COURT: I'll sustain the objection. 14 14 MR. PIERCE: Are we going to play by even Q. Thank you. 15 A. We were not offered any information. 15 rules here? Because he was doing the same thing, 16 Q. So when asked earlier about my 16 and you let it go on. 17 17 contractual relationship and the subcontractor THE COURT: It's -- no, no. It's a question 18 18 relationship with Tom Robinson, you said that Tom of -- it's a question of when we're talking about 19 19 Robinson couldn't be held accountable because I was contract law, we don't have a contract law expert 20 the contractor. Why does that not apply for NCUC 20 here. That's going to require -- that's going to 21 when they were the main contractor and I was the 21 require legal research and argument. And this is 22 22 subcontractor? not an evidentiary hearing for purposes of 23 A. NCUC did not have the information 23 establishing the law. It's a fact-finding mission. 24 necessary, and neither did Tom Robinson, to fulfill 24 So to the extent you have a question that calls for 25 25 those reporting requirements. an answer as to a material fact, that's certainly

Page 215 Page 213 1 1 pertinent. But when it calls for legal that led her to conclude whether someone -- whether 2 2 that was either activities or certain terms or interpretation, that isn't something that's going 3 3 to be resolved here. This is -- an evidentiary things that would lead her to conclude someone was 4 4 hearing, there's really no need for an evidentiary functioning as a preparer. 5 5 hearing --MR. PIERCE: Yes, ma'am. 6 6 MR. PIERCE: So is it a legal opinion --THE WITNESS: Or as an applier and then as an 7 7 THE COURT: -- when it's purely a question of operator. 8 8 law. I wouldn't have even scheduled it if that MR. PIERCE: Yes, ma'am. 9 9 were the case. THE COURT: Then we're getting into certain 10 10 MR. PIERCE: Is it a legal opinion as to elements of the charge violation. So I do think 11 11 whether a contractor can contract away liability or that's appropriate and appropriate for you to 12 12 not? examine her about. But when it comes to an 13 THE COURT: I think that that's a legal 13 interpretation of law and whether -- and contract 14 14 question. And I -- and that's why I sort of hinted law, she can't answer that. I wouldn't -- I 15 15 earlier on that that's research I'm going to be wouldn't really consider it. And I don't think 16 delving into, and I would encourage you all to do 16 that she has. So I'm a little concerned if you 17 17 the same when it comes to briefing. I think it's feel like the rules aren't being applied fairly. 18 18 MR. PIERCE: Well, she's made the certainly relevant. I just don't know that this 19 19 witness or anyone else here can really speak to determination that she felt that I was the 20 20 that because it's a question of legal research. contractor. 21 MR. PIERCE: Well, I think it also gets to 21 THE COURT: Well, yeah. No. That -- these 22 22 are -- those are different -- those are different evidence, Your Honor. I mean, you need evidence to 23 23 base on. If I don't ask the question, how do you issues. Whether or not you can contract liability 24 24 away is something different than whether or not she know what to look into? 25 25 THE COURT: Yeah. You know, let me try pulled information from the documents she had in Page 214 Page 216 1 this -- let me try to explain this a little bit 1 front of her to conclude in her opinion as a 2 2 differently because I think we're conflating ideas. compliance reviewer that this would be behavior 3 3 consistent with somebody who was an operator or When something comes down to legal consistent with somebody who was a land applier of 4 interpretation, that doesn't require a hearing. 4 5 5 The only purpose for this hearing is to develop sludge or consistent with behavior or activities 6 facts. That's why we have witnesses to testify 6 that someone who was a preparer would engage in. 7 7 about what they know. Or in this case, based on But that's a different -- that's different than 8 8 experience as a compliance officer, things that contract law interpretation. 9 9 she's looking at and, you know, drawing information MR. PIERCE: Yes, ma'am. 10 from in order to determine whether to recommend or 10 THE COURT: Okay. Are you following me here? 11 chime in on bringing an enforcement action. 11 MR. PIERCE: I'm following you quite well. 12 Factual determinations based on perception, what 12 THE COURT: Okay. All right. So at this 13 somebody has witnessed, if they're experts, that's 13 point, maybe just rephrase your question or ask 14 a whole other -- whole other area. 14 another. I'm not entirely sure where you left off. 15 But this evidentiary hearing is purely 15 MR. PIERCE: I think I can just move on from 16 for a factual development. So a question of law 16 it. 17 isn't going to be answered here. It's something 17 THE COURT: Okay. But the objection is 18 you can argue about post-hearing, do research, make 18 sustained. I think I made that clear based on the 19 arguments about whether or not liability can be 19 legal conclusion. 2.0 contracted away. But I don't think she can answer 20 Go ahead. 21 that question. 21 BY MR. PIERCE: 22 MR. PIERCE: Okay. 22 Q. Ms. Kleffner, in your e-mail, this 23

e-mail details sort of some issues that James

Courtney had asked you about the use of a sludge

judge. Did you recommend that he should not use a

23

24

25

THE COURT: She answered questions -- my

direct about things that she saw from the documents

recollection was that she answered questions on

24

25

Page 217 Page 219 sludge judge? 1 1 information? 2 2 A. Yes. But I'm not aware that they were A. Yeah. I think whenever I initially got 3 this e-mail, I had misread Mr. Courtney's initial 3 provided that information or that the information 4 4 question. So sludge judges can be used to sample 5 5 for total solids, but total solids should come from Q. But you're not aware that it was -- you 6 6 a lab. It's something that needs to be a process. don't have any information to say it was inaccurate 7 7 You can't just take the depth of a sludge blanket or it wasn't provided to them? 8 and then the amount of water that's left on top and 8 A. No. 9 9 calculate total solids. It needs to come from a Q. So how did you make your determination 10 lab. 10 that it wasn't provided to them? 11 A. So Mr. Robinson said in his 308 11 Q. And so you also state that total solids 12 12 is a small portion of the agronomic rate; is that response, which he certified that it was a true and 13 13 accurate response, that he did not receive the correct? 14 14 A. Yes. There's several other components necessary information to calculate agronomic rate. 15 15 that go into calculating agronomic rate, such as That was part of his response to us, that 16 the nitrogen content of the soil on the site, what 16 Mr. Robinson did not receive that. So I'm 17 17 kind of sludge it is, so how available the nitrogen operating off of what was submitted to us as a 18 18 is, what kind of crops you'll be growing there, if certified statement. 19 it's incorporated or if it's surface spread. 19 Q. What did you do to follow up and verify 20 20 There's several other pieces of information that is his claim? 21 21 A. We took the 308 information response. necessary for that, yes. 22 22 Mr. Robinson, admittedly, is very difficult to get Q. And so if -- in your opinion based upon 23 23 ahold of. So I did not have any further contact your experience, if Mr. Courtney was doing his 24 24 with him after that. testing wrong, would that -- and he was advising 25 NCUC, would that cause an issue in the overall 25 Q. Is it true that he states in his 308 Page 218 Page 220 1 agronomic rate? 1 response that Nathan Pierce was the person who 2 2 A. It could. I think I would need to look applied the sludge? 3 3 at how Mr. Courtney calculated his agronomic rate, A. Yes. 4 but it could. There's a difference in sampling or 4 O. Is it true under Number 2 he goes on to 5 5 how people calculate it. Yeah, there could be a state that Ernie Sprague sprayed the sludge on his 6 6 land and he used his tractor to till it into the 7 7 Q. If IHS showed all of the people involved land? 8 8 A. Yes. It is possible to have more than in the contract, the bid contract, and it contained 9 9 an agronomic rate, would you say that they received one land applier operating at a time. 10 a copy of the agronomic rate? 10 Q. Sure. But he did answer that he and 11 A. Everybody involved. Would that include 11 Ernie Sprague did that, correct? 12 12 the other --A. As directed by you, yes. 13 Q. With the application portion of 13 O. Okav. And the definition of land 14 the -- so if Tom Robinson and Ernie Sprague 14 application in 503.11(h), we're clear on what that 15 reviewed the IHS bid contract and it contained lab 15 means, correct? 16 samples and agronomic rates, would you consider 16 A. Yes. 17 17 them to have received that information? Q. Okay. And you would agree that Ernie 18 A. I suppose so. I would assume that 18 Sprague and Tom Robinson meets that exact

description by the plain reading of the law?

A. In a physical sense, yes. They --

A. -- were physically land applying.

Q. So they would be the persons who

physically were out there doing the work. Would

you not agree that the persons who were physically

Q. Thank you.

Mr. Sprague and Mr. Robinson would need copies and

a pre-construction meeting at NCUC with all of the

discussed and lab results were provided, would you

Q. If Mr. Sprague and Mr. Robinson attended

the correct knowledge to calculate agronomic rate.

project players and the agronomic rate was

agree that they were provided with that

1 1 for cumulative metals loading, it would have to be doing the work would be the persons best able to 2 2 decades upon decades of annual biosolids give you the documents that you were requesting? 3 A. Not if they didn't have all the 3 applications to reach the cumulative pollutant 4 4 documents necessary. As I said before, we sent an loading for metals. That just doesn't happen very 5 information request to Mr. Robinson. And it was 5 often for sites that -- there are very few sites 6 6 also asserted during the Indian Health Services that have that requirement. Like I said, it would 7 7 complaint that he did not have the information take decades of biosolids land application to 8 8 necessary to calculate agronomic rates. So we trigger that cumulative pollutant floating. 9 9 couldn't expect Mr. Robinson or Mr. Sprague to have Q. But you were unaware of any other 10 the documents necessary if they weren't privy to 10 application other than the one that happened? 11 11 the information necessary to create the documents. A. No. I was not aware of any other 12 12 applications. Q. Were you aware that IHS had worked with 13 13 Mr. Robinson previously years before to apply Q. Thank you. 14 14 sludge to the same land from the same lagoon? Okay. So with that, you also mentioned 15 15 A. No. We did not -- we have not worked or that the replacement of this muffin monster 16 had any operation with Indian Health Services about 16 indicated that I was -- or Adamas was an operator. 17 17 this site prior to the complaint. Can a service technician service a muffin monster 18 18 Q. So would you say that Indian Health without being an operator? Services not providing you that information would 19 19 A. Sure. Yeah. 20 20 be -- would it be important for Indian Health to Q. Can an outside contractor work on a 21 21 provide you with that information to make your sewer system without being an operator? 22 22 A. It is possible, yes. I think in a determination? 23 23 A. About who was responsible for cumulative sense, though, looking at all of the 2.4 24 recordkeeping? documents that we had and all of the billing and 25 25 Q. Previous land applications done by the information that was listed as completed by Page 222 Page 224 1 Mr. Robinson to the same land? 1 you, that, to me, told me you were an operator. 2 2 A. Not necessarily, depending on how long O. But you do admit that I could -- a 3 3 ago it was. Nitrogen only stays in the soil a person could do the same work and not be an 4 certain amount of time. So if Mr. Robinson did 4 operator? 5 5 have biosolids land applied to his site previously, A. Yes, it is -- it's --6 it's entirely possible that that is negligible in 6 O. Thank you. 7 7 determining agronomic rate. A. Should I finish or --8 8 Q. But you also talk about a cumulative THE COURT: Do you have anything else to say 9 9 effect? to the answer? 10 A. Yes. There is some cumulative effect, 10 THE WITNESS: I was just going to say it is 11 but that can be easily overcome with soil sampling. 11 possible for -- when facilities don't have the 12 Q. So the cumulative effect, without 12 correct technical needs, they can have a third 13 knowing that Mr. Robinson had it previously applied 13 party come and do work in their system. 14 14 to his property, you couldn't have made that BY MR. PIERCE: 15 determination, correct? 15 Q. If somebody enters into -- well, let me 16 16 A. Are you talking about cumulative metals rephrase this. 17 17 loading or --In the state of Montana, are you 18 18 Q. So if Mr. Robinson -- I'm sorry. Let me required to have an operator's license? 19 19 rephrase. A. No. Well, actually, I'm not entirely 20 If Mr. Robinson had previously applied 20 sure for the state of Montana. I know it's a 21 sludge to his land, could it cause an accumulative 21 federal requirement. We do not write that in the 22 22 effect of metals? permits unless it is specifically in a permit that 23 A. It would have to be -- and this is 23 they have to be a certified operator. The state of 24 generally why we don't have very many cumulative 24 Montana might have that as a provision. That's a 25 25 recordkeeping requirements. To get to the level little bit different because this is a tribal

Page 221

Page 223

Page 225 Page 227 1 1 entity, so it's a federal permit, so it would have THE WITNESS: Yeah. And I would need to 2 2 to be federal guidelines. It's not -- you know, review the inspection report. It's -- I don't know 3 not operating under Montana's laws. 3 for sure because I would need to look through the 4 4 Q. Do members of the Northern Cheyenne photos again, but it's probably likely that there's 5 5 Utility Commission have to get an operator's a photograph of the discharge point, at least for 6 6 license from the state of Montana? our region. In Region 7, we like to have a 7 7 A. They wouldn't have to according to the photograph of what the receiving stream's condition 8 8 permit. Now, that can be something that can be is at the time of the inspection. 9 9 THE COURT: Okay. required or put into place by their management if 10 they wish to have certified operators. But 10 BY MR. PIERCE: 11 11 according to their NPDES permit, that is not a Q. So earlier you were shown a lab report 12 12 provision. and a chain of custody that showed a soil sample. 13 13 Q. So you're unaware of whether or not they Do you know where that soil sample was taken? 14 14 have operators registered with the state of A. I would have to -- I would say it's the 15 15 Montana? land application site. 16 A. No, I do not know that for sure. 16 Q. Is that an assumption or --17 17 Q. Okay. Let's go to the NPDES permit. A. Well, it says Lame Deer sludge removal. 18 18 You state that that is necessary for discharging And if that was the land application site that was 19 into waters of the United States, correct? 19 intended to be used, yes. I would deduce that it 20 20 A. Yes. was the Robinson field, yes. 21 Q. Can you tell us what water of the United 21 Q. Okay. Were you aware that we -- that 22 22 States the Lame Deer Lagoon discharges into? Adamas and myself had to look for an alternative 23 23 A. So Lame Deer Lagoon -- excuse 2.4 24 me -- discharges into Lame Deer Creek, which flows A. I was not aware of that, no. 25 into Rosebud Creek, which flows into the 25 Q. So if I tested an alternative site, does Page 226 Page 228 1 Yellowstone River, which is a traditionally 1 it mean that I am the applicator? 2 navigable water. 2 A. I'm sorry. I don't --3 3 Q. So if I showed you a map that showed Q. Earlier, you testified that me taking that Lame Deer Creek actually terminates about five 4 4 those soil samples indicated that I was the 5 5 miles from the discharge point, would that surprise operator or the applier. If I took a soil sample 6 you? 6 of a site that sludge was not applied to, does that 7 7 A. In all of the maps that I have reviewed make me the applier? 8 8 for the USGS, Lame Deer Creek is a perennial A. I don't think that there's a connection 9 9 waterway, which would make it a water of the United there. So the sampling usually, for the biosolids 10 States. 10 itself, will come from the preparer. And then the 11 Q. So have you walked Lame Deer Creek? 11 land applier, it is an option they can -- soil 12 A. No, I haven't. 12 sampling doesn't necessarily have to be conducted. 13 Q. Has any member of EPA to your knowledge 13 You can operate on an assumption of the amount of 14 walked that creek to verify that claim? 14 nitrogen that is still left in the soil if you have 15 A. This would be an assumption on my part, 15 prior records. So soil sampling isn't totally 16 but for most EPA inspections of a wastewater 16 necessary to apply on a site. But it is usually 17 17 treatment facility, an inspector will go observe conducted by either the preparer or the land 18 the waterway that it is flowing into. So I'm sure 18 applier. 19 that there's an observation that has been made on 19 Q. Okay. When you send your request for 20 Lame Deer Creek. 20 information and it primarily has to deal with 21 Q. But you don't know if that's been done 21 application, would it be reasonable for somebody to 22 22 assume that that is the information you were 23 A. No, I do not know for sure. 23 requesting information about? 24 THE COURT: Is that something that would have 24 A. Yes. I'm sorry. I -- would you repeat 25 been memorialized in the inspection report? 25 your question?

Page 229

Q. Okay. When you send out your 503 request, you send out information, and typically, there was follow-up in which you guys wanted information regarding the application portion.

A. Yes.

Q. Would it be reasonable for a person to draw the inference that that is what you're looking for, is for information regarding the application portion?

A. Yes. I would say for this, like I said earlier, the biosolids information request, I don't want to say we use a template for every instance, but that's just generally what we ask for for people, we -- for land appliers and preparers both. Given the complaint that we received, we were looking mostly at land application. And at that point, we didn't have information that he was a preparer until later on. So it was focused on the land application portion.

Q. Okay. Thank you for that.

So would you not agree that the person, who is on-site physically doing the work as 503, requires a map of where actual application was done and where the tilling would happen would be best done by the persons physically doing that work?

(a)(4), let's see. Actually under -- let's see.

Yes. So for (i) and (ii), they both state similar. "The person who prepares the bulk sewage sludge shall develop the following information and shall retain the information for five years." And then for the land application, it's the same thing. "Person who applies the bulk sewage sludge shall develop the following information and shall retain the information for five years." So that's within 503.17.

Q. And would you agree if it was stated in somebody's contract that they provide that information — and to a subcontractor that they provide that information to a contractor, and if they fail to do so, it would be impossible for the contractor to get that information?

A. So as a preparer, within Part 503, there are the requirements notice necessary information for information to be shared between parties for the preparer and the land applier. So it would be difficult as a land applier, yes, if a preparer did not give those documents or there wasn't documents shared between preparer and land applier and land applier and preparer for people to create and retain those records, yes.

Page 230

A. It could be. I would say it's -- everybody that is participating in a land application project should be preparing records and have a piece of the recordkeeping requirement. So even if you had it subcontracted out to Mr. Sprague and Mr. Robinson, it would not -- it would be required of you as well as a preparer -- or as a land applier directing the land application to have those records as well.

Q. Does the requirement for the records keeping -- is it the development of a system or keeping the records?

A. It's keeping the records, I'm assuming. I think I get what you're getting at. But it's keeping the records, yeah. There's a recordkeeping you need to keep -- you need to generate and maintain the records for the five years as determined by Part 503.

MR. PIERCE: Can we pull that statute up by chance?

BY MR. PIERCE:

Q. Do you know directly offhand what statute that is?

A. Okay. Recordkeeping. Okay. So 503.17 for recordkeeping. If we were looking at the

Page 232

Page 231

Q. So if the land applier — let's just take the preparer, and all of that out of the equation for a second. If the land applier was contracted to provide documents and they failed to do so, but the contractor let you know where you could find those documents, wouldn't that be the most responsible thing to do?

A. It doesn't absolve you of the recordkeeping requirements to have it in a separate contract. It's still within Part 503 that you have to develop and maintain those records regardless of a contract.

Q. Does it say where they have to be maintained, with the contractor or subcontractor?

A. No, because Part 503 does not speak to contractors or subcontractors. It's just preparer --

Q. Developed and maintained?

A. -- and land applier.

Q. Would you agree that records were developed, whether they be accurate or not, they were maintained and they were turned over to you when requested?

A. I don't think that's entirely accurate. I think -- so you gave us bits and pieces of

Page 233 Page 235 1 information. It took several tries to get that 1 English Guide, it gave a pretty good explanation 2 information from you. We never did get a final 2 that the landowner or lessor had obligations under 3 cohesive idea on the agronomic rate as the person 3 503. Why did you not request that information from 4 4 who directed it. We did not receive site Mr. Robinson knowing he applied sludge to his own 5 restrictions, and we did not receive any 5 land? 6 6 verification of the other management practices from A. So based on the complaint that was taken 7 7 by Indian Health Services and his statement in it 8 Q. You testified earlier, though, you 8 that he said he was not given any agronomic rate 9 9 received those things from Ernie Sprague, correct? calculations or sampling, it would have been 10 A. Yes. But we did not receive them from 10 impossible for him to give us the records if he didn't have the records necessary to generate it, 11 11 12 O. You reviewed the subcontract between 12 if that makes sense. 13 Ernie Sprague and myself? 13 So if he was missing the metals 14 A. Yes. 14 concentration, pathogen, he could have certified 15 Q. And in that contract, it states that he 15 vector attraction reduction since he was present 16 16 would develop and provide those documents, correct? on-site and he was tilling. But he would not have 17 17 A. Yes, which he did to EPA. been able to do pathogen, metals, and agronomic 18 18 Q. So you were aware that he had an rate calculations, which are part of management 19 obligation to provide that and Tom Robinson had an 19 practices. So he was missing those three. 20 obligation to provide that to Adamas and NCUC? 20 The management practices in particular 21 21 A. As part of their contract, yes. were of concern to us since that was the complaint. 22 Q. And if they didn't provide that, 22 And he wouldn't have had the information necessary 23 wouldn't that create an issue for NCUC and myself? 23 to calculate agronomic rate, so it would have been 24 A. It could. I'm --24 a moot point to ask Mr. Robinson for information 25 25 MR. MUEHLBERGER: Objection, Your Honor. that he did not have. Page 234 Page 236 1 This asks for speculation. She can't know how this 1 Q. Were you aware of Mr. Robinson's request 2 2 would affect the respondent. to Mr. Courtney to have the sludge applied to his 3 3 THE COURT: Can you restate the question? land? 4 A. Before the complaint or --4 Because I was taking a note. What was your 5 5 question? Q. Before, during, and after as part of the 6 MR. PIERCE: At this point, we can move on 6 e-mail exchanges. 7 7 from it, Your Honor. I mean --A. No. I -- we started when we got the 8 8 THE COURT: Okay. complaint. We didn't have any requests before or 9 9 MR. PIERCE: -- it's pretty straightforward. after or any -- we didn't have knowledge of it 10 And I think I'm getting close to done here. 10 prior to the complaint. 11 THE COURT: Okay. So you're moving on 11 Q. So you haven't reviewed the e-mail from 12 12 entirely? Tom Robinson to James Courtney requesting that the 13 13 MR. PIERCE: Yes. I got a couple more sludge be applied to his land? 14 A. I don't recall. If he did that, that's 14 questions. I'm moving on entirely from that 15 question. 15 fine. Mr. Robinson can do that as a landowner. 16 16 THE COURT: From that point? Okay. MR. PIERCE: Okay. I believe that's the gist 17 MR. PIERCE: Yes, Your Honor. 17 of my questions for the witness so far, Your Honor. 18 18 THE COURT: Then you have an answer. There's THE COURT: Okay. I have just one follow-up. 19 19 no need for me to make a ruling then. I'll THE WITNESS: Okay. 2.0 20 consider it a withdrawn question. THE COURT: It's very basic. 21 MR. PIERCE: You know, I think that's 21 THE WITNESS: Uh-huh. 22 22 probably the line of -- well, I'm sorry. Actually, THE COURT: Might even be foolish, but I 23 that is not. 23 don't have much pride left at this stage in my 24 BY MR. PIERCE: 24 25 25 Q. Ms. Kleffner, when you read the Plain Should someone -- I'm trying to just

Page 237 Page 239 1 1 THE COURT: Did you have some redirect? kind of synthesize this even at a broad level, you 2 2 MR. MUEHLBERGER: I do, Your Honor. Could we know. So if someone is land -- regardless who the 3 3 have five minutes before the redirect? someone is, if someone is land applying sewage 4 4 THE COURT: Absolutely. sludge to their land --5 5 THE WITNESS: Uh-huh. MR. MUEHLBERGER: Thank you. 6 6 THE COURT: -- can they responsibly do that THE COURT: I'll be back in five minutes. 7 7 if they don't have the agronomic rate by which to (Whereupon, a brief 8 8 apply it? recess was taken.) 9 9 THE WITNESS: No. It would be -- I would say THE COURT: All right. Back on record after 10 10 if you wanted to take the chance that you are a brief break. Ready for some redirect. 11 MR. MUEHLBERGER: I just have a few relying that's it's a small enough amount of sludge 11 12 12 to a large enough piece of property, you can make questions, Your Honor. 13 that assumption that you're probably okay. 13 THE COURT: Okay. 14 In terms of Part 503 and the regulations 14 REDIRECT EXAMINATION 15 and having correct recordkeeping requirements, it 15 BY MR. MUEHLBERGER: 16 would not be responsible. And we have taken cases 16 Q. Ms. Kleffner, in your experience as a 17 against facilities who have land applied without 17 compliance officer for EPA, have you ever 18 calculating agronomic rate, with land applying 18 experienced an enforcement case where a contractor 19 before their sample results are even ready. 19 hired a subcontractor to do work that was regulated 20 They're just making the assumption that it's okay. 20 under the Clean Water Act? 21 So you're really -- in the spirit of Part 503, you 21 A. Yes. 22 need to have all the information necessary to land 22 Q. Have you ever had an experience where 23 apply responsibly. 23 EPA -- or are you aware of a case where EPA found 24 And I think it is somewhere in the 24 that a contract -- that the contractor was liable 25 record that Mr. Robinson revoked consent at some 25 for Clean Water Act violations? And let me be Page 238 Page 240 1 point for his land -- for the biosolids land 1 clear, the contractor that hired the subcontractor. 2 2 application. He asked them to stop. A. Yes. 3 3 THE COURT: Okay. But it sounds like at Q. Okay. Can you provide any detail about 4 4 least at some stage, Mr. Robinson applied the any particular case that you're thinking about? 5 5 sludge to his land even though he didn't have all A. Yeah. So it really depends for a 6 the necessary pieces that one should have before 6 contractor and a subcontractor who has the most 7 7 control over the facility. So it's not unusual to doing so? 8 8 THE WITNESS: As far as I know, Mr. Robinson have an instance where a small wastewater treatment 9 9 was not -- he tilled in the sludge. He didn't do facility will hire a contractor to operate their 10 the spraying or spreading. He was essentially 10 facility for them. They just don't want to deal 11 doing the vector attraction reduction piece of it, 11 with having to operate the facility. 12 12 If the subcontractor comes back to the which would be incorporating the biosolids within 13 13 six hours. So he completed the vector attraction facility owner or the original contractor and says, 14 14 "Your facility is a mess. We need all of these reduction part, but I'm not sure that he was 15 physically driving the truck that was spraying the 15 upgrades. You need to do this, this, and this," 16 16 biosolids. So he did have a piece of it. and the original contractor says, "Sorry, I'm not 17 17 going to do that. I don't want to spend the THE COURT: Okay. 18 18 THE WITNESS: But not all of it. money," if we were to take an enforcement case, we 19 19 THE COURT: Okay. All right. That was would not go against the subcontractor. They're 20 20 really the only, I guess, follow-up question I had. doing everything in their power to appropriately Did that raise anything else you wanted to ask? 21 21 run a facility. 22 22 MR. PIERCE: Um, you know, it does. But I If there are improvements or -- or 23 23 there -- the original contractor is aware that don't think for this witness, Your Honor. THE COURT: Okay. Okay. Thank you. 24 24 there are deficiencies that need to be addressed 25 25 MR. PIERCE: Thank you. and they're choosing to ignore those deficiencies,

Page 243 Page 241 1 that's when we would take the case against the 1 different pieces of information. None of it 2 contractor rather than the subcontractor. 2 exactly wind up because each of them were 3 Q. Thank you. 3 functioning in each of their own capacity for the 4 4 Earlier in your testimony, in the land application project. 5 5 cross-examination testimony, you testified that you For example, Mr. Robinson I think 6 6 received information from Ernie Sprague in response answered in his 308 response that it was applied to 7 to EPA's information request, correct? 7 20 acres of agricultural field. Mr. Sprague 8 8 answered that it was 40 acres. I think in another A. Yes. 9 9 contract, it was listed as 50 acres. The gallons Q. Did you receive all of the information 10 that you needed to confirm compliance with the EPA 10 applied were different across the board. 11 Mr. Sprague said it was about 84,000 gallons, but 11 biosolids recordkeeping requirements? 12 the contract had a million gallons in it. 12 A. No. So Mr. Sprague responded. He had 13 I think there were lots of different 13 lots of great information. However -- and this is 14 numbers thrown around. So nobody had a good idea 14 something I talked about previously -- the 15 15 of what was actually happening on the site except agronomic rate calculation -- oh, sorry -- the 16 for Mr. Pierce because he was directing and 16 agronomic rate calculation that Mr. Sprague had 17 overseeing. He had -- he had access to all the 17 provided was based off of a constant that's used 18 18 information necessary to put together the story and for sewage, for septage. So septage is a little 19 the Part 503 regulation requirements. 19 bit different. It's treated differently than 20 Q. I want to touch a little bit on this 20 regular Part 503 biosolids due to the fact that the 21 waters of the United States arguments that were 21 nitrogen content, you can just assume it's a 22 just raised here. How -- in your role as a 22 constant for that. 23 23 compliance officer, how did you make the For agronomic rate for biosolids coming 24 24 from an actual domestic treatment facility such as determination that the portion of Lame Deer Creek 25 25 by the POTW was a waters of the United States? Lame Deer Lagoon, you wouldn't be able to apply Page 242 Page 244 1 that constant to it. 1 A. So outside of the fact that it was based 2 2 Q. Thank you. on a NPDES permit, I review -- we have -- and it's 3 If Robinson or Sprague provided -- or 3 publicly available. The USGS has a map online 4 4 were -- I'm sorry. Let me start again. available that indicates whether water bodies can 5 5 be -- can be considered -- excuse me -- perennial If Robinson or Sprague received 6 agronomic rate and lab results from Mr. Pierce or 6 or ephemeral or, you know, partially flowing. 7 7 Adamas, would that change your conclusion that In this instance, when I looked up Lame 8 8 Pierce, Adamas were the preparers of sewage sludge? Deer Creek at the point where it discharges, it is 9 9 A. No. considered a solid blue line, which indicates that 10 Q. Would it change your conclusion that 10 it's a perennial waterway. And its flow from Lame 11 11 Pierce and Adamas were the applier of sewage Deer Lagoon along Lame Deer Creek where it 12 12 confluences with Rosebud Creek, it's all a solid sludge? 13 13 A. No. blue line. It's all perennial. And then it also, 14 14 quite a ways of distance -- I think it's close to Q. Why not? 15 15 A. For the preparer part, since Mr. Pierce 70 miles -- but it does flow into the Yellowstone 16 16 was the one who dewatered, that -- that's River, which it has a direct connection and it is a 17 regardless. That's a -- that's a treatment 17 traditionally navigable water. So Lame Deer Creek,

MR. MUEHLBERGER: Your Honor, we have a copy

of the USGS map that Ms. Kleffner relied upon in

making this determination. It's not entered into

evidence, but this is a record that is available to

the public and generally relied upon by regulatory

agencies for making such determinations. I'd like

in my professional opinion, would be a

jurisdictional water.

process, so that will always make him a preparer.

directed the overall land application, that would

still -- I would still consider him a land applier.

Mr. Robinson. And we also had some contract

information. And we had all these little bits and

And then, in addition to that, so we

sent the 308 information request to Mr. Sprague and

For the land applier, since he was there, he

Page 245 Page 247 1 to show the document since it is publicly A. Yes. 2 available. 2 Q. Okay. Thank you. 3 THE COURT: Sure. 3 MR. MUEHLBERGER: I'd like to show the 4 4 MR. MUEHLBERGER: Okay. Could you please put witness Complainant's Exhibit 10, page 1 first. 5 that up? Thank you. 5 BY MR. MUEHLBERGER: 6 6 BY MR. MUEHLBERGER: Q. Ms. Kleffner, do you recognize this 7 7 Q. Ms. Kleffner, are you able to see what's document? 8 8 relevant here for your determination about waters A. Yes, I do. 9 9 of the United States? Q. Okay. Can you describe it, please? 10 A. Yes. 10 A. So this is a -- what's called a -- it's Q. Okay. Could you please describe what 11 an order for compliance for the Northern Cheyenne 11 12 12 you're looking at and how this helped inform that Utilities Commission. And it looks like this was 13 13 all the way back in 2015. 14 14 MR. MUEHLBERGER: Okay. And can I -- I'd A. Sure. So on this map, Lame Deer lagoon 15 15 is located in the bottom right-hand corner. You like to look at the first page of the 16 16 administrative complaint -- I'm sorry -- the can see that the lagoon is indicated on the map. 17 findings of violation. Would that be on 3? Yeah. 17 It's two blue splotches. Basically, that's just 18 18 Thank you. This is CX10, page 3. Could we look at indicating where the lagoon is at. 19 the caption at the top, please? 19 So the discharge point into Lame Deer 20 20 BY MR. MUEHLBERGER: Creek is obviously just right where it's abutting 21 21 Q. What is this, Ms. Kleffner? the edge of that lagoon. Lame Deer Creek flows 22 A. So this is the compliance order. It's 22 south to north. And further up on the map, it will 23 23 show where the confluence with Rosebud Creek is, "Findings of Violation, Order for Compliance." It 24 24 but that is a solid blue line. You can see that lists the statutory authority. And it is in the 25 25 matter of Northern Cheyenne Utilities Commission it does have some like peren -- not perennial, Page 246 Page 248 1 ephemeral or partially flowing streams indicated on 1 and the Lame Deer Wastewater Treatment Facility. 2 here. That's usually indicated by the dot and dash 2 And then it goes on to list the NPDES permit. MR. PIERCE: Objection, Your Honor. 3 3 on the map. But Lame Deer Creek is a solid blue Relevance. This is from 2015. 4 line, which would indicate that it's a perennial 4 5 5 MR. MUEHLBERGER: I think we'll be able to water. 6 THE COURT: And how is this map oriented when 6 establish relevance with the next page. 7 7 THE COURT: Okay. you say north to south? 8 8 THE WITNESS: The north side is to the top. MR. MUEHLBERGER: I'd like to have her look 9 9 THE COURT: Okay. at Paragraph 8 of the compliance order. And this 10 THE WITNESS: Yes. 10 is page -- or CX10, page 4. 11 THE COURT: And the two splotches, it's the 11 BY MR. MUEHLBERGER: 12 12 solid blue --Q. Ms. Kleffner, could you please read the 13 THE WITNESS: Yes. 13 paragraph that starts with Paragraph 8? 14 14 THE COURT: -- areas, right? A. "The Facility discharges into Lame Deer 15 THE WITNESS: Yes. That would be where the 15 Creek, a perennial stream that has been determined 16 lagoons are at. 16 to be a jurisdictional water of the U.S. by the 17 BY MR. MUEHLBERGER: 17 U.S. Army Corps of Engineers. Lame Deer Creek 18 18 flows north into Rosebud Creek, a tributary of the Q. And are you saying that by looking at 19 19 this map that Lame Deer Creek is a solid blue line Yellowstone River, which flows into the Missouri 20 all the way to the confluence with the next water? 20 River. Lame Deer Creek is a "water of the United 21 A. Yes, that is correct. 21 States" within the meaning of 40 CFR Part 122.2, 22 22 Q. Okay. And that would indicate to you and therefore, a navigable water within the meaning 23 23 of Section 502(7) of the Act, 33 USC 1362(7)." that it's a perennial stream until it hits the next 24 24 water, discharges into the next water; is that O. Just for clarification, can you describe 25 25 correct? what the role of the U.S. Army Corps of Engineers

	Page 249		Page 251
1	would be in making such a determination?	1	THE COURT: Okay. So we would just make it
2	A. So it is the Corps' responsibility to	2	JX1.
3	determine jurisdictional waters. They have the	3	MR. MUEHLBERGER: That sounds even better.
4	technical capacity to go out and assess a waterway	4	THE COURT: Okay. So just, you know, for
5	to determine whether or not it's jurisdictional.	5	housekeeping, do you have one physical copy, maybe,
6	Q. Thank you.	6	to give the court reporter?
7	MR. MUEHLBERGER: I don't have any more	7	MR. MUEHLBERGER: We do.
8	questions.	8	THE COURT: Okay. And then are you able to
9	THE COURT: The map that you referred to that	9	scan it and mark it from your computer or no?
10	is publicly available, would you both like that?	10	MR. MUEHLBERGER: I'm going to defer to our
11	If you're going to be making arguments about the	11	paralegal on this.
12	waterway and how it runs, is that a document you	12	MS. MORENO: Oh. I'm sorry, what is your
13	would both like me to consider? You can submit it	13	question?
14	as a joint exhibit if so.	14	THE COURT: Are you able to scan it and mark
15	MR. MUEHLBERGER: I'd be fine with entering	15	it JX1 on your computer?
16	that into evidence if respondent would like that.	16	MS. MORENO: Oh, yes.
17	MR. PIERCE: I don't believe I need it, Your	17	THE COURT: And then submit it
18	Honor.	18	electronically?
19	THE COURT: Okay. Do you have any objection	19	MS. MORANO: Like after after this
20	to it if you want to be able to refer to it?	20	afternoon or this evening?
21	MR. PIERCE: We have nobody here to validate	21	THE COURT: Sure.
22	its accuracy or authenticity.	22	MS. MORENO: Yes.
23	THE COURT: Well, it's publicly	23	THE COURT: By tomorrow.
24	MR. PIERCE: I mean, it's public record,	24	MS. MORANO: Yes.
25	sure.	25	THE COURT: Okay. That's great. Why don't
	Page 250		Page 252
1			
	THE COURT: It's publicly available. I mean.	1	you just do that. And then you can just transmit
2	THE COURT: It's publicly available. I mean, I suppose an alternative would be to provide a URL	1 2	you just do that. And then you can just transmit it electronically to the court reporter and to Jen
	I suppose an alternative would be to provide a URL	1 2 3	it electronically to the court reporter and to Jen
2	I suppose an alternative would be to provide a URL site if you would want to look at it that way. I	2	
2	I suppose an alternative would be to provide a URL	2	it electronically to the court reporter and to Jen and to Mr. Pierce, and then we'll all have it. And that will be an additional an exhibit that's
2 3 4	I suppose an alternative would be to provide a URL site if you would want to look at it that way. I mean, I'm assuming you're	2 3 4	it electronically to the court reporter and to Jen and to Mr. Pierce, and then we'll all have it. And
2 3 4 5	I suppose an alternative would be to provide a URL site if you would want to look at it that way. I mean, I'm assuming you're MR. PIERCE: I won't object. We can enter it	2 3 4 5	it electronically to the court reporter and to Jen and to Mr. Pierce, and then we'll all have it. And that will be an additional an exhibit that's been admitted, JX1, that map. Okay. Great. Thank
2 3 4 5 6	I suppose an alternative would be to provide a URL site if you would want to look at it that way. I mean, I'm assuming you're MR. PIERCE: I won't object. We can enter it into the record.	2 3 4 5 6	it electronically to the court reporter and to Jen and to Mr. Pierce, and then we'll all have it. And that will be an additional an exhibit that's been admitted, JX1, that map. Okay. Great. Thank you.
2 3 4 5 6 7	I suppose an alternative would be to provide a URL site if you would want to look at it that way. I mean, I'm assuming you're MR. PIERCE: I won't object. We can enter it into the record. MUEHLBERGER: I do. Your Honor, then we would move to enter this into evidence as CX it would be 59, correct? CX59. MR. PIERCE: It would be JX, right? MR. MUEHLBERGER: CX59, right. MR. PIERCE: JX, joint exhibit? THE COURT: Yeah. I thought you would do it	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	it electronically to the court reporter and to Jen and to Mr. Pierce, and then we'll all have it. And that will be an additional an exhibit that's been admitted, JX1, that map. Okay. Great. Thank you. MR. MUEHLBERGER: Thank you. THE WITNESS: Do you have any other questions? THE COURT: One second. Mr. Pierce, did you have any additional questions for the witness? MR. PIERCE: I do, Your Honor. THE COURT: Okay. THE WITNESS: Okay. RECROSS-EXAMINATION BY MR. PIERCE: Q. Ms. Kleffner, you spoke earlier, and you said that control over the facility was extremely important as to determine between contractor and subcontractor, correct? A. Uh-huh. Yes. Q. Would you agree that control over the entire facilities, including the sewer lagoons and

Page 253 Page 255 1 talking about. For the operator, yes. For the 1 up here. 2 sewage sludge application, I would be more 2 THE COURT: Okay. The projector, maybe? 3 3 concerned about the pumping and the hauling and MR. PIERCE: Ms. Moreno, can I beg you, 4 4 actual land application for control. please? 5 5 Q. Okay. And so with that, you also MS. MORENO: Are you doing it at that table? 6 6 stated that because a -- because Adamas and myself MR. PIERCE: Yes, ma'am. 7 7 was -- how did you put it? Sorry. I'm trying not MS. MORENO: Okay. Can you see? 8 8 to misquote you here. Because we were the THE COURT: I can. Thank you. 9 9 MR. PIERCE: Thank you. contractor and had control over the facility, we 10 were the person who was the applier and the 10 Your Honor, is it okay to question from 11 11 the table here? preparer; is that correct? A. I wouldn't say facility. Of the land 12 12 THE COURT: Sure. That's fine. 13 13 application project, yes. BY MR. PIERCE: 14 14 Q. Did you also testify that Tom Robinson Q. Okay. You stated that Lame Deer Creek 15 15 revoked his permission to utilize his land? flows into Rosebud Creek, correct? 16 A. At some point after biosolids had 16 A. Yes, it does. 17 17 been applied, I think -- I'm not sure exactly MR. PIERCE: Your Honor, what I have up here 18 18 if -- how much biosolids had left to be applied. on the screen to introduce is a Google Map. This 19 That's something that can probably be testified to 19 is public information drawn directly from the 20 20 by someone else. But it was in the inspection Google Map site. This shows Lame Deer Creek. 21 report that, yes, permission was revoked at some 21 BY MR. PIERCE: 22 22 point. Now, I don't know if that actually stopped Q. Ms. Kleffner, does there seem to be a 23 23 the land application. But Mr. Robinson did state break in Lame Deer Creek in this picture? 24 that he wanted land application to stop. 24 A. I would --25 Q. And in your review of the records, did 25 Q. Or Rosebud Creek. Excuse me. Page 254 Page 256 1 you come across anything that would indicate that 1 A. I would not consider Google Earth 2 NCUC had locked out Adamas Construction and/or 2 imagery an accurate representation of water flow. 3 3 That's not consistent with what USGS has on their their subcontractors from the facilities? 4 A. I think that was included in some of the 4 mapping. 5 5 other exhibits, that NCUC was not present and Q. That wasn't the question. Does this map 6 available and didn't -- wasn't there for any of the 6 appear to have a break in it? 7 7 land application. I'm not sure about the lockout A. It does. But I would not consider 8 8 and any control he had over another -- how much Google Earth or Google Maps appropriate for --9 9 control NCUC had over Mr. Robinson's property. THE COURT: Do you -- let me ask -- let me 10 10 ask this as a preliminary question: When you're Q. What about over their own facility, the 11 lagoon facility? 11 making that evaluation --12 12 THE WITNESS: Uh-huh. A. Yes. As the owner, they have that 13 right. I'm not sure exactly how much control they 13 THE COURT: -- which I assume that's an 14 exercised over it and at what point that control is 14 exercise you go through --15 exerted. But I don't know that I could fully 15 THE WITNESS: Yes. 16 answer that question. 16 THE COURT: -- as part of compliance 17 17 Q. Okay. And you also stated that for it enforcement. But what do you -- what mapping 18 18 sources do you rely upon for determining whether or to be a body of water, it has to be continuously 19 19 flowing and uninterrupted; is that correct? not there's jurisdiction and that it's a waterway 20 A. Yes. 20 over which EPA has jurisdiction? 21 MR. PIERCE: Can I pull up my computer, Your 21 THE WITNESS: Right. We would use government 22 22 Honor? mapping systems. Google Earth is great for just 23 THE COURT: Sure. 23 general aerial imagery, but we would not rely on 24 MR. PIERCE: You know, I believe last time, 24 that to establish whether there's a break in a 25 it had something to do with us showing the exhibits 25 waterway on Google Earth's mapping.

The type of resources that we would use would be USGS. There's also the -- oh, gosh, I'm going to get the name wrong -- the My Waters Mapper is also another one that's publicly available.

There's a wetlands mapper. I think that's put

6 together by NWI, which is the National Wetlands 7

Inventory. So we use government -- we don't rely 8 on Google Earth. I would not consider Google Earth 9

an accurate representation of a water flow.

THE COURT: Do you know, the Army Corps of Engineers, the information that they develop as it relates to these jurisdictional issues --

THE WITNESS: Uh-huh.

THE COURT: -- does their technical information feed into any of those sources that you're drawing from?

THE WITNESS: Yes. So I think it's the wetlands inventory. I will preface that saying anytime that we are looking for a jurisdictional determination, it is always preferable to have a USGS employee there on the site to evaluate it. We wouldn't rely solely on online mapping. So in this

23 instance when it was determined to be a 2.4 jurisdictional water by the U.S. Army Corps of

25 Engineer in that 2015 compliance order, that would average or normal for that time of year.

Whenever I ran the precipitation tool, any time that there was water within Lame Deer Creek, it was found to be either normal conditions or drier than normal conditions. The drier-than-normal conditions tells me that this waterway is not just solely relying on precipitation drainage. It probably likely has some kind of other influence that is adding water into the stream that supports it being a perennial

THE COURT: Okay. All right. So a little bit of additional information, but it's helpful for me to understand.

So go ahead.

MR. PIERCE: Just one follow-up to that, Your Honor.

BY MR. PIERCE:

Q. Could Lame Deer Lagoon discharge be contributing to that water?

A. Um, I don't know for sure that it would be under the influence of Lame Deer Creek enough to influence the discharge. That would be something that we would rely on the U.S. Army Corps of Engineers to determine if that has a significant

Page 258

overrule any mapping that we would potentially use.

So we would like to rely on USGS -- or not USGS, the Army Corps of Engineers making the actual determination. We kind of use the mapping as a -- as a jumping-off point.

THE COURT: And what did you use for this case?

THE WITNESS: So we -- I started with the USGS map. And then whenever we reviewed that compliance order, we found that the Army Corps of Engineers had already determined that it was a jurisdictional water.

I also did use something called an Antecedent Precipitation Tool, which is kind of a helpful guide that the Army Corps of Engineers puts out as well. It's publicly available, and it basically takes rainfall information, drought information, and then an input of dates. So you can choose photographs from Google Earth or DigitalGlobe or whatever you would like to use where you know for sure that you can view water within the streambed. So that Antecedent Precip Tool takes all that information, puts it all together, and tells you whether or not the flow within it, within the stream at that point is

Page 260

Page 259

enough influence. And I'm not entirely sure that even if it did discharge, that that would change it as a jurisdictional water.

Q. So it has a NPDES permit to discharge, correct?

A. Yes.

Q. So it would be discharging into the creek?

A. Yes. But I'm not entirely sure how much or how often Lame Deer Lagoon discharges. Like I said, that would be something that -- to determine jurisdictional waters, we would rely on the Corps of Engineers, which they've established in their 2015 ---

O. How often and how much would be in the NPDES permit as well, correct?

A. Typically. Normally, what an NPDES permit would have in it would be its design flow, a maximum flow, and sometimes they'll do a minimum flow. But generally, for wastewater treatment facilities, they will have to report their flow. So what's reported in the NPDES permit isn't necessarily what the facility is actually discharging at any point in time.

Q. You said the tool that you used to

22

determine that, you used pictures from Google Earth, correct?

A. Yes, to show that there's water within the streambed. So Google Earth is kind of hit or miss. If you're just using it for general aerial imagery, it's fine. There's lots of other services out there like DigitalGlobe. But I would not use it to determine whether or not a stream is perennial, ephemeral, or intermittent.

Q. But it is being used with relation to determining flows, correct?

A. Just based on a capture of the conditions at that time. It's an actual photographic capture of the streambed. What you are showing was kind of the base map underneath the photographs, which I would not -- I would not use

Q. Okay.

A. The base map does not have any, I don't think, scientific backing behind the waterways as they're depicted on Google Earth's base maps.

Q. Going back to the bodies of the water issue that was brought up again, is there a -- in the recent Supreme -- well, I guess that would call for a legal opinion. Sorry.

out of the Lame Deer Lagoon, as it flows down the stream, does it self-clean?

A. Well, the point of discharge for any facility, it needs to have met the permit limits at the point that it's discharged, where it's sampled. I don't know that I would say that it self-cleans once it goes out into the stream. It should already be treated enough, if they're following their permit, once it discharges into the waterway.

Q. So -- but you would say if it traveled over time, that some of the heavier metals or anything would continue to precipitate out or to settle out of the water and become part of the streambed or precipitate out into the air, correct?

A. So heavy metals are -- it's -- this is going to get really convoluted and scientific. So heavy metals is -- the pollutant concentrations are dependent on the water quality, on hardness factors. That's usually what's used to determine a permit limit. Heavy metals have a really bad reputation for being dissolved metals. So once they are dissolved into a waterway, they don't necessarily precipitate out. Some of them do. They may attach to sediment particles and end up in the sediment of a streambed. But metals as a

Page 262

Page 264

Page 263

```
1
           THE COURT: Well, you can ask, and then I can
 2
        decide if you want to ask it. Are you talking
 3
       about Sackett?
           MR. PIERCE: Yes, ma'am.
 4
 5
           THE WITNESS: Okay.
 6
        BY MR. PIERCE:
 7
           Q. In the recent Sackett decision, the
 8
 9
        it to be a body of water, it had to be somewhat
10
        near a continuous body of water in the United
11
```

EPA -- or the Supreme Court ruled that in order for States; is that correct? A. That is talking about wetlands, which

this is not a wetland issue.

Q. But it was talking about bodies of the water -- or waters of the United States, correct?

A. In a wetland sense. So the most recent Supreme Court decision is not changing the definition of what would be considered a relatively permanent water or a traditionally navigable water. So that -- it's mainly concerned with wetlands. It's not changing anything that would have to do with how Lame Deer Creek is considered as a jurisdictional water. Q. Okay. And when -- for those who don't

know a whole lot about it, when the effluent comes

dissolved content, those stay in the stream as a continuous issue until they're either attached to a sediment particle or they're uptaken by wildlife or plant life. Dissolved metals stay within a streambed, which is why they're so bad for a waterway. You do not want metals within a stream because they stay around. They are persistent.

Q. Sure. Okay. And I appreciate the description. I know you and I get it. I know most of the other people probably don't get that. The reason was you said that it was already treated to a level before it was ever discharged into Lame Deer Creek, and then it travels 70 miles to get to the Yellowstone River; is that correct?

A. Yes, it does.

Q. So would you consider there is heavy risk of contamination in that aspect as it has already been treated and then discharged?

A. So I'm going to preface this: Permitting is not my general background, but I do have a little bit of knowledge in the permitting aspect.

23 So Lame Deer Lagoon, if it is 24 discharging within that watershed, likely has a 25 waste load allocation in -- within its permit

Page 265 Page 267 1 1 limits. So that basically says this treatment water that is 70 miles away from an original 2 2 discharge point is still considered a body of water facility can discharge this much dependent on the 3 3 quality of the water body and how many other of the United States even given the Sackett 4 4 dischargers are within that watershed. So there's decision? 5 5 probably a waste load allocation within that A. Yes. It's continuously connected, so 6 6 yes. 7 7 I wouldn't say that it's discharging. MR. PIERCE: Okay. Thank you, Your Honor. 8 8 The purpose of a permit is to make sure that the THE COURT: Anything else? 9 9 effluent that's being discharged is not going to MR. MUEHLBERGER: No, Your Honor. 10 overwhelm a water body in addition to the other 10 THE COURT: Okay. Thank you very much for 11 11 discharges within that same watershed. your testimony. 12 12 Q. Well, it also keeps animals from getting THE WITNESS: Thank you. 13 13 into the water body and carrying that to other THE COURT: All right. Well, it's quarter to 14 14 areas, correct? 4. Who were you planning to call next? Or is 15 15 A. Um, I suppose that's true. there someone you want to take out of turn to try 16 16 to utilize some of the time we have? We need to be Q. And that's the point of vector reduction 17 17 and pathogen reduction, is that -out of here by 5. So, you know, I would say we 18 18 A. If you're talking about just biosolids. probably have another hour to go before we need to 19 19 So I assumed that you were talking about the Lame start collecting and leaving. 20 20 Deer --And just to clear up, I was given some 21 21 Q. Well, no. It actually gets to both information about the opening time. It is not 7. 22 22 points. We have a situation here where it is We had a couple of points of clarification 23 23 claimed that the actions -- that this isn't just a throughout today's hearing. The earliest we could 24 24 process thing, that the actions could have get started is 8, which I'm happy to do tomorrow 25 contaminated or caused contamination. And this 25 morning. But in any event, who -- is there Page 266 Page 268 1 1 somebody you want to cover or at least start gets directly to that. So the idea is that you 2 2 have the authority over this due to the Lame Deer covering? 3 3 MR. MUEHLBERGER: Your Honor, our plan was to Creek and its discharge into a body of water of the 4 call James Courtney. This was the one that would 4 United States, and that's why this is a Clean Water 5 5 be through video conference on Teams. violation. So if there is no actual harm or damage 6 that has ever been done, how would this be a Clean 6 THE COURT: Okay. 7 7 MR. MUEHLBERGER: And we feel confident we Water violation? 8 8 A. So I think that's kind of a can get through the direct examination, at the very 9 9 mischaracterization of the purpose of Part 503. least, and possibly even into the cross. 10 So, yes, there is a NPDES permit. It does 10 THE COURT: Okay. Great. 11 11 discharge into a water of the U.S. Biosolids are MR. MUEHLBERGER: And as to when the court 12 coming from the Lame Deer Wastewater Treatment 12 opens tomorrow morning, we are fine with starting 13 13 Facility that has a NPDES permit. at 8 or whenever the parties agree. 14 14 THE COURT: Okay. Is 8 okay for you? Biosolids don't have to be land applied 15 15 within the same watershed. They can be land MR. PIERCE: That's perfectly fine, Your 16 16 applied anywhere. They can even be land applied Honor. 17 17 THE COURT: Okay. So we'll just make a plan outside of the state that they were generated in. 18 18 Part 503's real necessity is to make sure that to start up at 8 tomorrow morning. 19 19 biosolids, wherever they're land applied, however MR. PIERCE: Just for clarification, the 20 20 close or far they are from a water body, isn't building will be open, but the courtroom won't be 21 impacting the environment. 21 open? 22 22 THE COURT: Yeah. My understanding is the So it doesn't -- it is connected to Lame 23 23 security is ready to welcome people at 7:30. Deer Lagoon, yes. But it's more important for the 24 24 biosolids regulations at land application site. MR. PIERCE: Okay. 25 25 THE COURT: Or technically 7. Is it 7:30 or Q. Okay. And so you believe that a body of

	Page 269		Page 271
1	8? We've got a couple of different answers. It	1	goes quickly.
2	might be 8.	2	THE COURT: We'll keep running the record for
3	MR. PIERCE: So would it be better to do	3	the moment. Thank you for checking.
4	8:30?	4	MS. KACSUR: James? James, can you hear me?
5	THE COURT: It might be 8. So why don't we	5	Would it be possible to turn off all of
6	start at 8:30. I don't know if you need do you	6	the microphones? I think it might cause an echo.
7	need a good bit of time to set up? Do you want to	7	Or would that be an issue?
8	make it 8:30, 8:15? Whatever.	8	THE COURT: Well, she'll need to be able to
9	MR. PIERCE: 8:15 is perfectly fine.	9	hear something in order to record, I think, so
10	THE COURT: Is that good for you all?	10	MS. KACSUR: Okay.
11	MR. MUEHLBERGER: Works for us as well.	11	THE COURT: We can turn off
12	THE COURT: I mean, obviously, I'm flexible.	12	MS. MORENO: Shouldn't we still be able to
13	So if we're all here and you need a few extra	13	hear him?
14	minutes, that's really not a problem.	14	MS. KACSUR: He should be projected in the
15	MR. MUEHLBERGER: Thank you.	15	room. Does that change things? We're trying to
16	THE COURT: Okay.	16	get it so that we can hear him everywhere.
17	MR. MUEHLBERGER: So in order to make this	17	THE COURT: Okay. Do we need to just
18	one work, we need the judge to be connected to	18	manually push these off?
19	Teams as well as Mr. Pierce and complainant. And	19	MS. MORENO: On your actual computer, I

	Page 273		Page 275
1	any point you need to speak with him, I think you	1	please?
2	can just unmute yourself and do it whenever you	2	A. Yes. James Courtney; J-A-M-E-S,
3	need to. I think that should work.	3	C-O-U-R-T-N-E-Y.
4	THE COURT: Okay. I have the volume muted as	4	Q. And what is your current job,
5	well.	5	Mr. Courtney?
6	MS. KACSUR: Me as well. I was hoping it	6	A. I'm an engineer.
7	would be projecting through the room.	7	Q. And who do you work for?
8	Mr. Courtney, can you hear me?	8	A. The National Park Service.
9	THE WITNESS: Yes.	9	Q. Have you at any point worked for Indian
10	MS. KACSUR: It's not projecting. Hold on	10	Health Service?
11	just one moment, please.	11	A. Yes.
12	THE COURT: Do you want a few minutes to	12	Q. When and for how long did you work
13	figure this out or	13	there?
14	MS. KACSUR: Yes, please, Your Honor. I	14	A. Worked from December, 2016, to, I
15	apologize.	15	believe, May of 2022.
16	THE COURT: No worries. No worries. All	16	Q. And what was your position with IHS?
17	right. I'm just going to leave the computer up and	17	A. I was an engineer for IHS.
18	as is, and I'll come back in five. Is that do	18	Q. So what does an engineer for IHS do?
19	you think that's enough?	19	A. Various tasks. Design, managing
20	MS. KACSUR: I think that should be enough.	20	projects, like construction management.
21	Thank you.	21	Q. And who was your supervisor when you
22	THE COURT: All right. Great.	22	were at IHS?
23	(Whereupon, a brief	23	A. Jim White.
24	recess was taken.)	24	Q. So an engineer for IHS is the position
25	THE COURT: We can go ahead and get back on	25	that you had in 2018, right?
	Page 274		Page 276
1	the record.	1	A. Yes.
2	Now can Mr. Courtney hear me?	2	Q. What is the relationship between IHS and
3	MS. KACSUR: You are muted.	3	EPA in your field?
4	THE WITNESS: Yes.	4	A. Indian Health Service often collaborates
		1 -	A. Indian freatm Service often conadorates
5	THE COURT: You can hear me?	5	with EPA to address sanitation deficiencies. So if
5 6	THE WITNESS: I think I'm hearing you through		with EPA to address sanitation deficiencies. So if there's violations on a reservation, IHS looks to
	THE WITNESS: I think I'm hearing you through a counselor's mic. You still seem to be muted.	5 6 7	with EPA to address sanitation deficiencies. So if there's violations on a reservation, IHS looks to the EPA to try to get those addressed. Oftentimes,
6	THE WITNESS: I think I'm hearing you through a counselor's mic. You still seem to be muted. THE COURT: Okay. Well, I won't mess around	5 6	with EPA to address sanitation deficiencies. So if there's violations on a reservation, IHS looks to the EPA to try to get those addressed. Oftentimes, IHS will provide technical assistance, sometimes
6 7	THE WITNESS: I think I'm hearing you through a counselor's mic. You still seem to be muted. THE COURT: Okay. Well, I won't mess around with my controls, then, so I don't generate	5 6 7	with EPA to address sanitation deficiencies. So if there's violations on a reservation, IHS looks to the EPA to try to get those addressed. Oftentimes,
6 7 8	THE WITNESS: I think I'm hearing you through a counselor's mic. You still seem to be muted. THE COURT: Okay. Well, I won't mess around with my controls, then, so I don't generate feedback. I can hear you. If you can hear me,	5 6 7 8	with EPA to address sanitation deficiencies. So if there's violations on a reservation, IHS looks to the EPA to try to get those addressed. Oftentimes, IHS will provide technical assistance, sometimes financial reimbursement agreements with the tribe to address different sanitation deficiencies.
6 7 8 9 10 11	THE WITNESS: I think I'm hearing you through a counselor's mic. You still seem to be muted. THE COURT: Okay. Well, I won't mess around with my controls, then, so I don't generate feedback. I can hear you. If you can hear me, then I'm going to place you under oath. So if	5 6 7 8 9 10	with EPA to address sanitation deficiencies. So if there's violations on a reservation, IHS looks to the EPA to try to get those addressed. Oftentimes, IHS will provide technical assistance, sometimes financial reimbursement agreements with the tribe to address different sanitation deficiencies. Q. So what is the role of IHS when it comes
6 7 8 9 10 11	THE WITNESS: I think I'm hearing you through a counselor's mic. You still seem to be muted. THE COURT: Okay. Well, I won't mess around with my controls, then, so I don't generate feedback. I can hear you. If you can hear me,	5 6 7 8 9 10 11 12	with EPA to address sanitation deficiencies. So if there's violations on a reservation, IHS looks to the EPA to try to get those addressed. Oftentimes, IHS will provide technical assistance, sometimes financial reimbursement agreements with the tribe to address different sanitation deficiencies. Q. So what is the role of IHS when it comes to wastewater treatment specifically?
6 7 8 9 10 11	THE WITNESS: I think I'm hearing you through a counselor's mic. You still seem to be muted. THE COURT: Okay. Well, I won't mess around with my controls, then, so I don't generate feedback. I can hear you. If you can hear me, then I'm going to place you under oath. So if	5 6 7 8 9 10 11 12 13	with EPA to address sanitation deficiencies. So if there's violations on a reservation, IHS looks to the EPA to try to get those addressed. Oftentimes, IHS will provide technical assistance, sometimes financial reimbursement agreements with the tribe to address different sanitation deficiencies. Q. So what is the role of IHS when it comes to wastewater treatment specifically? A. So the role of the program that I was
6 7 8 9 10 11 12 13	THE WITNESS: I think I'm hearing you through a counselor's mic. You still seem to be muted. THE COURT: Okay. Well, I won't mess around with my controls, then, so I don't generate feedback. I can hear you. If you can hear me, then I'm going to place you under oath. So if you'd raise your right hand. JAMES COURTNEY	5 6 7 8 9 10 11 12 13	with EPA to address sanitation deficiencies. So if there's violations on a reservation, IHS looks to the EPA to try to get those addressed. Oftentimes, IHS will provide technical assistance, sometimes financial reimbursement agreements with the tribe to address different sanitation deficiencies. Q. So what is the role of IHS when it comes to wastewater treatment specifically? A. So the role of the program that I was with was a sanitation facilities construction
6 7 8 9 10 11 12 13 14	THE WITNESS: I think I'm hearing you through a counselor's mic. You still seem to be muted. THE COURT: Okay. Well, I won't mess around with my controls, then, so I don't generate feedback. I can hear you. If you can hear me, then I'm going to place you under oath. So if you'd raise your right hand. JAMES COURTNEY called as a witness on behalf of the complainant,	5 6 7 8 9 10 11 12 13 14	with EPA to address sanitation deficiencies. So if there's violations on a reservation, IHS looks to the EPA to try to get those addressed. Oftentimes, IHS will provide technical assistance, sometimes financial reimbursement agreements with the tribe to address different sanitation deficiencies. Q. So what is the role of IHS when it comes to wastewater treatment specifically? A. So the role of the program that I was with was a sanitation facilities construction program within Indian Health Service. And the role
6 7 8 9 10 11 12 13 14 15	THE WITNESS: I think I'm hearing you through a counselor's mic. You still seem to be muted. THE COURT: Okay. Well, I won't mess around with my controls, then, so I don't generate feedback. I can hear you. If you can hear me, then I'm going to place you under oath. So if you'd raise your right hand. JAMES COURTNEY	5 6 7 8 9 10 11 12 13 14 15	with EPA to address sanitation deficiencies. So if there's violations on a reservation, IHS looks to the EPA to try to get those addressed. Oftentimes, IHS will provide technical assistance, sometimes financial reimbursement agreements with the tribe to address different sanitation deficiencies. Q. So what is the role of IHS when it comes to wastewater treatment specifically? A. So the role of the program that I was with was a sanitation facilities construction program within Indian Health Service. And the role of this program is to improve health of Indians
6 7 8 9 10 11 12 13 14	THE WITNESS: I think I'm hearing you through a counselor's mic. You still seem to be muted. THE COURT: Okay. Page 277 Page 279 1 A. Fairly consistently. Not my current 1 contaminants. They wanted to cut down the 2 role. But when I was working for Indian Health 2 concentration levels. So there was a project that 3 Service, it was very common to work with both 3 the Indian Health Service was providing funds for 4 4 community systems and individual on-site wastewater to address the deficiency. 5 treatment systems. 5 Q. And were you involved in that project? 6 Q. Are you familiar with the 6 A. Yes. 7 7 responsibilities or the duties of someone who Q. Can you describe I guess more generally 8 8 any other role you might have had at the Lame Deer operates a wastewater treatment facility? 9 9 A. Yes. POTW or Publicly-Owned Treatment Works? 10 Q. Could you describe some of those 10 A. So, yeah. Besides the project, I've 11 11 been out there on different occasions just for, responsibilities and duties? 12 12 A. Yes. So for, say, a plant that's say, when -- for inspecting it. I guess if there's 13 13 discharging into a stream, there's reporting like an EPA inspection, I would go out and look at 14 requirements, there's different testing that has to 14 the lagoon. That's primarily to identify issues 15 be done for compliance. On reservations, the 15 that the Indian Health Service can assist with, 16 primacy agency is usually the Environmental 16 assist the tribe with. 17 Protection Agency. 17 Q. Do you know what body of water the Lame 18 18 Q. Are you familiar with the federal Deer POTW discharges into? 19 regulations regarding biosolids or sewage sludge? 19 A. I believe it discharges into Lame Deer 20 20 Yes, I'm familiar with them. Creek. 21 21 Q. Can you describe the creek for me? Q. Do you know what their purpose is? 2.2 22 A. Yes. The purpose is to keep the public A. It's a creek that I believe runs 23 23 safe. year-round. It runs through the town of Lame Deer. 2.4 24 Q. Are you familiar with Sheri Bement? Q. Do you -- are you familiar with any of 25 the specific requirements of those regulations? 25 A. Yes. She's the previous general manager Page 278 Page 280 1 1 of the Northern Cheyenne Utilities Commission. A. Yes. There's requirements for testing 2 2 the soil, the receiving soils for the sludge. Q. What was her role at the Lame Deer POTW? 3 3 A. She was basically head of the utility There's requirements for testing the sludge for operations, so water and wastewater on the 4 contaminants before it's applied. Yeah. Those are 4 5 5 a couple of the requirements of that. reservation. She was supervising different 6 Q. Does IHS get involved in the management 6 personnel that would, say, do checks on the system. 7 7 I believe she was the contact at one time for EPA. of biosolids? 8 8 A. So for IHS's involvement with biosolids, Q. Was she an engineer or a technical 9 9 there can be funding of projects sometimes to specialist like you? 10 10 A. She was not. address, say, a sanitation deficiency. There can 11 be technical assistance. Those are probably the 11 Q. Do you know Mr. Nathan Pierce? 12 12 A. Could you say that again? You cut out. two -- two primary ways that Indian Health Service 13 13 would get involved in something like that. 14 14 Q. Shifting gears a little bit to this case Q. Yeah. Do you know Mr. Nathan Pierce? 15 specifically. Are you familiar with the Lame Deer 15 16 16 **Publicly-Owned Treatment Works?** Q. And how do you know Mr. Pierce? 17 17 A. Yes. A. I believe he was acting as a consultant 18 18 for the utility, so I'd see him on different jobs O. What is it, and how are you familiar 19 19 with it? previously. He gained involvement in the sludge 20 20 A. So that's a community wastewater system. removal effort at the lagoon. 21 It consists of wastewater lagoons. So basically 21 Q. This sludge removal effort, how familiar 22 22 ponds that treat the wastewater that discharges are you with that project then? Can you describe 23 23 into a creek at the end of it. I'm familiar with 24 24 A. Yes, I'm fairly familiar with it. It that system because there was a -- an effluent 25 25 deficiency where they're exceeding some was basically a project that involved removing

	Page 281		Page 283
1	settled sludge out of the individual the	1	was being applied to, what that was?
2	wastewater ponds to allow these aeration treatment	2	A. I believe it was mainly agricultural

2	time. I'm not sure where you're located. But	2	THE COURT: Well, I guess, Mr. Muehlberger,
3	local time for Billings, Montana. Is that okay?	3	I'll give you a moment to respond to that. I think
4	MS. KACSUR: For 8:15 for Mountain Time,	4	I actually already know the answer to it, but you
5	that's for Billings, Montana, that works for you?	5	go ahead.
6	THE WITNESS: Yes. Yes, that's fine.	6	MR. MUEHLBERGER: Ms. Kleffner is
7	THE COURT: All right. Let me turn this off	7	representing the agency as the compliance officer,
8	so that I don't continue to echo. Then what we'll	8	so EPA's position is that she should stay
9	do is we'll go ahead and recess for this evening.	9	throughout the proceedings. EPA does not object
10	And we'll pick back up tomorrow morning, and you	10	with sequestering Mr. Sprague.
11	can begin with your cross.	11	MR. PIERCE: Your Honor, although she's a
12	MR. PIERCE: Thank you, Your Honor.	12	compliance officer for the EPA, she is here as a
13	THE COURT: All right. Thank you all very	13	witness, and some of the issues that we're going to
14	much.	14	be discussing with this housekeeping matter has
15	(Whereupon, the proceedings recessed for	15	directly to do with her.
16	the day at 4:41 p.m.)	16	THE COURT: Yeah, and I understand. But
17	MORNING SESSION, WEDNESDAY AUGUST 23, 2023	17	under our rules, the agency is permitted to have a
18	(Whereupon, the hearing convened at 8:30	18	party representative with them throughout the
19	a.m., with all interested parties present, and the	19	process. So they're allowed to choose who's going
20	following proceedings were had:)	20	to function in that role, and that's Ms. Kleffner.
21	THE COURT: Okay. We can go ahead and get on	21	So she can remain throughout.
22	record, please.	22	Mr. Sprague, I'm happy to go ahead and
23	All right. Good morning everybody.	23	invoke that at this point. And he can I think
24	We're here for Day 2 of the hearing involving	24	the other gentleman is simply observing, right?
25	Adamas or Adamas?	25	MR. MUEHLBERGER: (Nods head.)
23	Additids of Additids:		WIK. WELTEBLIGER. (Fous head.)

THE COURT: You withdraw it. Okay. All right. Very good. Let's go ahead, I guess then. Anything else before I get started? MR. PIERCE: No, Your Honor. THE COURT: Okay. Let's go ahead and I guess well, first I need to log into Teams because Mr. Courtney is going to be appearing by Teams, right? Are we still doing this the same way

Page 305 Page 307 1 want to make sure I'm not making this more 1 MR. PIERCE: Yes, ma'am. I'm logged in. 2 2 difficult with my settings on my computer. I need THE COURT: Okay, great. All right. So I'll 3 3 to be able to periodically chime in. For example, go ahead and join. And let me turn this -- I'm 4 4 at the outset, I need to remind the witness he's going to turn my mic from the courtroom off. Okay. 5 5 still under oath from yesterday. And there were It's connecting. Okay. So I've joined the 6 6 some issues yesterday. It might have been my meeting. And you want me to unmute my mic? 7 7 fault, but... I muted my mic and I also took the MS. MORENO: On the computer. 8 8 volume and muted it in order to not have any THE COURT: On the computer. Okay. 9 9 feedback whatsoever. I noticed that when I change Mr. Courtney, can you hear me? 10 the volume, Mr. Courtney could then hear me. There 10 THE WITNESS: Yes. 11 was a little feedback, but it was manageable. I 11 THE COURT: Great. Thank you very much for think when I tried to unmute myself that was when 12 12 the technical support that happened behind the 13 there were just terrible echoes going on. And I 13 scenes before you came on. We're going to get 14 14 don't know if some of that's attributable to the started with -- there's a little bit of feedback. 15 15 projection and the sound in the courtroom or not. MR. PIERCE: I believe that's mine, Your 16 But any ideas as to what I should or shouldn't do 16 Honor. I'm turning my speaker down. 17 17 to minimize that kind of disruption? THE COURT: Okay. All right. We're going to MS. MORENO: I think that if you keep your 18 18 get started with Day 2. We left off with 19 19 volume -- your mic and the settings on your Mr. Pierce being able to start his 20 20 computer off, he should be able to hear you through cross-examination of you, Mr. Courtney. I just 21 the mics in the courtroom as well we'll be able to 21 want to remind you that you are still under oath 22 22 hear him. from yesterday. So your testimony today will be 23 THE COURT: Yeah. That was my hope, although 23 sworn just as it was yesterday. And I'm going to 24 24 that didn't happen yesterday. I had to give Mr. Pierce the chance to begin his 25 25 actually -- as I said, what I did was I changed my cross-examination. Page 306 Page 308 1 volume on the speaker on my computer so that it 1 MR. PIERCE: Thank you, Your Honor. 2 2 wasn't zero, zeroed out, and then he could hear me. THE COURT: Mr. Courtney, can you see me? 3 3 THE WITNESS: Yes. I don't really understand the mechanics of it all. 4 But, I mean, do you think the projection should 4 THE COURT: One second, Mr. Pierce. All 5 5 pick me up? Because we can try that first, and right. The court reporter was just letting me know 6 then if he can't hear me, I can --6 she's unable to see the witness. But I don't think 7 7 she really -- I just asked if she needed to for any MS. MORENO: I believe it should. 8 8 THE COURT: Okay. All right. Well, we'll reason for the court reporting. She does not. I 9 9 give that a whirl. Let me just sign in here. So can see him. 10 I'll leave my mic on here and see if that 10 MS. MORENO: Just a minute. 11 doesn't -- I think at one point, I think I shut 11 MS. KACSUR: Your Honor, we -- Sarah and I 12 this off, too. So maybe leaving my mic on here 12 had the same issue. We've left the meeting and 13 will suffice. We'll try that first and see how 13 rejoined, and we were able to see. 14 that works. 14 MS. MORENO: Can you hang on just for a 15 MS. MORENO: Okay. 15 16 THE COURT: Is that what you're thinking? 16 THE COURT: Yeah. Mr. Courtney now just 17 MS. MORENO: Well, we were going to suggest 17 disappeared. I can see Mr. Pierce, but I can't see 18 that you try your mic on your computer. 18 Mr. Courtney anymore. Should I leave and reconnect 19 THE COURT: Instead of this? 19 as well? Okay. I can see him in the big screen. 2.0 MS. MORENO: Yes. 20 That's fine. I can see him on this monitor. As 21 THE COURT: Okay. I can do that. Okay. 21 long as I can see him somewhere, we're fine. I 22 So I am in Teams. I accepted the invite, so 22 just need to be able to see him. 23 I can join now. I'm assuming everybody MR. PIERCE: Your Honor, are you ready? 23 24 else -- Mr. Pierce, did you get the invite on 24 THE COURT: I am. Do we have another 25 Teams? 25 observer or --

Page 309 Page 311 1 1 MR. PIERCE: This would be Tom Robinson. A. Can you explain what you mean by 2 THE COURT: Oh, okay. All right. Great. 2 "number"? 3 Okay. Go right ahead, Mr. Pierce. 3 Q. So, typically, when you have a bid 4 4 MR. PIERCE: Yes, Your Honor. contract and/or a fixed price agreement, you guys 5 5 Hello, James. Can you hear me? have a BI number that comes with that; is that 6 6 THE WITNESS: Yes. 7 7 MR. PIERCE: Your Honor, I'm not able to hear A. There's a project number. That's not 8 8 really -- that's not specific to -- that's based on him. 9 9 the projects for the effort. It's not for the James, can you hear me now? 10 THE WITNESS: Yes. 10 reimbursement agreement. But it can be referenced 11 11 THE COURT: My mic -- I just muted my mic. by bids. That's based on the project. So there 12 12 It was unmuted because that was how he was able to can be different reimbursement agreements for the 13 hear me. But should I turn this on? 13 tribe based on the overarching projects. 14 14 TECH: No. ma'am. Q. So in the fixed price agreement between 15 15 THE COURT: So I just muted now, and it's --IHS and NCUC, was there any lab results included 16 TECH: Let's try the house mic. Test 1, 2. 16 with that fixed price agreement that IHS had 17 17 John, can you hear us? James. Sorry. James, can conducted? 18 18 you hear us? A. I believe there was -- there was some 19 THE WITNESS: Yes, I can hear you. 19 background information that I included, some tests 20 20 TECH: My apologies. that were done previously. 21 THE COURT: Mr. Courtney, can you hear me? 21 Q. So you --22 22 THE WITNESS: Yes, I can hear you. A. I believe there -- I'm sorry. 23 23 THE COURT: Okay. Thank you so much, Q. No. Go ahead. I cut you off. 2.4 2.4 A. Yeah. I believe there was some tests Michael. Thanks for your help. I think we're good 25 now. I'm all muted, and I think everything is 25 with the lagoon sludge. And I think there might Page 310 Page 312 1 working through the courtroom now and I'm not 1 have also been some tests of the application side. 2 2 hearing feedback. So fingers crossed. Okay. Q. So IHS conducted some tests. Did you 3 3 come up with an agronomic rate, or did IHS come up Finally, please go ahead, Mr. Pierce. 4 with an agronomic rate in the bid packet? 4 **CROSS-EXAMINATION** 5 5 A. I -- I don't recall. BY MR. PIERCE: 6 Q. Good morning, James. And thank you for 6 Q. If I was able to show you that fixed 7 7 price agreement, would you be able to recall at being here. I got some quick questions for you. 8 8 Can you explain to us -- yesterday you that point? 9 9 touched a little bit on the SFC and sort of their A. I -- I may. 10 10 MR. PIERCE: Your Honor, I would ask that I mission in the fact that they funded projects. Is 11 that the only thing that the SFC does is fund 11 be able to show Mr. Courtney a copy of that fixed 12 12 price agreement. It is a public record, and I'd projects? 13 13 A. No. The SFC program also provides like to be able to recall his memory with that if 14 14 possible. technical assistance to different tribes. 15 O. So technical assistance. So you 15 THE COURT: Absolutely. Go right ahead. 16 16 MS. MORENO: You're going to have to share administer contracts for them; is that correct? 17 17 A. So for this situation, this was a 18 18 MR. PIERCE: So share it through the Teams reimbursement-type agreement with the utility. So 19 19 part? this was not a contract. 20 20 Q. So was there a fixed price agreement MS. MORENO: Yes. 21 that was entered into from IHS to NCUC? 21 MR. PIERCE: Okay. 22 22 A. There was an agreement to reimburse MS. MORENO: Right here. 23 23 BY MR. PIERCE: based on fixed prices from the utility. 24 24 Q. Are you able to see it now, Q. So do you recall what the number of that 25 25 fixed price agreement was? Mr. Courtney?

Page 313 Page 315 1 A. I can see myself. I can't see the 1 portion? 2 document. 2 A. After "nitrogen available from 3 Q. Can you read what this document says, 3 biosolids"? 4 the first page? 4 Q. So does this document state right below 5 A. Yes. "Fixed Price Construction 5 the line at the heading, "Biosolid application 6 6 Agreement between Northern Cheyenne Utilities rate, center pivot area"? 7 Commission, NCUC, the Billings Area Indian Health 7 A. Yes. Like I said previously, I believe 8 Service, Sanitation Facilities Construction, SFC, 8 this was for estimating purposes. If I recall 9 9 for Lame Deer Lagoon, Cell 2 sludge removal." correctly, I believe that was stated in the 10 Q. So you would agree that this is a fixed 10 document that estimates are provided. But 11 price agreement between the Northern Chevenne 11 it's for -- IHS wasn't assuming responsibility for 12 12 Utility Commission and the Billings Area Indian exact quantities. 13 13 **Health Services, correct?** Q. Sure. Sure. And it says the site 14 A. Yes. It appears to be the reimbursement 14 there, Robinson pivot; is that correct? 15 agreement. 15 A. Yes. 16 Q. So if we scroll down here in this 16 Q. Can you read the bolded area just below 17 reimbursement agreement, did you -- is there land 17 the line on the header? 18 identified in this reimbursement agreement for 18 A. The "Biosolids application rates, grass 19 19 the -area." 20 20 A. I believe there was -- I believe Tommy Q. And at the very bottom of this, there's 21 Robinson's site was suggested for a proposed 21 a max sludge application rate. Can you tell us 2.2 application site. But I don't believe it was 22 what that application rate is? 23 23 restricted to that site specifically. A. 23,950 gallons per acre. 2.4 24 Q. So you identified Tom Robinson's pivot Q. Is this considered an agronomic rate? 25 wheel line in the -- sorry. Excuse me. 25 A. Yeah. It appears to be an amount of Page 314 Page 316 1 1 volume of sludge that you can apply per acre. Can you tell us what this particular 2 document is right here? 2 O. So you would agree that this is an 3 3 A. It appears to be an analytical summary agronomic rate? 4 report from Energy Labs from Billings, Montana. 4 A. I don't know what the exact definition 5 5 Q. And who is the person who submitted this of agronomic rate is, but that appears to be 6 analytical -- the tests for this analytical report? 6 gallons of sludge supplied per acre. 7 7 A. Yeah. I believe that's submitted by the Q. So up above here, there's some 8 8 SFC program. I believe the purpose was to calculations with regards to nitrogen to the soil, 9 9 establish -- allowing estimates to be made for what to all of the things that would be required to 10 10 are my costs as far as for the work to be completed develop an agronomic rate, correct? 11 for this. I believe that was the purpose of the 11 A. They appear to be calculations to 12 12 establish an estimate. testing. 13 Q. And did you turn these documents over to 13 O. Excellent. So even if it's just an 14 14 the EPA with your report? estimated agronomic rate, you would agree that 15 A. I don't recall. 15 those calculations seem to be trying to get towards 16 16 Q. Okay. Moving on. what would be an estimated application rate? 17 17 Can you tell us what the bolded portion A. So this was for an application rate for 18 18 of this states? what was tested in a lagoon. So for the -- for 19 19 A. Are you talking about the headings like the -- this application in question in this 20 client project's web I.D.? 20 hearing, that sludge was concentrated, to my 21 Q. How about this portion right here that 21 knowledge, or there was a claim that it was 22 22 my cursor is moving across? concentrated. So these calculations really don't 23 23 apply to something that's been altered. So that's A. I can't see your cursor on that screen. 24 24 something that's important to point out. O. Okav. So just below the line there, it 25 25 states, "Biosolids." Can you finish reading that THE COURT: Okay. But I think you need to

Page 317 Page 319 1 also directly respond to Mr. Pierce's question with 1 was specifying how the work was to be done 2 2 that qualification noted. In direct response to rate-wise. I believe it's just for estimating 3 3 his question, what is your answer, Mr. Courtney? purposes. 4 THE WITNESS: This is for sludge that was 4 Q. So it's for the estimating purpose that 5 5 taken directly out of the lagoon and not processed. if somebody is looking at a bid packet, they would 6 6 But my understanding is is that Adamas be able to estimate how much sludge and how -- what 7 7 Construction was claiming that the sludge in the the application rate is to a property; is that 8 8 lagoon was processed concentrated, so these rates correct? 9 9 are not really applicable to the work that's A. Yes, that seems correct. It's for 10 being -- that's in question here because we're 10 establishing prices. But it's up to the -- the 11 talking about a different kind of sludge. 11 person performing the work is responsible for 12 12 THE COURT: Okay. Mr. Pierce, you can either establishing the rates. So it's just an estimate 13 follow up with the same question or ask something 13 that's provided. 14 14 Q. Well, let's talk about your estimates 15 MR. PIERCE: Yeah. I'll just sort of 15 real quick. How did you determine the amount of 16 rephrase a little bit, Your Honor. 16 sludge that was in the sewer lagoon ponds? 17 THE COURT: Okay. 17 A. I guess I have an objection to that 18 BY MR. PIERCE: 18 because these aren't my estimates. 19 Q. Mr. Courtney, if the sludge had not been 19 MR. PIERCE: Your Honor, he's a witness. 20 altered, would you consider this to be an agronomic 20 THE COURT: Yeah. If you're unable to answer 21 21 for some reason, you can explain that. But I guess 22 MS. KACSUR: I have an objection, Your 22 I would say you need to respond to the question, 23 Honor --23 but certainly qualify it as you need to based on 24 THE COURT: Yes. 24 your knowledge. 25 MS. KACSUR: -- to the relevance of these lab 25 THE WITNESS: Right. Yeah. So these aren't Page 318 Page 320 1 results based on the date of these lab results. 1 my estimates. 2 2 THE COURT: Based on the date? BY MR. PIERCE: 3 3 MS. KACSUR: Yes, ma'am. Q. Well, weren't you there when they were 4 THE COURT: What is the date? 4 collected? 5 5 MS. KACSUR: These lab results say they were A. When the samples were collected, I don't 6 taken in June of 26, I believe, of 2017. This was 6 think so. Not per this -- this document. 7 7 over a year prior to the application project. Q. Were you working for IHS for the SFC 8 8 MR. PIERCE: Your Honor, the relevance here department when this particular document was 9 9 is is that the government witness has attempted to created and these samples were taken? 10 say that no agronomic rate was ever provided. This 10 A. I believe so. 11 is clearly an agronomic rate, and it actually is 11 Q. So you were part of the team --12 higher than the rate in Mr. Robinson's contract. 12 A. But I --13 So it's actually going directly to the case at 13 THE COURT: Okay. 14 hand. 14 THE WITNESS: I'm not aware of -- I 15 THE COURT: I'm going to overrule the 15 don't -- I don't think I was out there when the 16 objection. You can go ahead and rephrase -- or not 16 samples were collected. I think I got out of the 17 rephrase. Just repeat your question, if you would, 17 project after the fact. 18 so I remember what you just asked. BY MR. PIERCE: 18 19 BY MR. PIERCE: 19 Q. So who was the project engineer in 20 Q. Mr. Courtney, if the sludge had not been 20 charge of this particular project in question? 21 altered, do you agree that this application rate 21 A. For the sludge removal effort, I was 22 would be considered an agronomic rate? 22 assigned as the project engineer. 23 A. I believe this was just a -- this was to 23 Q. So as the project engineer, you didn't 24 be provided to allow estimates to be made for the 24 have any information or knowledge of how the 25 work to be completed. So I don't believe that IHS 25 samples were collected of the project that you were

Page 321 Page 323 1 1 Q. Did you and I exchange e-mails regarding in charge of? 2 2 A. The documentation in the packet seems the math for the concentration on the lagoons? 3 3 self-explanatory. The -- I believe the -- my A. I recall e-mails being sent discussing 4 4 understanding is that the samples were collected the math. 5 5 by -- by my guess is by Todd Rydquist, the engineer Q. And did we also include lab samples? 6 at SFC, the Billings SFC department. 6 A. I believe -- yes, I believe we discussed 7 7 Q. Okay. Let's move on to -- did you total solids sampling. 8 8 collect samples during the sludge removal project? Q. Were those lab samples ever turned over 9 9 A. I collected samples for total solids due to the EPA as part of this case? 10 to a claim that the sludge was concentrated. 10 I -- I don't recall. 11 11 MR. PIERCE: Can I get CX25, please? We have Q. And how --12 12 A. To verify those claims. to display it up there. 13 13 MS. PIERCE: I don't think it's on. Q. How did you collect those samples? 14 14 A. So I collected them with a sludge judge BY MR. PIERCE: 15 15 because that seemed to be the only way to collect Q. James, so you worked on the Northern 16 the sludge from the tanks that the sludge was on. 16 Cheyenne Reservation since 2016. Are you aware of 17 17 Q. And so did myself or anybody else object any other times where sludge was applied to 18 18 to the use of a sludge judge? Mr. Robinson's field? 19 A. I believe after the fact, there was an 19 A. I don't recall. I wasn't involved in 20 20 objection, but not during the collection. I the other reference. 21 believe you were present during the collection of 21 Q. So you didn't tell me you remembered him 22 22 the samples. hauling sludge from the lagoons with his tractor to 23 23 his field? Q. Did you write an e-mail to EPA, Erin 24 24 Kleffner, requesting clarification on the use of a A. I don't recall that. 25 sludge judge? 25 MR. PIERCE: Your Honor, we have a bit of a Page 322 Page 324 1 A. Yes, I believe so. 1 technical problem. 2 2 O. And in that e-mail, did she tell you THE COURT: Okay. 3 3 MR. PIERCE: Should we take maybe a that a sludge judge should not be used as it only 4 measures the freeboard? 4 five-minute break to get it figured out? 5 5 THE COURT: Sure. A. I recall the message. I believe that 6 was -- I -- I disagree with that assessment. 6 MR. PIERCE: Thank you. 7 7 THE COURT: Sure. Do you need -- do you need Q. Sure. But you did receive that message? 8 8 A. Yes. Michael's assistance? 9 9 Q. Did you ever relay that information to MR. PIERCE: I believe so. The problem is is 10 10 we need to display something, and it's not -- it NCUC or anybody else at IHS? 11 A. Yes, with a SFC program. I believe the 11 would have to be on my computer, and I don't have 12 12 other engineers were aware of them. it on my computer. 13 O. But did vou inform NCUC? 13 THE COURT: Oh, okay. So you need to do 14 14 A. I -- I don't recall. the -- use the projection to do it? 15 Q. Okay. And so when that all began, 15 MR. PIERCE: Yes, ma'am. And I need for 16 16 James to be able to see that. didn't that actually start a dispute as to how much 17 17 THE COURT: Okay. All right. Well, I don't sludge was pumped from the lagoons? 18 18 A. I don't believe that started the know if that's doable, but find out. We can call 19 19 dispute. I believe the dispute was the claim Michael, the gentleman who was here before that was concentrations were unrealistic for how sludge can 20 20 helping us out --21 be concentrated. 21 MR. PIERCE: Yes, ma'am. 22 22 Q. So there was a dispute over the amount THE COURT: -- and/or somebody else and see 23 23 if that's how that would work. of the sludge, correct? 24 A. There was a disagreement with what was 24 MR. PIERCE: Okay. THE COURT: Okay. So we'll start with five 25 25 being claimed as far as the concentrations.

	Page 325		Page 327
1	minutes. If it takes longer, it's fine. And we'll	1	prior to the contract commencing about the
2	just come back.	2	application of sludge to his site or with IHS, I
3	MR. PIERCE: Thank you.	3	should say?
4	THE COURT: Okay. Mr. Courtney, just hang in	4	A. I believe he yeah, I believe he was
5	there while we take care of some technical issues.	5	in contact with IHS previously.
6	But I'm going to off the record and exit the	6	Q. Excellent.
7	hearing room.	7	So can you read to us the, I guess,
8	THE WITNESS: Okay.	8	first declaration of this agreement?
9	(Whereupon, a brief	9	THE COURT: And just for clarification,
10	recess was taken.)	10	you're on RX5, correct?
11	THE COURT: Back on record?	11	MR. PIERCE: Yeah, sorry, Your Honor. RX5,
12	THE REPORTER: Yes.	12	et. 1.
13	THE COURT: Great.	13	THE COURT: Okay. Thank you.
14	Mr. Courtney, we are back. And	14	THE WITNESS: Do you want me to read the
15	Mr. Pierce will continue with cross.	15	highlighted part or the whole paragraph?
16	MR. PIERCE: Thank you, Your Honor.	16	MR. PIERCE: The whole paragraph, please.
17	BY MR. PIERCE:	17	THE WITNESS: Can you scroll up a little bit?
18	Q. James, can you still hear me?	18	Because you want me to read the first it's kind
19	A. Yes.	19	of cutting off.
20	Q. Okay. Thank you.	20	MR. PIERCE: So where it starts, "First."
21	So on this max application rate, we have	21	THE WITNESS: The top line is cut off on my
22	23,950. Do you recognize or can you tell us	22	end. Can you scroll up just a little bit?
23	what this document is?	23	MR. PIERCE: Sure. I'm completely scrolled
24	A. I don't believe that document was shared	24	to the top.
25	with me previously, but I'm just seeing it for I	25	THE WITNESS: Yeah. It's lagging on my end.

Page 329 Page 331 1 1 A. Yes. here are changed. The contractor said that he 2 2 Q. -- just a quick "yes" or "no." concentrated to ten times the original 3 THE COURT: So the question is, if I'm 3 concentration in the lagoon. So the estimated 4 4 following this, whether this highlighted line that rates from the reimbursement agreement assume no 5 5 you just read is at a rate that is -concentration of the sludge, but -- yeah. Sorry. 6 6 MR. PIERCE: Less than their --BY MR. PIERCE: 7 THE COURT: -- less than what was addressed 7 Q. So, Mr. Courtney, was this agreement 8 8 made before the application process began? in the bid document? 9 9 MR. PIERCE: In the fixed price agreement, A. I -- it would seem so. 10 yes, Your Honor. 10 Q. So, realistically, before any of 11 THE COURT: Okay. That the witness indicated 11 the work began, this agreement was made with 12 12 was an estimate. But nonetheless, you're asking Mr. Robinson? 13 whether that is less than the rate in that 13 A. I don't think I was privy to that 14 estimate --14 agreement. But I believe that the agreement would 15 15 MR. PIERCE: Yes, ma'am. have been made before an application was started. 16 THE WITNESS: -- in the bid? 16 Q. Can you read the second declaration in 17 17 MR. PIERCE: Yes, ma'am. this contract? 18 18 THE COURT: Okay. Can you respond to that, A. Yes. "The subcontractor agrees to 19 19 promptly begin said work as soon as notified by Mr. Courtney? 20 20 THE WITNESS: I would say I can't compare the said contractors. Estimated begin date is August 21 rates because the sludge is altered. So it's --21 8, 2018. Subcontractor will furnish contractor 22 22 MR. PIERCE: Mr. Courtney -with logs for each day of application." 23 23 THE WITNESS: I don't think it's -- you're Q. So you would agree that in this document 2.4 24 not comparing the same thing. that is signed by Tom Robinson, he agreed to supply 25 2.5 Adamas Construction with logs of each day of Page 330 Page 332 1 BY MR. PIERCE: 1 application; is that correct? 2 2 Q. - is 22,000 gallons less than 23,000 A. It appears so from that text. 3 3 Q. Perfect. Thank you. gallons, yes or no? 4 A. I believe -- I believe the number is 4 Can you -- are you -- is this e-mail to 5 5 you from Sheri Bement? less. But we're comparing different quantities --6 Q. Thank you. 6 A. I believe so. 7 7 A. -- to the different --Q. Can you give us the date of this e-mail? 8 THE REPORTER: I'm sorry. I'm not getting 8 A. May 9th, 2018. 9 9 the end of the witness. Q. And can you read the highlighted 10 THE COURT: Yeah. Don't -- let him finish 10 portion, please? 11 11 his answer. A. Yes. "This is to confirm that all land 12 MR. PIERCE: I apologize. 12 applications will meet or exceed the requirements 13 THE COURT: If you need to follow up, it's 13 of U.S. Environmental Protection Agency, EPA, Part 14 fine. But the transcript will be a disaster if 14 503 Compliant 40 USC 503 et. seq, Montana 15 there's talk over, so... 15 Department of Environmental Quality, DEQ, including 16 MR. PIERCE: Yes, ma'am. 16 DEQ Circular 2, Chapter 80 to 89, and will 17 THE COURT: Go ahead and finish, 17 demonstrate compliance with applicable laws, rules, 18 Mr. Courtney. 18 and regulations to include, but not limited to, the 19 THE WITNESS: So the gallons that are being 19 Montana Water Quality Act non-degradation and described here are allegedly different because the 20 20 hazardous waste disposal requirements, Title 75, 21 contractor was claiming that the sludge was 21 Chapter 5, MCA, and the Federal Water Pollution 22 concentrated. So I -- I have a hard time answering 22 Control Act, 33 USC 1251 et. seq." 23 that question because it's comparing different 23 Q. And you would agree that this e-mail is 24 things. That's why I can't simply answer "yes" or 24 NCUC General Manager Sheri Bement directly stating 25 "no" because the gallons that are being described 25 to you that she would comply with all federal laws

Page 333 Page 335 1 1 sludge removal on NCUC and Adamas Construction and regulations; is that correct? 2 2 itself." A. I believe it's saying that the work that 3 would be done would comply with the regulations 3 O. And what's the date of this e-mail? 4 4 just because the reimbursement agreement had A. I believe it is August 24th, 2018. 5 5 stipulations that 503 needed to be followed for Q. And Mr. Killsback identifies NCUC as the 6 6 reimbursement to be made to the utility. entity responsible for performing all work; is that 7 7 Q. Sure. And -correct? 8 8 THE COURT: Hold on one second. Mr. Pierce, A. As far as -- as far as a tribal entity 9 9 that was waiting the reimbursement agreement, they before you move on, I just wanted you to scroll down to identify the RX number on that e-mail. 10 10 had a responsibility for following that agreement 11 MR. PIERCE: Yes, ma'am. 11 to get reimbursed. Q. Can I have you read the highlighted 12 12 THE COURT: I think it's at the bottom of the 13 13 portion again? document, the Gmail, compliance with 503. 14 14 MR. PIERCE: Yes, ma'am. Where did we go A. Yes. "I have informed you that NCUC is 15 15 here? responsible for the performance of the sludge 16 THE COURT: It was all the way to the right 16 removal and Adamas Construction as a subcontractor. 17 17 when you had them on the bottom. All the way to I represented the NCUC's interest in trying to 18 18 complete the project and subsequently engage in 19 MR. PIERCE: Gmail compliance? 19 attempting to resolve the calculation of overall 20 20 THE COURT: And just scroll. I think it's at sludge removal on NCUC and Adamas Construction 21 21 the very bottom. itself" or "Construction's behalf." 22 22 MR. PIERCE: It's RX25, Your Honor. Q. So the attorney for NCUC is recognizing 23 23 THE COURT: Okay. Thank you. that Adamas Construction is a subcontractor in that 2.4 MR. PIERCE: Et. 1. I apologize. 24 sentence; is that correct? 25 /// 25 A. Yes. Page 334 Page 336 1 BY MR. PIERCE: 1 Q. And he also states that NCUC is 2 2 O. James, can you -- was NCUC the main responsible for the performance of the sludge 3 3 removal, correct? contractor in the fixed price agreement? 4 A. I would say no because it was a 4 A. I believe that's stated. 5 5 reimbursement agreement. Q. Okay. Thank you. 6 Q. So NCUC was not the main contractor. Is 6 THE COURT: Before you -- we need the RX 7 7 number at the bottom just to orient. that your position? 8 A. I believe it might be inaccurate to call 8 MR. PIERCE: RX26, et. 1, Your Honor. 9 9 them a contractor. THE COURT: Okay. 10 10 MR. PIERCE: RX27, et. 1, Your Honor. Q. Okay. Can you read the highlighted 11 portion of this e-mail -- or excuse me -- who's 11 THE COURT: Okay. 12 12 BY MR. PIERCE: this e-mail from? 13 A. I believe Dion Killsback, the NCUC 13 Q. Can you -- Mr. Courtney, do you 14 14 recognize that this e-mail is from Mr. Killsback as attorney. 15 O. And Jim White and IHS is CCed on this, 15 well? 16 correct? 16 A. Yes. 17 17 A. I believe so. Q. And can you read the date on this for 18 18 Q. And so can you read the highlighted us, please? 19 19 A. Yes. August 29th, 2018. portion for us? 20 A. Yes. "I have informed you that the NCUC 20 Q. So can you please read the highlighted 21 is responsible for the performance of the sludge 21 portion? 22 22 A. Yes. "Adamas Construction is no longer removal and Adamas Construction as a subcontractor. 23 23 a contractor/consultant for NCUC. Adamas I represented the NCUC's interest in trying to 24 complete the project and subsequently engaged in 24 Construction, its employees and subcontractors are 25 25 not permitted to be on NCUC properties and are not attempting to resolve the calculation of overall

Page 337 Page 339 1 1 the EPA. I believe my outreach to the EPA was in permitted to be conducting any work." 2 2 response to Adamas Construction trying to seek Q. So you would agree that, again, Adamas 3 3 Construction was recognized as a consultant, but payment from NCUC despite apparent 503 violations, 4 4 NCUC had control over the facilities? and that outreach to the EPA was to consult the 5 5 primacy agency so they could weigh in to 503 A. As far as being a utility, they had 6 6 control over their facilities. compliance. 7 7 Q. Mr. Courtney, do you recognize this as Q. Did you send a report to the EPA after 8 8 Tom Robinson had contacted you regarding the sludge being from the Indian Health Services? 9 9 A. Yes. That appears to be a letter to application on his field? 10 Senator Daines from Indian Health Service. 10 A. I believe I sent the EPA a trip report. 11 Q. Okay. Perfect. 11 THE REPORTER: I'm sorry. Can you repeat 12 MR. PIERCE: And, Your Honor, we're at RX28, 12 that? 13 et. 1. 13 THE COURT: Could you repeat that, 14 THE COURT: Okay. 14 Mr. Courtney? 15 BY MR. PIERCE: 15 THE WITNESS: Yes. I believe I sent the EPA 16 Q. And who's this signed by? 16 a trip report after visiting the Tom Robinson 17 A. Bryce Redgrave. He's the Indian Health 17 property. 18 Service area director for the Billings area. 18 BY MR. PIERCE: 19 Q. And do you know him personally? 19 Q. So you made a report to the EPA; is that 20 A. Not on a personal basis, but he worked 20 21 in the same office. 21 A. That's incorrect. That was a trip 2.2 22 Q. Okay. Perfect. report that was common practice for site visits. 23 And so can you read the highlighted 23 That was just relevant to the 503 question. 2.4 portion of what he directly states to Senator Steve 24 Q. And was that report used to initiate the 25 Daines? 25 complaint against Adamas or Nathan Pierce? Page 338 Page 340 1 A. Yes. "The Indian Health Service, IHS, 1 MS. KACSUR: Objection, Your Honor. No 2 2 entered into a project agreement with the Northern personal knowledge of when the EPA used this. 3 3 Cheyenne Utility Commission, NCUC, to complete the THE COURT: Okay. Mr. Courtney, do you lagoon renovation project. The project agreement 4 actually know? Do you have the knowledge to be 4 5 5 was executed by the IHS and NCUC with an effective able to respond to this question or not? 6 date of May 11th, 2018. NCUC then entered into a 6 THE WITNESS: I do not. I can't speak to 7 7 separate contract with Adamas on May 15th, 2018, to what the EPA used the documents for. 8 8 perform much of the required work. It is important THE COURT: Okay. Sustained. 9 9 to know that there is not a contract between IHS MR. PIERCE: Moving on, Your Honor. 10 and Adamas. During the performance of this work, a 10 THE COURT: Okay. 11 dispute arose regarding the amount of sludge that 11 BY MR. PIERCE: 12 Adamas had pumped from the lagoons." 12 Q. Mr. Courtney, can you tell us who George 13 13 Q. And so you would agree that that dispute 14 14 from the amount of sludge that was pumped came from A. Yes. He was the construction inspector 15 15 the estimation that was in the frack tanks; is that for the SFC program. 16 16 correct? Q. And so was he tasked with inspecting the 17 A. Yes. I believe the -- what Adamas was 17 project daily? 18 18 claiming was in the frack tanks seemed to be A. He was tasked with inspections. But 19 19 unrealistic to what such could be concentrated to. there were -- there was issues with coordinating 2.0 20 I believe that was the dispute. inspections due to an updated schedule not being 21 Q. Okay. And so you would -- you would 21 shared. 22 22 admit that there was a dispute that arose. Did Q. So you would agree that there was a that dispute arise before you made your complaint 23 23 member of IHS who was tasked with inspections and 24 24 to the EPA? performed inspections? 25 25 A. I don't believe I made a complaint to A. Yes, his was to inspect.

Page 341 Page 343 1 Nathan Pierce the main contractor for this job? Q. Is George Cummins related to Tom 1 2 2 A. I -- I don't believe so. Robinson? 3 A. I can't speak to that. 3 Q. If you learned that they had, would 4 4 Q. Okay. that -- excuse me. 5 5 MR. PIERCE: Your Honor, I believe at this So if they had made that agreement, are 6 6 time, I don't have any -- well, give me one second. you aware of whether they followed through with 7 7 THE COURT: Okay. I have one quick follow-up that agreement? 8 8 if you want me to ask in the meanwhile. A. There would be no ability to make an 9 9 MR. PIERCE: Yes, ma'am. agreement directly with Adamas Construction between 10 THE COURT: Okay. Mr. Courtney, I just 10 IHS and Adamas because the reimbursement agreement 11 11 wanted to ask if you're able to just elaborate. I was with the utility. know earlier when you were looking at the bid 12 12 Q. So the reimbursement agreement was with 13 document, you made reference to altered sludge. 13 the utility. So Adamas was required to go through 14 THE WITNESS: Yes. 14 the utility for payment, correct? 15 15 THE COURT: Can you tell me what examples of A. I believe Adamas Construction was paid 16 that alteration would be? I mean, are we 16 by the utility for this work. 17 17 talking -- as somebody not in this industry that Q. So their payment came from the person 18 18 who was contracted by IHS to do the work. That doesn't really understand a lot of the details 19 about it, would altered mean dewatering, for 19 would be NCUC, correct? 20 20 example, or is there something else? A. I wouldn't call it contracting. I'd say 21 THE WITNESS: Yes. 21 that's incorrect. 22 2.2 THE COURT: Okay. So dewatering is an MR. PIERCE: Your Honor, going back to the 23 23 example. Is there anything else that would fixed price agreement. 2.4 constitute altering that you are aware of that 24 BY MR. PIERCE: 25 might relate to your prior answer about the sludge 25 Q. Mr. Courtney, would you believe that Page 342 Page 344 1 having been altered? 1 this fixed price agreement -- sorry. 2 2 THE WITNESS: I'm only aware of it being So are you saying that this fixed price dehydrated for the claim that it was -- water was agreement is not a contract between IHS and NCUC to 3 3 4 4 taken out of the sludge. perform work? 5 5 THE COURT: The dewatering term? A. I believe it's a reimbursement 6 THE WITNESS: Yes. 6 agreement. 7 7 THE COURT: Okay. All right. Thanks very Q. You believe, but you don't know whether 8 8 much. That's all I wanted to clarify. it is or it isn't? 9 9 Please go ahead, Mr. Pierce, if you have A. I -- I believe it is not a contract. 10 anything else. 10 O. Okav. 11 MR. PIERCE: Yes, Your Honor. 11 MR. PIERCE: Your Honor, I think that covers 12 BY MR. PIERCE: 12 my questions. 13 13 Q. Mr. Courtney, the sludge removal project THE COURT: Okay. And the reference to the 14 14 wasn't the only project that Adamas and myself fixed price agreement, just for clarity for the 15 worked on on the Northern Cheyenne Reservation; is 15 transcript, it's also been referred to as the bid 16 16 that correct? document. 17 A. I believe there was some involvement 17 MR. PIERCE: It's -- all of the documents and 18 18 being a consultant for the utility. everything in here would also be contained in the 19 19 Q. And so you said yesterday that you felt bid packet. 20 2.0 that my role -- or Adamas's role was a consultant THE COURT: Okay. 21 to the utility; is that correct? 21 MR. PIERCE: So actually, can I have James 22 22 A. I believe that Adamas had a -- or Nathan just explain to us sort of how that process works? 23 23 Pierce/Adamas had multiple roles with the utility. THE COURT: Sure. So this document, then, 24 24 Q. Okay. And real quickly, did you -- did that you published that you used to refresh his 25 IHS initially make an offer to make Adamas and 25 recollection earlier that you said was publicly

available, the best way to refer to that would be? MR. PIERCE: The fixed price agreement. MR. PIERCE: Yes, Your Honor. BY MR. PIERCE: Yes, Your Honor. BY MR. PIERCE: O. So. James, could you just — for everybody here in the room who isn't a part of this, can you just sort of give us a quick rundown of how these projects come about, what a bid packet is, and what the fixed price agreement does in relation to that? A. Yes, of course. So for a document like this, basically, ifs — ifs part of the reimbursement agreement, like I described, and it's for establishing prices that will get reimbursed to the utility. So just to make sure, say — say more of a quantity is removed, it establishes prices that could be reimbursed to So that's the main purpose of these documents. O. So — but can you explain to us what a bid packet is? O. So a bid packet is not a packet that's Page 346 put together for contractors to look at and evaluate to try to come up with a price determination? A. In this case, I would say that's not what it was used for. O. Is it normally used for that? A. I — I don't have the data to speak to what it was used for. O. So do you know what a bid packet is? A. I believe a bid packet is and that, For these situations, this is common practice. O. So a contractor, would they use that in order to develop a bid for a joh? O. So do you know what a bid packet is? A. I believe those are also used by contractors, yes. MR. PIERCE: I believe I have my mic off, Your Honor. MR. PIERCE: I believe I have my mic off, Your Honor. THE COURT: Ms. Kacsur, did you have some redirect? MR. PIERCE: I and o that, Your Honor. THE COURT: Ws. Macsur, did you have some redirect? MR. PIERCE: I and o that, Your Honor. THE COURT: Ms. Kacsur, did you have some redirect? MR. PIERCE: I and o that, Your Honor. THE COURT: So. I'll have kind of a working THE COURT: So. I'll have an electronic copy I can send to everybody. Your Honor. THE COURT: So. I'll have fine of a working THE COURT: So. I'll have fine of a workin		Page 345		Page 347
MR. PIERCE: The fixed price agreement. THE COURT: Okay. THE COURT: Okay. THE COURT: Okay. BY MR. PIERCE: (Sex. Your Honor. THE COURT: Okay. Say James, could you just — for everyhody here in the room who isn't a part of this, can you just sort of give us a quick rundown of how these projects come about, what a bid packet is, and what the fixed price agreement does in relation to that? Telation to that? Telation to that? The Course of the sale to refer to it, you know, in briefing or anything, let me know. Oherwise, Ill just leave it alone. Mr. Pierce used it to referbat the witness's recollection, but there was a good bit of testimony about it. So being that it's publicly available, if you two want to be able to refer to it, you know, in briefing or anything, let me know. Oherwise, Ill just leave it alone. Mr. Pierce used it to referbat the witness's recollection, but there was a good bit of testimony about it. So being that it's publicly available, if you two want to be able to refer to it, you know, in briefing or anything, let me know. Oherwise, Ill just leave it alone. Mrs. RACSUR: May I have just one moment, You Honor? THE COURT: Sure. But let me also, while you've doing that, inquire of the URL to respond to directly. MR. PIERCE: Yes, Your Honor. In looking for that? MR. PIERCE: Yes, Your Honor, The Fooking for that? MR. PIERCE: I believe I have my mic off, Your Honor, we're prepared to exclusive that's a document to establish prices. Q. So a bid packet is not a packet that's Page 346 put together for contractors to look at and evaluate to try to come up with a price determination? A. I helieve that's a document Page 346 put together for contractors to look at and evaluate to try to come up with a price determination? A. I helieve a bid packet is a document The COURT: Okay. We just need a MR. PIERCE: I believe I have my mic off, Your Honor. MR. PIERCE: I lead to that, Your Honor, MR. PIERCE: I lead to that, Your Honor, THE COURT: Okay if you can do that, then that For these si	1	available, the best way to refer to that would be?	1	THE COURT: Absolutely. That kind of feeds
THE COURT: Okay. MR. PIERCE: Yes, Your Honor. BY MR. PIERCE: Yes, Your Honor. BY MR. PIERCE: So, James, could you just – for everybody here in the room who isn't a part of this, can you just sort of give us a quick rundown of how these projects come about, what a bid packet is, and what the fixed price agreement does in reinhousement agreement, like I described, and it's few establishing prices that will get reimbursed to the understanding of a quantity is removed, it establishes prices of a quantity is removed, it establishes prices of a quantity is removed, it establishes prices of a quantity is removed, it establishes prices. Q. So a bid packet is not a packet that's Page 346 put together for contractors to look at and evaluate to try to come up with a price determination? Q. So a both race to try to come up with a price determination? A. I – I don't have the data to speak to that. For these situations, this is common praceice. Q. So a contractor, would they use that in order to develop a bid for a job? A. I believe the are also used by ending the removed are also used by required that establishes prices for quantities related to that. For these situations, this is common praceice. Q. So a contractor, would they use that in order to develop a bid for a job? HERCE: Okay. Thank you, Your Honor. MR. PIERCE: I and that, Your Honor. MR. PIERCE: I believe I have my mic off; Your Honor. THE COURT: I think you for your testimony. MR. PIERCE: I believe I have my mic off; Your Honor. MR. PIERCE: I believe I have my mic off; Your Honor. MR. PIERCE: I believe I have my mic off; Your Honor. MR. PIERCE: I believe I have my mic off; Your Honor. MR. PIERCE: I believe I have my mic off; Your Honor. MR. 6 BY MR. PIERCE: Q. So, James, could you just — for everybody here in the room who isn't a part of this, can you just sort of give us a quick rundown of how these projects come about, what a bid packet 11 is, and what the fixed price agreement does in relation to that? 12 A. Yes, of course. So for a document like 13 A. Yes, of course. So for a document like 14 this, basically, it's — it's part of the 15 reimbursement agreement, like I described, and it's 16 for establishing prices that will get reimbursed to 17 the utility. So just to make sure, say — say more 18 of a quantity is removed, it establishes prices 19 that could be reimbursed on. So that's the main 19 that could be reimbursed on. So that's the main 19 that could be reimbursed on so that's the main 20 purpose of these documents. 21 Q. So — but can you explain to us what a 22 bid packet is? 23 A. I believe that's a document to establish 24 prices. 25 Q. So a bid packet is not a packet that's 26 determination? 27 A. I believe that's a document to establish 28 what it was used for. 29 List inormally used for that? 30 A. I believe a bid packet is not apacket that's 40 A. In this case, I would say that's not 41 that For these situations, this is common 42 practice. 41 Q. So do you know what a bid packet is? 42 Q. So do you know what a bid packet is? 43 A. I believe the bid packet is not ocument 44 that stablishes prices for quantities related to 45 work. 46 Q. So a contractor, would they use that in 47 order to develop a bid for a job? 48 A. I believe a bid packet is a document 49 that establishes prices for quantities related to 40 york. 40 Q. So a contractor, would they use that in 51 order to develop a bid for a job? 52 A. I believe to bid packet is a document 53 that Error to come up with a price 54 determination? 55 determination? 66 Q. Is in orrmally used for that? 67 A. I believe the bid packet is a document 68 that Error the south and that the securities related to 69 you have what a bid packet is a document 60 you have what a bid packet is a doc	4	MR. PIERCE: Yes, Your Honor.	4	would have any desire to be able to refer to it at
Q. So, James, could you just — for everybody here in the room who isn't a part of this, can you just sort of give us a quick rundown of how these projects come about, what a bid packet is sand what the fixed price agreement does in relation to that? A. Yes, of course. So for a document like 12 MS. KACSUR: Way I have just one moment, Your Honor. THE COURT: Sure. But let me also, while you're doing that, inquire of the URL to respond to directly. MR. PIERCE: Yes, Your Honor. The looking for that? MR. PIERCE: Yes, Your Honor. I'm looking for that? MR. PIERCE: I'm lookin	5	THE COURT: Okay.	5	all after this hearing or you know, I mean,
8 everybody here in the room who isn't a part of 9 this, can you just sort of give a quick rundown 10 of how these projects come about, what a bid packet 11 is, and what the fixed price agreement does in 12 relation to that? 13 A. Yes, of course. So for a document like 14 this, basically, its — its part of the 15 reimbursement agreement, like I described, and it's 16 ro restablishing prices that will get reimbursed to 16 of a quantity is removed, it establishes prices 18 of a quantity is removed, it establishes prices 19 that could be reimbursed on. So that's the main 19 purpose of these documents. 10 Q. So — but can you explain to us what a 10 purpose of these documents. 10 Q. So a bid packet is not a packet that's 10 put together for contractors to look at and 11 celebration? 11 A. In this case, I would say that's not 12 what it was used for. 14 A. In this case, I would say that's not 15 what it was used for. 16 Q. Is it normally used for that? 17 A. I believe the data to speak to 18 that. For these situations, this is common 19 practice. 10 Q. So do you know what a bid packet is? 11 A. I believe those are also used by 12 contractors, would 13 A. Yes, of course. So for a document the fixed prices and the packet is of a document to establishing prices that will get reimbursed to the fixed prices. 11 A. I believe to try to come up with a price 12 determination? 13 A. I believe a bid packet is a document 14 that establishes prices for quantitities related to 16 work. 17 A. I believe a bid packet is a document 18 that establishes prices for quantities related to 19 yours honor. 20 Q. So a outractor, would they use that in 21 Office the wild in the packet is? 22 A. I believe those are also used by 23 M. R. PIERCE: Okay. Thank you, Your Honor. 24 C. I believe those are also used by 25 C. So do you know what a bid packet is? 26 A. I believe those are also used by 27 C. I believe those are also used by 28 M. R. PIERCE: Okay. Thank you, Your Honor. 29 C. So do you know what a bid packet is? 20 M. R. PIERCE: Okay. Than	6	BY MR. PIERCE:	6	Mr. Pierce used it to refresh the witness's
this, can you just sort of give us a quick rundown of how these projects come about, what a bid packet is and what the fixed price agreement does in relation to that? A. Yes, of course. So for a document like this, basically, it's — it's part of the reimbursement agreement, like I described, and it's for for establishing prices that will get reimbursed to the utility. So just to make sure, say — say more of a quantity is removed, it establishes prices of a quantity is removed, it establishes prices that could be reimbursed on. So that's the main purpose of these documents. Q. So — but can you explain to us what a bid packet is? Q. So a bid packet is not a packet that's Page 346 put together for contractors to look at and evaluate to try to come up with a price determination? A. In this case, I would say that's not what it was used for. Q. Is it normally used for that? A. I believe a bid packet is a document that establishes prices of universe that. For these situations, this is common practice. Q. So do you know what a bid packet is? A. I believe a bid packet is a document that establishes prices for quantitities related to work. Q. So a contractor, would they use that in order to develop a bid for a job? A. I believe those are also used by contractors; yes. MR. PIERCE: I believe I have my mic off, Your Honor. MR. PIERCE: I believe I have my mic off, Your Honor. MR. PIERCE: I foay. We just need a — Mr. Pierce, do you have a hard copy of it? MR. PIERCE: I have an electronic copy I can send to everyday. Your Honor. THE COURT: Well, if I can impose on unless you're able to create the PDF and attach the exhibit number — Ms. Moreno, are you able to develop a bid for a job? A. I believe those are also used by contractors, yes. MR. PIERCE: I and do that, Your Honor. THE COURT: MR. PIERCE: I and do that, then that establishes prices for quantitities related to complainant, to the court reporter, and then if you its send a copy to Ms. Almassed and give it IX2. MR. PIERCE: Yes, ma'm. THE COURT: MR.	7	Q. So, James, could you just for	7	recollection, but there was a good bit of testimony
of how these projects come about, what a bid packet is, and what the fixed price agreement does in relation to that? A. Yes, of course. So for a document like this, basically, it's – it's part of the reimbursement agreement, like I described, and it's pour doing that, inquire of the URL to respond to directly. MR. PIERCE: Yes, Your Honor. I'm looking for that'? I'm sorry, what'd you say? "I'm looking for that"? I'm sorry, what'd you say? I'm looking for that"? I'm sorry, what'd you say? "I'm looking	8	everybody here in the room who isn't a part of	8	about it. So being that it's publicly available,
11 is, and what the fixed price agreement does in relation to that? 12 relation to that? 13 A. Yes, of course. So for a document like this, basically, it's – it's part of the this, basically, it's – it's part of the for establishing prices that will get reimbursed to the utility. So just to make sure, say – say more the tuility. So just to make sure, say – say more that could be reimbursed on. So that's the main purpose of these documents. 19 that could be reimbursed on. So that's the main purpose of these documents. 20 So – but can you explain to us what a bid packet is? 21 O. So – but can you explain to us what a purpose of these documents. 22 bid packet is? 23 A. I believe that's a document to establish prices. 24 prices. 25 O. So a bid packet is not a packet that's 26 put together for contractors to look at and evaluate to try to come up with a price determination? 28 A. I this case, I would say that's not what it was used for. 29 A. I – I don't have the data to speak to that. For these situations, this is common practice. 20 Q. So do you know what a bid packet is? 31 A. I believe a bid packet is a document that catablishes prices for quantities related to work. 32 A. I believe that's a document that catablishes prices for quantities related to work. 33 A. I believe that's a document that catablishes prices for quantities related to work. 44 A. In this case, I would say that's not that. For these situations, this is common practice. 45 Q. So do you know what a bid packet is? 46 A. I believe a bid packet is a document that catablishes prices for quantities related to vorth. 47 A. I believe a bid packet is a document that catablishes prices for quantities related to vorth. 48 MR. PIERCE: I believe I have my mic off, Your Honor. 49 MR. PIERCE: I believe I have my mic off, Your Honor. 40 MR. PIERCE: I believe I have my mic off, Your Honor. 41 Court: New Your State of Your Honor. 42 THE COURT: Well, if I can impose on that the exhibit number – Ms. Moreno, are you able to do that? 44 THE COURT: Well, if I can imp	9	this, can you just sort of give us a quick rundown	9	if you two want to be able to refer to it, you
relation to that? A. Yes, of course. So for a document like this, basically, it's – it's part of the for establishing prices that will get reimbursed to for establishing prices that will get reimbursed to the tuility. So just to make sure, say – say more of a quantity is removed, it establishes prices of a quantity is removed, it establishes prices that could be reimbursed on. So that's the main puppose of these documents. Q. So – but can you explain to us what a bid packet is? A. I believe that's a document to establish prices. Page 346 put together for contractors to look at and evaluate to try to come up with a price determination? A. In this case, I would say that's not what it was used for. A. I – I don't have the data to speak to that. For these situations, this is common practice. Q. So a ob you know what a bid packet is? A. I believe a bid packet is a document that establishes prices for quantities related to work. Q. So a contractor, would they use that in order to develop a bid for a job? A. I believe those are also used by contractors, yes. MR. PIERCE: Prefect, Your Honor. MR. PIERCE: I believe I have my mic off, Your Honor. MR. PIERCE: I believe I have my mic off, Your Honor. MR. PIERCE: I believe I have my mic off, Your Honor. MR. PIERCE: Prefect, Your Honor, we're prepared to enter this as Joint Exhibit Number 2 if the respondents are also okay with that. MR. PIERCE: Prefect, Your Honor. MR. PIERCE: I have an electronic copy I can send to everybody. Your Honor. THE COURT: Okay. We just need a – MR. PIERCE: I have an electronic copy I can send to everybody. Your Honor. THE COURT: Well, if I can impose on – unless you're able to create the PDF and attach the exhibit number – Ms. Moreno, are you able to do that? A. The lieve a bid packet is a document that establishes prices for quantities related to work. MR. PIERCE: I can do that, Your Honor. THE COURT: Ms. KACSUR: Well and that, then that's great. And just go abead and give it JX2. And since both sides want it, it will be a	10	of how these projects come about, what a bid packet	10	know, in briefing or anything, let me know.
A. Yes, of course. So for a document like this, basically, it's – it's part of the this prices that will get reimbursed to the utility. So just to make sure, say – say more that could be reimbursed on. So that's the main purpose of these documents. 20	11	is, and what the fixed price agreement does in	11	Otherwise, I'll just leave it alone.
this, basically, it's — it's part of the reimbursement agreement, like I described, and it's for fore subhishing prices that will get reimbursed to the utility. So just to make sure, say — say more of a quantity is removed, it establishes prices 18 that culd be reimbursed on. So that's the main purpose of these documents. 20 purpose of these documents. 21 Q. So — but can you explain to us what a 22 bid packet is? Q. So a bid packet is not a packet that's 22 pide to try to come up with a price determination? 3 determination? 4 A. In this case, I would say that's not 4 that. For these situations, this is common practice. Q. So a oyu know what a bid packet is? A. I believe a bid packet is a document that establishes prices for quantities related to work. 3 A. I believe hose are also used by contractors, yes. 12 MR. PIERCE: I believe I have my mic off, 24 word. 3 MR. PIERCE: I believe I have my mic off, 25 may be doubt a packet that in order to develop a bid for a job? 4 A. I believe a bid packet is a document that establishes prices for quantities related to work. 3 MR. PIERCE: I believe I have a hard copy of it? MR. PIERCE: I have an electronic copy I can send to everybody, Your Honor. 3 MR. PIERCE: I have an electronic copy I can send to everybody, Your Honor. 3 MR. PIERCE: I have an electronic copy I can send to everybody, Your Honor. 3 MR. PIERCE: I have an electronic copy I can send to everybody, Your Honor. 3 MR. PIERCE: I have an electronic copy I can send to everybody, Your Honor. 3 MR. PIERCE: I have an electronic copy I can send to everybody. Your Honor. 3 MR. PIERCE: I have an electronic copy I can send to everybody. Your and packet is a document 14 faths and	12	relation to that?	12	MS. KACSUR: May I have just one moment, Your
reimbursement agreement, like I described, and it's for establishing prices that will get reimbursed to the the thilly. So just to make sure, say, a say more of a quantity is removed, it establishes prices that could be reimbursed on. So that's the main purpose of these documents. Q. So – but can you explain to us what a bid packet is? A. I believe that's a document to establish prices. Q. So a bid packet is not a packet that's Page 346 put together for contractors to look at and evaluate to try to come up with a price determination? A. In this case, I would say that's not what it was used for. Q. Is it normally used for that? A. I – I don't have the data to speak to that. For these situations, this is common practice. Q. So do you know what a bid packet is? A. I believe a bid packet is a document that establishes prices for quantities related to work. Q. So a contractor, would they use that in order to develop a bid for a job? A. I believe those are also used by contractors, yes. MR. PIERCE: Okay. Thank you, Your Honor. MR. PIERCE: I believe I have my mic off, Your Honor. MR. PIERCE: I believe I have my mic off, Your Honor. MR. PIERCE: I believe I have my mic off, Your Honor. MR. Page 357 Page 359 1 same exhibit. 1 than just inspecting? 2 BY MS. KACSUR: 2 A. I don't believe so. 3 Q. Do you recognize this document? 3 Q. Does anything shared with you today 4 4 A. Yes. This is an e-mail sent by Adamas change your assessment that the respondents were in 5 Construction to me dated April 30th, 2018. 5 charge of the application project? 6 6 Q. And can I have you -- excuse me -- can I A. I -- I don't think I've seen anything 7 7 have you read the first sentence of the second that made it seem that, yeah, they weren't in 8 8 paragraph? control of the work. 9 9 A. Yes. Per Adamas Construction and Q. Thank you. 10 Development's policies, procedures, all land 10 MS. KACSUR: No further questions, Your 11 applications will meet or exceed the requirements 11 12 of the U.S. Environmental Protection Agency, EPA, 12 THE COURT: Okay. Thank you. 13 Part 503 Compliant 40 USC 503 et. seq. Montana --13 MR. PIERCE: Mr. Courtney, can you hear me? 14 Q. I'll stop you right there. I think 14 Mr. Courtney, can you hear me? 15 that's a really long sentence, and I don't think we 15 THE WITNESS: I can't hear anything. 16 need you to read any more from it. Thank you for 16 MR. PIERCE: Let's try this. Can you hear me 17 reading that. 17 now? Can you hear me now? 18 So NCUC initially said they were 18 THE WITNESS: (No response.) 19 responsible for the project? 19 MR. PIERCE: Hello? 20 A. They were responsible for the work being 20 THE WITNESS: (Shakes head.) 21 completed in a way that they can be reimbursed by MR. PIERCE: Your Honor, I'm sorry. 21 22 IHS. So that's NCUC's only responsibility. So if 22 Mr. Courtney, can you hear me now? 23 the work wasn't adhering to the reimbursement 23 THE WITNESS: I'm still not getting any auto. 24 agreement, they wouldn't be reimbursed. That was 24 MR. PIERCE: Let's try it here. Hello. 25 the agreement that was made with NCUC. 25 Test, test, test, test, test, test, test. Page 358 Page 360 1 1 James, can you hear me? Q. Who was actually in control of the 2 2 THE WITNESS: Yes. project? MR. PIERCE: Okay. Perfect. Sorry for the 3 3 A. I believe for this work, NCUC contracted with Adamas Construction to complete sludge removal 4 4 delay. 5 5 RECROSS-EXAMINATION work. 6 Q. And Adamas Construction asserted that 6 BY MR. PIERCE: 7 7 they would comply with Part 503? Q. In the document that — in your previous 8 8 A. That would appear to be so. testimony you said that Ernie Sprague and Tom 9 9 Q. Earlier, you were asked to read an Robinson was not a part of this project; is that 10 10 e-mail -- I'm sorry. Let me phrase that as a correct? 11 11 A. I believe what I was stating was I question. 12 12 didn't see contracts for what their role was. Were you earlier asked to read an e-mail 13 stating where Adamas said they were no longer a 13 O. Okav. And would you agree that 14 14 contractor of NCUC? Mr. Robinson's pivot line was identified in that 15 A. Yes, I believe so. 15 fixed price agreement that I showed you? 16 16 A. I believe that might have been mentioned Q. Was that e-mail sent after the 17 17 preparation application project was completed? as an option, but I don't think a method was 18 A. I believe that was -- I believe it 18 specified explicitly in that agreement. 19 19 was -- at that time, it was incomplete. Q. But you agreed that it did say "Robinson 20 Q. Can you please describe for me George 20 pivot line" on that document? 21 Cummins' role in this project? 21 A. I believe so. 22 22 A. So George Cummins, he was a construction Q. Okay. And then you also testified that 23 23 inspector for the SFC program. His role was to you hadn't been shown anything that you -- would 24 24 change your mind that NCUC was in control and inspect work. 25 25 Q. Did he have any roles that were more Adamas was not. Is that still true?

	Page 361		Page 363
1	A. I believe because NCUC had a contract	1	this document from Mr., I believe, Redgrave?
2	with Adamas Construction, that the work completed	2	A. I don't I'm not sure if I was shared
3	by Adamas Construction under that contract is	3	that previously. I don't remember seeing that.
4	that it's unchanged in my mind. So yeah, the	4	MR. PIERCE: RX28, Your Honor.
5	work under the contract with NCUC, that's yeah,	5	THE COURT: Hold on. You were speaking over
6	my opinion has not changed about that.	6	him.
7	Q. Do you recognize this document here,	7	MR. PIERCE: Sorry.
8	Mr. Courtney?	8	THE COURT: So let's begin again.
9	A. I can't see it up.	9	So you just identified this document as
10	MS. MORENO: You need to share.	10	RX28.
11	MR. PIERCE: Oh, shoot.	11	MR. PIERCE: RX28.
12	THE COURT: And then also just identify the	12	THE COURT: Yeah. And just go ahead and
13	exhibit number, Mr. Pierce.	13	restate your question then so that Mr. Courtney can
14	MR. PIERCE: Yes, ma'am. So we're dealing	14	answer fully.
15	with RX2, et. 1, Your Honor.	15	BY MR. PIERCE:
16	THE COURT: Thank you.	16	Q. So, Mr. Courtney, previously I had
17	BY MR. PIERCE:	17	shared this document with Mr. Redgrave with you,
18	Q. Mr. Courtney, can you see the document	18	correct?
19	now?	19	A. Yes.
20	A. I cannot.	20	Q. And can you read the first line of the
21	MS. MORENO: Go back to share.	21	highlighted portion? Or excuse me the first two
22	BY MR. PIERCE:	22	lines?
23	Q. How about now?	23	A. Yes. Yes, of course. Indian Health
24	A. Yes, I can see it.	24	Service, IHS, entered into a project agreement with
25	Q. And is this document from you?	25	the Northern Cheyenne Utility Commission, NCUC, to
	Page 362		Page 364
1	A. It is, yes.	1	complete the lagoon renovation project. The
2	Q. Can you read to us the second bullet	2	project agreement was executed by the IHS and NCUC
3	point that you wrote on this document?	3	with an effective date of May 11th, 2018. NCUC
4	A. Yes. "I reiterated that NCUC is	4	then entered into a separate contract with Adamas
5	responsible for the sludge removal work and that	5	on May 15th, 2018, to perform much of the required
6	IHS's relationship isn't with Adamas, PLLC, for	6	work. It is important to note that there is no
7	this project."	7	contract between IHS and Adamas. During
8	Q. So you would admit that you state	8	performance
9	directly in this document that NCUC's responsible	9	Q. Sorry. Go ahead.
10	for all sludge removal work, correct?	10	A. "During performance of this work" you
11	A. They're responsible for the work being	11	keep interrupting me "During performance of this
12	completed according to the reimbursement agreement.	12	work, a dispute arose regarding the amount of
13	Q. So what did you mean by responsible for	13	sludge that Adamas had pumped from the lagoon."
14	sludge removal work, and IHS's relationship isn't	14 15	Q. So does this document seem to indicate
15	with Adamas Construction on this project?	16	from IHS that NCUC was the contractor in charge of
16 17	A. Yeah. So what that's stating is is that the utility would not be reimbursed for the work if	17	the project? A. It's indicating that the reimbursement
		18	agreement was with NCUC, that there was a
18 19	it's not adhering to that agreement. So if work doesn't comply with that agreement, which included	19	disagreement with the sludge application or the
20	the 503 stipulation, IHS would not pay. I mean,	20	sludge concentrations around the reimbursement
21	that's basically what that's stating.	21	agreement.
22	Q. Sure.	22	Q. Can you actually show us where it says
23	A. And it's just reiterating that we don't	23	anywhere about reimbursement?
24	have a relationship with contractors that they use.	24	A. Um, I it's been a while since I've
25	Q. Sure. And then can do you remember	25	seen the document, so I wouldn't be able to I'm

Page 365 Page 367 1 not sure where that would be mentioned or if it is 1 of your case? 2 2 mentioned explicitly. MR. PIERCE: Yes, ma'am. 3 3 Q. So if it's not mentioned, then do you THE COURT: Okay. So I think it's out of 4 4 have any documents that would support your turn, but recognizing the subpoena being effective 5 5 allegation that this was simply a reimbursement only today, I think we're going to need to hop 6 6 contract? around a little bit just for practicality purposes. 7 7 A. Not -- not currently, because I don't So that sort of feeds into my next 8 8 work for Indian Health Service again, so -- or question. Ordinarily, a witness would be 9 9 currently. questioned by the party calling them. That would 10 Q. Okay. 10 be the direct testimony. There would be the 11 MR. PIERCE: Your Honor, I think that does 11 opportunity for cross by the opposing side. You're 12 12 familiar with that. I mean, we can follow that if 13 THE COURT: Okay. 13 that would be simplest for both sides. Complainant 14 14 MR. PIERCE: Thank you. could call Mr. Robinson first, and we could go THE COURT: Thank you. Okay. Anything else, 15 15 through that process. And then he could stay on 16 then, for Mr. Courtney, or can I go ahead and 16 the stand, and you could continue with your 17 17 release him fully from the hearing and presentation for him. 18 18 availability? If we're not that terribly concerned 19 19 MS. KACSUR: Nothing from complainant, Your about scope, we can just have Mr. Robinson take the 20 20 Honor. stand and both of you ask him whatever questions 21 THE COURT: And you're all finished too, 21 you want and then any follow-up, if you will, to 22 22 Mr. Pierce? that. And I'm happy to allow as much rotation as 23 MR. PIERCE: I am, yes, Your Honor. 23 is necessary for both of you, both sides, to be 24 THE COURT: All right. Mr. Courtney, thanks 24 able to fully elicit the testimony in question 25 25 very much for your availability and your testimony about any of it as you wish. Page 366 Page 368 1 today and for patience while we navigated some 1 But it's up to both of you. I want it 2 2 technical issues. Have a good day. Bye-bye. to be simplest for you all. I can obviously keep 3 3 track of things. But how would you -- what would Okay. Quick housekeeping note, order of 4 4 be the easiest way for you all to proceed with witnesses type of thing. I understand that 5 5 Mr. Robinson is here and under subpoena. That regard to the kind of scope order of testimony 6 6 subpoena is for today and today only, so... And I 7 7 also believe that it was of interest to both MR. MUEHLBERGER: Your Honor, may we have a 8 8 parties to be able to call him as a witness. So I 15-minute conference to discuss this matter? 9 9 guess I would inquire whether it makes sense to go THE COURT: Uh-huh. 10 ahead and get that testimony now. I don't want to 10 MR. MUEHLBERGER: And then I'll have an 11 11 interfere with the presentation of the Region's answer for you when we return. 12 case, but while he's here and available, it seems 12 THE COURT: Sure. Yeah, no problem. Either 13 13 like this would be a good time to go ahead and get way, he'll be on the stand to cover it however you 14 14 that testimony. Do you agree or -all want to cover it. 15 15 MR. MUEHLBERGER: We do. We do agree, Your MR. PIERCE: Your Honor, I'm perfectly fine 16 16 Honor. with just going through the process as you 17 THE COURT: Okay. 17 suggested of a rotation. I don't know that I would MR. MUEHLBERGER: We'd like to have a 18 18 necessarily need to call Mr. Robinson separate from 19 ten-minute break before we proceed. But we would 19 the testimony that we could get with a normal 20 20 be prepared to call Tom Robinson after that. examination, a cross-examination. 21 THE COURT: Okay. Perfect. 21 THE COURT: Okay. Okay. So I guess just 22 22 Here's the other quick question that I consider that during the break, and even if you all 23 23 have. Mr. Pierce, I'm working off of an want to confer at all amongst yourselves. That may 24 24 understanding or assumption, maybe, that you, too, not be necessary, given what you just said. But 25 25 wanted to be able to question Mr. Robinson as part whatever is simplest for you is fine with me.

	Page 369		Dago 271
			Page 371
1	So we'll take 15 minutes, and come back	1	MR. MUEHLBERGER: Thank you.
2	in 15.	2	
3	MR. MUEHLBERGER: Thank you, Your Honor.	3	DIRECT EXAMINATION
4	THE COURT: Thank you.	4	BY MR. MUEHLBERGER:
5	(Whereupon, a brief	5	Q. Mr. Robinson, thank you for attending
6	recess was taken.)	6	today.
7	THE COURT: Okay. Back on record after a	7	For the record, could you please state
8	brief break.	8	and spell your name.
9	And what's the consensus, then, with	9	A. Tom Robinson; T-O-M, R-O-B-I-N-S-O-N.
10	regard to Mr. Robinson's order of testimony?	10	Q. Thank you.
11	MR. MUEHLBERGER: Your Honor, if I understand	11	Mr. Robinson, did you till sewage sludge
12	where we kind of landed before the break,	12	into property controlled by you in 2018?
13	complainants will examine Mr. Robinson, and	13	A. Yes, I did.
14	respondents will then cross-examine Mr. Robinson.	14	Q. Okay. Is the land that this sewage
15	And if that's the plan, then EPA is prepared to	15	sludge was tilled into, would you describe that as
16	call Mr. Robinson.	16	agricultural land?
17	THE COURT: Okay. And Mr. Pierce, I think we	17	A. Yes.
18	left off with you basically saying you could cover	18	Q. Okay. Can you tell us what is grown on
19	whatever you needed in cross versus calling him as	19 20	that land?
20	part of your own case. Is that still your belief?	21	A. Oh, I've got alfalfa right now growing
21	MR. PIERCE: Yes, Your Honor.	22	on there.
22	THE COURT: Okay, great. So we'll just	23	Q. Okay. And in 2018, was that the same?
23	proceed in the normal course then.	24	A. No. It was barley. Q. Thank you.
24	MR. MUEHLBERGER: In that case, complainant	25	Mr. Robinson, did you receive agronomic
25	calls Tom Robinson, please.	25	MIT. Robinson, did you receive agronomic

	Page 373		Page 375
1	Q. Can you read me the highlighted portion?	1	be placed, and then you tilled it?
2	A. "Must apply to 50 acres at a max	2	A. Yes.
3	application rate of 22,000 gallons per acre."	3	Q. Is this the first time you've applied
4	Q. Would you consider that to be an	4	sludge to your property?
5	agronomic rate?	5	A. No, it wasn't.
6	A. Yes.	6	Q. Okay. So there was a
7	Q. So you would admit that you were given	7	previous previous time where the lagoons were
8	an agronomic rate?	8	renovated in Lame Deer?
9	A. Yes, I was. I didn't know what he was	9	A. Yes.
10	talking about.	10	Q. And you applied sludge at that time to
11	Q. Okay, perfect. Right on.	11	your property as well?
12	And do you remember when we first	12	A. Yes.
13	commenced this project, did you get ahold of James	13	Q. Okay. Real quick, was I on scene while
14	Courtney at all from IHS?	14	you and Ernie were doing this work?
15	A. No, I don't think so.	15	A. Oh, I seen you a couple times there.
16	Q. Did you contact James Courtney regarding	16	Q. Sure. But was I there for the primary
17	a complaint to the sludge being applied to your	17	time that you guys were doing the work?
18	land?	18	A. No.
19	A. No.	19	Q. Okay. And you would agree in this in
20	MR. MUEHLBERGER: Objection, Your Honor.	20	this second paragraph here excuse me. You would
21	This is beyond the scope of the direct.	21	also agree that in this document, you also agreed
22	THE COURT: Well, this sort of feeds into	22	to provide daily logs on that second declaration,
23	some of what I was getting at earlier.	23	last line, correct?
24	Technically, you are absolutely correct,	24	A. Where's that at?
25	Mr. Muehlberger. And it is a sustainable	25	Q. So if we look down here where it says
	D 254		200
	Page 374		Page 376
1	objection. But I'm going to allow the additional	1	second
2	testimony even though it is beyond the scope	2	A. Okay.
3	because I do believe earlier on in the process,	1 ^	
		3	Q and then, "The subcontractor agrees
4	Mr. Pierce had identified Mr. Robinson as a	4	to promptly begin." And then the second line
4 5	Mr. Pierce had identified Mr. Robinson as a witness. And that was kind it kind of even fed	4 5	to promptly begin." And then the second line there, that says, "Subcontractor will furnish

And that was kind it kind of even fed into my decision about the subpoena was that he seemed material to both parties. So I'm going to allow that even though you are technically correct and it's a sustainable objection otherwise. MR. MUEHLBERGER: Understood, Your Honor. THE COURT: Okay. Thank you. Please go ahead. MR. PIERCE: You can answer the question now, Mr. Robinson. THE WITNESS: What was that now? BY MR. PIERCE: Q. So you did not make a complaint to James Courtney about sludge on your property A. No. Q is that correct? A. No.	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	to promptly begin." And then the second line there, that says, "Subcontractor will furnish contractor with logs for each day of application." Is that correct? A. Yes. Q. So you would admit that you agreed to provide those logs? A. Yes. Q. Did you provide those logs to me? A. No, I never. Q. Okay. MR. PIERCE: That's all I have, Your Honor. THE COURT: Okay. Did you just a little follow-up. Did you create those logs? THE WITNESS: Yes. THE COURT: Okay. Did you supply them to anyone? THE WITNESS: No. The job never was done. BY MR. PIERCE: Q. Did the EPA ask you for those logs?

Page 377 Page 379 1 1 MR. MUEHLBERGER: That works, Your Honor. A. No. 2 2 Q. Do you feel that the EPA's information THE COURT: Okay. All right. So we've 3 3 request was legitimately looking for information? identified it. So just have a look over that, 4 4 Mr. Robinson, and then I'm going to let the parties A. Say that again. 5 5 Q. Do you believe that the information follow up with questions. And if I have any, I'll 6 6 request from the EPA was looking for a way to 7 7 protect the property, or were they just simply THE WITNESS: Okay. 8 8 looking? THE COURT: Did you look at both sides? Is 9 9 MR. MUEHLBERGER: Objection, Your Honor. it two-sided? 10 Calls for speculation. 10 THE WITNESS: There are two sides. 11 11 THE COURT: Yeah. Take your time. THE COURT: I'll sustain that objection. I THE WITNESS: Okay. 12 12 think -- and actually, I was going to ask one of 13 13 you or do it myself. Can you pull up that THE COURT: Okay. 14 14 BY MR. PIERCE: information request that was sent to Mr. Robinson? 15 15 I think it would be helpful for him to have it up Q. Based upon what we've seen and heard 16 on the screen. It was referred to as having been 16 here today, do you believe that that is an accurate 17 17 certified by him, so I think we need to cover that record still? 18 18 A. Yes. while he's here and available to testify. 19 MR. PIERCE: Yes, Your Honor. I'll have to 19 Q. So you believe that the answer that you 20 20 look through the exhibits and figure out exactly -were not provided an agronomic rate is correct? 21 THE COURT: Here. Hold on one second. I 21 A. No. 22 22 think I might be able to help. I have it noted Q. Okay. Okay. I think that -- one quick 23 as -- I think it's CX41. Is that right? I'm 23 question: Who's George Cummins? 24 talking about the one with the responses for 24 A. He's an IHS inspector. 25 25 Mr. Robinson. Q. And then are you guys related? Page 378 Page 380 1 MR. PIERCE: Yes. 1 A. No. 2 THE COURT: I have that as CX41; is that 2 O. Okav. And so was he on scene at all 3 3 when this project was being done? right? 4 MS. KACSUR: Correct, Your Honor. 4 A. Yes. 5 5 THE COURT: Okay, yeah. That's what I was Q. Okay. 6 6 MR. PIERCE: Thank you. referring to. 7 7 THE COURT: I just want to hop in with a MR. PIERCE: So what do I do here? 8 8 question, I guess. Let me just pull it up here THE COURT: You know, you might be able to 9 9 quickly. Bear with me a second. just hold it up electronically or even hand it to 10 him. But we need to just make sure it's 10 Okay. Mr. Robinson, so you know, 11 11 the -- probably working off the electronic is examining -- having examined this document, I 12 12 understood your testimony in response to really the best. Okay. 13 Mr. Pierce's question about -- that asked about the 13 So can you just move that so I can see 14 14 agronomic rate. Going over this document, is there the CX number on there, Mr. Pierce, and we can just 15 15 clear that up for the record. Is it marked? anything else on it that was not answered 16 16 accurately or truthfully, whether intentional or MR. PIERCE: CX41. 17 17 not, but just not accurate? Any other answers you THE COURT: Yeah. Where is that showing? 18 gave that were not accurate? 18 There we go. 19 19 THE WITNESS: No. MR. PIERCE: Right there, Your Honor. 20 THE COURT: Okay. I'm just going to leave it 20 THE COURT: Okay. So CX41. We're at page 1 21 of 3. You know, I'm wondering if it might be 21 there for right now. I'd rather defer to the 22 22 parties for any follow-up. So go ahead, simpler now that we've identified the specific 23 Mr. Muehlberger. 23 document. Does anybody object if he just -- it 24 /// 24 might be easier for Mr. Robinson to simply hold it 25 /// 25 and look at it. Is that okay?

Page 381 Page 383 1 REDIRECT EXAMINATION 1 you. I'm sorry, could we go to page 6, please, of BY MR. MUEHLBERGER: 2 2 Complainant's Exhibit 30? 3 Q. I think I'd like to start with 3 BY MR. MUEHLBERGER: 4 4 Complainant's Exhibit 41 again, which I think is Q. Let me start by asking, Mr. Robinson, 5 5 the document that you have in your hand. Is that did you receive this letter from EPA in November of 6 6 2019? right, Mr. Robinson? 7 7 A. Yes. A. Yes, I did. 8 8 Q. Okay. I'd like to take a look at page Q. Okay. And could you please read after 9 9 2. So this would be CX41 et. 2. Could you flip it says No. 5? 10 that over? 10 A. "If you developed or maintained or have 11 11 A. (Witness complies.) in your possession the following records regarding 12 12 Q. Could you please read the statement that the land application of sludge-related materials 13 13 during August of 2018, provide the information begins with "I certify under penalty"? 14 14 A. "I certify under penalty of law that listed below: The street address" -- address or 15 15 this statement is, to the best of my knowledge and legal description of the location; the dates upon 16 belief, to be true, accurate, and complete. I'm 16 which the location was used for land application 17 17 aware that there are significant penalties and of" -- I don't know, what does that say, 18 18 submitting false information or statements, biosolids -- "the number of acres upon which 19 including the possibility of fines or imprisonment 19 biosolids were land applied; the number of loads 20 20 for knowing violations." applied; a description of how the site restrictions 21 21 of 40 CFR were met; and the annual application Q. And then did you sign this document, 2.2 22 rates of biosolids as calculated." Mr. Robinson? 23 23 A. Yes. O. Thank you. 2.4 24 Mr. Robinson, are you familiar with the Q. Could we go back to page 1 of this? Go 25 ahead and flip that back over. Can we go down to 25 biosolid regulations that EPA -- are you familiar Page 382 Page 384 1 1 with Part 503, which are biosolids regulations? Question 4, please? 2 2 A. (Witness complies.) A. No. 3 3 Q. Okay. Did Mr. Pierce explain to you Q. So the question asks if you were given 4 4 information about the agronomic rate of land about the recordkeeping requirements under the 5 5 application of the pollutants contained in the biosolids regulations connected to this land 6 sludge that was land applied on or about August 6 application project in 2018? 7 7 A. No. 22nd, 2018. Did you circle "no"? 8 8 A. Yes. Q. Did Mr. Pierce talk to you about 9 9 O. Okav. creating records concerning management practices of 10 MR. MUEHLBERGER: I think now I'd like to go 10 the sewage sludge? 11 11 to Complainant's Exhibit 30, please. A. No. 12 BY MR. MUEHLBERGER: 12 Q. Did he talk to you about creating 13 13 records concerning site restrictions for sewage Q. Mr. Robinson, do you recognize this 14 14 sludge? document? 15 A. No, I don't. 15 16 16 Q. Okay. Let's start at the top there. Is Q. Did he talk to you about creating 17 17 this a letter from the U.S. EPA Region 7 to you? records for vector attraction concerning sewage 18 18 sludge? 19 19 Q. Okay. And is it dated November 14th, A. No. 2.0 20 2019? MR. MUEHLBERGER: No further questions. 21 A. Yes. 21 RECROSS-EXAMINATION 22 22 Q. Okay. BY MR. PIERCE: 23 23 MR. MUEHLBERGER: Could we go to page 2 of Q. Mr. Robinson, is your field open to the 24 Complainant's Exhibit 30. Oh, I'm sorry. Let's go 24 public or easily accessible? 25 25 back to the first page. One second, please. Thank A. No.

	Page 385		Page 387
1	Q. You live in a very rural area of	1	here. So on this first declaration after it talks
2	Montana; is that correct?	2	about your barley field, could you read the portion
3	A. Yes.	3	right after it says "Tom Robinson"?
4	Q. What's the population of Lame Deer?	4	A. On the first?
5	A. Oh, a couple thousand, I think, maybe.	5	Q. Yeah. In the the first paragraph
6	Q. Okay. And your property actually lies	6	there where it says — if you come down and it
7	outside of the town of Lame Deer?	7	says, "barley field with pivot line owned by Tom."
8	A. Yes.	8	A. Yeah.
9	Q. Okay. So there's a long dirt road that	9	Q. Can you read the portion right after
10	had to be traveled in order to get even to your	10	that?
11	field	11	A. "In compliance with US 40 EPA 503
12	A. Yes.	12	regulations."
13	Q that goes through multiple other	13	Q. So would you now admit that
14	fields; is that correct?	14	A. Yes.
15	A. Yes.	15	Q you were given
16	Q. Okay. So, realistically, the public or	16	A. Yes. It's been how many years ago?
17	anybody else couldn't have gained access to your	17	Q. Yes, sir. No, I get that 100 percent.
18	site?	18	And it's been a long time.
19	A. No.	19	MR. PIERCE: Thank you.
20	Q. Okay.	20	THE WITNESS: Yes.
21	MR. MUEHLBERGER: Objection, Your Honor,	21	THE COURT: Anything else for Mr. Robinson?
22	relevance. This is not relevant to either of the	22	MR. MUEHLBERGER: Yeah. Your Honor, I know
23	counts in the complaint.	23	this is a little unusual, but I just have a couple
24	THE COURT: What's the relevance, Mr. Pierce?	24	more questions, if that's okay.
25	MR. PIERCE: I'm sorry?	25	THE COURT: It's fine. I think you all

	Page 389		Page 391
1	work it in.	1	was there; is that correct?
2	THE COURT: Into the soil?	2	A. Yes.
3	THE WITNESS: Yes. So I would work it in 4	3	Q. And James Courtney from IHS?
4	inches.	4	A. Yes.
5	THE COURT: Okay.	5	Q. Ernie Sprague from D&R Disposal was
6	THE WITNESS: Till it in.	6	there as well, correct?
7	THE COURT: So you're mixing that sludge	7	A. Not when I was there.
8	THE WITNESS: Yes.	8	Q. Okay. And then the reason for that
9	THE COURT: that's applied to the top of	9	meeting was to sort of go over the parameters for
10	the soil, and you're mixing it into the soil?	10	the construction project; is that correct?
11	THE WITNESS: Yes.	11	A. Yes.
12	THE COURT: Okay. All right. Thanks so	12	Q. And NCUC was the main contractor; is
13	much.	13	that correct?
14	Go ahead.	14	A. Yes.
15	MR. PIERCE: You know what, Your Honor, I	15	Q. Okay. Was the you earlier stated
16	can't think of the question I was trying to come up	16	that the project was incomplete. Why is that?
17	with. Can I get a five-minute break?	17	A. I don't know.
18	THE COURT: Sure.	18	Q. So it was the project was shut down?
19	MR. PIERCE: Thank you.	19	A. Yes, it was shut down.
20	THE COURT. Yeah. No problem. We'll come	20	Q. And do you know who shut the project
21	back in five.	21	down?
22	Mr. Robinson, you can stay there, or you	22	A. IHS.
23	can just make sure you're back in about five	23	Q. So IHS shut the project down, and NCUC?
24	minutes.	24	A. Yes.
25	THE WITNESS: Okay.	25	Q. Okay. So you said earlier as well in
	Page 390		Page 392
1	THE COURT: Thank you.	1	your testimony that you tilled the soil then within
2	(Whereupon, a brief	2	45 minutes and felt that that was a pretty
3	recess was taken.)	3	important thing, the 45 minutes. How did you know
4	THE COURT: Okay. Mr. Robinson, you can come		important tining, the 45 influtes. How did you know
	THE COOKT. Okay. WII. Roomson, you can come	4	to do that?
5	back and take the stand. We're back on record.	4 5	
5 6			to do that?
	back and take the stand. We're back on record.	5	to do that? A. Oh, I think it was you that told me
6	back and take the stand. We're back on record. Okay. Go right ahead.	5 6	to do that? A. Oh, I think it was you that told me or I don't recollect.
6 7	back and take the stand. We're back on record. Okay. Go right ahead. MR. PIERCE: Thank you, Your Honor. I	5 6 7	to do that? A. Oh, I think it was you that told me or I don't recollect. Q. Okay.
6 7 8	back and take the stand. We're back on record. Okay. Go right ahead. MR. PIERCE: Thank you, Your Honor. I appreciate you allowing me the break.	5 6 7 8	to do that? A. Oh, I think it was you that told me or I don't recollect. Q. Okay. A. Somebody was there that told me that I
6 7 8 9	back and take the stand. We're back on record. Okay. Go right ahead. MR. PIERCE: Thank you, Your Honor. I appreciate you allowing me the break. THE COURT: Sure.	5 6 7 8 9	to do that? A. Oh, I think it was you that told me or I don't recollect. Q. Okay. A. Somebody was there that told me that I had to.
6 7 8 9 10	back and take the stand. We're back on record. Okay. Go right ahead. MR. PIERCE: Thank you, Your Honor. I appreciate you allowing me the break. THE COURT: Sure. RECROSS-EXAMINATION	5 6 7 8 9	to do that? A. Oh, I think it was you that told me or I don't recollect. Q. Okay. A. Somebody was there that told me that I had to. Q. Yeah. And that's perfectly fine. Would
6 7 8 9 10 11	back and take the stand. We're back on record. Okay. Go right ahead. MR. PIERCE: Thank you, Your Honor. I appreciate you allowing me the break. THE COURT: Sure. Oh, yes. Yes, they did. Q. Okay. And I realize it's been a while, so the recollection is a little hard there. Don't feel bad about that.	5 6 7 8 9 10 11 12 13 14 15 16 17 18	to do that? A. Oh, I think it was you that told me or I don't recollect. Q. Okay. A. Somebody was there that told me that I had to. Q. Yeah. And that's perfectly fine. Would it surprise you to learn that the 503 requirements require that to be done within six hours? A. No. Q. Okay. And you did it within 45? A. Yes. Q. So you exceeded the expectations of 503? A. Yes. MR. PIERCE: Perfect. Thank you. THE COURT: I just want to ask you one question. Do you remember I understand your
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	back and take the stand. We're back on record. Okay. Go right ahead. MR. PIERCE: Thank you, Your Honor. I appreciate you allowing me the break. THE COURT: Sure. RECROSS-EXAMINATION BY MR. PIERCE: Q. Mr. Robinson, were you aware of the IHS bid packet to start this project? A. No. Q. Did IHS ever contact you about utilizing your land as part of their A. Oh, yes. Yes, they did. Q. Okay. And I realize it's been a while, so the recollection is a little hard there. Don't feel bad about that. So when the project began, there was a	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	to do that? A. Oh, I think it was you that told me or I don't recollect. Q. Okay. A. Somebody was there that told me that I had to. Q. Yeah. And that's perfectly fine. Would it surprise you to learn that the 503 requirements require that to be done within six hours? A. No. Q. Okay. And you did it within 45? A. Yes. Q. So you exceeded the expectations of 503? A. Yes. MR. PIERCE: Perfect. Thank you. THE COURT: I just want to ask you one question. Do you remember I understand your testimony about tilling it into the soil. Do you
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	back and take the stand. We're back on record. Okay. Go right ahead. MR. PIERCE: Thank you, Your Honor. I appreciate you allowing me the break. THE COURT: Sure. RECROSS-EXAMINATION BY MR. PIERCE: Q. Mr. Robinson, were you aware of the IHS bid packet to start this project? A. No. Q. Did IHS ever contact you about utilizing your land as part of their A. Oh, yes. Yes, they did. Q. Okay. And I realize it's been a while, so the recollection is a little hard there. Don't feel bad about that. So when the project began, there was a meeting down at the Northern Cheyenne Utility	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	to do that? A. Oh, I think it was you that told me or I don't recollect. Q. Okay. A. Somebody was there that told me that I had to. Q. Yeah. And that's perfectly fine. Would it surprise you to learn that the 503 requirements require that to be done within six hours? A. No. Q. Okay. And you did it within 45? A. Yes. Q. So you exceeded the expectations of 503? A. Yes. MR. PIERCE: Perfect. Thank you. THE COURT: I just want to ask you one question. Do you remember I understand your testimony about tilling it into the soil. Do you remember who literally put it on the surface of the
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	back and take the stand. We're back on record. Okay. Go right ahead. MR. PIERCE: Thank you, Your Honor. I appreciate you allowing me the break. THE COURT: Sure. RECROSS-EXAMINATION BY MR. PIERCE: Q. Mr. Robinson, were you aware of the IHS bid packet to start this project? A. No. Q. Did IHS ever contact you about utilizing your land as part of their A. Oh, yes. Yes, they did. Q. Okay. And I realize it's been a while, so the recollection is a little hard there. Don't feel bad about that. So when the project began, there was a meeting down at the Northern Cheyenne Utility Commission that you attended; is that correct?	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	to do that? A. Oh, I think it was you that told me or I don't recollect. Q. Okay. A. Somebody was there that told me that I had to. Q. Yeah. And that's perfectly fine. Would it surprise you to learn that the 503 requirements require that to be done within six hours? A. No. Q. Okay. And you did it within 45? A. Yes. Q. So you exceeded the expectations of 503? A. Yes. MR. PIERCE: Perfect. Thank you. THE COURT: I just want to ask you one question. Do you remember I understand your testimony about tilling it into the soil. Do you remember who literally put it on the surface of the soil so that you could then go in and till it in?
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	back and take the stand. We're back on record. Okay. Go right ahead. MR. PIERCE: Thank you, Your Honor. I appreciate you allowing me the break. THE COURT: Sure. RECROSS-EXAMINATION BY MR. PIERCE: Q. Mr. Robinson, were you aware of the IHS bid packet to start this project? A. No. Q. 	Page 393		Page 395
1	the soil?	1	THE COURT: And how about from you?
2	THE WITNESS: Ernie Sprague.	2	MR. PIERCE: No, Your Honor.
3	THE COURT: Okay. And do you have any do	3	THE COURT: All right. So he can be released
4	you recall and if you don't, just tell me. It's	4	from the subpoena to go on about his way?
5	fine. I understand it's going back quite some	5	MR. MUEHLBERGER: Yes, Your Honor.
6	time. Do you recall how often and I say how	6	THE COURT: Mr. Pierce?
7	often because I think you testified that at some	7	MR. PIERCE: Yes, Your Honor.
8	point, you saw Mr. Pierce at your site.	8	THE COURT: All right. Thanks so much for
9	THE WITNESS: Uh-huh.	9	appearing today and testifying.
10	THE COURT: I think you might have said a	10	THE WITNESS: Thank you.
11	couple of times?	11	THE COURT: Okay. So it's about 11:25. I
12	THE WITNESS: Yes.	12	think you have one witness left, Mr. Sprague?
13	THE COURT: Okay. So was it just a couple of	13	MR. MUEHLBERGER: That's correct, Your Honor.
14	times that you saw him or do you remember whether	14	THE COURT: Okay. Do you want to get started
15	he was there with any more regularity during the	15	with him or not?
16	course of the project?	16	MR. MUEHLBERGER: One second.
17	THE WITNESS: No. It was just a couple of	17	THE COURT: Okay.
18	times when we first got started.	18	MR. MUEHLBERGER: Complainant would like to
19	THE COURT: Okay. And when you say, "We	19	propose that we take our lunch break now.
20	first got started," tell me what that means in	20	THE COURT: Okay. Was an hour good for
21	terms of the stages of this project.	21	everybody, if we stick with that?
22 23	THE WITNESS: Oh, he had a big tanker truck	22	MR. MUEHLBERGER: That works.
23 24	come in, and it had some spray bars on there.	23	THE COURT: Okay, great. So we're at 11:25.
25	THE COURT: Okay. THE WITNESS: And he was there. We tried	24	I'm just going to call it 11:30. And how about we
23	THE WITNESS. And he was there. We then	25	just come back at 12:30, okay?
	7.04

2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	that first. It wouldn't work. It kept plugging up. Then after that he got Ernie Sprague to come in and dump it on. THE COURT: Onto the soil? THE WITNESS: Yes. THE COURT: Okay. THE WITNESS: Because that spray bar kept plugging up. THE COURT: So THE WITNESS: And he was there THE COURT: Go ahead. THE WITNESS: when that was going on. THE COURT: Okay. When Ernie Sprague was there, too? THE WITNESS: Yeah. An inspector was there. THE COURT: Would that be Mr. Cummins? THE WITNESS: Yes. THE COURT: Okay. So Mr. Cummins was there, then, when Mr. Sprague put the sludge on top of the soil? THE WITNESS: Yes. THE COURT: Okay. All right. Thank you. That's helpful.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	MR. MUEHLBERGER: That sounds good. THE COURT: All right. See you all then. Have a good lunch. (Whereupon, a lunch recess was from taken from 11:25 a.m. to 12:32 p.m.) AFTERNOON SESSION, WEDNESDAY, AUGUST 23, 2023 (Whereupon, the hearing reconvened at 12:32 p.m., with all interested parties present, and the following proceedings were had:) THE COURT: Okay. We can go ahead and get on record. All right. We're back on record after a lunch break. It's just I guess about 12:32, give or take. Parties are all back. And I think we're this is your final witness, complainant? MR. MUEHLBERGER: Yes, Your Honor. THE COURT: Okay. Mr. Sprague. And I know that respondents plan to call Mr. Sprague as well. If Mr. Sprague were you planning on remaining throughout the entire proceeding? THE WITNESS: Yes, ma'am. THE COURT: Okay. So if you want, we can just take you can recall him for the respondents
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	that first. It wouldn't work. It kept plugging up. Then after that he got Ernie Sprague to come in and dump it on. THE COURT: Onto the soil? THE WITNESS: Yes. THE COURT: Okay. THE WITNESS: Because that spray bar kept plugging up. THE COURT: So THE WITNESS: And he was there THE COURT: Go ahead. THE WITNESS: when that was going on. THE COURT: Okay. When Ernie Sprague was there, too? THE WITNESS: Yeah. An inspector was there. THE COURT: Would that be Mr. Cummins? THE WITNESS: Yes. THE COURT: Okay. So Mr. Cummins was there, then, when Mr. Sprague put the sludge on top of the soil? THE WITNESS: Yes. THE COURT: Okay. All right. Thank you.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	MR. MUEHLBERGER: That sounds good. THE COURT: All right. See you all then. Have a good lunch. (Whereupon, a lunch recess was from taken from 11:25 a.m. to 12:32 p.m.) AFTERNOON SESSION, WEDNESDAY, AUGUST 23, 2023 (Whereupon, the hearing reconvened at 12:32 p.m., with all interested parties present, and the following proceedings were had:) THE COURT: Okay. We can go ahead and get on record. All right. We're back on record after a lunch break. It's just I guess about 12:32, give or take. Parties are all back. And I think we're this is your final witness, complainant? MR. MUEHLBERGER: Yes, Your Honor. THE COURT: Okay. Mr. Sprague. And I know that respondents plan to call Mr. Sprague as well. If Mr. Sprague were you planning on remaining throughout the entire proceeding? THE WITNESS: Yes, ma'am. THE COURT: Okay. So if you want, we can

Page 397 Page 399 1 scope and all that. I don't mind being far more 1 So once the complainant rests, if you want to 2 2 relaxed about it, but it's really whatever's the just go ahead and question him first so that he 3 greatest ease for all of you in terms of how you 3 could -- you know, I suppose depending on how long 4 4 present your case. the testimony is, so that he could be released 5 5 MR. PIERCE: Your Honor, I think the way that today. Would you be open to that, Mr. Pierce? 6 6 we handled Mr. Robinson worked fine. MR. PIERCE: Yes, Your Honor. I'll do 7 THE COURT: Okay. So he just takes the stand 7 everything I can to accommodate him. 8 8 once, and you all just ask the questions you want? THE COURT: Okay. How long did you think you 9 MR. PIERCE: Yes, Your Honor. 9 all would be questioning? Do you think it's 10 THE COURT: Okay. Does that work for you 10 reasonable that we could conclude with his 11 testimony today if we did it in the normal course, 11 all? THE WITNESS: That's seems to be just fine. 12 12 but just took him out of turn with regard to 13 THE COURT: Okay. And for the complainant? 13 respondent's case? 14 14 MR. MUEHLBERGER: I'm sorry. Could you MS. KACSUR: Yes, Your Honor. 15 15 please repeat what the process --THE COURT: Okay. Well, let's give that a 16 THE COURT: Yeah. No worries. Mr. Pierce 16 whirl and see just so that he doesn't need to be 17 17 just said that he thought the way it was handled inconvenienced with another day here. 18 18 Okay. All right. So we'll proceed with for Mr. Robinson was fine; that basically, the 19 witness would just take the stand once and you all 19 complainant calling him on behalf of your case in 20 20 would ask whatever questions you wanted since the normal course. And then we'll see, 21 you're both calling him. Is that okay with you 21 Mr. Sprague, if then after you complete your 22 22 testimony on behalf of complainant, you can maybe 23 MR. MUEHLBERGER: One minute, Your Honor, 23 just stay right there, and respondents will take 2.4 24 please. you out of turn. 25 THE COURT: Sure. 25 THE WITNESS: Yes, ma'am. Page 398 Page 400 1 MS. KACSUR: Your Honor? 1 THE COURT: Okay. Come on up and I'll place 2 2 THE COURT: Yes. you under oath. 3 MS. KACSUR: The EPA would -- oh, thank 3 ERNIE SPRAGUE, called as a witness on behalf of the complainant, 4 you -- would like to request that we proceed with 4 5 5 having being first duly sworn testified as follows: Mr. Sprague, I guess, in a more normal witness 6 presentation fashion, if that's all right, since he 6 7 does intend to be here for the remainder of the 7 THE WITNESS: Yes, ma'am. 8 8 hearing. THE COURT: Thank you. Please have a seat. 9 9 THE COURT: That's fine. Okay. Please go ahead, Ms. Kacsur. 10 THE WITNESS: I have a question. I don't 10 DIRECT EXAMINATION 11 BY MS. KACSUR: 11 plan on being here tomorrow. I've already missed 12 several days of work. And I'll be here all day 12 Q. Good afternoon, Mr. Sprague. Can you 13 13 provide and spell your full name, please? 14 THE COURT: Okay. Well --14 A. Yes. My name is Ernie Sprague. It's 15 15 THE WITNESS: If this goes into tomorrow, E-R-N-I-E, S-P-R-A-G-U-E. 16 that's fine. But I was supposed to testify 16 Q. Can you describe your line of work, 17 yesterday. So if we could do it the way we did it 17 Mr. Sprague? 18 with Mr. Robinson, I would be more than happy. 18 A. Yes. I am a production supervisor at 19 19 THE COURT: Well, I think -- you know, I the Colstrip coal mine as my main job. I also own 20 20 and operate D&R Disposal, which is a septic tank think we might be able to accommodate it for 21 21 everybody, and that we still have a good chunk of and a porta-potty rental business. 22 time today. 22 Q. Have you ever worked in the area of land 23 THE WITNESS: Right. 23 application of sewage sludge? 24 24 THE COURT: So maybe one alternative would A. Before this, no. 25 be to simply call Mr. Sprague perhaps out of turn. 25 Q. Before this, meaning?

Page 401 Page 403 1 1 A. Before this application, no. one that Mr. Pierce called you about to do, or have 2 2 Q. Do you know Mr. Nathan Pierce? you done other projects in the past such that you 3 A. Yes, I do. 3 know what a process would be, generally? 4 4 Q. And how do you know Mr. Pierce? THE WITNESS: I've worked around them, Your 5 5 A. Well, Mr. Pierce contacted me about the Honor. This is the first one I've actually been 6 6 job that we're speaking about. 7 7 Q. Can you describe this job that you're THE COURT: Okay. So you feel you have 8 8 personal knowledge to be able to -referring to? 9 9 THE WITNESS: Yeah. I have --A. Yes. It is removal of sludge waste from 10 the Lame Deer Lagoon and transferring it to the 10 THE COURT: -- speak to what the process is 11 11 property seven and a half miles west of Lame Deer generally? 12 12 owned by Northern Cheyenne Reservation and leased THE WITNESS: -- some knowledge to speak --13 13 THE REPORTER: I'm sorry. Can you just wait by Tom Robinson. 14 Q. Can you describe for us just in some 14 until the judge is finished? 15 detail all of the steps involved with a project 15 THE WITNESS: I'm sorry. 16 16 THE COURT: Yeah. The transcript will be a like this, all of the processes that sewage sludge 17 17 would go through? mess. I know you've been listening to a lot and 18 18 A. All the processes that it would go you probably have a lot to say. And I'm going to 19 through or could go through? Because --19 hear everything you want to tell me. We just have 20 20 Q. Did go through. to do it in a very clear order. 21 21 A. -- a lot of the testimony is saying So do you feel you have enough personal 22 2.2 stuff that it could go through. knowledge to be able to testify about a process 23 23 Q. I'll correct my question. generally, independent of what happened 2.4 24 A. But this is exactly what happened. Mr. particularly here? 25 Adamas --25 THE WITNESS: Yes, ma'am. Page 402 Page 404 1 THE COURT: Okay. Hold on just one second. 1 THE COURT: Okay. Then I'm going to overrule 2 2 I think that's what she's about to ask you, but let the objection, and you can go ahead and answer. 3 3 her rephrase her question. THE WITNESS: Okay. So the sludge -- or the 4 Go ahead, Ms. Kacsur. 4 lagoons can be pumped out and put into frack tanks 5 5 MS. KACSUR: What I was getting at was just like Mr. Adamas had done and then spread on the 6 more generally, I guess, what a land application 6 fields in a liquified form, or they can be pumped 7 7 project looks like. out and put into draining tanks where they can be 8 8 THE COURT: Not specific to this case? turned into sludge form and then dumped in a dump 9 9 MS. KACSUR: Not specific to this case, no. like previous witnesses spoke about where that 10 THE WITNESS: So you want me to answer what 10 sewage is in absolute solid form. And it can go to 11 could happen, not what did happen? 11 a Class 2 dump according to the state of Montana. 12 MS. KACSUR: Yes. Let's start with what 12 MS. KACSUR: Thank you. 13 could happen. 13 THE WITNESS: That is not what -- that was THE WITNESS: Okay. There's several things 14 14 not solids that my -- my truck is incapable of 15 that could happen. One --15 hauling solids like that. 16 MR. PIERCE: Your Honor --16 BY MS. KACSUR: 17 THE COURT: Hold on. Hold on. I can't hear 17 Q. Thank you. 18 18 you. Did you -- now speaking more 19 19 MR. PIERCE: Your Honor, it calls for specifically about this project, did you 20 speculation on behalf of the witness. So I object. 20 participate in the preparation of the sewage sludge 21 THE COURT: Okay. I did have kind of a 21 prior to it being transported? 22 22 threshold question before he responds, potentially. A. No. 23 But I need to rule. 23 Q. Were you sent an information request 24 Was this the only sewage sludge 24 letter from the EPA? 25 25 application project you've worked on, meaning the A. Yes.

-	Page 405		Page 407
1	Q. And did you provide a response to that	1	ten-mile-an-hour speed, where to dump, you know,
2	letter?	2	whether it's going to be on pre-tilled or
3	A. Yes, I did.	3	post-tilled
4	MS. KACSUR: Let's show CX42, please.	4	THE COURT: Okay.
5	BY MS. KACSUR:	5	THE WITNESS: stuff.
6	Q. Do you recognize this document?	6	THE COURT: And who gave those instructions?
7	A. Yes, I do.	7	THE WITNESS: George Cummins and Mr. Nathan.
8	Q. What is this document?	8	They were both there.
9	A. This is the response that I sent to the	9	THE COURT: Okay. Thank you.
10	EPA for that request.	10	Go ahead, Ms. Kacsur.
11	Q. Can I have you read if we'll go down	11	MS. KACSUR: Thank you.
12	on the page a bit.	12	BY MS. KACSUR:
13	A. Start right there at 8/9?	13	Q. Can we go to the next page, please.
14	Q. Yes, please. Read the highlighted text	14	A. Sure.
15	there.	15	Q. This is also CX42, et. page 3.
16	A. Yes. It says, "On 8/9/19" which is a	16	And can I have you read that highlighted
17	typo. It's meant to be 8/9/18 I showed up for	17	line as well?
18	work. I met Nathan with Adamas Construction. He	18	A. Yes. It says, "Nathan and his team were
19	showed me five frack tanks he wanted offloaded.	19	on both ends of the job. I saw them taking samples
20	Within a few minutes, a man arrived and introduced	20	and moving pipe, etc."
21	himself as George Cummins with Indian Health	21	Q. Who did you take directions from during
22	Services and Tribal Utilities Commission, and that	22	this project?
23	he was representing the tribe. There were several	23	A. I took directions from both Nathan
24	other tribal workers, too. Another was James	24	Pierce and George Cummins. George Cummins made
25	Bement from Tribal Utilities. The others I did not	25	it very clear that he was representing I want

6 7	instructions [sic] were made. I made a test run while they walked along beside the truck, and it	5 6 7	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that
6 7 8	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were given. One was to stay on top of Tom's disk marks.	5 6 7 8	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was
6 7 8 9	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were	5 6 7 8 9	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was not there. He was correct. I was not able to
6 7 8 9 10	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were given. One was to stay on top of Tom's disk marks.	5 6 7 8 9	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was not there. He was correct. I was not able to attend that meeting where they went over the rates
6 7 8 9 10 11	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were given. One was to stay on top of Tom's disk marks. That was soon changed to inside his marks. This	5 6 7 8 9 10 11	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was not there. He was correct. I was not able to attend that meeting where they went over the rates and all who was going to be involved. But when I
6 7 8 9 10 11	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were given. One was to stay on top of Tom's disk marks. That was soon changed to inside his marks. This was easy because we were working from the outside	5 6 7 8 9 10 11 12	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was not there. He was correct. I was not able to attend that meeting where they went over the rates and all who was going to be involved. But when I showed up on
6 7 8 9 10 11 12	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were given. One was to stay on top of Tom's disk marks. That was soon changed to inside his marks. This was easy because we were working from the outside in. THE COURT: Hold on just one second. You had said some instructions were made. So I'm reading	5 6 7 8 9 10 11 12 13 14 15	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was not there. He was correct. I was not able to attend that meeting where they went over the rates and all who was going to be involved. But when I showed up on THE COURT: Now were you referring to the
6 7 8 9 10 11 12 13	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were given. One was to stay on top of Tom's disk marks. That was soon changed to inside his marks. This was easy because we were working from the outside in. THE COURT: Hold on just one second. You had	5 6 7 8 9 10 11 12 13 14	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was not there. He was correct. I was not able to attend that meeting where they went over the rates and all who was going to be involved. But when I showed up on THE COURT: Now were you referring to the pre-construction meeting that you were not at? THE WITNESS: Yes. Yes. THE COURT: Okay.
6 7 8 9 10 11 12 13 14 15	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were given. One was to stay on top of Tom's disk marks. That was soon changed to inside his marks. This was easy because we were working from the outside in. THE COURT: Hold on just one second. You had said some instructions were made. So I'm reading	5 6 7 8 9 10 11 12 13 14 15	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was not there. He was correct. I was not able to attend that meeting where they went over the rates and all who was going to be involved. But when I showed up on THE COURT: Now were you referring to the pre-construction meeting that you were not at? THE WITNESS: Yes. Yes.
6 7 8 9 10 11 12 13 14 15	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were given. One was to stay on top of Tom's disk marks. That was soon changed to inside his marks. This was easy because we were working from the outside in. THE COURT: Hold on just one second. You had said some instructions were made. So I'm reading introductions. Is "introductions" a typo?	5 6 7 8 9 10 11 12 13 14 15 16	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was not there. He was correct. I was not able to attend that meeting where they went over the rates and all who was going to be involved. But when I showed up on THE COURT: Now were you referring to the pre-construction meeting that you were not at? THE WITNESS: Yes. Yes. THE COURT: Okay.
6 7 8 9 10 11 12 13 14 15 16	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were given. One was to stay on top of Tom's disk marks. That was soon changed to inside his marks. This was easy because we were working from the outside in. THE COURT: Hold on just one second. You had said some instructions were made. So I'm reading introductions. Is "introductions" a typo? THE WITNESS: Excuse me? Yeah, some	5 6 7 8 9 10 11 12 13 14 15 16 17	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was not there. He was correct. I was not able to attend that meeting where they went over the rates and all who was going to be involved. But when I showed up on THE COURT: Now were you referring to the pre-construction meeting that you were not at? THE WITNESS: Yes. Yes. THE COURT: Okay. THE WITNESS: I was not I was not
6 7 8 9 10 11 12 13 14 15 16 17	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were given. One was to stay on top of Tom's disk marks. That was soon changed to inside his marks. This was easy because we were working from the outside in. THE COURT: Hold on just one second. You had said some instructions were made. So I'm reading introductions. Is "introductions" a typo? THE WITNESS: Excuse me? Yeah, some introductions were made.	5 6 7 8 9 10 11 12 13 14 15 16 17	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was not there. He was correct. I was not able to attend that meeting where they went over the rates and all who was going to be involved. But when I showed up on THE COURT: Now were you referring to the pre-construction meeting that you were not at? THE WITNESS: Yes. Yes. THE COURT: Okay. THE WITNESS: I was not I was not available to attend that because of my other job.
6 7 8 9 10 11 12 13 14 15 16 17 18	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were given. One was to stay on top of Tom's disk marks. That was soon changed to inside his marks. This was easy because we were working from the outside in. THE COURT: Hold on just one second. You had said some instructions were made. So I'm reading introductions. Is "introductions" a typo? THE WITNESS: Excuse me? Yeah, some introductions were made. THE COURT: Okay. So not instructions,	5 6 7 8 9 10 11 12 13 14 15 16 17 18	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was not there. He was correct. I was not able to attend that meeting where they went over the rates and all who was going to be involved. But when I showed up on THE COURT: Now were you referring to the pre-construction meeting that you were not at? THE WITNESS: Yes. Yes. THE COURT: Okay. THE WITNESS: I was not I was not available to attend that because of my other job. But when I showed up on 8/9, I made sure that I
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were given. One was to stay on top of Tom's disk marks. That was soon changed to inside his marks. This was easy because we were working from the outside in. THE COURT: Hold on just one second. You had said some instructions were made. So I'm reading introductions. Is "introductions" a typo? THE WITNESS: Excuse me? Yeah, some introductions were made. THE COURT: Okay. So not instructions, introductions.	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was not there. He was correct. I was not able to attend that meeting where they went over the rates and all who was going to be involved. But when I showed up on THE COURT: Now were you referring to the pre-construction meeting that you were not at? THE WITNESS: Yes. Yes. THE COURT: Okay. THE WITNESS: I was not I was not available to attend that because of my other job. But when I showed up on 8/9, I made sure that I didn't touch anything until I had a tribal
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were given. One was to stay on top of Tom's disk marks. That was soon changed to inside his marks. This was easy because we were working from the outside in. THE COURT: Hold on just one second. You had said some instructions were made. So I'm reading introductions. Is "introductions" a typo? THE WITNESS: Excuse me? Yeah, some introductions were made. THE COURT: Okay. So not instructions, introductions. THE WITNESS: No, they were also given	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was not there. He was correct. I was not able to attend that meeting where they went over the rates and all who was going to be involved. But when I showed up on THE COURT: Now were you referring to the pre-construction meeting that you were not at? THE WITNESS: Yes. Yes. THE COURT: Okay. THE WITNESS: I was not I was not available to attend that because of my other job. But when I showed up on 8/9, I made sure that I didn't touch anything until I had a tribal representative there. I've had enough dealings
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. Some more rules were given. One was to stay on top of Tom's disk marks. That was soon changed to inside his marks. This was easy because we were working from the outside in. THE COURT: Hold on just one second. You had said some instructions were made. So I'm reading introductions. Is "introductions" a typo? THE WITNESS: Excuse me? Yeah, some introductions were made. THE COURT: Okay. So not instructions, introductions. THE WITNESS: No, they were also given instructions. We were also given instructions.	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	he was representing them both, and that Mr. Pierce was a subcontractor was a contractor. So I took and they had a meeting previous that Mr. Tom Robinson spoke about, and Tom said I was not there. He was correct. I was not able to attend that meeting where they went over the rates and all who was going to be involved. But when I showed up on THE COURT: Now were you referring to the pre-construction meeting that you were not at? THE WITNESS: Yes. Yes. THE COURT: Okay. THE WITNESS: I was not I was not available to attend that because of my other job. But when I showed up on 8/9, I made sure that I didn't touch anything until I had a tribal representative there. I've had enough dealings with the tribe to know that you make sure you have
6 7 8 9 10 11 12 13 14 15 16 17	instructions [sic] were made. I made a test run while they walked along beside the truck, and it was determined that I should maintain a ten-mile-an-hour speed. THE WITNESS: I was not I was not available to attend that because of my other job.

Page 409 Page 411 1 1 comes and goes on the land, how far it is away from BY MS. KACSUR: 2 2 water, how far away it is from cattle, people, what Q. Was anyone else involved in the project 3 3 beyond George Cummins and Nathan Pierce? signage you put up, and what your -- your agronomic 4 4 A. Yes. There was several people involved. dispersal rate. And I also included a rate with my 5 5 And I say here in my statement that there was statement here of 19,000 gallons per acre, which is 6 6 several pickups and other people moving around. I less than what the IHS or Utilities had said of 7 7 saw other people taking samples. I saw other 22,000 and 23,000. So I don't know why my 8 8 people cleaning out screens for the sewage lagoon, calculations weren't considered, considering that 9 9 doing daily -- or weekly maintenance, whatever you they're more stringent. 10 want to call it, where they were cleaning the 10 Q. You mentioned that -- or you responded 11 screens and taking samples, both on the lagoon side 11 that you took directions from both Mr. Pierce and 12 and on the dump side. Now, I've not seen any of 12 Mr. Cummins, correct? 13 those samples testified yet. Where they've gone, I 13 A. That's correct. 14 don't know. 14 Q. Did at any point Mr. Pierce discuss the 15 THE COURT: I'm sorry to keep interrupting. 15 recordkeeping requirements under Part 503 with you? 16 I just want to make sure that I'm understanding all 16 A. Yes. That was all discussed in a group 17 of this. And so when you say both on the lagoon 17 meeting as we stood there that Tom Robinson was 18 side and on the dump side, can you just elaborate 18 going to keep records, I was going to keep records, 19 for my benefit what you mean? 19 and George Cummins said that he would be collecting 20 THE WITNESS: Yes. Yes, ma'am. The sewage 20 21 lagoon is where the sewage is actually coming from 21 Q. What kinds of records were you asked to 22 the city into a lagoon. It's supposed to be a 22 keep? 23 treatment facility there where it just transfers 23 A. Dump records for the records that I 24 from one lagoon to another to another, and then it 24 haul. 2.5 dumps into the creek. That is the Lame Deer Creek 25 Q. Can you elaborate on what a dump record Page 410 Page 412 1 that everyone has been talking about. But the dump 1 might contain? 2 site is 7.5 miles away to the west on Tom 2 A. Well, a dump record will contain what 3 3 Robinson's place. you're hauling, what time you hauled it, what time you offloaded it, and where you offloaded it. 4 THE COURT: Okay. So the dump site is 4 5 5 Mr. Robinson's property where this was applied? Q. Did Mr. Pierce ask you to keep records 6 THE WITNESS: That's correct. 6 of management practices? 7 THE COURT: Okay. Okay. Thank you. 7 A. No. I'm not in the management field. 8 8 Go ahead. Q. Did Mr. Pierce discuss keeping records 9 9 BY MS. KACSUR: of vector attraction reduction with you? 10 Q. So the people you've just described 10 A. No. 11 taking samples and doing maintenance, are you aware 11 Q. And did Mr. Pierce discuss keeping 12 12 of who they were or who they worked for? records of site restrictions with you? 13 A. The people that were taking some of the 13 A. No. But we discussed the site 14 14 samples and doing the maintenance were in vehicles restrictions when we stood in a circle with me. Tom 15 that were UC -- excuse me -- utility vehicles. 15 Robinson, Mr. Pierce, and George Cummins. 16 16 Q. Switching gears a bit. THE COURT: Do you remember what they were, 17 17 Are you familiar with the biosolids what the site restrictions were? 18 18 THE WITNESS: Yes. I was told not to read regulations found at Part 503 that have been 19 19 discussed? this, but I'm going to read it anyway. 20 A. Somewhat, yes. 20 THE COURT: Okay. Who told you not to read 21 Q. What is the extent, I guess, of your 21 it? 22 22 THE WITNESS: I was told I wasn't going to be familiarity with them? 23 A. Well, I know that there's rules you have 23 discussing it. 24 to apply -- you have to follow when you're 24 THE COURT: Oh. 25 25 applying. Some of that is land restrictions, who THE WITNESS: But I'm going to read it

Page 413 Page 415 1 anyway. 1 THE WITNESS: Right. 2 THE COURT: Okay. 2 THE COURT: So as long as it's relevant to 3 THE WITNESS: It says, "Number 2," it 3 the issues I have to decide, I want you to feel 4 4 comfortable sharing them. But out of courtesy to 5 MR. PIERCE: Your Honor, can we get some 5 the parties and the testimony that they want to 6 clarification on that, who told him not to discuss 6 elicit, right now I just want you to answer the 7 7 questions that they're asking you, and then maybe 8 THE WITNESS: Yes. Chris did. 8 I'll follow up or just give you the opportunity to 9 9 MS. KACSUR: I would like -open-endedly share whatever maybe wasn't drawn 10 THE WITNESS: When we -- when we 10 out --11 discussed -- when we met on Monday, I was told I 11 THE WITNESS: Okay. 12 12 was not to read anything other than the THE COURT: -- from their questions. Okay? 13 13 So you have the chance to share what you think is highlighted --14 MS. KACSUR: I would like to make just a 14 important as it relates to this case --15 15 point of clarification, Your Honor. Chris and I THE WITNESS: Okay. 16 16 THE COURT: -- but we need to do this in an made clear that we were going to ask Mr. Sprague to 17 read highlighted portions, but we did not at any 17 orderly fashion. So just hang tight for a little 18 18 point say we did not want him to read the bit and compose your thoughts. And you've got 19 non-highlighted portions. 19 things written down, so I'm assuming you won't 20 20 MR. PIERCE: Is that your understanding, forget what you want to share. But right now, just 21 21 respond to the questions by Ms. Kacsur, and we'll Mr. Sprague? 22 22 THE WITNESS: Yeah. They said that I was get there eventually. Okay. 23 23 Go ahead. only to read the highlighted portions. 24 24 THE COURT: Okay. BY MS. KACSUR: 25 MS. KACSUR: That was all we were going to 25 Q. Mr. Sprague, I'd like to invite you to Page 414 Page 416 1 1 read the part of your statement that you would like request of you to read. 2 2 THE WITNESS: That was all they were going to 3 3 request of me, but I would like to read the whole A. Okay. It says -- you asked me what some 4 4 thing. of the restrictions were. Number 2, it says, "Keep 5 5 the gates closed so that cattle did not get in or THE COURT: Okay. Well, hold on just a out." There was also a sign on the gate that had 6 second. You know, I understand what this means 6 7 7 "No trespassing." There's no dumping in bad because when you're being called by a party, there 8 8 may be particular areas that they want to cover and weather. Tom and I would control the dump -- Tom 9 9 maybe not other areas -would control the dump area by pre-disking. And I 10 10 did not have any contact with the tribe workers THE WITNESS: Right. That they don't want to 11 11 after that, only Tom and Nathan. I was also cover. 12 12 THE COURT: -- that they maybe don't want to directed by Mr. George Cummins through Nathan 13 13 that I was not allowed to do any work on weekends, THE WITNESS: I understand that. 14 14 so... Because they had to be there to control it. 15 THE COURT: But -- but -- hold on. Hold the 15 MS. KACSUR: I'd like to turn now to CX42. 16 16 thought. Both sides are going to be able to draw MS. MORENO: What page? 17 17 whatever testimony that they want from you. And MS. KACSUR: Page 4. 18 18 BY MS. KACSUR: it's very clear to me that there's a good bit you 19 19 want to share. And as the judge, I want to hear Q. Do you recognize this document, 20 20 Mr. Sprague? 21 THE WITNESS: Okay. Because I haven't -- I 21 A. Yes, I do. 22 22 have not even started. Q. What is this document? 23 23 A. This is a contract between me and Adamas THE COURT: Okay. But there are some 24 limitations, too, with respect to the issues I have 24 Construction. 25 to decide. 25 Q. Can I have you read the highlighted text

Page 417 Page 419 1 there? 1 offloaded the truck for them. 2 2 THE COURT: Okay. A. Yes. It says, Subcontractor agrees to 3 furnish all materials to perform all work necessary 3 THE WITNESS: So... 4 4 THE COURT: Okay. What does that mean to complete the pumping, removal and hauling of 5 biosolid sludge from the frack tanks located at the 5 exactly, you had to offload the truck for them? 6 Lame Deer Lagoons in Lame Deer, Montana, and haul 6 THE WITNESS: Well, solids, biowaste, all 7 7 that comes in different liquid forms. it to Tom Robinson's pivot, approximately 15 miles 8 8 THE COURT: Okay. 9 9 Q. Who is the contractor mentioned in this THE WITNESS: If it's too thick, you're not 10 paragraph? 10 able to pump it, and you're not able to extract it 11 A. Adamas Construction. 11 or move it. So you add water to it, you're able to 12 12 O. And who is the subcontractor? move it. So their exits were too small for the 13 13 A. D&R Disposal. sludge to go out of or liquify to go out of. And 14 Q. In reality, when this project was 14 their trailer wasn't set up for application either. 15 happening, did you furnish all material and perform 15 THE COURT: Okay. 16 all work regarding the pumping, removing and 16 THE WITNESS: So they were trying to dump 17 hauling of the sludge? 17 through a cone belly, and every time they opened 18 18 A. I removed the sludge from the tanks. I it, they were getting sprayed, so... 19 did not put the sludge from the lagoon into the 19 THE COURT: Okay. Thank you. 20 2.0 BY MS. KACSUR: 21 Q. Did anybody else participate in the 21 O. Who gave you instructions to work with 22 22 pumping, removal or hauling of the sludge? this other company? 23 23 A. Yes. There was another company from A. Nathan Pierce asked me if I would help 24 24 Hardin that had a tanker truck, and they had a hard offload the truck. 25 time offloading. But I do not know the name of 25 MS. KACSUR: Thank you, Your Honor. No Page 418 Page 420 1 that company. They were there for -- I do know 1 further questions. 2 2 that they were there for two days and then left. THE COURT: Okay. 3 3 **CROSS-EXAMINATION** Q. They were -- by "there," you mean at the 4 application site? 4 BY MR. PIERCE: 5 5 A. Yes. They were at the application for Q. Mr. Sprague, you testified that 6 two days. 6 IHS -- you believe IHS had control over the 7 7 Q. Do you know who hired that company? project; is that correct? 8 8 A. No. I don't. A. According to George Cummins, he said he 9 9 THE COURT: Was that -- you heard represented IHS and Northern Tribal Utilities. 10 Mr. Robinson's testimony when he talked about the 10 Q. And he said that he was in control of 11 two occurrences, the first time that didn't involve 11 the project? 12 you. Was that -- what you're just referring to, 12 A. Yes, he said he was in control of the 13 was that the first time, do you think, or do you 13 project. 14 not know? 14 Q. Who is Sheri Bement? 15 THE WITNESS: I was the first one to start 15 A. Sheri Bement is the general manager for 16 pumping out of the tanks --16 the utilities company -- or not utilities company, 17 THE COURT: Okay. 17 but Northern Cheyenne Utilities. 18 THE WITNESS: -- because they were -- they 18 O. And did you meet with Sheri? 19 were full when I started. What Mr. Robinson, I'm 19 A. Beforehand, no. 20 sure, was talking about is when this tanker showed 20 Q. Did you meet with Sheri after? 21 up on the -- they showed up on the 8/16, on August 21 A. I had a -- I did go meet with Sheri the 22 16th. And they -- I don't know how much they 22 day that one of the utility trucks showed up and 23 hauled, but I do know that I had talked to the 23 locked me out of the lagoon. I was actually 2.4 driver the next day. I wasn't able to be there on 24 leaving Tom Robinson's place. I was with Tom 25 the 16th. I was there on the 17th, and I had 25 Robinson a few moments earlier. Tom Robinson and I Page 421

worked hand-in-hand in communicating every day,
 make sure he was there, make sure I was there, so
 that the field could be disked right after
 application.

I had left Tom Robinson in the field.

As I was heading back to Lame Deer, the utilities -- Northern Cheyenne Utilities pickup stopped me and told me that I was to cease work immediately and that I was not -- I was no longer allowed on the property. So I stopped in and I spoke with Ms. Sheri Bement where she unleashed on me for not having a current TERO card and said that that was the reason that I was locked off the property, and that Adamas Construction did not have a TERO card, and they were being locked off the property.

THE COURT: And can you elaborate on what that means, a TERO card?

THE WITNESS: A TERO card, yes. A TERO card,

if you do any kind of construction for the reservation, they have this TERO card. I don't remember the -- that's the acronym, T-E-C-O or -- but what you have to do is you have to pay a penalty to work on the reservation. You also have to hire so many natives if you work on the

1 Go ahead, Mr. Pierce.

BY MR. PIERCE:

Q. So you say that she locked you out of the facility and out of the project. Can you explain what that means?

A. Well, they physically paddle locked the gate. And I had hoses that were still left in there that belong on my truck so I can do daily work. And I went right to her office. That's when this whole conversation happened. And I told her that I was going to access the property and get my hoses. She told me she would have me arrested. I told her if anyone tried to stop me, I was going to hit them in the head with a hammer. And I was that dead serious about it.

Q. Sure.

I was not about to be bullied.

She told me give her one minute. She went and got on the phone, called her attorney. I was overhearing some of what was said, and her attorney said that I could access the property.

She then asked me if she could speak to me in private, took me around behind the building, and asked me if I would be interested in making money with her doing the lagoon project.

Page 422

reservation. And that was her argument for kicking us off the site, was that there was not enough natives working.

And I told her I was a one-man band. I do not have employees, and I don't have to hire anybody, you know. And she told me that I did. I said, "Well, then, they're going to stand around and look at me work, and I'm not doing that." And she said she was bound -- she was confident that Mr. Pierce was not hiring enough Native Americans and not paying his TERO fee.

So an example -- I don't have a TERO sheet on me. I quit being a member of TERO over this. I refuse to do work for the tribe anymore. But an example, at that time -- I'm going to use rough numbers here, but like a \$100,000 job, you would have to pay \$10,000 to TERO along with you have to hire so many natives for the job. And they keep track of that. And then that just goes into a pool. They disburse it out.

Well, Sheri Bement went down -- she told me she went to the office basically to get her cut, and it was not there.

THE COURT: Okay. We'll leave it there for now. Thank you.

Page 424

Page 423

- Q. So she asked you to continue the lagoon project with her?
- A. Yes. Yes.
- Q. And that would have been outside of Adamas Construction and myself?
 - A. Yes.
- Q. So would you say that she had control of the project?

A. Well, Northern Utilities had control of the project. But she asked me if I would continue pumping, but under her. She wanted to set up her own company to hire herself.

- Q. Can you tell me who Jim Bement is?
- A. Jim Bement is her husband.
- Q. And what role did he have?

A. He was on-site. I don't -- he was on-site in a pickup almost all days.

- Q. Okay. And then --
- I would like to add one thing.
 - Q. Sure.

A. I was on-site a total of eight days,Your Honor. Okay. So eight days was the total.

And it says right in my statement that I've given, it's from 8/9 to 10/16. I was on-site for eight

days. But if the tanker trailer was there the one

Page 425 Page 427 1 1 day I was there or if it was the day before, we pulled, like you have a truck that connects to it 2 2 and pulls it, or no? have nine days total. So with Tom Robinson's 3 testimony that he saw George Cummins just a few 3 THE WITNESS: Well, there is a winch truck 4 4 times, the whole project took less than ten days. that can hook up to a frack tank and pull it. 5 5 THE COURT: And I think this is clear. But THE COURT: Okay. 6 6 your role in this was actually putting the sludge THE WITNESS: What I have is a septic tank 7 7 on the soil for Mr. Robinson to till in. truck. I have a small -- and it's a 2500-gallon 8 8 THE WITNESS: Yes. Transporting it from the tank, but I can only haul 2300 gallons. I have to 9 9 frack tanks to the field where Mr. Robinson then leave 200 gallons for vacuum pressure. I would 10 tilled it in. 10 remove 2300 gallons out of each one of these tanks 11 11 THE COURT: Okay. And the frack tanks are and work my way one to one to one. So 20,000 -- I 12 12 where the lagoon is? would take at least nine trips to empty one tank. 13 13 THE WITNESS: Yes. Well, they brought frack Now, when the sludge or when the -- when 14 14 tanks into the lagoon. Normally, there would not the bio-sludge was pumped in there from the lagoon, 15 15 be frack tanks there. They brought frack tanks it had settled in the bottom, and some of it was 16 16 too thick for me to pump. So I had to have into the lagoon, and then Adamas Construction 17 17 brought in a dredger. They brought in a big Mr. Pierce fire up his dredger again and re-agitate 18 18 dredger and filled the frack tanks full of the solids and liquify them. I mean -- yeah, 19 biosolids. And then it was my responsibility to 19 liquify the solids. So they're not coming out as a 20 20 then transport it from the frack tanks to the solid. It has to be liquid. 21 21 THE COURT: Out of those frack tanks? field. And it was Mr. Robinson's responsibility to 22 22 THE WITNESS: Yeah, out of those frack till it within six hours. 23 23 THE COURT: From those tanks? tanks. If it's a solid, that has to come out of 24 24 a -- either hauled with a dump truck or haul -- or THE WITNESS: Yes. 25 THE COURT: Okay. And it sounds like in 25 sucked out with a large vac truck that's different Page 426 Page 428 1 addition to hauling those tanks to Mr. Robinson's 1 than mine. My vac truck only sucks up liquids 2 2 with, you know, partial solids. And I can't suck property --3 3 THE WITNESS: Hauling the components of the up solids. THE COURT: Okay. That was helpful, thank 4 tank -- the volume inside the tanks, yes. 4 5 5 THE COURT: Okay. It was also then spread on you. 6 top of the soil? 6 Go ahead. 7 THE WITNESS: Yes. That's what --7 BY MR. PIERCE: 8 8 THE COURT: That's what you did? Q. Mr. Sprague, were you and Tom Robinson 9 9 THE WITNESS: Yes. Yes. the only ones to do the tilling and the spraying? 10 THE COURT: Okay. Okay. Sorry, but it helps 10 A. Um, yes, to my knowledge. Like I said, 11 me to just kind of --11 that tanker had showed up the day before. Whether 12 MR. PIERCE: No. No, problem, Your Honor. 12 they offloaded anything, from my recollection, that 13 THE COURT: -- understand some of this. 13 truck driver told me they couldn't get the product 14 Because I thought I had an idea of what a frack 14 out of their tank. When I got there in the 15 tank was, but I'm not so sure I do anymore. So can 15 morning, their tank was still sitting there full, 16 you just tell me what it is? 16 so I offloaded it then. 17 THE WITNESS: Okay. 17 Q. Did you observe myself or anybody from 18 THE COURT: Like, kind of visually set this 18 my company do the work of spraying or tilling? 19 up so I can --19 A. No, no. I did all the application. 20 THE WITNESS: A frack tank is a large tank. 20 Like I said, the tanker transported some of it out 21 It has one wheel in the back. They load it up with 21 there, but I still did the same thing I would have 22 a winch truck. It's a large rectangle-shaped tank. 22 done -- I did the same thing to the tanker truck 23 THE COURT: Okay. 23 that I would have done to the frack tank. I had to 24 THE WITNESS: It holds 20,000 gallons, so... 24 suck it out of the tanker truck and then apply it. 25 THE COURT: Okay. And then is that literally 25 THE COURT: And that's the spraying you're

Page 429 Page 431 1 1 talking about? tank a treatment process or a preparation process? 2 2 THE WITNESS: Yeah. That's spraying, yes. A. It's a preparation process. 3 THE COURT: Okay. 3 Q. Thank you. 4 4 RE-DIRECT EXAMINATION THE WITNESS: And on the day that I was 5 5 talking about with Mrs. Bement, when she locked me BY MS. KACSUR: 6 6 out, I went back in and got my hose. I went uptown Q. Mr. Sprague, we discussed earlier you 7 7 and got something to eat at the gas station, and I had a contract with Mr. Pierce, correct? 8 8 ran into Mr. Tom Robinson, and he had no idea. He A. Yes. 9 9 was asking me when I'm showing up for the next Q. Who gave you that contract for this 10 load, so... 10 project? 11 BY MR. PIERCE: 11 A. Who gave me the contract? 12 12 Q. So Tom Robinson had no idea the project O. Uh-huh. 13 13 A. I signed it with Mr. Pierce. had been shut down? 14 14 A. No. Just like he stated earlier today, Q. Did you draft the contract? 15 15 he didn't know why it was shut down. When I talked A. No. Mr. Pierce drafted the contract. 16 to him, he had no idea that it had been shut down. 16 Q. So would you say that he hired you for 17 17 this project? SO... 18 18 Q. Okay. Real quick -- and this will be A. Yes, as a subcontractor. 19 pretty much my last question -- can you read the 19 Q. Did Sheri Bement give you any directions 20 20 highlighted portion for us? for this project? 21 21 A. No. A. Right here? 22 22 Q. Yes. Q. And the issues with her and with being 23 23 A. It says, "Land application is spraying locked out happened after the application project, 2.4 or spreading of sewage sludge onto a land surface, 24 correct? Or mid-application project? 25 the injection of sewage sludge below a land 25 A. Right. It happened during the Page 430 Page 432 1 surface, or the incorporation of sewage sludge into 1 application project. 2 2 the soil so that the sewage sludge can either MS. KACSUR: Thank you. No further 3 3 be" -- "either condition the soil or fertilize questions. THE COURT: I have a few. How many frack 4 crops or vegetation growth in the soil." 4 5 5 Q. And would you say that you and Tom tanks were there? 6 Robinson meet that description? 6 THE WITNESS: Five. 7 7 THE COURT: And do you know who was A. Yes. 8 8 Q. Would you say that Adamas meets that responsible for the decision to lock you out or 9 9 description? terminate the project? 10 A. Well, I would say that the land 10 THE WITNESS: Yeah. Sheri Bement. 11 application was done properly. 11 THE COURT: And how do you know that? 12 12 THE WITNESS: Because she told me. Because I Q. Sure. 13 A. And it was definitely done within state 13 drove --14 14 THE COURT: When you had the conversation? regulations 15 Q. Sure. So you think that you and Tom 15 THE WITNESS: -- I drove right to her office 16 Robinson are the ones who meet that description? 16 the moment they notified me that I was locked out. 17 17 A. Yes. Now --And I went there -- I went there to get my hose so 18 18 Q. Do I meet that description, as I did not I could -- you know, I could do septic systems for 19 19 residents, stuff like that. And as soon as I went apply or spray? 20 20 A. Well, you did not apply or spray. You there and noticed the gate was locked, I drove 21 sucked it out of the lagoon into the tanks, as I 21 right to her office, and I got it right from her 22 22 said before. But Tom Robinson and I did do a land 23 23 application. THE COURT: About locking -- locking it out 24 O. In your experience, is sucking biosolids 24 and the reasons you gave? 25 25 THE WITNESS: Yes. from a treatment pond and putting it into a frack

Page 433 Page 435 1 THE COURT: What prompted you to go straight 1 MR. PIERCE: Yes, ma'am. 2 to her office? How did you know where to go when 2 THE COURT: Okay. So I think we're going to 3 3 be taking you out of turn once the complainant you got locked out? 4 4 THE WITNESS: Well, I had an incident with rests with the presentation of their case, and then 5 Mrs. Sheri Bement approximately six months earlier 5 Mr. Pierce will have the chance to ask you 6 than that when she was with an EPA officer. And I 6 questions. But before we get there, is there 7 7 was dumping in the Birney lagoon for ten septic anything else as it relates to the project that is 8 tanks for the Northern Cheyenne Tribal Housing 8 before me to decide that you want to be sure to 9 9 tell me about that you haven't already? Authority, okay? And I had stopped at her 10 office -- which I have done lots of work for 10 THE WITNESS: If it doesn't come up, I will 11 Mrs. Bement before. I had stopped at her office, 11 bring it up later. 12 12 THE COURT: Okay. Fair enough. All right. and I had obtained a dump permit to dump in the 13 13 So you can just stay right there. lagoon. Because when people have septic tanks, we 14 dump it out and it has to go somewhere. 14 THE WITNESS: Okay. 15 So at that time, I obtained -- I prepaid 15 THE COURT: Mr. Pierce, do you want to go 16 16 ahead -- well, I'm assuming here. Let me ask the for ten septic tanks to be dumped in the lagoon. 17 And as I was dumping in the lagoon, she happened to 17 plaintiff directly. Are you resting at this point 18 18 show up with an inspector, and she says that I was with your direct presentation? With your case in 19 illegally dumping, and they wanted to seize my 19 chief, I should say, absent rebuttal. 20 20 equipment. And I went back -- so after I got in MR. MUEHLBERGER: Yes, Your Honor. 21 the discussion with her, I knew I had prepaid the 21 Complainant rests. 22 22 day before for these. I asked a friend of mine to THE COURT: Okay. Thank you very much. 23 23 go to my house, get my -- get my records, and I Mr. Pierce, then we'll leave 24 24 Mr. Robinson [sic] up here. And if you would, just drove directly to her office that day, too. 25 THE COURT: And so where I was going with 25 go ahead and ask whatever you'd like to ask on Page 434 Page 436 1 this question was more in the sense of -- I mean, I 1 direct. 2 appreciate some context there with a past 2 MR. PIERCE: Mr. Sprague, yes, ma'am. 3 3 encounter. But what I'm wondering about is what THE COURT: I'm sorry. I'm sorry. Yes. 4 led you to go to speak to her in particular as 4 Mr. Pierce asking Mr. Sprague. 5 5 DIRECT EXAMINATION opposed to anybody else in the project. 6 THE WITNESS: Okay. Because I know that 6 BY MR. PIERCE: 7 7 she's in charge of NCUC. Q. Mr. Sprague, how many years have you 8 8 THE COURT: Okay. been doing sewer projects? 9 9 A. Since 2009. Well, I've owned my own THE WITNESS: She is the manager there. 10 THE COURT: Okay. And that's what prompted 10 business since 2009. You're talking about sewer 11 you to go speak to her about this shutdown of the 11 projects, I usually stick to septic. 12 12 project? Q. Okay. 13 THE WITNESS: Right. 13 Residential septic. 14 THE COURT: Okay. 14 Q. So you've worked in the septic and sewer 15 THE WITNESS: Right. So I knew -- I knew who 15 industry since 2009? 16 to go and contact. I knew who was in charge of the 16 A. Yes. I've owned my own business since 17 17 site, so I went directly to her office. 2009. 18 THE COURT: Okay. I just want to check in 18 Q. Okay. And I think you already touched 19 19 with the parties quickly. Anything -- any other on this earlier, but your truck cannot haul solid 20 questions that you have for Mr. Sprague now? 20 sludge; is that correct? 21 MR. PIERCE: On my -- my. 21 A. That's correct. 22 22 THE COURT: Re-cross. Q. So it has to be watered down? 23 MR. PRICE: No re-cross or anything, Your 23 A. That's correct. 24 24 Q. And you testified that Sheri Bement was 25 25 THE COURT: Just when you call him? in control. Why wouldn't you come to me when you

Page 437 Page 439 1 1 no. But like I said, I have that on my phone if got locked out? Why did you go to Sheri? 2 A. Well, you weren't the one locking me 2 you'd like to see it. 3 out. Sheri was the one that was locking me out, 3 BY MR. PIERCE: 4 4 and she was in control of the site. It's Q. So NCUC controlled the times that you 5 5 her -- I've done many business dealings with were able to work? 6 6 Sheri, and she's the one you have to go through to A. NCUC said that they had to be there to 7 7 inspect when I was working. Otherwise, there get permission to dump on the site. She's the one 8 8 you have to get permission to go to access the wouldn't have been a tanker truck called if I could 9 9 site. As I was saying earlier, when I was accused have worked weekends. But George Cummins said 10 of illegally dumping, her -- thank goodness her 10 absolutely not. Northern Utilities had to have a 11 11 secretary had it in her handwriting the day before representative there at all times. 12 12 where they had approved me to dump on the lagoon. Q. Were you present at negotiations with 13 Which I see the 2017 deal from the EPA on the 13 NCUC, IHS, and Adamas Construction at the IHS 14 14 screen yesterday says that they weren't supposed to office in 2019? 15 15 be allowing any extra. And that's how I knew. A. Yes, I was. 16 16 Q. So it seems in your opinion, would you Q. And what was your impression of that 17 17 say that there's some common violations that occur meeting? 18 18 with the NCUC in regard to environmental laws? A. My impression of that meeting was IHS 19 A. I think the people at NCUC are in over 19 said that they were in a contract with NCUC for 20 20 their head. They call on subcontractors at the paying NCUC for work that Adamas Construction had 21 spur of the moment. They've called me in the 21 done, and IHS did not believe that they owed Adamas 22 22 middle of the night to come help them fix projects. Construction any money because they had only 23 23 And, you know, they grasp for help wherever they removed three percent solids. Well, they said that 24 24 it was only three percent solids in the frack tanks can, but by no means when I come and show up and 25 help in the middle of the night am I an operator. 25 when they went and tested them. When they went and Page 438 Page 440 1 I'm a subcontractor, you know. 1 did the field test site, they went and tested the 2 O. And you're touching on that, and that's 2 last remaining frack tank that was left, and they 3 3 said it only had three percent sludge in it. That a good thing to touch on. Can a subcontractor also 4 subcontract other people during a contract? 4 way, they figured they didn't need to pay 5 5 A. Yes. Mr. Adamas because he did not remove enough sludge. 6 Q. So it's possible for NCUC to contract me 6 And on the other hand, they said, "Oh, you're 7 7 hauling too much sludge. You know, we're shutting and then for me to subcontract somebody else? 8 8 A. Yes. That happens all the time. vou down." 9 9 Q. Who's in control at that point, though? Q. So you would say that IHS wasn't 10 A. Well, NCUC has final say. 10 consistent in their assessment of whether it was 11 Q. And in this case, did they have the 11 too much or too little or too thick? 12 final say? 12 A. That's correct. And I also had a 13 A. Yes. On several instances, NCUC 13 conversation there with -- let me make sure I get 14 overruled you. 14 his name right -- James Courtney at that meeting. 15 THE COURT: With respect to this project 15

A. That's correct. And I also had a conversation there with -- let me make sure I get his name right -- James Courtney at that meeting. James Courtney spoke about how they did the samples out of the frack tanks and how they were coming up with a -- he wasn't even saying he was coming up with an agronomic rate. He was just saying that Mr. Adamas' technique for pumping from the lagoon into the frack tanks was inadequate, and it only came up with three percent solids, which is about equivalent to a cup of hot cocoa, so...

Q. Did you observe -- what you observed in those frack tanks, did it -- to your opinion, was it three percent solids?

that's before me?

THE WITNESS: Yes, yes.

no. And I have that on my phone.

THE COURT: And how do you know that?

work weekends. Mr. Adamas told me I could. And

Mr. George Cummins, who said he was in charge, said

THE COURT: Were there any other examples

THE WITNESS: Right off the top of my head,

that you have at the top of your head to share?

THE WITNESS: Because I specifically asked to

Page 441 Page 443 1 A. No. The tanks that settled in the 1 A. For the most part, no. 2 bottom of the tanks were so stiff, I could stick a 2 Q. So you and Tom did it independently? 3 shovel in them until we rolled them, and then I was 3 A. For the most part, you stayed on the 4 able to suck them out. And they would be basically 4 lagoon side. Tom Robinson and I were on the 5 the consistency of a milkshake. 5 offload side. 6 Q. Does adding water to sludge dilute the 6 O. And when the EPA sent you the request 7 7 sludge? for documents, it was to do with the application, 8 8 A. Yes. "The solution to correct? 9 pollution" -- "The solution to pollution is 9 A. They had a list of half a dozen 10 dilution" is an old quote. 10 questions they had. And it did -- it did -- it was 11 Q. So by adding water, Adamas actually 11 the application and others, yes. 12 12 didn't increase the potency of the sludge, they Q. Okay, perfect. 13 13 decreased it? Based upon your experience in 14 A. That's correct. 14 contracting, was the contract between you and I 15 Q. Okay. So as the person who was applying 15 difficult to understand? 16 16 A. No. or spraying the sludge on the land, you would have 17 been the person best to develop out the map and the 17 O. Were the terms and conditions difficult 18 records of where that happened, correct? 18 to understand? 19 A. Yeah. I could show you exactly where 19 A. No. 20 20 they're dumped out. Q. Do you feel they were adequately 21 21 Q. And you developed those records and explained to you so that you could do your job 22 22 maintained them? appropriately? 23 A. I did not develop the records for a map. 23 A. Yes. 24 I developed records of where it was dumped at, but 24 Q. You've heard a lot of testimony here in 25 I did not make a map. 25 this room. Is there anything that you would like Page 442 Page 444 1 1 Q. Okay. So when the EPA requested the to address that hasn't been addressed? 2 information from you, you provided them all of the 2 A. May I take a look at my notes? 3 3 THE COURT: You may. information they requested? A. That is -- and more. That's correct. 4 4 THE WITNESS: No. I think I've covered 5 5 Q. And that was based on Adamas -- Adamas everything. 6 Construction's instructions to you to develop 6 BY MR. PIERCE: 7 7 those, correct? Q. Perfect. A couple more quick questions, 8 8 A. Yes. and I think we'll be done. 9 9 Q. So you mentioned earlier that we were on Do you feel personally that the request 10 10 both ends of the job. I just want to get a little for information was to protect property or people? 11 better clarification with that. When you mean both 11 A. No, I don't. 12 12 ends of the job, were we actually working in Tom Q. What do you feel the request was about? 13 13 A. I think the request was siccing one Robinson's field? 14 14 A. No. Well, depends on what you call government agency on another government agency to 15 work. I was doing the work, and you were 15 stall payment. 16 16 observing. But you set the speed for the truck. Q. Stall payment to who? 17 17 We set the valve gates for the truck, how much A. To stall payment to Adamas Construction. 18 18 would be coming out at what speed, and whether to Because in the meeting that I was with at the IHS 19 19 be on top of soiled or non-soiled -- or excuse me, building where they said that they would pay 20 UCNC [sic] for the completion of it, then they 20 not soiled -- tilled or non-tilled. 21 Q. And so outside of that, you testified 21 didn't want to be in it anymore, they were on both 22 22 that you worked directly with Tom Robinson? sides of the factor. First, they were saying that 23 23 A. That's correct. there was too much sludge hauled, and then they 24 Q. Was I on-site during the other -- during 24 were saying there wasn't any hauled. 25 25 that process? So my personal feeling is that this is

Page 445 Page 447 1 1 less to do about being in compliance and more to do creek. The creek is very dirty. And most -- most 2 2 with corruption. And that's why I made my of the water comes from the lagoon, the sewage 3 3 statement. And that's what was directly told to lagoon that spills over into the creek. Above the 4 4 me, that it was about TERO fees. That's why Tom creek, above the lagoon, there's -- there is water. 5 5 Robinson didn't know anything about the project THE COURT: And is this -- are these 6 6 being stopped, because he didn't have a clue, you observations based on you driving that road? Can 7 7 know. you see the water from there? 8 8 Q. So it's your impression that Tom THE WITNESS: I cross the water -- I cross 9 9 Robinson, as he testified here today, didn't make the water all the time to go to customers' houses. 10 the report James Courtney alleges he made? 10 THE COURT: Okay. 11 11 THE WITNESS: I cross -- I cross the water A. Well, they may have asked him to make 12 12 that report. But Tom Robinson asked me what I was all the time. 13 13 doing not showing back up for the rest of the day THE COURT: Okay. So I guess based on that 14 after I had been locked out by Northern Cheyenne 14 knowledge --15 15 Utilities for not having a TERO card. THE WITNESS: Right. 16 O. Perfect. 16 THE COURT: -- and what you have actually 17 17 One last thing. Can you tell us a observed, the area that you've actually observed --18 18 little bit about Lame Deer Creek? THE WITNESS: Right. 19 A. Lame Deer Creek? 19 THE COURT: -- what can you say about the 20 20 Q. Yes. water levels or variations of it throughout the 21 21 A. Lame Deer Creek flows through -- is in seasons? 22 22 Lame Deer, flows through -- it flows through Lame THE WITNESS: Well, the water increases after 23 23 Deer. But it's -- what do you want to know about it goes past the lagoon. Now, to Mr. Adamas' 2.4 it? I wouldn't -- I wouldn't drink --24 question, does it stop, I can't answer that. 25 Q. Is there portions of it that dry out? 25 THE COURT: Okay. Page 446 Page 448 1 MS. KACSUR: Objection, lack of personal 1 THE WITNESS: So ... 2 knowledge. 2 MR. PIERCE: Perfect. 3 3 THE COURT: That's fine. That's all you need THE WITNESS: There's --4 MR. PIERCE: He lives there. 4 to say. Thank you. 5 5 THE COURT: Hold on one second. Hold on one THE WITNESS: Yep. 6 second. 6 MR. PIERCE: Your Honor, I think that's all I 7 7 THE WITNESS: I've lived -have for now. 8 8 THE COURT: Okay. Opportunity for cross. I THE COURT: Let's start with some kind of 9 basis here. How are you -- are you familiar with 9 just wanted to -- this is really more for purposes 10 Lame Creek? 10 of the transcript. Because I've heard a variety of 11 THE WITNESS: Lame Deer Creek? 11 acronyms, and at times, I'm thinking maybe there's 12 THE COURT: Yes, Lame Deer Creek. 12 been a misspeak of certain acronyms. So I just 13 THE WITNESS: Yes, ma'am. I've lived there 13 want to go over it. 14 my entire life. 14 I've heard IHS, Indian Health Services, 15 THE COURT: And how close to the actual creek 15 NCUC. So when you were talking about what I think 16 do you live? 16 were those entities, are those the correct acronyms 17 THE WITNESS: Well, I live 22 miles north of 17 to be using for those two? 18 the creek right now. I have a ranch just over the 18 THE WITNESS: Yes. And when I say 19 19 hill from that. Probably where the crow flies, 10 "utilities," it's NCUC. 20 miles. I drive -- I drive that road at least four 20 THE COURT: Okay. All right. 21 or five times a week. 21 THE WITNESS: They go by "utilities" on their 22 22 THE COURT: And when you say "that road," is door and then NCUC when they do billing statements, 23 23 stuff like that. But those are the same. that a road --24 THE WITNESS: Well, the road -- the creek 24 THE COURT: Okay. 25 25 follows the road. So I don't go play in that MR. PIERCE: The full acronym, Your Honor, is

Page 449 Page 451 1 1 about any of this from your perspective and that the Northern Cheyenne Utility Commission. 2 2 THE COURT: Okay. Yeah. Thank you. I think type of thing. 3 3 that there might be some points in the transcript So would you like a little break just to 4 4 where some -- and, you know, it's late, and people kind of think and --5 5 are fatigued. I just think there have been maybe MR. PIERCE: Yes, Your Honor. Thank you. 6 6 some reversals of certain letters or pronunciation THE COURT: Okay. Yeah. And do you have 7 7 that might not be entirely clear. And that's why I those -- do you have -- I know I probably put them 8 8 just wanted to review that, that we're talking in some order, and they're elsewhere. They come 9 9 about NCUC, IHS. And then, of course, Adamas out of the Clean Water Act itself. 10 and --10 MR. PIERCE: The penalties? 11 THE WITNESS: Right. 11 THE COURT: The factors to consider with 12 THE COURT: Okay. All right. 12 regard to penalty. Do you have those handy? 13 THE WITNESS: And I'm sorry, I say his 13 MR. PIERCE: I don't, Your Honor. 14 company's name wrong all the time, just like he 14 THE COURT: Let's put our hands on that 15 says my name wrong. But it's the same. 15 quickly. 16 THE COURT: No worries. Okay. All right. 16 MR. MUEHLBERGER: Your Honor, the factors are 17 Thank you. 17 listed in the pre-file letter that was sent to 18 Who'd like to cross on behalf of 18 Mr. Pierce. They lay out the statutory penalty 19 19 complainant? factors. So if you want to look at that exhibit --20 MS. KACSUR: Your Honor, we have no 20 THE COURT: Okay. 21 cross-examination questions. 21 MR. MUEHLBERGER: -- that has those factors. 22 THE COURT: Okay. All right. So this is it, 22 THE COURT: Great. Thank you so much. What 23 Mr. Sprague. Anything else you want to share 23 exhibit number was that, Mr. Muehlberger? 24 before we release you entirely? 24 MR. MUEHLBERGER: Give me just a second. 2.5 THE WITNESS: No. That's all I had. 25 THE COURT: Sure. Thank you. Page 450 Page 452 1 THE COURT: All right. Thank you so much for 1 Okay. So we have two sources for you to 2 2 your testimony. take a look at. Ms. Almase is recalling that in 3 3 THE WITNESS: Thank you. the second amended complaint in Paragraph 60, it 4 THE COURT: Okay. So I think at this point, 4 apparently doesn't cite the Clean Water Act 5 5 if my memory hasn't completely gone south, we're provision, but it sets out what the factors are 6 left with Mr. Pierce and Mrs. Pierce, right? 6 with regard to penalty. And then we'll also point 7 MR. PIERCE: Yes, Your Honor. And I think at 7 you to Complainant's Exhibit --8 8 this point we have enough information in the record MR. MUEHLBERGER: CX14, et. 1. 9 9 to go off of. I don't know that either one of our THE COURT: Okay. Thank you, 10 testimony would change anything that's in the 10 Mr. Muehlberger. 11 record. 11 MR. MUEHLBERGER: You're welcome. 12 12 THE COURT: So we don't need to stay on the THE COURT: Okay. Let me offer some thoughts 13 13 to consider before you make any firm decisions record. I'm going to take a break. I don't want 14 you to rush through this because it's important. 14 about whether or not you want to testify. You know 15 15 there's a liability piece, of course, right? But So, you know, think about it. If you have some 16 questions for me when we come back, ask them. 16 the second prong that I'm going to have to decide 17 17 I'm not an advocate, but obviously, I is also penalty and -- assuming liability is 18 know you're proceeding pro se and, you know, I just 18 established, of course. But this is the hearing, 19 19 want to make sure that I've got everything that so this is the one opportunity for me to gather 20 everybody wants me to have to make a decision in 20 information on both of those issues. 21 21 So with respect to the penalty factors, the case. And I realize that you've got arguments 22 22 in opposition to liability. I recognize that. I mean, there's been some testimony offered through 23 But, you know, I have to plan for contingencies, 23 complainant's witnesses. But it's something maybe 24 too. So in the event liability should be 24 just to ponder and think about in terms of whether 25 established -- I'm not saying that it is, but 25 you might like to offer any testimony yourself

Page 453 Page 455 1 should it be, then I do have to reach penalty, and on-site, amount of gallons pumped. And all samples 1 2 I need to consider those factors. And this is the 2 were to be given to her. 3 hearing for that -- for that factual development as 3 Q. And so were samples given to her? 4 4 well. So that's why I'm putting it out there. A. Yes. 5 With that said, I'm going to stop 5 Q. And that was done on a daily basis? 6 talking, and we'll take a break. How much time 6 A. Every day or every other day, depending 7 7 would you like to kind of go through this and on what the project we were doing at the time. 8 8 Q. And to your knowledge, NCUC was the main 9 MR. PIERCE: I think ten minutes is fine, 9 contractor contracted by IHS; is that correct? 10 Your Honor. 10 A. That is correct. And that is why we THE COURT: Okay. I'm going to give you 15. 11 11 were supposed to give all documentation to NCUC. 12 MR. PIERCE: Perfect. Thank you. 12 Q. Was NCUC the ones required to pay Adamas 13 THE COURT: So we'll come back in 15 minutes 13 Construction? 14 at 2:00 o'clock. Okay? 14 A. Yes. 15 MR. PIERCE: Thank you. 15 Q. Did NCUC at any time put Adamas 16 THE COURT: All right. 16 Construction solely in charge of the project? 17 (Whereupon, a brief 17 A. So IHS actually gave Adamas Construction 18 recess was taken.) 18 the authority to finish the sewer lagoon project, 19 THE COURT: Okay. We can get back on record. 19 and then took Sheri Bement and her team and had her 20 After a brief break, just a few minutes past 2:00. 20 do the site projects because her knowledge of the 21 Okay. So the Pierces, did you have any questions, 21 sewer lagoons and what was required was not 22 or have you made any decisions? 22 adequate, is what they told us, and that they felt 23 MR. PIERCE: Yes, ma'am. I am going to call 23 more comfortable having Adamas continue the project 24 Michelle Pierce. 24 and finish it. 25 THE COURT: Okay. 25 Q. Did they ever switch the contract over? Page 454 Page 456 1 1 A. No. 2 2 MICHELLE PIERCE, Q. After that, did Sheri Bement send an 3 3 called as a witness on behalf of the Respondent, e-mail to Adamas Construction stating that she was having been first duly sworn testified as follows: 4 still in charge and that all decisions needed to go 4 5 5 through her? 6 THE WITNESS: I do. 6 A. Yes. Immediately the next day. 7 7 THE COURT: Thank you. Please have a seat. Q. Did she also instruct that we follow 8 DIRECT EXAMINATION 8 James Courtney's math and numbers with relation to 9 9 BY MR. PIERCE: the sludge concentration of the lagoons? 10 Q. Hi. Michelle, can you give us your full 10 11 name and spell it, please. 11 Q. So, quick question: Are you and your 12 A. Michelle Pierce; M-I-C-H-E-L-L-E, 12 husband wealthy? 13 13 P-I-E-R-C-E. A. No. 14 14 Q. What did this project result in the Q. And just to state the obvious, what is 15 your relationship to the respondent? 15 company and financial -- did it cause any financial 16 16 A. I'm his wife. hardship for you and your husband? 17 17 Q. Did you -- were you part of the process A. Very much so. After our so-called 18 18 with NCUC, IHS, and Adamas Construction for the settlement with NCUC and the tribe, we were 19 19 sludge removal project of the Lame Deer Lagoon? required after the payment to not have any work for 20 2.0 A. Yes. For some of it, not all of it. five years on any reservations, therefore 21 Q. Okay. Do you recall whether or not 21 eliminating and bankrupting the company. We had to 22 22 Adamas and NCUC or IHS came to any agreement for completely refinance our home into a HELOC, so my 23 23 mortgage doubled. And that was in 2000 -- mid-2019 Adamas to provide daily records? 24 24 A. Yes. We were required to give in order to survive. Still paying that \$90,000 25 25 documentation every day to Sheri Bement, who was off. Don't worry. But yeah, there was no

Page 457 Page 459 1 compensation. In fact, we still owe contractors 1 days, we were completely locked out of the 2 from that project at this time. 2 business. Within four days, we had a cease and 3 O. Is Adamas Construction a viable business 3 desist. Within five days, the entire project was 4 4 anymore? taken from us. But we were still liable for all of 5 5 A. No. the contracts that we had put out for the business 6 6 Q. That business has been closed down for for that project. 7 7 BY MR. PIERCE: close to four years now; is that correct? 8 8 Q. So you and your husband attempted to A. Correct. 9 9 help NCUC. And so you hired other contractors to Q. So you would say you gained no economic 10 benefit from this particular job? 10 help with that, and you were obligated for that, 11 11 A. This particular job actually cost us correct? 12 12 almost \$200,000. A. Correct. 13 13 Q. How much money has you and your husband Q. By NCUC not paying, that prevented you 14 from paying those contractors, correct? 14 spent on attorneys defending this action? 15 15 A. Not counting the 200,000 that we owed in A. Correct. 16 Q. Okay. What other projects did your 16 contracts, probably close to \$75,000. 17 17 husband perform on the reservation? Q. So you guys have spent close to \$75,000 18 18 A. So the first time you got called out was in defense of this? 19 the girls -- Boys and Girls Club had a sewer break. 19 A. Yes. That is why you are doing pro se 20 What had happened is a waterline next to the Boys 20 today and not having an attorney. 21 and Girls Club had actually broke. The utility 21 Q. Was your husband ever the water or sewer 22 company had actually dug to the waterline, but 22 operator for the Northern Cheyenne tribe? 23 23 couldn't get the water turned off, couldn't find A. They tried to make you the sewer 24 their gate valves, and actually took an excavator 24 operator and water person, but it was given and 25 through power lines over this water hole and left 25 taken back within a 24-hour period. So I don't Page 458 Page 460 1 know exactly how that all played out. But 1 the power on. And when you were called and brought 2 she -- basically, Sheri did one of her Tasmanian 2 in, you actually got the tools and supplies you 3 3 devil behaviors. needed within 24 hours, got that water turned off, 4 Q. And did your husband send an e-mail to 4 fixed, and their water back on. 5 5 Sheri saying he was no longer interested in the Q. How long was their water off before 6 operator position? 6 that? 7 7 A. Yes. A. Four days. 8 8 Q. And that was the entire community of THE COURT: Do you know when that happened? 9 9 Just rough time frame. Lame Deer? 10 THE WITNESS: Probably right during the 10 A. The entire community of Lame Deer had no 11 lagoon project. It would have been mid-August. 11 water for four days. 12 THE COURT: Around in 2018? 12 Q. Were there other projects that your 13 THE WITNESS: Yeah. What had happened is 13 husband had worked on similar? A. Yes. They had called several times, 14 Sheri's husband Jim was in charge of the site 14 15 projects. George Cummins came to Nathan and said, 15 usually in the middle of the night, with broken 16 "They're not doing safety, and I would like for you 16 lines. There was one where, in the middle of 17 17 to talk to the team." And so Nathan came to Sheri winter, you guys were out there for two to three 18 18 and told her that they needed to have the proper days in the freezing cold with a line break. And I 19 19 safety equipment to do the site project properly. believe it was outside of Birney. I can't know 20 They were digging in a hole without a cover and 20 exactly, but it was on the Northern Cheyenne 21 box, basically a big metal box to keep the dirt 21 somewhere. 22 22 from falling in on them. There was a time where you were 23 23 And once that happened and that was called to do a project for the -- I don't even want 24 confronted to her husband, basically everything 24 to -- I'll just call it Paul's old house, I guess, 25 25 went spiraled out of control. And then within two where he used to live. A trailer house where

Page 463 Page 461 1 sewage was actually coming directly out of the 1 THE COURT: Okay. Okay. 2 2 house onto the property, not going anywhere into THE WITNESS: Just his helper. 3 3 the sewer lagoons or to the proper thing. And we THE COURT: Okay. No worries. And I just 4 4 actually built and had to dig up an entire line wanted to follow up on one part of your testimony 5 5 to make sure I'm sort of understanding perhaps the there. 6 6 There was a time where you had to do a chronology. Because I think at one point, 7 main waterline on the east side, which took several 7 Mr. Pierce asked about whether he was ever an 8 8 days. You did that with the NCUC crews. And operator, and I think you said something about they 9 9 basically, they had all walked off on the end of tried and it was taken away in a 24-hour period. 10 that shift, and you and I and our son, actually, 10 So can you elaborate and give me some time frame? 11 11 yes, who was 16 at the time stayed until 3:30 in THE WITNESS: So what had happened is Sheri the morning to get their water up and running so 12 12 was told by IHS that she had to have a water 13 that they had water for their Sun Dance. 13 operator and a sewer operator on-site. They had 14 14 Q. Perfect. So you would say that my just recently fired their water operator, and so 15 15 duties and obligations weren't just simply going they had no water operator and no sewer operator. 16 down and dealing with sewer. It was dealing with a 16 So Sheri went and did the classes to do the -- to 17 17 lot of different issues on the reservation. become that water and sewer operator and failed the 18 correct? 18 test and called Nathan and myself and asked if he 19 19 A. Correct. would be willing to take those tests. 20 20 MR. PIERCE: Your Honor, I think that's all I He actually did the class. Never did 21 have. 21 take the test, but he had applied. And she had 22 22 THE COURT: Okay. Just a little bit of written in a contract that he was going to be the 23 23 follow-up before I turn it over. In terms of the operator, and then within 12 to 24 hours later, 24 company, the LLC, PLLC --24 sent a notification that, nope, she wasn't going to 25 25 THE WITNESS: Uh-huh. do that or couldn't do that. And then he was no Page 462 Page 464 1 THE COURT: -- do you know more particularly 1 longer the operator of NCUC. 2 2 when it was dissolved? So it was just -- and it was just like a 3 THE WITNESS: End of 2018, beginning of 2019, 3 temporary thing anyway. But it was just one of those, like, "We need it for this, for IHS, and we 4 I believe. Basically, this project killed this 4 5 5 needed it immediately today." And so she basically company. 6 THE COURT: And how long had the company 6 used his name and then took it away. 7 7 existed prior to this? THE COURT: And roughly when did this happen? 8 THE WITNESS: 2016. So about two and a half 8 THE WITNESS: It would have been before the 9 9 years. sewer lagoon projects, actually. So it would have 10 THE COURT: Okay. And did you have a role in 10 been probably April or May, spring. 11 the company? Did you have an office or position 11 THE COURT: Of 2018? 12 or? 12 THE WITNESS: 2018. 13 THE WITNESS: No. I was just my husband's 13 THE COURT: Okay. 14 wife. I just helped him when I could on my days 14 THE WITNESS: I believe that's when the 15 off. I worked as a registered nurse. I did three 15 classes were, when you did those classes. I could 16 12-hour shifts in surgery, plus I was a clinical 16 be wrong. 17 supervisor for them for over 15 years, a nurse for 17 THE COURT: Okay. That's okay. I mean, just 18 over 20 years. 18 as much as --THE WITNESS: Somewhere in there, yeah. It 19 THE COURT: Okay. So was your husband the 19 20 president, then, of Adamas? 20 was -- it was a couple months before any of the 21 THE WITNESS: Yes. 21 lagoon projects started. 22 22 THE COURT: Okay. And you didn't -- you THE COURT: Okay. All right. Thank you. 23 weren't like a VP or secretary, treasurer, nothing 23 THE WITNESS: And he never did take the test 24 like that? 24 after that. He was just like, "Well, I'm done 25 THE WITNESS: No. Just his wife. 25 helping you at this point. Like, I will do the

Page 465 Page 467 1 contracting stuff, but I'm not going to intermix 1 nursing. There were days our son would be there to 2 2 them, the business." help, but there were days he was in school. There 3 3 THE COURT: Okay. And to your knowledge, has was other employees that we would bring onto the 4 4 there been any prior history of violations site, but only as needed. 5 5 involving Adamas Corporation or Nathan Pierce THE COURT: Okay. 6 6 individually with respect to EPA? THE WITNESS: And so that's how she kept 7 7 THE WITNESS: Not that I know of. track of who was working and how many hours were 8 8 THE COURT: Okay. And when you mentioned the worked. 9 9 daily documents that were to go to Sheri Bement --THE COURT: Okay. 10 THE WITNESS: Yes. 10 THE WITNESS: And I don't know what happened 11 11 to that book, to be honest. We never saw it after THE COURT: -- do you know whether or not Adamas or Nathan Pierce individually supplied that 12 12 we got locked out of the site. 13 13 THE COURT: Okay. 14 14 THE WITNESS: Yes, I know that they were THE WITNESS: And never given any information 15 15 supplied daily. about what happened to it, where the samples went, 16 THE COURT: They were supplied --16 nothing. Or even if they were resubmitted. 17 17 THE WITNESS: They were handwritten, spiral THE COURT: Okay. Okay. I'm going to give 18 18 notebook that they came in and would write the complainant the opportunity to ask you some 19 amounts, who worked that day, and if any samples 19 questions about what you said thus far in your 20 20 were given and taken, and they would be left next testimony. Was there anything else you wanted to 21 to the notebook. And they -- NCUC said that they 21 be sure that I know about when I review all of this 22 22 and come to a decision, whether that be liability would take and send everything to the lab and keep 23 23 all the results and records. And she made it very alone or liability and penalty? 24 clear that that was their obligation and not ours, 24 THE WITNESS: You know, honestly, I think the 25 25 and that she was going to take care of that. biggest thing is just that we went there to try to Page 466 Page 468 1 THE COURT: And when you say she made that 1 help on many occasions. And the sewer lagoon 2 very clear, can you give me some context? Was it 2 project started because NCUC wanted the contract 3 3 like a meeting? Was it a phone call? How was that for that and wanted the say in how that was done 4 conveyed? 4 instead of letting IHS just hire contractors for 5 5 them. She had asked Nathan to do the project with THE WITNESS: It was conveyed almost every 6 time they were on-site, that she was in control and 6 7 7 that everything went through NCUC and went through THE COURT: Now, "she" is? 8 8 THE WITNESS: Sheri Bement. 9 9 THE COURT: Was this like a verbal --THE COURT: Okay. 10 THE WITNESS: This was a verbal thing almost 10 THE WITNESS: And so he told her he would 11 daily --11 help her build it and do it, and they walked 12 THE COURT: Okay. 12 through together on how it was going to be done. 13 THE WITNESS: -- that she was -- she was 13 And within -- the first check got submitted. Money definitely the power of everything. And she made 14 14 started disappearing. We contacted her for 15 that very clear every day. 15 payment. Didn't get anywhere. We contacted IHS to 16 16 THE COURT: Okay. And so in terms of that kind of help maybe get our payment so that we could 17 17 logbook, I think you previously mentioned the daily pay for the contractors. Because we had the frack 18 18 information supplied to Ms. Bement, gallons pumped, tanks on-site, but couldn't get the FLUMP to do the 19 19 and samples taken? dredging to put the sewage into the frack tanks 20 20 THE WITNESS: Yeah. until that payment was there because we couldn't 21 THE COURT: Okay. Anything else? 21 pay the \$25,000 down for that delivery of that 22 22 THE WITNESS: And crew that was working that FLUMP. And so once we addressed the money, that's 23 23 day, because sometimes it would change. Like, when things started spinning out of control. 24 there would be days that I would go and help, but 24 THE COURT: Okay. All right. Anything else 25 25 there were days I wasn't there because I was that comes to mind?

Page 469 Page 471 1 THE WITNESS: No. 1 that project, correct? 2 2 THE COURT: Okay. All right. A. That's what we were told by Jim and 3 Complainant, who would like to question? 3 James Courtney. 4 MS. KACSUR: Yes, Your Honor. We just have a 4 THE COURT: And the last part of that? 5 5 few questions. THE WITNESS: James Courtney. 6 6 THE COURT: Sure. Take your time. THE COURT: Okay. 7 **CROSS-EXAMINATION** 7 THE WITNESS: And Jim White. 8 8 BY MS. KACSUR: BY MS. KACSUR: 9 9 Q. You also testified that NCUC tried -- or Q. Mrs. Pierce, do you recognize this 10 document? 10 briefly did make Nathan Pierce the operator, right? 11 A. I do. 11 A. Yes, for less than 24 hours. Or tried 12 12 Q. Can you describe it for me? to, anyway. 13 A. It was a -- I believe a letter to -- I 13 Q. So, in your opinion, would Nathan Pierce 14 14 could -- I believe IHS. I could be wrong. I'm not possess the requisite knowledge to be an operator 15 15 sure directly who it was. But it was kind of of a lagoon? 16 explaining the situation that was going on with 16 A. No, because he did not have access to 17 17 Sheri Bement and the situation that I knew about. all of their records. In order to be an operator, 18 18 Q. So you wrote this letter? you have to be able to document and have access to 19 A. Yes. 19 their equipment and things. He did not have that. 20 20 MS. KACSUR: I'm sorry. For clarification, He was just there to help. 21 we're on page 24 of CX46. 21 Q. But he had the requisite experience and 22 22 BY MS. KACSUR: capabilities, other than the records, to be an 23 23 Q. Can I have you scroll to the bottom of operator, correct? 24 24 A. He had taken the class. this page. In the last paragraph, there is a 25 sentence right in the middle that begins, "Nathan 25 Q. The dispute with NCUC arose after the Page 470 Page 472 1 and Sheri and IHS (Quintin Allen.)" Can I have you 1 sludge had already begun to be applied, correct? 2 read that sentence for me? 2 3 A. "Nathan and Sheri and IHS (Quintin 3 Q. When did the NCUC dispute begin? Allen) then had a conference call to deal with the 4 4 A. When the site prospect errors were 5 5 issues of contract breach, and it was determined starting to be addressed. 6 then that Adamas Construction would do the lagoon 6 Q. And when was that, approximately? 7 7 project alone with no use of NCUC equipment or A. Beginning of August. 8 8 staff, but NCUC would still remain the primary Q. Adamas did not claim to no longer be a 9 9 contractor of the contract. Adamas Construction contractor with NCUC until after the application 10 would work with only NCUC crew and equipment for 10 project began, correct? 11 the camera and cleaning projects, and Sheri would 11 A. Correct. 12 be the project manager for the site work projects." 12 MS. KACSUR: Can we look now at CX56, et. 13 Q. Thank you. 13 14 Can we go to the next page? And in that 14 BY MS. KACSUR: 15 first paragraph there -- for the record, this is 15 Q. Do you recognize this document? 16 page 25 -- there is a sentence in the first 16 A. I do not. 17 17 paragraph that begins, "Sheri did not come." Can I Q. Do you recognize the law firm at the top 18 have you read just that sentence? 18 of this document? 19 19 A. "Sheri did not come to the site to see A. I do not. I believe it was from a 2.0 what was being pumped, how it was being pumped, or 20 gentleman that maybe Nathan had reached out to when 21 what the crew was doing to meet the contract 21 we got the first issues with IHS and EPA. I could 22 22 needs." be wrong. I don't know exactly. That was not my 23 23 Q. Thank you. purview. I didn't do any of the lawyer stuff. 24 You testified earlier that Sheri wasn't 24 That was him. 25 25 familiar enough with the lagoons to be in charge of MS. KACSUR: Can we go to the second page?

Page 473 Page 475 1 1 BY MS. KACSUR: there was also what they called scattered site 2 2 Q. And can I have you read the -projects. So they worked on things like opening 3 3 MS. KACSUR: Can you scroll up a bit? and access to their gate valves because the utility 4 4 MR. PIERCE: Your Honor, I mean, I know that company didn't know where the locations of most of 5 5 we're building a record here, and I think some of their gate valve was. In fact, Nathan and Sean 6 6 these highlighted and skipped over portions are Bad Bear actually found old maps and located all of 7 7 creating not an accurate description of what's the gate valves throughout the city of Lame Deer 8 8 going on in this document. We seem to be and actually had to un-bury several of them to the 9 9 point where even when they pulled one up, there was cherry-picking them and skipping over certain words 10 and then adding portions of other sentences, and it 10 a snake inside and had to kill the snake. And 11 11 seems like it's getting very confusing. yeah, it was bad. But anyway. 12 THE COURT: In terms of what's actually being 12 THE COURT: Okay. So that triggered a lot of 13 13 read into the record? this in your opinion? 14 14 MR. PIERCE: That's correct. THE WITNESS: Yes. Well, what had happened 15 15 THE COURT: Okay. Well, you can -- I mean, was because Cummins went to Nathan and said 16 I'm going to have it all, obviously. I realize 16 there's -- "They are not meeting protocol for 17 17 that there are certain points that the parties want safety." And so when Nathan brought that up to to emphasize, but that's not what I'm limited to. 18 18 Sheri and Jim, who was her husband, they became 19 19 MR. PIERCE: Sure. very defensive. And then after that, that first 20 20 THE COURT: That being said, though, one payment came in for the lagoon project, and the 21 21 option would be to, when you have the opportunity money started disappearing and didn't go to the 22 22 to redirect, if you will, if you want to point out contractors. And when addressed, that's -- it was 23 23 some of those other areas that you think might all within, like, a week period. It was just 24 provide some context, you're welcome to. 24 literally, like -- I don't know how to -- it was 25 25 MR. PIERCE: Sure. like watching a wildfire, just -- I mean, it Page 474 Page 476 1 THE COURT: Otherwise, you know, all I can 1 just -- it started, and within two weeks it was an 2 2 say is I'll be looking at everything in its utter chaos. 3 3 entirety. THE COURT: Okay. 4 Okay. Please go ahead. 4 THE WITNESS: Literally a complaint from 5 5 BY MS. KACSUR: George about the site projects. He went to her and 6 Q. Can I have you read the first bullet? 6 Jim. After that, a confrontation started, and it 7 A. "When IHS and NC Tribal Council signed just continued. 8 the fixed price agreement with NCUC, IHS and the 8 THE COURT: Okay. And the only other quick 9 9 Tribal Council were aware that NCUC did not have question I had with regard to operator -- operator 10 the technical expertise or equipment contacts to do 10 qualifications. 11 11 this project without the participation of Adamas in THE WITNESS: Okay. 12 the projects." 12 THE COURT: I know that you -- I've heard 13 MS. KACSUR: Thank you. 13 this a couple of times through your testimony that 14 14 We have no further questions. you talked about taking classes. 15 15 THE COURT: Okay. I actually just had two THE WITNESS: Yes. 16 quick follow-ups if you don't mind me hopping in 16 THE COURT: And then taking a test. 17 17 before I forget. THE WITNESS: He took the classes for the 18 When you mentioned, Mrs. Pierce, that in 18 water and sewer. So it was a two-day class offered 19 19 early August I think you said there were site through -- I don't know who it was through. But it 20 20 errors, and when those were addressed was when was at the city college there on the west end of 21 21 problems started. That --Billings, and he was gone for two days, which they 22 THE WITNESS: Yes. 22 did water and sewer. Basically, they went over the 23 THE COURT: -- may not be a verbatim quote. 23 manual, I guess. I don't know. And then he was 24 24 supposed to take the test. But then she put him in But what site errors?

as the operator and then took it away. And after

25

THE WITNESS: So part of the lagoon project,

25

that he decided he wasn't going to do the test or deal with that aspect of it whatsoever to even help them. THE COURT: Okay. So "he" is Nathan Pierce? THE WITNESS: Yes. Sorry. THE COURT: And "she" is Sheri Bement, right? THE WITNESS: Yes. THE COURT: Okay. So Sheri removed THE WITNESS: Yes. THE COURT: Okay. So Sheri removed THE WITNESS: After she told IHS he was. Page 481 Page 483 1 1 THE WITNESS: Yes, ma'am. looked at pretty heavily is the intent, was the 2 2 THE COURT: Okay. Please have a seat, intended violation there? But moreover, we've 3 3 Mr. Pierce. And -heard here from other testimony that the person who 4 4 **EXAMINATION** is in control of the site and the overall facility 5 5 MR. PIERCE: For the record, my name is as well as contract -- a contractor cannot contract 6 6 Nathan Pierce. N-A-T-H-A-N, P-I-E-R-C-E. away their liability. There's been multiple 7 7 THE COURT: And just a few kind of documents that have been shown here today that 8 8 preliminary things. With regard to the shows NCUC ultimately accepted that responsibility. 9 9 corporation, what was your role in Adamas There's multiple documents here today that point 10 Construction and Development Services? 10 out, regardless of what the EPA is trying to 11 11 THE WITNESS: I was the owner, operator, and assert, that, in fact, NCUC was the main contractor 12 12 manager. General manager, excuse me. and person in control of this entire operation. 13 13 THE COURT: And roughly how long did the And so when asked for documents, the 14 business exist? 14 documents that I didn't have, I responded to the 15 15 THE WITNESS: So the business existed for EPA immediately and tried to provide them access to 16 16 the information or documents that they needed. So, about four years. 17 17 THE COURT: And I think Mrs. Pierce spoke to to me, if a person, you know, is asking for 18 18 this, but if you want to corroborate or if you are documents or records and you don't have them, I 19 19 able to be more specific, do you know when it was think the most responsible thing you can do is 20 20 dissolved? point out where they can access or find those 21 THE WITNESS: 2019, I believe, is when it was 21 records. They were able to do so. So the idea 22 22 dissolved. that I didn't respond I think is completely 23 THE COURT: Okay. And did the basis for 23 disingenuous on its face. They may not have liked 24 dissolution stem from this particular project or 24 the response, but the response was given. 25 25 were there other things that factored into it? THE COURT: Okay. Did you withhold Page 482 Page 484 1 THE WITNESS: No, ma'am. It was directly 1 anything --2 2 from this project. THE WITNESS: No, ma'am. 3 3 THE COURT: Okay. THE COURT: -- from them? THE WITNESS: In fact, I tried to point them 4 THE WITNESS: Not getting paid for close to 4 5 5 90 -- you know, 90 to 120 days just steamrolled to every place that they could find the information 6 everything downhill. 6 they were seeking. 7 7 THE COURT: And I guess are there -- the THE COURT: Okay. With regard to this 8 8 documents that -- I mean, this is a big record. project, can you either just confirm or reiterate 9 9 THE WITNESS: Yes, ma'am. for me what aspects of it you physically did? 10 THE COURT: So the documents, I'll just say 10 THE WITNESS: Sure. Yes, Your Honor. The 11 broadly -- if you're not comfortable answering, 11 aspect that I physically did is I took the FLUMP, 12 it's okay. But the documents that -- as I go 12 which is a -- basically, it's a boat that has a 13 through, that appear to be attributed to 13 head on it, and I put it inside the ponds. I ran 14 14 you -- e-mails from you, things that appear to bear that back and forth, and it pumped from the ponds 15 your signature -- any question about that, or do 15 into the frack tanks. 16 16 you acknowledge that they are from you? Other than that, I worked as a technical 17 THE WITNESS: They're from me if they have my 17 consultant as per my stated contract with NCUC. 18 signature, Your Honor. 18 And I believe that's the same thing that James 19 19 THE COURT: Okay. Or your e-mail? Courtney described as a consultant. 20 20 THE WITNESS: That's correct, Your Honor. THE COURT: And then what I'm kind of piecing 21 THE COURT: Okay. All right. So what would 21 together, then, is Mr. Sprague came in with regard 22 22 you like to make sure that I know about with to removing the sludge from the frack tanks --23 respect to both liability and penalty? 23 THE WITNESS: Yes, ma'am. 24 THE WITNESS: So I think when it comes to the 24 THE COURT: -- into his equipment --25 25 liability aspect, one of the things that should be THE WITNESS: Yes, ma'am.

Page 485 Page 487 1 THE COURT: -- in order to then transport it 1 of the project players there. That had Sheri 2 2 Bement. That had engineers from Pioneer Technical to Mr. Robinson's property? 3 3 THE WITNESS: That's correct. Yes, Your Services. That had engineers from IHS. Meaning 4 4 Honor. there were lots of different people, including 5 5 THE COURT: And then Mr. Sprague then sprayed tribal council members, because we're dealing with 6 6 or spread out that sludge that Mr. Robinson then the Northern Cheyenne Reservation here. 7 tilled into the soil? 7 THE COURT: Is that meeting the one that's 8 8 THE WITNESS: Yes, ma'am. That's correct. been referred to as the pre-construction meeting? 9 9 THE COURT: Okay. So with regard to THE WITNESS: No, ma'am. 10 Mr. Sprague's piece of this, to what extent -- I 10 THE COURT: Okay. 11 realize there's the subcontractor agreement. To 11 THE WITNESS: There were lots of 12 what extent did you supervise his work, his piece 12 pre-construction. There was a -- I think there was 13 13 of it? probably a total of six meetings prior to the 14 THE WITNESS: Very limited, Your Honor. 14 project ever being signed into agreement. Then 15 15 THE COURT: Okay. there was probably three different types of 16 THE WITNESS: I went out for the initial 16 pre-construction meetings, one at IHS. And so that 17 17 meeting as he spoke, that sort of ten-person was the pre-construction meeting between IHS, 18 18 circle. And that was pretty much the extent of my myself, and NCUC to where they sort of explained. 19 19 control as to where he dumped, when he dumped, what There were three different contracts 20 20 time he went. That was all independently and up to that we were dealing with here. The sewer lagoon 21 21 renovation project, the sewer camera and cleaning 22 22 THE COURT: In that circle, was that a project, and then as my wife mentioned, the 23 23 one-meeting thing? scattered site project. Which scattered site 24 THE WITNESS: Yes, ma'am. 24 projects have to do with installing septics, wells, 25 THE COURT: Do you remember about when that 25 building homes for the -- individual homes on a Page 486 Page 488 1 happened? 1 reservation. It's money that's provided by IHS 2 2 THE WITNESS: Boy. I'm going to say it would through a funding program. 3 3 have to be close to the time that I signed the So we had that meeting. Then we had another pre-construction meeting at the Northern 4 contract with Tom Robinson. So around 8/18-ish, 4 5 5 Cheyenne Utility Commission office. And again, a somewhere in that time frame. 6 THE COURT: Okay. And to the best of your 6 lot of the main players were there. And there was 7 7 recollection, who was in the initial circle? pretty much a layout of the project, how it was 8 8 THE WITNESS: So George Cummins, Sheri going to go, who was going to do what, what all the 9 9 Bement, Jim Bement, myself, Spencer Lande, Sean records and obligations were. 10 Bad Bear, Ernie Sprague, and Tom Robinson -- Ernie 10 I believe at that point, James Courtney 11 Sprague -- excuse me -- and Tom Robinson. And I 11 had reiterated the 503 requirements for NCUC. And 12 don't -- I think that was the gist of it. 12 I believe he memorialized in his meeting notes that 13 THE COURT: Okay. 13 he had told them they were ultimately responsible THE WITNESS: I don't think there was anybody 14 for the 503 requirements and to follow and make 14 15 15 sure that those were followed. 16 16 MS. PIERCE: Frank Backbone? THE COURT: Okay. And then so going back 17 MR. PIERCE: Sorry? 17 then to this, what I'm calling an initial 18 18 MS. PIERCE: Frank. circle meeting that sounds like was relating 19 MR. PIERCE: Frank Backbone. Yes, ma'am. 19 to the hauling and applying of the sludge on 20 20 THE COURT: Okay. And what -- as it relates Mr. Robinson's property --21 to what I need to evaluate, what all was covered in 21 THE WITNESS: Yes, ma'am. 22 22 THE COURT: Did -- was there discussion about that initial circle meeting? 23 THE WITNESS: So the primary -- there were 23 the 503 requirements and what records would have to 24 two actual meetings. There was one meeting at the 24 be developed, and who would develop them, and who 25 25 Northern Cheyenne Utility Commission. That had all would keep them, and were there any conversations

Page 491 Page 489 1 1 THE COURT: So with respect to that about the records piece? 2 THE WITNESS: Yes, ma'am. And I believe 2 requirement and this project, did you ever collect 3 3 Mr. Sprague had confirmed that earlier in his any records from anybody that would need to be 4 4 testimony as well. maintained and potentially turned over to NCUC? 5 5 THE COURT: And so did some of that come from THE WITNESS: I did not, because I felt they 6 6 you, then, to these individuals with whom you were already in NCUC's possession. 7 7 subcontracted? THE COURT: Okay. Were there any, you know, 8 8 THE WITNESS: So a good majority of the 503 meetings or discussions that you had with NCUC to 9 9 confirm whether they had the 503 records or information came from James Courtney and/or George 10 Cummins. I did provide 503 information in my 10 anything? 11 11 contracts, as you have seen, to reiterate to THE WITNESS: The meetings and discussions 12 for settlement with IHS, that was brought up and 12 everybody that there were obligations, and that 13 13 discussed at that time. they needed to go ahead and follow those, and that 14 14 we were expecting them to follow those obligations. THE COURT: Okay. 15 15 THE COURT: Did you ever follow up with any THE WITNESS: So ... 16 of your subcontractors to determine whether they 16 THE COURT: But not when all of this was 17 were developing the records and to be able to 17 transpiring? 18 18 THE WITNESS: So let me rephrase. The comply with 503? 19 THE WITNESS: Yeah. I followed up with both 19 meeting, meaning the settlement meeting, with IHS. 20 20 Ernie and Tom before the contract to ensure that So after all of this sort of fell apart, Dion 21 they were doing those. We were also developing out 21 Killsback memorialized that he represented Adamas 2.2 22 records at NCUC for them and were instructed that and NCUC in negotiations with IHS for payment of 23 23 they were going to -- as they were ultimately the contract. At that point, it was discussed with 2.4 2.4 IHS that NCUC had those records. responsible for the 503 and they were the NPDES 25 permit holder, they were going to be the ones who 25 THE COURT: Okay. Anything else you want to Page 490 Page 492 1 were taking care of the records and making sure 1 share with me about the records piece, the 503 2 2 that those got stored appropriately for the records, developing and maintaining records? 3 3 project. THE WITNESS: No, Your Honor. I mean, I 4 THE COURT: "They" being NCUC? 4 think the plain English reading of the law is 5 5 THE WITNESS: NCUC, yes, ma'am. pretty -- it states that the applier or person who 6 THE COURT: Did you ever collect records from 6 applies shall maintain those records. 7 7 Tom Robinson or Ernie Sprague? THE COURT: Okay. So turning just for a 8 8 THE WITNESS: No, ma'am. After I got served minute to, like, the operator piece, if I can call 9 9 with the initial request for information, I did it that. I heard some testimony from Mrs. Pierce 10 10 reach out to them and explain that they needed to about that. Would you like to elaborate or fill in 11 go ahead and provide that information. My attorney 11 any gaps or --12 12 THE WITNESS: Yes, ma'am. also sent a letter to Dion Killsback from the 13 Northern Chevenne Utility Commission, attorney for 13 THE COURT: Okay. 14 14 THE WITNESS: So Sheri Bement actually -- the the Northern Cheyenne Utility Commission, asking 15 him to provide that information to the EPA and 15 reference of naming me as the operator actually 16 16 explaining that we had received their request and came in front of the EPA Region 8 inspectors. She 17 17 we are now asking for you to provide the documents attempted to hold me out as the operator, which I 18 18 that are in your control. did correct that position. She wanted me to be the 19 19 THE COURT: Okay. And did you ever collect operator for the sewer and water system of the 20 any documents and maintain that? 20 Lame -- of the Northern Cheyenne Reservation. We 21 THE WITNESS: So I guess did I collect 21 had developed out an initial verbal agreement that 22 22 documents and maintain them? Yes, ma'am. I would become the temporary operator. 23 23 THE COURT: With regard to 503. Because I'm Within a 24-hour period, she came back 24 really focused on these claims in this. 24 to me and said that her board of directors did not 25 25 THE WITNESS: Right. want that to happen. She also explained to me some

I had gone through the classes, as my wife had mentioned. In the state of Montana you're required to go through classes, and then you are -- you have to take a test to show that you have the skills necessary to meet the operator limits. Depending on the size of the system, the requirements can be extremely, extremely stringent or strict. So there's a lot of different determination there.

Once you pass that test and make application to the state, the state will issue an operator's license and send that to you. I did not complete the application process. I did not complete the test process.

THE COURT: And as it relates to, you know, the claims that are made here in Claim 2, is there anything that you wanted to share on your own with me to consider about the allegations with respect to you being an operator?

said before taking the stand you didn't really think there was anything more that you could add. But anything come to mind that you want to offer testimony about?

THE WITNESS: Hard to get blood from a turnip, I mean.

THE COURT: With regard to the history of prior violations, any?

THE WITNESS: None.

THE COURT: Okay. There's what I kind of call a catch-all, if you will, that often appears in penalty consideration, whether it's the Clean Water Act or other statutes that I encounter, called "other matters as justice may require." So anything else you want to tell me under oath that you would like me to consider if I reach the issue of penalty and penalty mitigation?

THE WITNESS: No, Your Honor.

THE COURT: Okay. Anything else at all before I turn it over?

THE WITNESS: No, ma'am.

22 THE COURT: Okay.

Any questions for Mr. Pierce?

24 MR. MUEHLBERGER: Yes, Your Honor.

25 THE COURT: Please.

THE WITNESS: So, I mean, in order to -- you can say anybody's activities with regard to a sewer system could be an operator, but an operator has very specific duties. They have very specific obligations as to the system, as to the recordkeeping requirements, testing, sampling, the reporting for the NPDES permit. I mean, there are a lot of things that an operator has to do. And simply being a subcontractor who works on similar projects does not automatically make one an operator.

At no time did I ever hold myself out to be the operator of the NCUC system or the Northern Cheyenne systems, and I am not an operator. The Northern Cheyenne Utility Commission had a temporary operator that was working there named Raymond Pine. He was their foreman and operator on a temporary basis. He was also somebody that Sheri Bement made me give daily reports to. Unfortunately, Mr. Pine passed away. THE COURT: Okay. Anything else you wanted

to share with regard to that?

THE WITNESS: No, Your Honor.

THE COURT: Okay. And then with respect to the, you know, penalty factors, I know that you

Page 494

1 CROSS-EXAMINATION 2 BY MR. MUEHLBERGER: 3 Q. Mr. Pierce, I know this is well-tread 4 ground at this point. But there's some parts of 5 the record that I want to talk about, and then I've 6 just got a few follow-up questions here. 7

You just said that you never held yourself out as an operator. But didn't you say in an e-mail to IHS and NCUC in August of 2018, "I would fall under the NCUC umbrella as the sewer operator"? Did you not say that?

A. I did say that.

Q. Okay. And then you said, "I'm no longer the temporary sewer operator for the NCUC." Did you say that?

A. That's correct, yes.

Q. Okay. Concerning the sludge removal and application project, you told NCUC and IHS that Adamas Construction was responsible for completing the project, correct?

A. I told them that we would follow the 503 regulations.

Q. Well, let's be clear about this. In addition to telling them that you would follow the 503 regulations, didn't you also say that Adamas

Page 497 Page 499 1 1 Pierce have been subcontracted by NCUC to be the would complete the project itself? 2 2 A. So I did not say Adamas would complete project manager and technical consultant for this 3 3 the project itself. I said that we would complete project." 4 4 the project --Q. Can you read the second line, please? 5 Q. Okay. 5 A. "Work will be completed according to the 6 6 A. -- in the terms of the agreement we had standards of the Northern Cheyenne Regulations, 7 with the Northern Cheyenne Utility Commission. 7 U.S. Environmental Protection Agency Part 503." 8 8 MR. MUEHLBERGER: Can we look at Q. In June of 2018, you wrote an e-mail to 9 9 Complainant's Exhibit 45, et. 33? Okay. Thank NCUC and IHS that there would be no NCUC equipment 10 you. 10 or staff that would be used in the sludge removal 11 BY MR. MUEHLBERGER: 11 and application project, right? 12 12 Q. Could you read that third bullet point A. So can you ask that question again? I'm 13 13 that's highlighted there, please? sorry. 14 A. "It is understood for this contract, the 14 Q. Sure. In June -- to be specific, June 15 term 'Adamas Construction and Development Services' 15 21st, 2018, you sent an e-mail to IHS and to NCUC, 16 or 'Adamas' includes all of our subcontractors, 16 and you said, "Nathan Pierce will be the project 17 subconsultants, engineers and other team members." 17 manager for the sludge removal project with the 18 Q. So you were taking responsibility for 18 understanding that no NCUC equipment or staff will 19 your subcontractors through this statement, right? 19 be used." 20 A. I am stating out here that that term 20 A. That agreement was never honored. 21 includes all of those people. 21 O. But you said that? 22 Q. Okay. You also --22 A. I did say it, but it was never honored. 23 A. I didn't say that I accept liability for 23 Q. Okay. And after the project was 2.4 them. I just said the term includes. 24 complete --25 Q. Okay. So by including the 25 A. The project was never completed. Page 498 Page 500 1 subcontractors in the term "Adamas," you are 1 Q. After the sludge had been applied to 2 representing to NCUC and IHS that the 2 Mr. Robinson's property in August of 2018, 3 3 subcontractors are, in fact, Adamas? afterwards, your attorney said in an e-mail in 4 A. The subcontractors would have been 4 April 2019, that Adamas Construction completed all 5 5 subcontracted to NCUC. of the work with the sludge removal and application 6 Q. Now, Mr. Pierce, the two contractors 6 project, correct? 7 7 that we've talked about at length here between you A. That's what my attorney said to the IHS, 8 8 and Tom Robinson and between you and Ernie Sprague, I believe. 9 9 is NCUC a party to those contracts? Q. Thank you. 10 A. So NCUC would be a party to the contract 10 Your attorney also said -- or one of 11 because they're a party to Adamas' contract, and 11 your attorneys after this project also said that 12 12 those subcontractors are a party to that contract. NCUC didn't have the expertise or the equipment to 13 Q. Those two contracts that we've gone over 13 complete the project, right? 14 many, many times here, is NCUC a party to those 14 A. I believe that was rejected by IHS, and 15 15 that argument was --16 A. NCUC is a party to the contracts by what 16 Q. Did your attorney say that NCUC didn't 17 17 you're inferring here. have the expertise or equipment to complete the 18 Q. Was NCUC a signatory to either of the 18 project? 19 19 contracts between you and Mr. Sprague or you and He said that, but he has no firsthand 2.0 Mr. Robinson? 20 knowledge. 21 A. No. Without the NCUC approval, those 21 Q. Okay. Earlier, Mrs. Pierce testified 22 22 contracts would never be possible. that during the sludge removal -- during the sludge 23 23 Q. Could you please read the first preparation part of the project, that you were 24 highlighted line on this document? 24 producing daily records and giving them to NCUC. 25 25 A. "It is understood that Adamas and Nathan This wasn't -- none of these records were found in

Page 501 Page 503 said they would take responsibility for the project 1 your 308 response or in your prehearing exchange, 1 2 2 and comply with the regulations, correct? 3 A. Well, I gave them to NCUC. 3 A. The records don't indicate that. The 4 4 Q. You didn't keep any copies for yourself? records indicate that, in fact, NCUC and IHS did 5 A. We were writing them down, as she said, 5 not follow through with that agreement. The record 6 in a spiral notebook assigned by NCUC. We asked 6 also indicates that I did not take over the 7 7 for them afterwards. My attorney sent a letter, project. The record also indicates from the 8 8 which you have a copy of that letter, requesting testimony here today that IHS and NCUC remained and 9 9 those documents, and they didn't turn them over. retained control of the project and the site. 10 My attorney asked them to send them directly to 10 Q. Okay. Yet, your attorney asserted 11 11 afterwards that Adamas completed all of the work 12 12 Q. Okay. I also want to make something for the sewage sludge project? 13 13 clear. Earlier, you seemed to indicate that IHS A. That was something the government had 14 14 already rejected. was responsible for producing some of the records 15 under the 503 recordkeeping requirements. Did I 15 Q. Okay. 16 16 A. I think you're a bit estopped on that hear that correctly? 17 A. I guess I can't recall whether or not 17 situation. 18 18 that was something that was said, so I can't Q. Okay. This dispute between NCUC and the 19 confirm or deny whether that was correct. 19 subcontractors, most of this took place after the 20 2.0 Q. Okay. Well, let's be clear here. So sludge had already been applied to Mr. Robinson's 21 21 land, right? IHS was not a preparer of sludge, correct? 22 22 A. That's not correct. A. I disagree. They were in charge, as 23 23 Ernie Sprague had testified. Q. Okay. Around the time that it got 2.4 24 Q. Did any person that works for IHS do any applied? 25 of the physical labor that was part of preparing 25 A. Near the time that it got applied, yes. Page 502 Page 504 1 the sludge? 1 Q. Okay. So let's be clear about one 2 A. George Cummins came out and did 2 thing. At the time that the sludge was being put 3 3 inspections. He did all kinds of things. So yeah. down on Mr. Robinson's property, you were still 4 Q. Inspections? 4 expecting to get paid for that project, correct? 5 5 A. Correct, yes. And he was also in A. I was expecting to get paid for the work 6 6 I performed during the project. charge. 7 7 Q. Okay. And was IHS an applier of sludge? Q. Okay. So earlier Mr. Sprague and 8 8 A. So IHS caused the sludge to be applied. Mr. Robinson testified that you never directed 9 9 Q. Because they initiated the project? either of them to create records associated with 10 10 A. That's correct. sludge application management practices, right? 11 Q. But Adamas said that they would take 11 A. No, they did not. 12 12 full responsibility for that --Q. Yes -- okay. Mr. Robinson testified 13 A. That is not correct. NCUC said they 13 that you never discussed with him creating records 14 14 would take full responsibility. for management practices, site restrictions, or 15 Q. As we've already talked about in the 15 vector attraction. 16 16 A. And after being reminded, he changed scope of work and in this document, you said that 17 17 you were taking full responsibility for -that testimony. 18 18 A. That's not true. Q. I think he changed his testimony that he 19 19 Q. -- this project. received information about agronomic rates, 20 THE COURT: Hold on. He needs to finish his 20 21 question, and then you can answer. 21 A. I believe he changed his testimony as to 22 THE WITNESS: Sure. 22 whether or not the answer should be "no" still. 23 23 THE COURT: Go ahead, Mr. Muehlberger. Q. Okay. When I asked if you had directed 24 24 BY MR. MUEHLBERGER: him to create records for management practices, 25 25 Q. Okay. The records indicate that Adamas site restrictions, and vector attraction, he said

Page 505 Page 507 1 1 has no further questions, Your Honor. 2 A. Okay. That's what he said. 2 THE COURT: All right. Thank you, 3 Q. Okay. And Mr. Sprague testified that 3 Mr. Muehlberger. 4 4 you never told him that he needed to create records Two quick follow-ups, and then if 5 concerning vector attraction and management 5 there's anything you want to add, you can. I know 6 6 practices, but that you had a verbal conversation there's nobody here to question you in redirect, 7 7 about site restrictions; is that correct? but... 8 8 With respect to the testimony about the That's correct. 9 9 Q. Okay. So, to date, you have never project wasn't complete despite representations 10 submitted any records to EPA concerning sludge 10 made by your attorney, why wasn't the project 11 11 application management practices as required by 12 THE WITNESS: Your Honor, as Mr. Sprague had 12 Part 503, correct? 13 13 already testified, we were locked out of the entire A. Part 503 doesn't apply to me. You 14 haven't proved that it ever did. 14 project. And Tom Robinson also testified that the 15 15 Q. Could you please answer the question? project was not complete. 16 To date, have you ever submitted any 16 THE COURT: Okay. Do you -- do you 17 sludge application management practices -- practice 17 know -- and Mr. Robinson may have testified to 18 18 records? this, I just can't remember. That's why we have 19 A. Any sludge management practice records? 19 the -- or Mr. Sprague may have testified to this. 20 2.0 Q. Sorry. But we have the transcript to go back to. But do 21 21 A. No. you happen to know about when that lockout occurred 22 2.2 Q. Sludge application management practices? relative to the length of time the project was 23 23 supposed to take? Q. And to date, have you ever submitted any 24 THE WITNESS: So the lockout occurred 24 25 records to EPA concerning sludge application site 25 probably about midway through the project. Page 506 Page 508 1 restrictions? 1 THE COURT: Okay. 2 A. No. 2 THE WITNESS: As Mr. Sprague said, there was 3 3 Q. And to date, have you ever submitted any about eight days of actual activity that happened 4 records to EPA concerning vector attraction? 4 on the project. And then everybody sort of got 5 5 A. No. Actually, that's not correct. I locked out, and the whole project went belly-up 6 have submitted to the EPA my subcontract with Tom 6 from there. 7 7 Robinson that explains to him he needs to follow THE COURT: Okay. And with respect to your 8 8 those 503 parts. And it also explains to him that testimony in response to Mr. Muehlberger's 9 9 he needed to till the -- till the sludge into the questions about a dispute that arose near the 10 soil within six hours, and that is a vector 10 time -- I think I wrote this down wrong. If I did, 11 reduction practice. 11 my apologies. But that there was a dispute that 12 12 Q. Earlier, you testified that you arose near the time the sludge was being applied to 13 communicated to Mr. Sprague and Mr. Robinson about 13 Mr. Robinson's land. What dispute was that? 14 14 producing records after you received the EPA 308 THE WITNESS: So the dispute that had 15 request. Those communications aren't reflected in 15 happened, and what my wife had alluded to, again, I 16 the record, right? 16 was hired as a technical consultant and project 17 17 A. I believe Mr. Sprague testified that we manager. The scattered site projects, there was a 18 18 had spoke. waterline break that needed to be repaired. And 19 19 O. But there's no communication in the when you dig a trench, safety requirements provide 20 record to indicate that you asked Mr. Sprague or 20 that if it's so many feet below the surface, that 21 Mr. Robinson to produce records after EPA issued 21 you should have a trench box, which is a big metal 22 22 you the 308 request, right? box. That way, if it sloughs in, you don't get 23 23 A. I guess there's nothing in the record buried. 24 that would indicate that, no. 24 I was called over to that project, and 25 25 MR. MUEHLBERGER: One minute, please. EPA the NCUC workers were down in the -- about a

Page 511 Page 509 1 14-foot hole with no safety equipment whatsoever. 1 circumstances pointing to possibly being an 2 2 And so I explained to them that we needed to get a operator, but there -- I was never an operator. 3 3 trench box, get it put in there to do the project There's circumstance that I supposedly took over 4 4 safe and to do it in the proper manner. the project, but I was never allowed to take over 5 5 That sort of created a little friction the project. So there's a lot of circumstantial 6 6 between me and Jim Bement, Sheri Bement's husband. evidence here. But I think the facts really bear 7 He was also their foreman. And so he felt like, 7 out that I was one of the only people involved in 8 8 "Screw you. I don't need to listen to you." And I this entire project and tried to follow the 9 9 was supposed to be the project manager and regulations and tried to get everybody else to 10 technical consultant. 10 follow the regulations. 11 After that, there was a discussion about 11 THE COURT: Okay. Anything else? IHS taking over the scattered site projects -- or 12 12 THE WITNESS: No, ma'am. 13 excuse me -- NCUC taking over the scattered site 13 THE COURT: All right. Did that raise 14 projects, my company taking over the sewer camera 14 anything else from complainant? 15 and cleaning project and taking over the sewer 15 MR. MUEHLBERGER: No, Your Honor. No further 16 lagoon project. That was never brought to 16 questions. 17 fruition. And in fact, the very next day, 17 THE COURT: All right. Thank you very much 18 everybody said, "Nope, that's not going to happen." 18 for your testimony, Mr. Pierce. 19 And Sheri told me, "I'm still in charge. You're 19 THE WITNESS: Thank you. 20 going to report to me." 20 THE COURT: Okay. So anything else, then, 21 THE COURT: Okay. Okay. So the scattered 21 from respondents with regard to the presentation of 22 site, that's really a separate project from this? 22 your case? 23 THE WITNESS: Yes, ma'am. 23 MR. PIERCE: Respondents rest, Your Honor. 24 THE COURT: That's what the dispute was 24 THE COURT: Okay. And any rebuttal? 25 about? 25 MR. MUEHLBERGER: No, Your Honor. There is Page 510 Page 512 1 THE WITNESS: Yes, ma'am. And then there 1 one issue the complainants would like to raise 2 2 started to become issues with payment, so... while we're still on the record. 3 3 THE COURT: Sure. THE COURT: Payment with the sludge project? MR. MUEHLBERGER: Earlier, Mr. Sprague made 4 THE WITNESS: Right. We had a mobilization 4 5 5 an assertion about EPA telling him that he could payment that was supposed to come in. And so 6 mobilization payment is just to get all the main 6 not say certain things that were in the record. 7 7 And since that is now part of the record, I'm equipment there and everything that's needed to 8 8 actually do the job. Well, we noticed that the certainly prepared to address that if -- if you 9 9 money wasn't quite right, and that created friction want to hear about that. You kind of handled as it 10 10 was happening. But I just want to make sure, since between Sheri. She was the only person who had 11 access to request the money. We couldn't even 11 it's in the record, that it's -- that it's dealt 12 12 with properly. request payments. 13 THE COURT: Why was that? 13 THE COURT: Okay. 14 14 THE WITNESS: She was the main contractor. MR. PIERCE: Your Honor, can I chime in a 15 THE COURT: Okay. 15 little bit? 16 16 THE WITNESS: And her contract was with IHS. THE COURT: You can. 17 17 MR. PIERCE: I understand his position. But And I was not the contractor. And IHS points that 18 18 without Mr. Sprague being here to further clarify out in their letter to my attorney. 19 19 THE COURT: Okay. Those were the only two what he meant, I think we're trying to change a 20 follow-ups I had. Was there anything else you 20 narrative. 21 wanted to offer, you know, in response to what 21 THE COURT: Well, I guess what I was 22 22 you've said thus far or -interpret -- and maybe I'm mistaken here, but what 23 23 THE WITNESS: I just think there is a lot of I was interpreting you to want to say was simply to 24 focus on circumstance and not a lot of focus on the 24 present your position with respect to what you were 25 25 facts as they are. I mean, there's some going to focus on with the witness. But was there

Page 513 Page 515 1 1 something else you were going to say? map, the GIS map, and 2, the fixed price agreement. 2 2 MR. MUEHLBERGER: I just want to make sure MR. PIERCE: Yes, ma'am. 3 3 that the record is clear that EPA in no way told THE COURT: Okay. So are we all -- I'm not 4 4 missing anything. That's what I want to make sure. any witness that they are prevented from saying 5 5 anything that is in the record or speaking to or I've got everything that you all expect me to have. 6 6 reading anything that is in the record. In fact, Are we on the same page, Mr. Pierce? 7 7 EPA made it very clear that, at the beginning of MR. PIERCE: We are, yes, Your Honor. 8 8 our meeting, that we were not telling them what THE COURT: Okay. And from complainant? 9 9 MS. KACSUR: Your Honor, we would just like they could or could not say during testimony. 10 THE COURT: Okay. Thank you. I think it 10 to request again a URL for JX2 just so we can 11 11 suffices. You know, I understand that parties will verify it's a publicly available document. 12 12 have a particular focus of what they want to draw THE COURT: Oh, sure. 13 13 MR. PIERCE: Sure. I can get that, Your out in a witness. And with regard to Mr. Sprague, 14 14 since he was identified, I believe, as somebody Honor. But it is a government document. 15 15 both sides were going to call, you know, I -- I THE COURT: Yeah. Do you have that handy to 16 assumed, and I think what played out, is that you 16 be able to produce it? 17 17 both drew out everything you wanted, and MR. PIERCE: I don't have it right on me, but 18 18 Mr. Sprague got a lot off his chest of some things I can certainly get that for you. I do have it on 19 19 that he wanted to be sure to share with the my computer at home, so I can -- I can e-mail. 20 20 tribunal, too. So I don't -- I mean, I feel like THE COURT: Is that okay or do you want to be 21 21 it was important to give you the opportunity to say able to have it on the record? 22 22 that, because you're licensed attorneys, and there MS. KACSUR: Would it be possible to have it 23 23 are ethics issues. And I understand wanting to on the -- to admit JX2 contingent on us obtaining 24 24 clear the air, so to speak. But I think -- I think the URL and then that document being --25 25 the record is clear unless anybody needs to say MR. PIERCE: It's already been admitted, Page 514 Page 516 1 anything else about it. 1 hasn't it? 2 2 MR. MUEHLBERGER: Thank you, Your Honor. THE COURT: Yeah. You know, that would 3 3 MR. PIERCE: I have nothing, Your Honor. require me to hold the record open, and I really THE COURT: Okay. All right. So then are 4 4 don't like to do that. Let me ask you this: Is 5 5 you prepared to close? Do you wish to make any there a way, I mean, to do a quick Google search 6 closing arguments? Do you want to waive closing? 6 and pull that up? 7 7 It's up to you. MR. PIERCE: We can try, Your Honor. It 8 MR. MUEHLBERGER: Complainant will not be 8 was difficult in finding in the fact that it's 9 producing a closing statement. 9 so -- so old, I mean. So all bids from the United 10 THE COURT: Okay. And --10 States government are public records. 11 MR. PIERCE: Neither will the respondent, 11 THE COURT: Okay. Do you want to take a 12 12 Your Honor. little break to look for it? Would that help? 13 THE COURT: Okay. All right. So then I 13 MR. PIERCE: Yes, Your Honor. 14 14 guess we're at the point of concluding. I don't THE COURT: Okay. So, I mean, we're good on 15 want to take a lot of time. I'm sure everybody is 15 time. Why don't we just take 15 minutes as a 16 16 tired. But just quickly, once I close the record, comfort break to find the URL. We'll clear that 17 17 which I'll do here momentarily, that closes the up, and then I'll be concluding shortly thereafter. 18 18 evidentiary record. No further evidence. I think Does that work? 19 19 we've got -- I will just very quickly -- I think MR. MUEHLBERGER: That works. 20 20 it's really pretty clear we have into evidence THE COURT: Okay. All right. We'll do that. 21 CX -- hold on one second. I don't want to mess 21 I'll see you back in about 15. 22 22 this up. I've got all of complainant's exhibits, (Whereupon, a brief 23 which take me from CX1 through CX58. I have all of 23 recess was taken.) 24 respondent's exhibits that take me from RX1 through 24 THE COURT: We're back on record after just a 25 25 RX28. And then we have two joint exhibits; 1, the brief break to try to obtain that URL. Any luck,

Page 519 Page 517 1 Mr. Pierce? 1 we'll have it as well. We might be able to somehow 2 2 MR. PIERCE: Your Honor, I actually found the add that to our case tracking system or something 3 3 document on the EPA's own website, but when I click like that just to kind of memorialize the 4 on the document, it takes me to a different 4 circulation of it. 5 5 document. So I don't -- I'm not finding the URL MR. MUEHLBERGER: Your Honor, if I could just 6 6 that I have, but... add if Mr. Pierce is unable to produce the URL, I 7 7 THE COURT: Were you able to show that to would just like to have it in the record that it is 8 complainant? 8 not then a publicly available document as asserted. 9 MR. PIERCE: I did show that to them. 9 THE COURT: Are you --10 MS. KACSUR: I wasn't able to view the 10 MR. PIERCE: That's fine, Your Honor. 11 document itself. I was just listening. I just 11 THE COURT: -- willing to so stipulate? 12 believe in what he was telling me. 12 MR. PIERCE: That's fine, Your Honor. 13 THE COURT: Okay. All right. Well, so where 13 THE COURT: Okay. All right. All right. I 14 is the document? Is it on your computer at home, 14 think that's good. That's fine. 15 15 Okay. So at this point, I will, in just 16 MR. PIERCE: So the URL that I searched would 16 a minute, be closing the record. It will take me a 17 be on my computer at home. 17 little bit just to sort of pack up. I have to find 18 THE COURT: Okay. 18 where this is plugged in and all of that. So I 19 MR. PIERCE: So the document itself is right 19 will just ask you all to not have any further 20 here on my computer. 20 discussions with me because we'll be off record. 21 THE COURT: Right. Well, that's already in. 21 But I appreciate all of you being here. I 22 Well, are you -- I mean, it was admitted. I didn't 22 appreciate the courtesy and professionalism you've necessarily know that there was a problem, but I 23 23 shown one another and the tribunal throughout the 24 also understand your point. Are you uncomfortable 24 hearing. So thank you. We'll be issuing -- once 25 with me considering it until you've had a chance to 25 we get the transcript, we'll be sending that out to Page 518 Page 520 1 pull it up publicly? 1 both sides. And then as I mentioned at the outset, 2 MR. MUEHLBERGER: So, Mr. Pierce, you were 2 we'll issue, like, a post-hearing kind of briefing 3 3 saying that you could produce this URL from home order that sets some deadlines for any motions to and send it to us? 4 4 conform the transcript and then the briefing -- the 5 5 MR. PIERCE: I believe, yes, I can do that. briefing schedule. And then once all those things 6 MR. MUEHLBERGER: Okay. We're comfortable 6 are submitted, I'll be reviewing everything and 7 7 coming to a decision, a written decision that will with that approach. 8 8 THE COURT: Okay. So it will remain in the be sent out to everybody. And that is appealable 9 9 record? to the EAB should either side disagree. 10 MR. MUEHLBERGER: Right. 10 Any questions before we wrap it up, 11 THE COURT: Okay. All right. That's fine. 11 then? 12 Thank you. That will maybe streamline things. 12 MR. MUEHLBERGER: No, Your Honor. 13 13 And, you know, I would say just for transparency, THE COURT: No. 14 14 MR. PIERCE: No, thank you, Your Honor. maybe just circulate it not only to complainant but 15 THE COURT: All right. Thank you all. Safe 15 to Ms. Almase. And are you able to supply that to 16 16 the court reporter? travels home. I'll conclude the hearing. Thank 17 MR. PIERCE: Sure. Yeah. I mean, I have her 17 you very much to the court reporter. I'll conclude 18 the hearing, and we'll go off the record. 18 e-mail address. 19 (Whereupon, Joint Exhibits Nos. JX1 and 19 THE COURT: Okav. Great. 20 JX2 were admitted into evidence.) 20 MR. PIERCE: I can certainly send that to 21 her. 21 22 (Whereupon, the proceedings concluded at 22 THE COURT: That would be great. And that 23 3:46 p.m.) 23 way, it's just kind of memorialized as having been 24 24 circulated. And if the court reporter has it, it 25 25 can be noted somehow, maybe, in the record. And
