Attached please find the concurrence for the requested waiver of Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Scientific Advisory Panel (SAP) Review of the draft Chlorpyrifos; Notice of Intent to Cancel Pesticide Registrations (NOIC). The FIFRA SAP concurs that the draft notice does not contain scientific issues that warrant review by the Panel.

MEMORANDUM

SUBJECT: Request for Waiver of Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Scientific Advisory Panel (SAP) Review of the draft *Chlorpyrifos; Notice of Intent to Cancel Pesticide Registrations (NOIC)*

FROM: Steven M. Knott, MS, Executive Secretary
FIFRA Scientific Advisory Panel

TO: Robert Chapin, PhD, Chair
FIFRA Scientific Advisory Panel

Attached is EPA Office of Pesticide Programs' (OPP's) request for a waiver of FIFRA SAP review of the draft *Chlorpyrifos; Notice of Intent to Cancel Pesticide Registrations (NOIC)* that EPA intends to issue (the draft Federal Register document begins on pg. 3).

FIFRA section 25(d) requires that EPA submit a draft notice of intent to cancel to the SAP for comment concerning the impact of the proposed action on health and the environment, but also that the SAP may waive its review. 7 U.S.C. 136w(d). Because all tolerances for chlorpyrifos have been revoked for the reasons set forth in the Final Rule and Denial Order and summarized in Unit IV of the attached draft NOIC, the cancellation is purely an administrative action to cancel pesticide registrations that do not, as a legal matter, meet the FIFRA standard for registration. As a result, the draft NOIC will not contain any scientific issues for consideration by the SAP. Because there are no scientific issues for consideration in this cancellation, OPP requests that the SAP waive its review of the draft NOIC under section 25(d) of FIFRA. The most recent version of that draft is attached.

Therefore, OPP is requesting that the SAP waive its review of the draft NOIC to cancel these products. Please indicate below whether you concur with OPP's request and I will notify the Program accordingly.

RECOMMENDATION:

The FIFRA Scientific Advisory Panel waives scientific review and comment on the Draft *Chlorpyrifos; Notice of Intent to Cancel Pesticide Registrations (NOIC)*. The draft NOIC does not contain scientific issues that warrant review by the Panel.
