Subject: Extension Request - Adamas Construction and Development

Dear Mr. Person

I am replying on behalf of EPA's Biosolids Center to your October 17, 2018, letter seeking an extension of time for Mr. Pierce and Adamas Construction and Development, PLLC, to respond to the Center's CWA Section 308 information request. While the EPA is willing to grant an extension, it does not believe that it should require your clients 90 days to obtain information that should have been readily available or in their possession at the time of the land application activities in question. The agency is willing to grant an additional 30 days from the date of your clients' receipt of the information request. Please submit the response on or before November 23, 2018.

Please feel free to contact me if you have any questions or concerns.

Regards,

Dan Breedlove
