**Attachments:** Update on DCPA developmental thyroid studies 23 May 2017.docx

Hi Kay,

Please see the attached update on DCPA developmental thyroid studies and note Ann's request below for EPA's review and comment/approval by 14-July. Let me know if you have questions or need additional information.

Thanks,

*Jon*

Hi Jon

Here is a study Summary of Phase 1A, for EPA's review and acceptance. This will then allow us to proceed into Phases 11 and 111, where animal order is currently scheduled for 9 August. If EPA could respond back to us with their approval and or any comments by 14 July, then we can be certain of keeping this study on its current schedule at the testing lab.

Regards

Ann
