Hi Marqueea,

I have an important update for you on the DCPA Developmental Thyroid studies that you'll most likely want to share with your technical review team at your meeting (tomorrow?). The lab (ENVIGO) has encountered technical difficulties with the range finding work that requires a rerun of Phase I of the study. The attached memo from the lab describes the current situation and outlines the schedule of activities going forward. The revised target for delivery of a final report is Q4 2018.

We apologize for these delays, but I'm sure you can appreciate the technical challenges associated with these special studies. Please let me know if you need further clarification.

Best regards,

Jon

Hi Jon,
Thanks very much for the courtesy copy. I'll give our fate and effects division a heads up that it's coming.

Have a great Turkey Day as well!

Marquee,

THANKS for taking time today to bring me up to speed with DCPA Reg. Review....
and thank you for the DER as well.

I've attached a courtesy copy of our submission made to the Document Processing
Desk today.

Please call me if you have questions.....meanwhile, I hope you have a HAPPY
THANKSGIVING! ☺

Hi Marquea,

I am now managing DCPA registrations and am attempting to catch up on past events. The attached spreadsheet listing Reg. Review DCI requirements is daunting to say the least! I certainly do not expect you to have the status of all of these studies and waivers at your fingertips, but I would like to discuss timing etc. when you have a moment. Please let me know a time that is convenient for me to call you to introduce myself and do some catching up.

Thanks!

Best regards,

Jon

Hello Dr. King,

I updated the attached Registration Review Status spreadsheet to include the response you sent and it seems we are still waiting for an EPA response regarding several guidelines (noted in the column titled 'current status'). I just wanted to check with you to ensure I am not missing any EPA responses.

When you have a moment, please review the guidelines noted as 'waiting for EPA response' and confirm the status.

Thank you,
Julie

Hi Julie,
I will attempt to update your information for DCPA. If it is unsuccessful then I shall let you know.
Thanks so much!

Thank you Dr. King.

AMVAC currently has 4 regulatory product managers working with EPA and I personally manage DCPA so if the contact can be changed by AI then yes please update the contact information. Otherwise, please let me know if it needs to be one contact for all AMVAC products and I will provide the appropriate person.

Thank you,
Julie

Hi Ms. Porter,

Should I update the contact information in our PRISM system? I used the email address listed there. I am happy to know that you did in fact get the response.

Thanks very much,

MDKing

Morning,

Here is the formal response from the Environmental Fate and Effects Division (EFED) of OPP, to the proposed waiver request for DCPA chronic study testing on *Leptocheirus plumulosus*.

Please contact me if there are any further questions/comments.

Thank you,

MDKing
