Hi James,

We have encountered problems with the CDX Portal submissions as we have attempted (since last Friday) to submit two Dacthal studies. Apparently CDX will only accept the transmittal letter (courtesy copy attached here) and not the two GL studies. We contacted CDX support and the problem relates to our previous submission of several waiver requests from 22-Feb-2018 that was submitted properly (per attached CDX report and email below) but was apparently not properly pulled down into EPA's system, creating a sort of portal log jam.

So, I am hoping that you can free the jam by pulling down the 22-Feb-2018 submission and thereby make it possible for us to complete our 07-Aug-2020 submission of two GL studies. My concern is that EPA reviewers have not actually seen the waivers submitted over two years ago!

If you also happen to encounter issues retrieving waivers or studies, please let me know if you would like me to email pdfs directly to your attention.

Thanks and contact me if you have questions or need additional information.

Stay safe!

Jon
