In the matter of CWA-07-2022-0042 and CWA-07-2022-0134 I wish to ask for a 30 day extension to file documents and comply with orders. I have spoken with Shane Mcoin , Assistant Regional Counsel on November 10, 2022. She has been very helpful and emailed me several documents. She stated that she does not have the authority to grant extensions and I must file for a motion. We agreed to speak again on November 15 to set up a date and time for a conference. I have met on site with REGA Engineering Group and EA Engineering both of Lincoln NE to assist me in this matter. They need additional time to do research and answer and ask questions relating to this matter. I am compiling all of my documentation and photos to assist in resolution. There is no work being done on site with seeding and preventative erosion controls in place. I feel that this matter can be resolved with both parties working together for a positive mutual resolution without court hearing.
