JUDGE WRIGHT: Yes. MR. RAYMOND: Because I had to send it back to EPA after I signed it. JUDGE WRIGHT: Okay. No problem. MR. RAYMOND: So, I just sent a PDF and just sent it back to them without JUDGE WRIGHT: Okay. MR. RAYMOND: That's how I did it; I sent it electronic. JUDGE WRIGHT: All right. So that's all fine. (Joint JX-1 marked and received.) JUDGE WRIGHT: Okay. All right; you may proceed. MS. KACSUR: All right, thank you, Your Honor. I would like to begin with an opening statement. Your Honor, my name is Katherine Kacsur, and I represent the Environmental Protection Agency in this matter.

4	Q. Ms. Bednar, can you walk us through this attempted	4	Raymond; I have a question for you.
5	inspection in your own words and everything that you saw?	5	As far as your experience with FIFRA, you
6	A. Sure. When we entered the storefront, there were	6	mentioned that was one of the areas that you have experience
7	pesticide products for sale throughout the store.	7	in; is that correct?
8	On the left was a bunch of containers of	8	A. Yes.
9	pesticides that looked very similar to the rodenticides that	9	Q. And you said you've been doing that since January
10	we observed at the St. Louis Downtown location that were in	10	of 2020?
11	Ziploc bags. In these bins, that you typically see at maybe	11	A. No. I'm sorry if I was unclear. I actually did
12	a grocery store or a Whole Foods type store, they were	12	FIFRA probably since 2013, at least
13	priced and then they indicated what mammal they were	13	Q. 2013.
14	supposed to prevent or kill. And there were several colors	14	A as a case review officer and an inspector, and
15	of bait blocks and throw packs offered for sale on the store	15	then I became a supervisor in 2020.
16	floor.	16	Q. And have you inspected establishments like
17	On the right, there were more just liquid	17	Wilson's Pest Control in your experience with FIFRA
18	pesticides and things that I had seen similar to what was at	18	inspections before? This type of establishment?
19	the Downtown St. Louis location.	19	A. Yes.
20	And there was a counter, which someone was working	20	Q. How many would you say you've done? This
20	behind.	20	inspection occurred in 2022, so prior to that?
22	Q. So, in your opinion, did pesticides appear to be	22	A. Probably about 10 facilities that I was a lead
23	for sale at this location?	23	inspector, but I
24	A. Yes. They were on the store floor, accessible to	24	Q. Right.
25	customers. They were bagged up. They were priced and	25	A participated in many more inspections.
2.5	eustomers. They were bagged up. They were prieed and	25	A participated in many more inspections.

1	JUDGE WRIGHT: Okay. There was a question about	1	that Mr. Wilson's or Wilson's Pest Control was an EPA
2	the second generation rodenticides only requiring the animal	2	registered facility.
3	to eat the poison once before it would be killed.	3	Does the registration apply to the company, and
4	THE WITNESS: Um-hmm.	4	then any location that he chooses to do business at? Or is
5	JUDGE WRIGHT: Did you say that that dead for	5	it registeredthe registered facility is actually
6	example, that dead rodent who had ingested the second	6	identified as one location, and he would have to register a
7	generation rodenticide, that dead rodent can then become,	7	separate location under a different registration?
8	kind of, like a secondary way to kill other wildlife?	8	THE WITNESS: Yes. So the registration would only
9	THE WITNESS: Yes. And even even first	9	apply to the Downtown location. It's geographic specific,
10	generations will do that, but yes.	10	so if he wanted to produce pesticides at the Overland,
11	JUDGE WRIGHT: Okay. So a dead rat who ate one of	11	Missouri location, then he would have to have an EPA
12	these blocks could be out in the environment and kill, you	12	registered establishment there, as well.
13	know, a bird coming by to eat it?	13	JUDGE WRIGHT: Was the Overland establishment an
14	THE WITNESS: Yes. Or a cat.	14	EPA registered facility?
15	JUDGE WRIGHT: Okay. Okay. Could Mr. Wilson	15	THE WITNESS: I don't believe it was, but I don't
16	break up these bulk containers? We saw those large buckets,	16	know if he was producing pesticides there. I can only say
17	and sell those to the broken up, you know, the contents	17	that he was producing pesticides at the Downtown location.
18	of the containers themselves to pest control operators and	18	JUDGE WRIGHT: And why is that?
19	be in compliance with the regulations?	19	THE WITNESS: From the examination of the back
20	So, for example	20	room where they had the pour-up station, so consolidating,
20	THE WITNESS: Right, right. I don't think he	20	you know, pouring it up into different containers and

This is on a form that has that you write on, and it imprints into the underside that's yellow, and we keep the top white copy, and we provide the yellow copy to the facility. JUDGE WRIGHT: Who did you provide this copy to? THE WITNESS: So they would not take this, so I
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	receive or did you receive any information about the Overland location that suggested it was a place where pesticides and rodenticides were being offered for sale to the general public? THE WITNESS: So, it is a storefront with, like, an open sign and a door and shelving and things, so from the attempted inspection you could observe that. I believe that Missouri Department of Agriculture had attempted to, or had visited the location and indicated that they had pesticides for sale there, as well. JUDGE WRIGHT: Okay. Did Mr. Wilson mention to you at any time during the inspection, or when you were trying to arrange an inspection, that he provided pesticide products to licensed applicators? THE WITNESS: I was not the one who set the inspection up, so I would not be aware of that conversation. JUDGE WRIGHT: Okay. I want to just call your attention to CX-29, again, and I just want to find out from you what's the procedure for providing or filling out and providing this Notice of Inspection? THE WITNESS: So in FIFRA, it is a bit unique from the other programs that I am familiar with. If you have a reason to visit the facility, you suspect a violation, you	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	are potential violations that we would say is a For-Cause Inspection, we wrote those down. Again, whenever we do an inspection, if somebody from the public has made a tip and complaint, or if another agency has told us, "Oh, I don't know, they're doing something, we think they're doing something wrong," or "We find a product on the store shelves that is in violation of FIFRA," we track it back up to the manufacturer to see if that's where the violation occurs. JUDGE WRIGHT: And in this on this occasion for CX-29, do you recall when you filled this out? THE WITNESS: It was a couple of days before the inspection. JUDGE WRIGHT: Okay. And the inspection was on, was it July 27, 2023? THE WITNESS: Yes. JUDGE WRIGHT: Okay. Do you typically provide a copy of this to the person at the location? THE WITNESS: We do. This is on a form that has that you write on, and it imprints into the underside that's yellow, and we keep the top white copy, and we provide the yellow copy to the facility. JUDGE WRIGHT: Who did you provide this copy to?

JUDGE WRIGHT: I believe Page 33 and 34 are the front and back of the same place pack. THE WITNESS: This would be considered an Abbreviated Label, and it would not have everything that is required for a FIFRA label. It has a lot of information on it, but not the complete FIFRA label, which is required. If a container is this big for FIFRA, they will literally have off of it, and it's allowed to be sold in like a two or three ounce container, they will have attached a booklet that contains the complete and total label, even though the booklet itself may be larger than the container. So this would just be an Abbreviated Label for an individual throw pack. JUDGE WRIGHT: Okay. And looking at CX-5. On CX- 5 Page 3, you read at the top "PCO Use Label." THE WITNESS: Um-hmm. So once we get a Total Gravity Adjustment,</li> </ul>	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Page 116 we have here today, what pesticides are represented in Counts 1 through 4? Q. So Count 1 would be the green Contrac block, rodenticide block; Count 2 would be the red Final rodenticide block; Count 3 would be the blue Talon G rodenticide block; and Count 4 is the Maki Mini brown rodenticide block. Q. And why were these pesticides grouped together for the purposes of assessing a penalty? A. Because they were repackaged in the same way. And they have the same similar products, both all rodenticides. Q. What is the FTTS Code for Counts 1 through 4? A. That would be 1AA. Q. And what is 1AA? A. It relates to the Statutory Violation 12(a)(1)(A), which is sale of an unregistered pesticide.

Would you please turn to CX-21 G, which is Page 13. Are you familiar with CX-21 G?</li> <li>A. Yes. This is the FIFRA Civil Penalty Calculation Worksheet for Count 21.</li> <li>Q. How are you familiar with it?</li> <li>A. This is the prepared document for Count 21 or Denial of Inspection.</li> <li>Q. Again, can you say what does Count 21 represent?</li> <li>A. It is the denial of an inspection.</li> <li>Q. And what is the FTTS Code for Count 21?</li> <li>A. That would be 2BD.</li> <li>Q. And what is "2BD"?</li> <li>A. It relates to the Statutory Violation</li> </ul>	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	<ul> <li>Q. Okay.</li> <li>A. It's pronounced like K-R-U-P-P.</li> <li>Q. Okay. All.</li> <li>A. Coffee Maker.</li> <li>Q. The in terms of the calculations here, where does the Inflation Multiplier come from? Where is that derived from?</li> <li>A. Yeah, so that's sent out by the Federal Register.</li> <li>Q. So how current when was this a number I guess, when was that published in the Register?</li> <li>A. I'm not sure exactly when, but when I've start since I've started, for one year we've been using that Inflation Multiplier.</li> <li>Q. Okay. So is it government-wide, then? It's not just applies to the EPA?</li> <li>A. Yes. Yeah .</li> <li>Q. Federal Government wide. And as far as the base penalties, it's pretty uniform throughout. Is that statutory where it's derived from? Or is that in the EPA regs?</li> <li>A. That would be the Enforcement Response Policy.</li> <li>Q. So that's the EPA policy?</li> </ul>

3	I don't know that.	3	A to get the to the Final Gravity Adjustment.
4	Q. Would they would that have affected the	4	Q. But it's the opposite for the Violation Level?
5	your the penalties here that you've assessed?	5	A. Yes. Yeah. They're, kind of, backwards.
6	A. No. Because all all counts have all the	6	Q. And the Violation Level, that's determined by your
7	violations were prior to the inspection.	7	enforcement policy the EPA enforcement policy?
8	Q. Okay. Except that would have been the last count;	8	A. That is correct. Appendix A has a chart in
9	that, obviously, was not prior	9	there
10	A. Well, yes.	10	Q. Okay.
11	Q to the inspection?	11	A related to that.
12	A. Yes.	12	Q. So that's not statutory, it's just based on EPA
13	Q. And I believe you said with respect to, I'm	13	policy?
14	looking at the factors here, Compliance History, I think	14	A. Yes.
15	it's I think it's 0 for throughout the whole thing; is	15	Q. I guess, the Penalty goes up the higher the
16	that correct?	16	Violation Level?
17	A. That's correct.	17	A. Yes. That's correct.
18	Q. And that's based on the fact that you didn't find	18	Q. Okay. All right. And it looks like for Mr.
19	that any violations by Wilson's Pest Control for, you	19	Wilson, the Violation Level was at 1, except for when you
20	said, the past five-year period?	20	get to Counts 15 through 17. I'm looking at Page CX-21,
21	A. Yes.		
22	Q. And, obviously, the EPA keeps records of	21	Page E, it went up to 3. Are you following me?
23	violations?	22	A. Yes. That's correct.
24	A. Yes.	23	Q. And was that based on the product or what does
25	Q. Any violations would be indicated by what your	24	it that it went up, as compared to the prior counts.
		25	A. Yes. Yeah. And in this case, the higher the
	Page 138		Page 140
1	inspection reports or how what what is your source for	1	Violation Level, again, and the higher the Value on the
2	the data for?	2	Violation Level, the less severe. So that's why we got a
3	A. Yeah, we use a we can we can request from	3	smaller Base Penalty off of that. But the products here
4	the Records Center to review previous cases if they have	4	were the throw packs, and because they had that Abbreviated
5	any, like, related names to a certain business. And there's	5	Labeling on the throw packs, they we assessed it at a

7	Q. And that would be, I guess, cases involving prior	7	Q. Okay.
8	inspections and any the outcomes of prior inspections	8	A which was a lower Violation Level. It was a
9	A. Yes.	9	higher number but a lower level.
10	Q. Is that correct?	10	Q. And that Abbreviated that you referred to, goes to
11	Now, as far as the values for Gravity Adjustments,	11	what was on the back of the bag?
12	I believe you said that that goes the lower the number,	12	A. Yes. Yeah. The Abbreviated Label that was on
13	the greater the gravity.	13	those throw packs was is partially registered labeling.
14	A So	14	It's not the complete labeling, but it's on those.
15	Q. That value. That factor.	15	Q. Okay. All right. So it was "abbreviated," in
16	A. So for are we talking about the Gravity	16	your words.
17	Adjustments? Sorry.	17	A. Yeah.
18	Q. Yeah. Yeah. I believe you said, if I understood	18	Q. All right. Does the EPA automatically assess
19	you correctly, that the lower the number, the greater the	19	penalties if you if there's, let's say, a Stop Sale Order rather than just a warning? So, if he gotten a warning,
20	Gravity.	20	would there have been any penalty if Wilson's had gotten a
21 22	A. So not for the Gravity Adjustments; that would be true for the Violation Level.	21 22	would there have been any penalty if wilson's had gotten a warning instead of a Stop Sale Order?
22	Q. The Violation Level.	22	A. No. So if if in this case there was only
23 24	A. Which is, like, is Line 3. Where you have the	23 24	issued a Warning Letter, Civil Penalty wouldn't be issued,
24	Gravity Adjustments is, the greater the Gravity, the higher	24 25	typically. In some cases, we do issue warnings out to

5	would be some, kind of, Civil Penalty?	5	Q. And that's notwithstanding does that assume
6	A. Yes. There could be.	6	does actual knowledge count? Or are just mistakes?
7	Q. So is there any instances where you don't assess a	7	A. Well, so as far as a 4 goes, I mean, it is it

Now, you've heard testimony about the inspection that was conducted in June of 2022. Have you been inspected by the Missouri Department of Agriculture</li> <li>A. Yeah. That</li> <li>Q. prior to June of 2022?</li> <li>A. Yes, sir. That's pretty much where the problem arrived.</li> <li>Q. And what problem was that? Did you get annual inspections from the</li> <li>A. Well, they probably every</li> <li>Q. Periodic? Annual?</li> <li>A three to five years. They don't come around yearly. They just probably every three to five years.</li> <li>Q. Do you remember the last time that you got inspected by the Missouri Department of Agriculture before the EPA inspection in June</li> <li>A. It was actually in '22.</li> <li>Q. Oh. Before when in 2022?</li> <li>A. I don't remember the month, but it was a month before the EPA came in. I'm sorry, a month after the EPA came in.</li> </ul>	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	<ul> <li>pretty much covered under this form. I thought.</li> <li>Q. Okay. Before 2022, do you remember when the last time the you were inspected by the Missouri Department of Agriculture?</li> <li>A. Talking about I guess, about three years ago. 12	Q. Okay.	12	A. Everything we everything we actually dealt
13	A. I took that day off. I had taken that day off so	13	with. Everything. Just everything that they listed, and I
14	I can be there when they come.	14	pointed out. They didn't know the name of the chemicals.
15	Q. Okay. And you were there for the whole time	15	They didn't know anything.
16	A. I was there	16	Q. All right. So what happened after the inspection?
17	Q of the inspection?	17	What was the next thing that you heard from the
18	A for the inspection.	18	A. Well, they told me, yeah, everything was okay.
19	Q. Did you get any, kind of, if you remember, any,	19	And I said, "All right." I said they said everything is
20	kind of, notice about the inspection? Other than the call	20	okay. "You'll be hearing from us." And I heard from

4	A. Yeah. Tremendously.	4	the stuff. If you don't like it if you don't like how
5	Q. And so you're not operating Wilson's Pest Control	5	if it's killing people and it's that toxic, stop letting the
6	anymore?	6	people let's stop letting companies make it. That's all
7	A. That's sad to say, no.	7	I'm saying.
8	Q. Okay. Did you ever when did you first find out	8	I mean, I've been in this business 34 years. No
9	about repackaging agreements?	9	one have never been hurt, harmed, no dog, no cat, no human,
10	A. I'm sorry; you said something about repackaging.	10	no nothing. We take pride in that.
11	That's on the	11	Q. All right. So you're not aware then that of
12	Q. Repackaging; when did you find out about that?	12	any harm being done to any of your customers who purchase
13	Did you did they mention that to you as a result of the	13	A. Not since
14	inspection about repackaging agreements from the suppliers?	14	Q your product?
15	A. I didn't think that was a problem, but once they	15	A I've been in the business. Because I've heard
16	mentioned it and, kind of, pointed it out, you know, where	16	of companies having problems, but that stuff is not that
17	certain things, where it could have been a problem, I	17	toxic. It can barely kill what its designed to kill; the
18	understood. But	18	rats and the mice.
19	Q. Okay.	19	Q. All right. Well, you would agree that the product
20	A I don't think it should have got this far. If	20	has to be used safely, don't you?
21	they I don't think they should be out there putting	21	A. Oh, yeah. I pointed that out earlier. I mean,
22	trying to put people out of business and reaching for money,	22	I'm I'm
23	especially the small business. If you want no. I don't	23	Q. And you don't have any problem
24	think they should do any business like that. I'm sorry.	24	A. Safety's first. I mean, you know, but the thing
25	Reaching for money, putting people out of business; they	25	is, they try to make it look like everything is so toxic. I
