BUSINESS CONFIDENTIALITY ASSERTED

The documents submitted with Respondents' Second Motion to Supplement the Prehearing Exchange contain material claimed to be confidential business information ("CBI") and Personal Identifiable Information ("PII") pursuant to 40 C.F.R. § 2.203(b). The material claimed as PII consists of bank account information on business checks included in Respondents' exhibit RX026. The material claimed as CBI consists of catalytic converter design information contained in Respondents' exhibits RX027, RX028 and RX029. These exhibits are filed under seal.

A complete set of all exhibits, and a set in which the exhibits containing CBI are omitted, are being filed with the Hearing Clerk.

**Docket No.
CAA-HQ-2015-8065**

**RESPONDENTS' SECOND MOTION TO SUPPLEMENT THE PREHEARING
EXCHANGE**

Respondents' Taotao USA, Inc., Taotao Group Co., Ltd., and Jinyun County Xiangyuan Industry Co., Ltd. respectfully file this Second Motion to Supplement the Prehearing Exchange pursuant to section 22.19(f) of the Consolidated Rules of Practice Governing the Administrative Assessment of Civil Penalties and the Revocation/Termination or Suspension of Permits ("Consolidated Rules"), the Hearing Notice and Order issued by this Tribunal on May 9, 2017, and the Order on Respondents' Motion for Continuance of the Hearing issued by this Tribunal on June 27, 2017. Respondents have conferred with Complainant's counsel, and Complainant does not intend to oppose this Motion to the extent that it proposes Margaret Goldstein and Harrison Wolf Consulting as additional witnesses.

The Consolidated Rules direct parties to supplement their prehearing exchanges whenever they learn that the exchange was incomplete, inaccurate, or outdated. 40 C.F.R. § 22.19(f). Respondents are supplementing the Prehearing Exchange to identify two facts witnesses to testify about the efforts undertaken by Respondents to ensure that they were in compliance with the Clean Air Act and related regulations.

Respondents also request leave to supplement the prehearing exchange to include five additional exhibits, together with an updated exhibit index.

A. Potential Witnesses

In addition to the potential witnesses identified in Respondents' Joint Prehearing Exchange and Respondents' First Motion to Supplement the Prehearing Exchange, Respondents may call any or all of the following witnesses at the evidentiary hearing in this matter.

Respondents may supplement this list, upon adequate notice to the Tribunal and to Complainant, should information reveal the need for additional or alternative witnesses and Respondents' Motion for Continuance is granted.

1. Margaret Goldstein, Harrison Wolf Consulting. Ms. Goldstein was employed at Harrison Wolf Consulting, Inc. upon the recommendation of the Agency, and after Complainant informed Taotao USA, Inc., that in an effort to avoid litigation, the Agency would forego its claims arising from certain alleged violations of the 2010 Administrative Settlement Agreement if Respondent Taotao USA paid \$160,000.00 in penalties and retained a professional engineer, licensed in the United States, to oversee implementation of the Vehicle and Engine Compliance Plan ("VECP") and prepare and submit the annual report required by the VECP. *See* CX074-CX077. Ms. Goldstein will testify as a fact witness regarding the efforts made, and tests conducted during her time with Taotao USA.
2. Ryan Tovatt, Shelly Tovatt, or another representative of Harrison Wolf Consulting, Inc. If Ms. Goldstein is unavailable to testify at the hearing, or if she no longer works for Harrison Wolf Consulting, Inc., Respondents' would call another representative of Harrison Wolf, who was present at the time Harrison Wolf was retained by Taotao USA, and has knowledge of the pertinent facts.

B. Documents and Exhibits

Respondents request leave to add five exhibits, numbered RX026 through RX030 to their Prehearing Exchange, together with an updated exhibit index numbered RX000. The additional exhibits include invoices and related documents to supplement the payment record previously submitted as RX011, which show the amounts Respondents' paid in 2014 to conduct emission tests on the purported uncertified vehicles; catalytic converter test results previously submitted to the EPA; addendums to the each of the ten engine families' COC applications; and Business record affidavits. With the exception of the addendums to be filed with the Office of Transportation and Air Quality, all of the exhibits were either provided to Complainant by Respondents, or are being submitted for the purposes of complying with federal rules on the admissibility of evidence. The documents are relevant to the assessment of the penalty as they relate to the following components of Complainant's proposed penalty: gravity, egregiousness, willfulness and negligence, as well as other penalty factors that should be considered in this action.

Copies of the exhibits are provided in tandem with this Motion to Supplement the Prehearing Exchange. All other exhibits that Respondents' intend to introduce as evidence at the hearing that have already been provided in Respondents' Joint Prehearing Exchange, Respondents' First Motion to Supplement the prehearing Exchange and Complainant's Prehearing Exhibits.

Granting this request to supplement the Prehearing Exchange will not cause Complainant undue surprise or prejudice. Much of the material being added to the Prehearing Exchange is already in Complainant's possession, or shared with the Agency during the course of investigations in this matter: the catalytic converter tests were provided as attachments to emails included in Complainant's exhibit CX073; the CEE invoices are submitted as evidence of the records identified in Respondent's previously submitted exhibit, RX011; the addendums are provided to

show Respondents' efforts to remediate the alleged violations; and the affidavits are provided pursuant to Federal Rules of Evidence 803 and 902. Pursuant to § 22.19(f) of the Consolidated Rules, Respondents request the Tribunal grant this Second Motion to Supplement the Prehearing Exchange.

Respectfully Submitted,

COST QUOTE

12/4/2013

David Garibyan
TaoTao USA
14275 Telephone Ave. Unit A
Chino, Ca. 91710

Re: ATV 125cc Certification Testing

Dear David,

This quote is in response to our phone conversation today. The vehicle described in our conversation will require the following costs.

1. 4 Stroke 125 cc Off Road ATV		
a. 10000 KM durability	10000 KM @ \$1.25/KM	\$ 12,500.00
b. Preconditioning Cycle	2 ea. @ \$300.00	600.00
c. CVS75 FTP Test	2 ea. @ \$950.00 ea.	1,900.00
d. Vehicle Maintenance	10ea. @ \$85.00ea.	850.00
d. QA/QC Data		<u>250.00</u>
	Total	\$ 16,100.00

\$6100

These are the costs for the project that you requested a quote for. CEE would supply all the testing documents for you to submit to the EPA/ARB. CEE requires payment in full prior to the start of the project.

Sincerely,
Larry Swiencki
Project Manager
CEE

Test Report

共 2 页 第 1 页
Page 1 of 2 Pages

样品名称 Sample Name	金属载体催化器 Metal carrier catalytic converter	样品编号 Sample NO.	J2011080412-C01
型号规格 Model/Type	██████████ ██████████	样品数量 Quantity	1 件
发动机家族 Engine Family	BTAOX.250AAB	车架代码 VIN	██████████
委托单位 Customer	涛涛集团有限公司 Taotao Group Co. Ltd	委托单编号 NO. of Application form	J2011080412
生产单位 Manufacturer	北京英泰世纪环境科技有限公司 ██████████	样品状况 Sample Condition	无异常 General
测试项目 Test Items	贵金属(铂钯铑)含量检测 Precious metals (platinum palladium and rhodium) content detection	送样日期 Sample Arrival Date	5 th Aug 2011
测试日期 Test Date	5 th Aug 2011~10 th Aug 2011	测试地点 Test site	本中心 The Center
测试依据 Standard Based	按客户要求 According to customer requirement		
结果 Results	<p>来样为金属载体催化器 2 件。样品用盐酸溶解至内芯几乎全部溶解, 用过氧化钠碱溶酸溶后的沉淀物, 将这些溶液混合。碲共沉淀富集混合液中贵金属。王水溶解碲共沉淀物, 用原子吸收光谱仪分析溶液。计算结果。详细结果见第 2 页, 样品试验前形貌见图 1 所示, 样品试验后形貌见图 2 所示。</p> <p>The two samples are metal carrier catalytic converters. Sample is dissolved using hydrochloric acid and the inner core is almost completely dissolved. Sediment after acid dissolution is alkali dissolved using sodium peroxide. Mixed the resulting solution. TiO₂ is added to coprecipitation enrichment noble metal(platinum palladium and rhodium) of mixed liquid. Coprecipitation is dissolved using aqua regia. The absorbance of the resulting solution is measured by atomic absorption spectrometer and the noble metal(platinum palladium and rhodium) content is determined from a previously determined value for the absorptivity. Detailed results are shown in page 2. Sample morphology before test is showed in fig.1, after test is showed fig.2.</p>

结果
Results

来样为金属载体催化剂 1 件。样品用盐酸溶解至内芯几乎全部溶解，用过氧化钠碱溶酸溶后的沉淀物，将这些溶液混合。碲共沉淀富集混合液中贵金属。王水溶解碲共沉淀物，用原子吸收光谱仪分析溶液。计算结果。详细结果见第 2 页，样品试验前形貌见图 1 所示，样品试验后形貌见图 2 所示。

The sample is metal carrier catalytic converters. Sample is dissolved using hydrochloric acid and the inner core is almost completely dissolved. Sediment after acid dissolution is alkali dissolved using sodium peroxide. Mixed the resulting solution. TiO_2 is added to coprecipitation enrichment noble metal(platinum palladium and rhodium) of mixed liquid. Coprecipitation is dissolved using aqua regia. The absorbance of the resulting solution is measured by atomic absorption spectrometer and the noble metal(platinum palladium and rhodium) is determined from a previously determined value for the absorptivity. Sample test morphology before test is showed fig.1. Sample test morphology after test is showed fig.2.
