

A06-0050 06-27-03

Application Form

John Zink Company LLC

Name of facility*

Koch Chemical Technology Group LLC

Name of parent company (if any)

11920 East Apache

Street address

Street address (continued)

Tulsa, Oklahoma 74116

City/State/Zip code

Give us information about your contact person for the National Environmental Performance Track Program.

Name Mr./Mrs./Ms./Dr. Steve A. Clark

Title Environmental/Facilities Manager

Phone 918-234-2730

Fax 918-234-2700

E-mail clarks@kochind.com

Facility/Company Website www.johnzink.com

* If you are applying for multiple facilities, you must call 1-888-339-PTRK(7875)

Section A

Tell us about your facility.

Why do we need this information?

EPA needs background information on your facility to evaluate your application.

What do you need to do?

- ◆ Provide background information on your facility.
- ◆ Identify your environmental requirements.

1 What do you do or make at your facility?

Fabricated steel combustion and pollution control equipment; process burners, flares, vapor recovery units, thermal oxidizers

2 List the North American Industrial Classification System (NAICS) codes that you use to classify business at your facility.

NAICS
332322 332313 332341

3 Does your company meet the Small Business Administration definition of a small business for your sector?

Yes No

4 How many employees (full-time equivalents) currently work at your facility? If you checked "Yes" in question 3 and have fewer than 50 employees at your facility, then you are considered a "small facility" by the Performance Track Program.

- Fewer than 50
 50-99
 100-499
 500-1,000
 More than 1,000

5 Complete the Environmental Requirements Checklist on pages 32-38 of the instructions and enclose it with your application.

Section A, continued

- 6 Optional: Is there anything else you would like to tell us about your facility? Do you participate in other voluntary programs at the local, tribal, State, or Federal level?

Accredited (International Association for Continuing Education & Training) IACET and offer to the public CEM for technical training for combustion technology such as Process Burner Course. Published John Zink Company LLC Combustion Handbook 2002. Described below are some of the products that we offer;

NEXT GENERATION BURNERS: The LeanMix (LM) and LeanPreMix (LPM) Series of burners featuring COOLTechnologies(TM) by John Zink reduces NOx from conventional burners by as much as 90%. The patented design enhances the mixing of incoming fluid streams to both round-flame or flat-flame models. In fact, the diffusion-flame design of COOL Series burners is ideal for ultra-low NOx process-heater applications.

John Zink® flare gas recovery units are a smart solution to reduce combustion emissions, such as NOx, CO and CO2, and turn environmental liability into positive cash flow. Zink's proven vapor-control technologies are recognized by the U.S. Environmental Protection Agency as the Best Demonstrated Technology (BDT) and the Maximum Achievable Control Technology (MACT).

Thermal oxidation has proved to be an effective and safe method for the disposal of a wide variety of hazardous industrial wastes. Virtually all organic compounds can be thermally oxidized with an assured level of destruction. John Zink Company has over 2300 thermal oxidizer installations in service worldwide, destroying an array of hazardous and non-hazardous organic wastes

We have established cooperative working relationship with Federal, State and Local regulatory agencies - such as current research project with the State of Texas and Region VI EPA to analyze model and monitor VOC plume test which are to be performed at our facility to establish technology for ambient air standards for the Houston Texas area.

We also hold combustion technology symposiums such as the flare symposium and invite Federal, State and local agency scientist so that we can share latest combustion technology with them

a testimony to our commitment to reduce and manage waste stream in 2002 we relocated two of our manufacturing facilities which were large quantity generators to our Tulsa facility increasing our production at this facility by 60% but were able to maintain a status of small quantity generator or hazardous waste by improving manufacturing process of the two facilities that were integrated into our facility.

Why do we need this information?

Facilities need to have an operating Environmental Management System (EMS) that meets certain requirements.

What do you need to do?

- ◆ Confirm that your EMS meets the Performance Track requirements.
- ◆ Tell us if you have completed a self-assessment or have had a third-party assessment of your EMS.

Section B

Tell us about your EMS.

Read the EMS requirements on page 9-12 of instructions.
Tell us if your EMS meets these requirements for:

- 1 Environmental policy _____ Yes No
- 2 Planning _____ Yes No
- 3 Implementing and operation _____ Yes No
- 4 Checking and corrective action _____ Yes No
- 5 Management review _____ Yes No
- 6 Have you done a comprehensive review of all activities conducted at your facility that could impact the environment? (i.e., have you done an aspect analysis?) Yes No
- 7 Have you classified your aspects based on their potential harm to the environment, on community concerns, and/or on other objective factors? (i.e., have you determined your significant aspects?) Yes No
- 8 When did you last update your aspect analysis? (mo/yr) 10/02
- 9 Have you completed at least one EMS cycle (plan-do-check-act)? Yes No
- 10 Did this cycle include both an EMS and a compliance audit? Yes No
- 11 Have you completed an objective self-assessment or third-party assessment of your EMS? Yes No
- If yes, what method of EMS assessment did you use?
- | Self-assessment | Third-party assessment |
|--------------------------------|---|
| <input type="checkbox"/> GEMI | <input checked="" type="checkbox"/> ISO 14001 Certification |
| <input type="checkbox"/> CEMP | <input type="checkbox"/> Other |
| <input type="checkbox"/> Other | |

Why do we need this information?

Facilities need to show that they are committed to improving their environmental performance. This means that you can describe past achievements and will make future commitments.

What do you need to do?

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

Section C

Tell us about your past achievements and future commitments.

Part 1 You must report past achievements for at least two environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the instructions. Please quantify each of your aspects using the units listed for that aspect in the Environmental PTrack Information Hotline at 1-888-339-PTRK.

Note to small facilities: If you are a small facility, you must report past achievements for only one environmental aspect.

First achievement

1	What aspect have you selected from the Table on page 29-31?	Total Hazardous Waste	
2	What units are you using to quantify this aspect? (See Table, page 29-31.)	Lbs.	
		PAST	CURRENT
3	List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	18,461	6,229
4	What are the years for which you are reporting these quantities?	2000	2002
5	Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	.6	1.0
6	What is your normalizing factor based on (e.g., production, employment)?	Lbs. of product produced	
7	You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	Process improvements such as; standardization to lower VOC paint products, changed type of solvent used in solvent washers from low flash point to high flash point mineral sprits and aqueous citrus cleaner	

Section C, continued

Second achievement

1 What aspect have you selected from the Table on page 29-31?	Total Solid Waste	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	Lbs.	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	2, 261, 555	1,878, 240
4 What are the years for which you are reporting these quantities?	2000	2002
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	.6	1.0
6 What is your normalizing factor based on (e.g., production, employment)?	Lbs. of product produced	
7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	Process improvements such as; we purchase steel sheet cut to size to fit product lines, implementing material nesting software on shears, plasma and lazer cutting machines, increased production of facility by 60% by closing and relocating 2 other manufacturing facilities into our facility in Tulsa	

Part 2 You must make future commitments for at least four environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the Instructions. The aspects you select for your future commitments should be related to the objectives and targets in your EMS. Where possible, they also should be identified as having a significant environmental impact in your EMS. No more than two of your aspects can be from the same environmental category. If you're not sure how your objectives and targets fit into our aspects or whether your aspects are significant, call the PTrack Information Hotline at 1-888-339-PTRK.

Once you have chosen your four environmental aspects, then fill in all the necessary information for these aspects in the tables on pages 7-10 of this form. Please quantify each of your aspects using the units listed for that aspect in the Environmental Performance Table. Each table that you must fill in corresponds to one of the environmental aspects you have chosen.

We will assume that your performance commitments are based on a constant production or employment level. If you would like to base your commitment on changing production or employment, please fill out optional questions 6a and 6b.

Note to small facilities: If you are a small facility, you must report future commitments for only two environmental aspects.

Section C, continued

First commitment

1 What aspect have you selected from the Table on pages 29-31?	Total Hazardous Waste	
2 What units are you using to quantify this aspect?	Lbs.	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	6,229	5,983
5 What are the years for which you are reporting these quantities?	2002	2005
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.12
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	Lbs. of Product Produced	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Manufacturing Process Improvements, standardized on lower VOC paints, use acetone to prep pre-painted parts and for paint clean-up instead of thinner and added detergent wash system for prep of prepainted parts	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

Section C, continued

Second commitment

1 What aspect have you selected from the Table on pages 29-31?	Total Solid Waste	
2 What units are you using to quantify this aspect?	Lbs.	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	1,878,240	1,253,991
5 What are the years for which you are reporting these quantities?	2002	2005
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.12
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	Lbs. of Product Produced	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Mfg. Process Improvements, vendor furnished steel sheet blanks cut to size for different product lines, implemented cardboard and paper recycling program and recycle wood pallets	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

Section C, continued

Third commitment

1 What aspect have you selected from the Table on pages 29-31?	Total Water - Used	
2 What units are you using to quantify this aspect?	Gallons	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	75,393,276	73,885,411
5 What are the years for which you are reporting these quantities?	2002	2005
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.12
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	Lbs. of Product Produced	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Change in Process, Recycle non-contact cooling water, installed additional cooling tower to increase capacity of system. Shorten combustion equipment test times at R&D Test Facility by planning combustion test to obtain test data quicker, then shutting down equipment quicker. Also determine acceptable data points prior to starting test runs. Add water inlet valve to each test furnaces, this will control flow of water based on temperature of water inside furnace and will eliminate bringing on excess water to flow through furnaces when not needed.	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

Section C, continued

Fourth commitment

1 What aspect have you selected from the Table on pages 29-31?	Emissions of VOC	
2 What units are you using to quantify this aspect?	Tons per Year	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	6.8	5.8
5 What are the years for which you are reporting these quantities?	2002	2005
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.12
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	Lbs. of Product Produced	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Standardize to using only low VOC Paints and other process improvements such as; using acetone to prep pre-painted parts and paint clean-up. Also installed detergent wash system to prep prepainted parts to eliminate thinners.	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

Why do we need this information?

Facilities need to demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

What do you need to do?

- ◆ Describe your approach to public outreach.
- ◆ List three references who are familiar with your facility.

Section D

Tell us about your public outreach and reporting.

1 How do you identify and respond to community concerns?

Per ISO 14001 EMS Core Procedure C7

The Environment Manager coordinates the receipt of communication from external interested parties on environmental issues. Communication includes complaints, inquiries and suggestions. An external communication can be received in many ways at several points in the organization. For example communication can be verbal or received in a letter, fax or Email by:

executives or managers

sales personnel

customer service personnel

reception/security

All communications are answered in writing by the Environment Manager who may request the President to sign the reply. If the reply requires information on the significant environmental aspects, the Environment Manager will consult the respective Vice president or Department Manager and record their decision in 'Final Action'

Records of external communication are referred to when establishing and reviewing environmental objectives in order to take into account the views of interested parties according to the Management Procedure for Objectives and Targets

2 How do you inform community members of important matters that affect them?

Posting on Web Site and Hosting Open House or use of Public Notice through local permitting agency

3 How will you make the Performance Track Annual Performance Report available to the public?

Website www.johnzink.com

Newspaper

Open Houses

Other

Section D, continued

4 Are there any ongoing citizen suits against your facility? Yes No

If yes, describe briefly in the right-hand column.

5 List references below

	<i>Organization</i>	<i>Name</i>	<i>Phone number</i>
<i>Representative of a Community/ Citizen Group</i>	AWMA	Melisa Edge	918-4376-3902
	Brookside Neighborhood Association	Ronald Howell	918-592-7902
<i>State/tribal/local regulator</i>	ODEQ - Risk Communication	Monty Elder	800-869-1400
	ODEQ - Air Permits	Jack Fly	918-293-1616
	ODEQ - Land Protection	Gail Hamil	405-702-5191
<i>Other community/local reference (e.g., emergency management official or business associate)</i>	LEPC	Kay Kittrell	918-596-7361

Section E

Application and Participation Statement.

On behalf of John Zlnk Company LLC
[my facility],

I certify that

I have read and agree to the terms and conditions for Application and Participation in the National Environmental Performance Track, as specified in the *National Environmental Performance Track Program Guide* and in the *Application Instructions*;

- I have personally examined and am familiar with the information contained in this Application, including the Environmental Requirements Checklist. The information contained in this Application is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete, and I have no reason to believe the facility would not meet all program requirements;
- My facility has an environmental management system (EMS), as defined in the Performance Track EMS requirements, including systems to maintain compliance with all applicable Federal, State, tribal, and local environmental requirements in place at the facility, and the EMS will be maintained for the duration of the facility's participation in the program;
- My facility has conducted an objective assessment of its compliance with all Federal, State, tribal, and local environmental requirements, and the facility has corrected all identified instances of potential or actual noncompliance;
- Based on the foregoing compliance assessment and subsequent corrective actions (if any were necessary), my facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with applicable Federal, State, tribal, and local environmental requirements.

I agree that EPA's decision whether to accept participants into or remove them from the National Environmental Performance Track is wholly discretionary, and I waive any right that may exist under any law to challenge EPA's acceptance or removal decision.

I am the senior facility manager and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is applying to this program.

Signature/Date	_____
Printed Name/Title	<u>Mr./Mrs./Ms./Dr. Jim Goodman- (COO) Chief Operations Officer</u>
Phone Number/E-mail	<u>918-234-2907</u>
Facility Name	<u>John Zlnk Company LLC</u>
Facility Street Address	<u>11920 E. Apache</u>
City/State/Zip Code	<u>Tulsa, Oklahoma 74116</u>

Environmental Requirements Checklist

Use the Environmental Requirements Checklist to answer Question 5 in *Section A, Tell us about your facility*. This Checklist will help you identify the *major* Federal, State, tribal, and local environmental requirements that apply at your facility, but it is not an exhaustive list of all environmental requirements that may be applicable at your facility.

Fill in your facility information below and enclose the completed Checklist with your application.

Air Pollution Regulations

Check all that apply

- 1. National Emission Standards for Hazardous Air Pollutants (40 CFR 61)
- 2. Permits and Registration of Air Pollution Sources
- 3. General Emission Standards, Prohibitions, and Restrictions
- 4. Control of Incinerators
- 5. Process Industry Emission Standards
- 6. Control of Fuel Burning Equipment
- 7. Control of VOCs
- 8. Sampling, Testing, and Reporting
- 9. Visible Emissions Standards
- 10. Control of Fugitive Dust
- 11. Toxic Air Pollutants Control
- 12. Vehicle Emissions Inspections and Testing

Other (you must list these if applicable)

- 13. Federal, State, tribal, or local regulations not listed above.
- 14. ID Numbers (specify whether State or Federal).
State ODEQ Okla 2000-14-C

Hazardous Waste Management Regulations

Check all that apply.

- 1. Identification and listing of hazardous waste (40 CFR 261)
 - Characteristic waste
 - Listed waste
- 2. Standards Applicable to Generators of Hazardous Waste (40 CFR 262)
 - Manifesting
 - Pre-transport requirements

- Record keeping/reporting
- 3. Standards Applicable to Transporters of Hazardous Waste (40 CFR 263)
 - Transfer facility requirements
 - Manifest system and record-keeping
 - Hazardous waste discharges
- 4. Standards for Owners and Operators of TSD Facilities (40 CFR 264)
 - General facility standards
 - Preparedness and prevention
 - Contingency plan and emergency procedures
 - Manifest system, record-keeping, and reporting
 - Groundwater protection
 - Financial requirements
 - Use and management of containers
 - Tanks
 - Waste piles
 - Land treatment
 - Incinerators
- 5. Interim Standards for TSD Owners and Operators (40 CFR 265)
- 6. Interim Standards for Owners and Operators of New Hazardous Waste Land Disposal Facilities (40 CFR 267)
- 7. Administered Permit Program (Part B) (40 CFR 270)

Other (you must list these if applicable)

- 8. Federal, State, tribal, or local regulations not listed above
- 9. ID Numbers (specify whether State or Federal).
EPA ID OKD987084860

Hazardous Materials Management

Check all that apply.

- 1. Control of Pollution by Oil and other Hazardous Substances (33 CFR 153)
- 2. Designation of Reportable Quantities and Notification of Hazardous Materials Spill (40 CFR 302)
- 3. Hazardous Materials Transportation Regulations (49 CFR 172-173)
- 4. Worker Right-to-Know Regulations (29 CFR 1910.1200)
- 5. Community Right-to-Know Regulations (40 CFR 350-372)
- 6. Underground Storage Tank Regulations (40 CFR 280-282)

Other (you must list these if applicable)

- 7. Federal, State, tribal, or local regulations not listed above.
- 8. ID Numbers (specify whether State or Federal).

Solid Waste Management

Check all that apply.

- 1. Criteria for Classification of Solid Waste Disposal Facilities and Practices (40 CFR 257)
- 2. Permit Requirements for Solid Waste Disposal Facilities
- 3. Installation of Systems of Refuse Disposal
- 4. Solid Waste Storage and Removal Requirements
- 5. Disposal Requirements for Special Wastes

Other (you must list these if applicable)

- 6. Federal, State, tribal, or local regulations not listed above.
- 7. ID Numbers (specify whether State or Federal).

Water Pollution Control Requirements

Check all that apply.

- 1. Oil Spill Prevention Control and Countermeasures (SPCC) (40 CFR 112)
- 2. Designation of Hazardous Substances (40 CFR 116)
- 3. Determination of Reportable Quantities for Hazardous Substances (40 CFR 117)
- 4. NPDES Permit Requirements (40 CFR 122)
- 5. Toxic Pollutant Effluent Standards (40 CFR 129)
- 6. General Pretreatment Regulations for Existing and New Sources (40 CFR 403)
Name of POTW City Of Tulsa
ID # of POTW
- 7. Organic Chemicals Manufacturing Point Source Effluent Guidelines and Standards (40 CFR 414)
- 8. Inorganic Chemicals Manufacturing Point Source Effluent Guidelines and Standards (40 CFR 415)
- 9. Plastics and Synthetics Point Source Effluent Guidelines and Standards (40 CFR 416)
- 10. Water Quality Standards
- 11. Effluent Limitations for Direct Dischargers
- 12. Permit Monitoring/Reporting Requirements
- 13. Classifications and Certifications of Operators and Superintendents of Industrial Wastewater Plants
- 14. Collection, Handling, and Processing of Sewage Sludge
- 15. Oil Discharge Containment, Control and Cleanup
- 16. Standards Applicable to Indirect Discharges (Pretreatment)

Other (you must list these if applicable)

- 17. Federal, State, tribal, or local regulations not listed above.
- 18. ID Numbers (specify whether State or Federal).

Drinking Water Regulations

Check all that apply.

- 1. Underground Injection and Control Regulations, Criteria and Standards (40 CFR 144, 146)
- 2. National Primary Drinking Water Standards (40 CFR 141)
- 3. Community Water Systems, Monitoring and Reporting Requirements (40 CFR 141)
- 4. Permit Requirements for Appropriation/Use of Water from Surface or Subsurface Sources
- 5. Underground Injection Control Requirements
- 6. Monitoring, Reporting and Record keeping Requirements for Community Water Systems

Other (you must list these if applicable)

- 7. Federal, State, tribal, or local regulations not listed above.
- 8. ID Numbers (specify whether State or Federal).

Toxic Substances

Check all that apply.

- 1. Manufacture and Import of Chemicals, Record-keeping and Reporting Requirements (40 CFR 704)
- 2. Import and Export of Chemicals (40 CFR 707)
- 3. Chemical Substances Inventory Reporting Requirements (40 CFR 710)
- 4. Chemical Information Rules (40 CFR 712)
- 5. Health and Safety Data Reporting (40 CFR 716)
- 6. Pre-Manufacture Notifications (40 CFR 720)
- 7. PCB Distribution Use, Storage and Disposal (40 CFR 761)
- 8. Regulations on Use of Fully Halogenated Chlorofluoroalkanes (40 CFR 762)
- 9. Storage and Disposal of Waste Material Containing TCDD (40 CFR 775)

Other (you must list these if applicable)

- 10. Federal, State, tribal, or local regulations not listed above.
- 11. ID Numbers (specify whether State or Federal).

Pesticide Regulations

Check all that apply.

- 1. FIFRA Pesticide Use Classification (40 CFR 162)
- 2. Procedures Storage and Disposal of Pesticides and Containers (40 CFR 165)
- 3. Certification of Pesticide Applications (40 CFR 171)
- 4. Pesticide Licensing Requirements
- 5. Labeling of Pesticides
- 6. Pesticide Sales, Permits, Records, Application and Disposal Requirements
- 7. Disposal of Pesticide Containers
- 8. Restricted Use and Prohibited Pesticides

Other (you must list these if applicable)

- 9. Federal, State, tribal, or local regulations not listed above.
- 10. ID Numbers (specify whether State or Federal).

Environmental Clean-Up, Restoration, Corrective Action

- 1. Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund). Please identify and include date of Record of Decision.
- 2. RCRA Corrective Action. Please provide date of RCRA/HSWA permits that require corrective action.
- 3. Other Federal, State, tribal, or local environmental clean-up, restoration, corrective action regulations not listed above. Please include date of requirement.

Facility Name John Zink Company LLC

Facility Location: 11920 E. Apache, Tulsa, Oklahoma 74116

The National Environmental Performance Track is a U.S. Environmental Protection Agency program. Please direct inquiries to 1-888-339-PTRK (7875) or e-mail ptrack@indecon.com.

To submit your application:

- 1) E-mail the completed application to ptrack@indecon.com,
and
- 2) Fax the completed and signed Section E (**not** the entire application) to (617) 354-0463.

If you cannot e-mail the application, mail a hard copy of the entire completed application to:

Cambridge, MA 02140

Paperwork Reduction Act Notice

The public reporting and recordkeeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.
