

**A06-0033 7/3/02**

*Application Form*

Lockheed Martin Missiles & Fire Control - Dallas, Camden Operations

Name of facility\*

Lockheed Martin Corporation

Name of parent company (if any)

Hwy 274 South

Street address

Highland Industrial Park

Street address (continued)

East Camden, AR 71701

City/State/Zip code

Give us information about your contact person for the National Environmental Performance Track Program.

Name Mr./Mrs./Ms./Dr. Ed Soleau

Title Manager Environmental Safety & Health

Phone (870) 574-0200 ext. 4387

Fax (870) 574-4027

E-mail ed.soleau@lmco.com

Facility/Company Website http://www.vs.lmco.com/

\* If you are applying for multiple facilities, you must call 1-888-339-PTRK(7875)

# Section A

*Tell us about your facility.*

## ***Why do we need this information?***

EPA needs background information on your facility to evaluate your application.

## ***What do you need to do?***

- ◆ Provide background information on your facility.
- ◆ Identify your environmental requirements.

**1** What do you do or make at your facility?

Manufacture Rockets, Missiles, and Launchers under Department of Defense contracts, and we have various labs for operations testing.

**2** List the North American Industrial Classification System (NAICS) codes that you use to classify business at your facility.

NAICS  
339999      \_\_\_\_\_

**3** Does your company meet the Small Business Administration definition of a small business for your sector?

Yes       No

**4** How many employees (full-time equivalents) currently work at your facility? If you checked "Yes" in question 3 and have fewer than 50 employees at your facility, then you are considered a "small facility" by the Performance Track Program.

- Fewer than 50  
 50-99  
 100-499  
 500-1,000  
 More than 1,000

**5** Complete the Environmental Requirements Checklist on pages 32-38 of the instructions and enclose it with your application.

## Section A, continued

- 6 Optional: Is there anything else you would like to tell us about your facility? Do you participate in other voluntary programs at the local, tribal, State, or Federal level?

LMMFC, Camden Operations is committed to reducing the generation of hazardous and non-hazardous waste as well as hazardous materials used in the Manufacturing and Engineering Operations. Source reduction, shop supply recycling, process elimination, process improvement, housekeeping, etc., are the avenues by which these reductions can be accomplished.

Numerous programs have been installed to help reduce waste generation numbers. One facility at LMMFC, Camden Operations contains a Quality Process Control Lab and an Industrial Waste Treatment Facility, which treats all discharged process waste so that the amount of waste sent to the POTW is minimized. The Wastewater Treatment System was renovated in 2001, and these efforts have resulted in more than a 50% reduction in process generated waste sludge. Also in 2001, the Paint Process Area was renovated to remove old, outdated equipment, which, in turn was replaced with new, state of the art equipment. This renovation has the potential of significantly reducing process air emissions in the coming years due to reducing paint usage.

The Environmental, Safety & Health Department has implemented a program that will continue to reduce and control chemical purchases. A review process is in force to approve any new chemical purchases after review of MSDS (Material Safety Data Sheets) to assure environmental friendly products are considered first. All ODC (ozone depleting chemicals) degreaser processes have been eliminated and replaced with aqueous type systems; in addition, all other ODC products were substituted or eliminated such as freon and aerosols containing CFCs (chlorofluorocarbons).

The recycling program is a joint effort by the Materials Surplus Sales Coordinator, Facilities Manager, and the Environmental Safety & Health Department. Documentation of all recycling operations and waste minimization is maintained, and this information is shared quarterly with our parent facility in Dallas. Under the Company's Recycling Program, unused chemicals and other products that reach their expiration date for use in production are sold and/or donated to other vendors that can still utilize these products. This eliminates the cost of disposal and aids in the reduction of wastes for disposal. The following are 2001 total weights for recyclable materials.

Paper and Cardboard recycled	145,400 lbs.
Non- Ferrous Metals recycled	39,880 lbs.
Ferrous Metals Recycled (mixed metals)	63,760 lbs.
Misc. Scrap "Iron & Steel"	339, 037 lbs.
Wood Recycled	424 cy

The Environmental staff is active in community activities and donates their time to speak concerning environmental issues or leadership at local schools and churches. The Environmental staff is also active in a mentor program designed for college students enrolled in Environmental degree programs to meet with professionals in the work force

and share information. The Arkansas Environmental Federation sponsors the program.

Recent awards received by the Environmental Department compliment the effectiveness of the program.

·The Environmental and Materials Departments received, in 2000 and 2001, recognition awards for Corporate Recycler of the Year from the Arkansas Recycling Coalition.

·The Environmental Department in 1999 received the Lockheed Martin ESH Corporate award for a small facility.

·LMMFC received the Overall Environmental Pollution Prevention Award in 1998 from the Arkansas Environmental Federation.

·LMMFC received, in 1996 and 1997, recognition awards for waste minimization and pollution prevention from the Arkansas Environmental Federation.

**Why do we need this information?**

Facilities need to have an operating Environmental Management System (EMS) that meets certain requirements.

**What do you need to do?**

- ◆ Confirm that your EMS meets the Performance Track requirements.
- ◆ Tell us if you have completed a self-assessment or have had a third-party assessment of your EMS.

# Section B

*Tell us about your EMS.*

Read the EMS requirements on page 9-12 of instructions.  
Tell us if your EMS meets these requirements for:

- 1 Environmental policy \_\_\_\_\_  Yes  No
- 2 Planning \_\_\_\_\_  Yes  No
- 3 Implementing and operation \_\_\_\_\_  Yes  No
- 4 Checking and corrective action \_\_\_\_\_  Yes  No
- 5 Management review \_\_\_\_\_  Yes  No
- 6 Have you done a comprehensive review of all activities conducted at your facility that could impact the environment? (i.e., have you done an aspect analysis?)  Yes  No
- 7 Have you classified your aspects based on their potential harm to the environment, on community concerns, and/or on other objective factors? (i.e., have you determined your significant aspects?)  Yes  No
- 8 When did you last update your aspect analysis? (mo/yr) 03/2002
- 9 Have you completed at least one EMS cycle (plan-do-check-act)?  Yes  No
- 10 Did this cycle include both an EMS and a compliance audit?  Yes  No
- 11 Have you completed an objective self-assessment or third-party assessment of your EMS?  Yes  No
- If yes, what method of EMS assessment did you use?
- | Self-assessment                | Third-party assessment                                      |
|--------------------------------|---|
| <input type="checkbox"/> GEMI  | <input checked="" type="checkbox"/> ISO 14001 Certification |
| <input type="checkbox"/> CEMP  | <input type="checkbox"/> Other                              |
| <input type="checkbox"/> Other |   |

**Why do we need this information?**

Facilities need to show that they are committed to improving their environmental performance. This means that you can describe past achievements and will make future commitments.

**What do you need to do?**

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

# Section C

*Tell us about your past achievements and future commitments.*

**Part 1** You must report past achievements for at least two environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the instructions. Please quantify each of your aspects using the units listed for that aspect in the Environmental PTrack Information Hotline at 1-888-339-PTRK.

**Note to small facilities:** If you are a small facility, you must report past achievements for only one environmental aspect.

**First achievement**

1 What aspect have you selected from the Table on page 29-31?	Hazardous Solid Waste	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	lbs	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	105,177	53,918
4 What are the years for which you are reporting these quantities?	1999	2001
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	0.6	1.0
6 What is your normalizing factor based on (e.g., production, employment)?	Production	
7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	The Waste Water Treatment facility was revamped in 2001. This renovation produced a 30-50% decrease in Waste Treatment Sludge generation. Also, a solvent recovery system was implemented for recycling of a solvent waste stream.	

*Section C, continued*

**Second achievement**

1 What aspect have you selected from the Table on page 29-31?	Total Solid Waste	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	Tons	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	396	265
4 What are the years for which you are reporting these quantities?	1999	2001
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	0.6	1.0
6 What is your normalizing factor based on (e.g., production, employment)?	Production	
7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	Process upgrades, waste management methods, and facility refurbishments all have had significant impacts on this aspect.	

**Part 2** You must make future commitments for at least four environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the Instructions. The aspects you select for your future commitments should be related to the objectives and targets in your EMS. Where possible, they also should be identified as having a significant environmental impact in your EMS. No more than two of your aspects can be from the same environmental category. If you're not sure how your objectives and targets fit into our aspects or whether your aspects are significant, call the PTrack Information Hotline at 1-888-339-PTRK.

Once you have chosen your four environmental aspects, then fill in all the necessary information for these aspects in the tables on pages 7-10 of this form. Please quantify each of your aspects using the units listed for that aspect in the Environmental Performance Table. Each table that you must fill in corresponds to one of the environmental aspects you have chosen.

We will assume that your performance commitments are based on a constant production or employment level. If you would like to base your commitment on changing production or employment, please fill out optional questions 6a and 6b.

**Note to small facilities:** If you are a small facility, you must report future commitments for only two environmental aspects.

**Section C, continued**

**First commitment**

<b>1</b> What aspect have you selected from the Table on pages 29-31?	Hazardous Solid Waste	
<b>2</b> What units are you using to quantify this aspect?	lbs	
<b>3a</b> Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
<b>3b</b> If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
<b>4</b> List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	53,918	58,905
<b>5</b> What are the years for which you are reporting these quantities?	2001	2004
<b>6a</b> (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.2
<b>6b</b> (Optional) What is your normalizing factor based on (e.g., production, employment)?	Production	
<b>7</b> You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Hazardous Solid Waste improvements will be achieved by process upgrades, minimizing paint waste, and internal waste generation goals will assist with meeting this improvement. (5% reduction/production unit from expected production rates)	
<b>8a</b> Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
<b>8b</b> If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

**Section C, continued**

**Second commitment**

<b>1</b> What aspect have you selected from the Table on pages 29-31?	Total Solid Waste	
<b>2</b> What units are you using to quantify this aspect?	Tons	
<b>3a</b> Is this aspect considered significant in your EMS?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
<b>3b</b> If no, please explain why you believe this aspect should be included as a performance commitment.	Total Solid Waste is tracked internally at Lockheed Martin, but it is not a regulated activity. Hazardous Waste is included in Total Solid Waste, and it has been determined significant.	
	CURRENT	FUTURE
<b>4</b> List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	265	289
<b>5</b> What are the years for which you are reporting these quantities?	2001	2004
<b>6a</b> (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.2
<b>6b</b> (Optional) What is your normalizing factor based on (e.g., production, employment)?	Production	
<b>7</b> You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Recycling opportunities and increased waste management methods should provide improvement in this quantity.	
<b>8a</b> Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
<b>8b</b> If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

**Section C, continued**

**Third commitment**

<b>1</b> What aspect have you selected from the Table on pages 29-31?	Total Energy Use	
<b>2</b> What units are you using to quantify this aspect?	MwH	
<b>3a</b> Is this aspect considered significant in your EMS?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
<b>3b</b> If no, please explain why you believe this aspect should be included as a performance commitment.	Lockheed Martin consumes significant amounts of energy on a yearly basis which is tracked and documented quarterly.	
	CURRENT	FUTURE
<b>4</b> List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	16,902	18,466
<b>5</b> What are the years for which you are reporting these quantities?	2001	2004
<b>6a</b> (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.2
<b>6b</b> (Optional) What is your normalizing factor based on (e.g., production, employment)?	Production	
<b>7</b> You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	We should improve the quantity of this aspect by replacing old out-dated equipment, including HVAC units, air compressors, compressed air dryers, and purchasing an oil/water separator.	
<b>8a</b> Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
<b>8b</b> If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

**Section C, continued**

**Fourth commitment**

<b>1</b> What aspect have you selected from the Table on pages 29-31?	Emissions of VOCs	
<b>2</b> What units are you using to quantify this aspect?	Tons	
<b>3a</b> Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
<b>3b</b> If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
<b>4</b> List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	13.37	14.6
<b>5</b> What are the years for which you are reporting these quantities?	2001	2004
<b>6a</b> (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.2
<b>6b</b> (Optional) What is your normalizing factor based on (e.g., production, employment)?	Production	
<b>7</b> You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	<ul style="list-style-type: none"> <li>- Use high solids, low VOC paints</li> <li>- Monitor emissions by material usage</li> </ul>	
<b>8a</b> Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
<b>8b</b> If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	Air Permit: 618-AR-6 - Quantitative Limit = 45.11 tons/year	

***Why do we need this information?***

Facilities need to demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

***What do you need to do?***

- ◆ Describe your approach to public outreach.
- ◆ List three references who are familiar with your facility.

# Section D

*Tell us about your public outreach and reporting.*

**1** How do you identify and respond to community concerns?

Our public relations staff responds to all inquiries and/or concerns by the community. Depending on the issue, the PR group would direct the inquiry to the appropriate department.

**2** How do you inform community members of important matters that affect them?

- Public Notice and/or meeting with City Representatives
- Member of the Local Emergency Planning Committee
- Member of the Camden Area Industrial Safety & Environmental Board

**3** How will you make the Performance Track Annual Performance Report available to the public?

- Website [www.](#)
- Newspaper
- Open Houses
- Other

**Section D, continued**

4 Are there any ongoing citizen suits against your facility?  Yes  No

If yes, describe briefly in the right-hand column.

5 List references below

	<i>Organization</i>	<i>Name</i>	<i>Phone number</i>
<i>Representative of a Community/ Citizen Group</i>	Arkansas Environmental Federation (AEF)	Randy Thurman	(501) 374-0263
<i>State/tribal/local regulator</i>	Arkansas Department of Environmental Quality (ADEQ)	Derrick Warrick	(501) 682-0923
<i>Other community/local reference (e.g., emergency management official or business associate)</i>	Office of Emergency Management	Henry Primm	(870) 837-2206

# Section E

## Application and Participation Statement.

On behalf of Lockheed Martin Missiles & Fire Control  
[my facility],

I certify that

I have read and agree to the terms and conditions for Application and Participation in the National Environmental Performance Track, as specified in the *National Environmental Performance Track Program Guide* and in the *Application Instructions*;

- I have personally examined and am familiar with the information contained in this Application, including the Environmental Requirements Checklist. The information contained in this Application is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete, and I have no reason to believe the facility would not meet all program requirements;
- My facility has an environmental management system (EMS), as defined in the Performance Track EMS requirements, including systems to maintain compliance with all applicable Federal, State, tribal, and local environmental requirements in place at the facility, and the EMS will be maintained for the duration of the facility's participation in the program;
- My facility has conducted an objective assessment of its compliance with all Federal, State, tribal, and local environmental requirements, and the facility has corrected all identified instances of potential or actual noncompliance;
- Based on the foregoing compliance assessment and subsequent corrective actions (if any were necessary), my facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with applicable Federal, State, tribal, and local environmental requirements.

I agree that EPA's decision whether to accept participants into or remove them from the National Environmental Performance Track is wholly discretionary, and I waive any right that may exist under any law to challenge EPA's acceptance or removal decision.

I am the senior facility manager and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is applying to this program.

Signature/Date	_____
Printed Name/Title	<u>Mr./Mrs./Ms./Dr. Norman Anderson / Deputy General Manager</u>
Phone Number/E-mail	<u>(870) 574-0200 ext. 4112</u>
Facility Name	<u>Lockheed Martin Missiles &amp; Fire Control - Dallas, Camden Operations</u>
Facility Street Address	<u>HWY 274 - Highland Industrial Park</u>
City/State/Zip Code	<u>East Camden, Arkansas 71701</u>

## **Paperwork Reduction Act Notice**

The public reporting and recordkeeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

# Environmental Requirements Checklist

Use the Environmental Requirements Checklist to answer Question 5 in *Section A, Tell us about your facility*. This Checklist will help you identify the *major* Federal, State, tribal, and local environmental requirements that apply at your facility, but it is not an exhaustive list of all environmental requirements that may be applicable at your facility.

Fill in your facility information below and enclose the completed Checklist with your application.

## Air Pollution Regulations

*Check all that apply*

- 1. National Emission Standards for Hazardous Air Pollutants (40 CFR 61)
- 2. Permits and Registration of Air Pollution Sources
- 3. General Emission Standards, Prohibitions, and Restrictions
- 4. Control of Incinerators
- 5. Process Industry Emission Standards
- 6. Control of Fuel Burning Equipment
- 7. Control of VOCs
- 8. Sampling, Testing, and Reporting
- 9. Visible Emissions Standards
- 10. Control of Fugitive Dust
- 11. Toxic Air Pollutants Control
- 12. Vehicle Emissions Inspections and Testing

*Other (you must list these if applicable)*

- 13. Federal, State, tribal, or local regulations not listed above.
- 14. ID Numbers (specify whether State or Federal).  
State Permit # 618-AR-6

## Hazardous Waste Management Regulations

Check all that apply.

- 1. Identification and listing of hazardous waste (40 CFR 261)
  - Characteristic waste
  - Listed waste
- 2. Standards Applicable to Generators of Hazardous Waste (40 CFR 262)
  - Manifesting
  - Pre-transport requirements
  - Record keeping/reporting
- 3. Standards Applicable to Transporters of Hazardous Waste (40 CFR 263)
  - Transfer facility requirements
  - Manifest system and record-keeping
  - Hazardous waste discharges
- 4. Standards for Owners and Operators of TSD Facilities (40 CFR 264)
  - General facility standards
  - Preparedness and prevention
  - Contingency plan and emergency procedures
  - Manifest system, record-keeping, and reporting
  - Groundwater protection
  - Financial requirements
  - Use and management of containers
  - Tanks
  - Waste piles
  - Land treatment
  - Incinerators
- 5. Interim Standards for TSD Owners and Operators (40 CFR 265)
- 6. Interim Standards for Owners and Operators of New Hazardous Waste Land Disposal Facilities (40 CFR 267)
- 7. Administered Permit Program (Part B) (40 CFR 270)

Other (you must list these if applicable)

- 8. Federal, State, tribal, or local regulations not listed above
- 9. ID Numbers (specify whether State or Federal).  
TSD Part B Permit  
# 27H - M003

### Hazardous Materials Management

Check all that apply.

- 1. Control of Pollution by Oil and other Hazardous Substances (33 CFR 153)
- 2. Designation of Reportable Quantities and Notification of Hazardous Materials Spill (40 CFR 302)
- 3. Hazardous Materials Transportation Regulations (49 CFR 172-173)
- 4. Worker Right-to-Know Regulations (29 CFR 1910.1200)
- 5. Community Right-to-Know Regulations (40 CFR 350-372)
- 6. Underground Storage Tank Regulations (40 CFR 280-282)

Other (you must list these if applicable)

- 7. Federal, State, tribal, or local regulations not listed above.
- 8. ID Numbers (specify whether State or Federal).

### Solid Waste Management

Check all that apply.

- 1. Criteria for Classification of Solid Waste Disposal Facilities and Practices (40 CFR 257)
- 2. Permit Requirements for Solid Waste Disposal Facilities
- 3. Installation of Systems of Refuse Disposal
- 4. Solid Waste Storage and Removal Requirements
- 5. Disposal Requirements for Special Wastes

Other (you must list these if applicable)

- 6. Federal, State, tribal, or local regulations not listed above.
- 7. ID Numbers (specify whether State or Federal).

## Water Pollution Control Requirements

Check all that apply.

- 1. Oil Spill Prevention Control and Countermeasures (SPCC) (40 CFR 112)
- 2. Designation of Hazardous Substances (40 CFR 116)
- 3. Determination of Reportable Quantities for Hazardous Substances (40 CFR 117)
- 4. NPDES Permit Requirements (40 CFR 122)
- 5. Toxic Pollutant Effluent Standards (40 CFR 129)
- 6. General Pretreatment Regulations for Existing and New Sources (40 CFR 403)  
Name of POTW Highland Industries (Privately Owned Treatment Works)  
ID # of POTW
- 7. Organic Chemicals Manufacturing Point Source Effluent Guidelines and Standards (40 CFR 414)
- 8. Inorganic Chemicals Manufacturing Point Source Effluent Guidelines and Standards (40 CFR 415)
- 9. Plastics and Synthetics Point Source Effluent Guidelines and Standards (40 CFR 416)
- 10. Water Quality Standards
- 11. Effluent Limitations for Direct Dischargers
- 12. Permit Monitoring/Reporting Requirements
- 13. Classifications and Certifications of Operators and Superintendents of Industrial Wastewater Plants
- 14. Collection, Handling, and Processing of Sewage Sludge
- 15. Oil Discharge Containment, Control and Cleanup
- 16. Standards Applicable to Indirect Discharges (Pretreatment)

Other (you must list these if applicable)

- 17. Federal, State, tribal, or local regulations not listed above.
- 18. ID Numbers (specify whether State or Federal).  
AR0045233

## Drinking Water Regulations

Check all that apply.

- 1. Underground Injection and Control Regulations, Criteria and Standards (40 CFR 144, 146)
- 2. National Primary Drinking Water Standards (40 CFR 141)
- 3. Community Water Systems, Monitoring and Reporting Requirements (40 CFR 141)
- 4. Permit Requirements for Appropriation/Use of Water from Surface or Subsurface Sources
- 5. Underground Injection Control Requirements
- 6. Monitoring, Reporting and Record keeping Requirements for Community Water Systems

Other (you must list these if applicable)

- 7. Federal, State, tribal, or local regulations not listed above.
- 8. ID Numbers (specify whether State or Federal).

## Toxic Substances

Check all that apply.

- 1. Manufacture and Import of Chemicals, Record-keeping and Reporting Requirements (40 CFR 704)
- 2. Import and Export of Chemicals (40 CFR 707)
- 3. Chemical Substances Inventory Reporting Requirements (40 CFR 710)
- 4. Chemical Information Rules (40 CFR 712)
- 5. Health and Safety Data Reporting (40 CFR 716)
- 6. Pre-Manufacture Notifications (40 CFR 720)
- 7. PCB Distribution Use, Storage and Disposal (40 CFR 761)
- 8. Regulations on Use of Fully Halogenated Chlorofluoroalkanes (40 CFR 762)
- 9. Storage and Disposal of Waste Material Containing TCDD (40 CFR 775)

Other (you must list these if applicable)

- 10. Federal, State, tribal, or local regulations not listed above.
- 11. ID Numbers (specify whether State or Federal).

## Pesticide Regulations

Check all that apply.

- 1. FIFRA Pesticide Use Classification (40 CFR 162)
- 2. Procedures Storage and Disposal of Pesticides and Containers (40 CFR 165)
- 3. Certification of Pesticide Applications (40 CFR 171)
- 4. Pesticide Licensing Requirements
- 5. Labeling of Pesticides
- 6. Pesticide Sales, Permits, Records, Application and Disposal Requirements
- 7. Disposal of Pesticide Containers
- 8. Restricted Use and Prohibited Pesticides

Other (you must list these if applicable)

- 9. Federal, State, tribal, or local regulations not listed above.
- 10. ID Numbers (specify whether State or Federal).

## Environmental Clean-Up, Restoration, Corrective Action

- 1. Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund). Please identify and include date of Record of Decision.
- 2. RCRA Corrective Action. Please provide date of RCRA/HSWA permits that require corrective action.
- 3. Other Federal, State, tribal, or local environmental clean-up, restoration, corrective action regulations not listed above. Please include date of requirement.

**Facility Name** Lockheed Martin Missiles & Fire Control-Dallas, Camden Operations

**Facility Location:** East Camden, AR 71701

(617) 354-0463.

If you cannot e-mail the application, mail a hard copy of the entire completed application to:

The Performance Track Information Center  
c/o Industrial Economics Incorporated  
2067 Massachusetts Avenue  
Cambridge, MA 02140

## Paperwork Reduction Act Notice

The public reporting and recordkeeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.
