

A07-0025 07-15-03

Application Form

35TH Street Facility

Name of facility*

Rockwell Collins, Inc.

Name of parent company (if any)

855 35th Street NE

Street address

Street address (continued)

Cedar Rapids, Iowa, 52498

City/State/Zip code

Give us information about your contact person for the National Environmental Performance Track Program.

Name Mr./Mrs./Ms./Dr. Rickie L. Pelle

Title Director, Environmental Services

Phone 319-295-5710

Fax 319-295-3437

E-mail rlpelle@rockwellcollins.com

Facility/Company Website www.rockwellcollins.com

* If you are applying for multiple facilities, you must call 1-888-339-PTRK(7875)

Section A

Tell us about your facility.

Why do we need this information?

EPA needs background information on your facility to evaluate your application.

What do you need to do?

- ◆ Provide background information on your facility.
- ◆ Identify your environmental requirements.

1 What do you do or make at your facility?

Manufacture advanced communication and aviation electronics for military markets and for aircraft manufacturers and airlines.

2 List the North American Industrial Classification System (NAICS) codes that you use to classify business at your facility.

NAICS
334511 _____

3 Does your company meet the Small Business Administration definition of a small business for your sector?

Yes No

4 How many employees (full-time equivalents) currently work at your facility? If you checked "Yes" in question 3 and have fewer than 50 employees at your facility, then you are considered a "small facility" by the Performance Track Program.

- Fewer than 50
 50-99
 100-499
 500-1,000
 More than 1,000

5 Complete the Environmental Requirements Checklist on pages 32-38 of the instructions and enclose it with your application.

Section A, continued

- 6 Optional: Is there anything else you would like to tell us about your facility? Do you participate in other voluntary programs at the local, tribal, State, or Federal level?

The Rockwell Collins 35TH Street facility has fully adopted a Lean Electronics operating philosophy to constantly improve performance and deliver better solutions faster at a lower cost enhancing customer value. This philosophy focuses on eliminating non-value-added activities or waste throughout the facility processes and guides how we do our work every day.

The philosophies of the environmental management system and Lean Electronics create a synergy in the Rockwell Collins culture where employees seek and recognize opportunities for waste reduction and continual improvement. Through employee awareness and active involvement, individuals take ownership and play a key role in increasing efficiency while reducing the impact on the environment.

Why do we need this information?

Facilities need to have an operating Environmental Management System (EMS) that meets certain requirements.

What do you need to do?

- ◆ Confirm that your EMS meets the Performance Track requirements.
- ◆ Tell us if you have completed a self-assessment or have had a third-party assessment of your EMS.

Section B

Tell us about your EMS.

Read the EMS requirements on page 9-12 of instructions.
Tell us if your EMS meets these requirements for:

- 1 Environmental policy _____ Yes No
- 2 Planning _____ Yes No
- 3 Implementing and operation _____ Yes No
- 4 Checking and corrective action _____ Yes No
- 5 Management review _____ Yes No
- 6 Have you done a comprehensive review of all activities conducted at your facility that could impact the environment? (i.e., have you done an aspect analysis?) Yes No
- 7 Have you classified your aspects based on their potential harm to the environment, on community concerns, and/or on other objective factors? (i.e., have you determined your significant aspects?) Yes No
- 8 When did you last update your aspect analysis? (mo/yr) 4-1-2003
- 9 Have you completed at least one EMS cycle (plan-do-check-act)? Yes No
- 10 Did this cycle include both an EMS and a compliance audit? Yes No
- 11 Have you completed an objective self-assessment or third-party assessment of your EMS? Yes No
- If yes, what method of EMS assessment did you use?
- | Self-assessment | Third-party assessment |
|--------------------------------|---|
| <input type="checkbox"/> GEMI | <input checked="" type="checkbox"/> ISO 14001 Certification |
| <input type="checkbox"/> CEMP | <input type="checkbox"/> Other |
| <input type="checkbox"/> Other | |

Why do we need this information?

Facilities need to show that they are committed to improving their environmental performance. This means that you can describe past achievements and will make future commitments.

What do you need to do?

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

Section C

Tell us about your past achievements and future commitments.

Part 1 You must report past achievements for at least two environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the instructions. Please quantify each of your aspects using the units listed for that aspect in the Environmental PTrack Information Hotline at 1-888-339-PTRK.

Note to small facilities: If you are a small facility, you must report past achievements for only one environmental aspect.

First achievement

1 What aspect have you selected from the Table on page 29-31?	Total Solid Waste	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	lbs	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	234,668	225,409
4 What are the years for which you are reporting these quantities?	2000	2001
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	1.1	1.0
6 What is your normalizing factor based on (e.g., production, employment)?	sales	

7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?

Rockwell Collins implemented a company wide waste avoidance program in 1992. Since that time landfill usage has decreased from 118 tons to 59.6 tons as normalized to sales. Much of this reduction has been achieved by moving toward paperless communications and recycling all types of paper and cardboard products. The company also practices material re-use whenever practice and feasible. Foam peanuts, bubble wrap, office products (ring binders) and other packaging materials are collected for re-use. Excess material are donated to area businesses. Small electronic parts packaging (boxes & bags) are collected and reused multiple times. Rockwell Collins also established the Rockwell Educational Access to Computer Technology (REACT) center. REACT accepts computers from Rockwell Collins facilities and other local businesses. Volunteers refurbish the computers and then the units are donated to area schools and non-profit organizations. More than 9000 computers have been diverted from the landfill since 1998.

Section C, continued

Second achievement

1 What aspect have you selected from the Table on page 29-31?	Total Energy Use	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	KwH	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	20,537,000	20,154,000
4 What are the years for which you are reporting these quantities?	2000	2001
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	1.0	1.0
6 What is your normalizing factor based on (e.g., production, employment)?	Square footage	
7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	Existing facility lighting has been modified where only 50% of the light fixtures are utilized in certain area's within the facility. Facility energy audits were conducted in winter to identify 'hot spots' in the outside walls using infrared camera. Any new projects, renovation, replacements are carried out with energy conservation in focus (examples: new roof replacements from R-20 to R-33 insulation rating, T-12 lamps to T-8 lamps and electronic ballasts, additional insulation for 'hot spot' areas). Motion detectors have replaced light switches in various locations throughout the facility. Much of the reduction is associated with raising awareness and employees' energy conservation efforts (turning off test equipment, computers and work station lights at the end of the day). Since 2000, annually energy awareness week is organized with various invited speakers on energy conservation topics covering both industrial and residential users.	

Part 2 You must make future commitments for at least four environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the Instructions. The aspects you select for your future commitments should be related to the objectives and targets in your EMS. Where possible, they also should be identified as having a significant environmental impact in your EMS. No more than two of your aspects can be from the same environmental category. If you're not sure how your objectives and targets fit into our aspects or whether your aspects are significant, call the PTrack Information Hotline at 1-888-339-PTRK.

Once you have chosen your four environmental aspects, then fill in all the necessary information for these aspects in the tables on pages 7-10 of this form. Please quantify each of your aspects using the units listed for that aspect in the Environmental Performance Table. Each table that you must fill in corresponds to one of the environmental aspects you have chosen.

We will assume that your performance commitments are based on a constant production or employment level. If you would like to base your commitment on changing production or employment, please fill out optional questions 6a and 6b.

Note to small facilities: If you are a small facility, you must report future commitments for only two environmental aspects.

Section C, continued

First commitment

1 What aspect have you selected from the Table on pages 29-31?	Total Solid Waste	
2 What units are you using to quantify this aspect?	lbs	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	198,010	188,110
5 What are the years for which you are reporting these quantities?	CY2002	CY2005
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?		
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	The facility will strive for a 5% landfill decrease over the next 3 years by increasing adherence to the existing Rockwell Collins waste avoidance program. Key components of this program include: Collecting various types of packaging materials (boxes/bags). Re-using packaging materials (peanuts, foam, bubble wrap) and sending excess to area businesses. Recycling all types of paper, cardboards and magazines. Sending excess office furniture and office materials to schools or non-profit organizations. Refurbishing computers for donation to schools and other non-profit organizations. Selling excess and used items including building materials, paints, furniture, and other miscellaneous products through 'Inventory Disposal Center' to employees and and public.	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

Section C, continued

Second commitment

1	What aspect have you selected from the Table on pages 29-31?	Total Energy Use- Facility wide Electrical	
2	What units are you using to quantify this aspect?	KwH	
3a	Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b	If no, please explain why you believe this aspect should be included as a performance commitment.		
		CURRENT	FUTURE
4	List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	19623200	18656404
5	What are the years for which you are reporting these quantities?	CY2002	CY2005
6a	(Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	
6b	(Optional) What is your normalizing factor based on (e.g., production, employment)?		
7	You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	<p>The facility will strive for a 5% (facility wide) electrical decrease over the next 3 years by implementing the following energy conservation efforts.</p> <p>1.) Roll out Evolution II for all facility PC's which includes a default energy conservation power management setting. In addition, over the next three years the facility will strive to deploy energy conserving flat panel monitors, replacing CRT on all desktop computers.</p> <p>2.) The facility will slightly increase the operating temperature of the chilled water system at the facility decreasing electrical demand.</p> <p>3.) The facility will eliminate a large conformal coating spray machine and in-line cure oven from the manufacturing process.</p> <p>Any new projects, renovations, replacement will be performed with an emphasis toward energy conservation. This will be combined with low-tech reduction activities such as, turning off unused equipment as practical and feasible, including lights and computers and manufacturing equipment.</p>	
8a	Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
8b	If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds		

requirements.	
---------------	--

Section C, continued

Third commitment

1 What aspect have you selected from the Table on pages 29-31?	Emissions of VOC's	
2 What units are you using to quantify this aspect?	Lbs	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	42,968	30,077
5 What are the years for which you are reporting these quantities?	CY2002	CY2005
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?		
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	The facility will strive for a 30% VOC emission decrease over the next 3 years by changing acrylic conformal coating formulations. Acrylic conformal coating is applied to circuit boards and provides a moisture barrier for sensitive electronics. The current coating formulation is a 65% (by weight) VOC/HAP solvent and must be blended 1:1 or 2:1 with xylene or toluene to create the necessary spray viscosity. The new coating is a water based formulation and contains less than 1% VOC.	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

Section C, continued

Fourth commitment

1 What aspect have you selected from the Table on pages 29-31?	Total Material Used (Paper)	
2 What units are you using to quantify this aspect?	lbs	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	338620	287827
5 What are the years for which you are reporting these quantities?	CY2002	CY2005
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?		
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	The facility will strive for a 15% paper usage decrease over the next 3 years consumption by switching from 1-sided to 2 sided default settings on all self-service copiers and select printers throughout the facility.	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

Why do we need this information?

Facilities need to demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

What do you need to do?

- ◆ Describe your approach to public outreach.
- ◆ List three references who are familiar with your facility.

Section D

Tell us about your public outreach and reporting.

1 How do you identify and respond to community concerns?

Facility personnel receive annual environmental training that specifies who should be contacted in the event an internal or external environmental concern.

2 How do you inform community members of important matters that affect them?

We share information about our environmental programs and performance with the public by publishing an annual Corporate Environmental, Health & Safety Report. The report includes summaries of the performance of all NEPT program facilities. A copy of the report is forwarded to the local public library and the city mayor's office. In addition, it is also made available at our reception area upon request and available through our public web site.

3 How will you make the Performance Track Annual Performance Report available to the public?

- Website www.rockwellcollins.com
- Newspaper
- Open Houses
- Other

Copies of the NEPT Annual Performance Report will be sent to the local library, city mayor's office, and to the individuals who served as references in this application.

Section D, continued

4 Are there any ongoing citizen suits against your facility? Yes No

If yes, describe briefly in the right-hand column.

5 List references below

	<i>Organization</i>	<i>Name</i>	<i>Phone number</i>
<i>Representative of a Community/ Citizen Group</i>	Priority One - Economic Development Organization	Gary Streit	319-365-9461
<i>State/tribal/local regulator</i>	Vice Chair, Linn County Board of Supervisors	Ms. Lu Barron County Supervisor	319-892-5000
<i>Other community/local reference (e.g., emergency management official or business associate)</i>	Cedar Rapids Chamber of Commerce	Ron Corbett President & CEO	319-398-5317

Section E

Application and Participation Statement.

On behalf of Rockwell Collins- 35TH Street Facility
[my facility],

I certify that

I have read and agree to the terms and conditions for Application and Participation in the National Environmental Performance Track, as specified in the *National Environmental Performance Track Program Guide* and in the *Application Instructions*;

- I have personally examined and am familiar with the information contained in this Application, including the Environmental Requirements Checklist. The information contained in this Application is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete, and I have no reason to believe the facility would not meet all program requirements;
- My facility has an environmental management system (EMS), as defined in the Performance Track EMS requirements, including systems to maintain compliance with all applicable Federal, State, tribal, and local environmental requirements in place at the facility, and the EMS will be maintained for the duration of the facility's participation in the program;
- My facility has conducted an objective assessment of its compliance with all Federal, State, tribal, and local environmental requirements, and the facility has corrected all identified instances of potential or actual noncompliance;
- Based on the foregoing compliance assessment and subsequent corrective actions (if any were necessary), my facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with applicable Federal, State, tribal, and local environmental requirements.

I agree that EPA's decision whether to accept participants into or remove them from the National Environmental Performance Track is wholly discretionary, and I waive any right that may exist under any law to challenge EPA's acceptance or removal decision.

I am the senior facility manager and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is applying to this program.

Facility Street Address	<u>855 35th Street NE</u>
City/State/Zip Code	<u>Cedar Rapids, Iowa, 52498</u>

Paperwork Reduction Act Notice

The public reporting and recordkeeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

Environmental Requirements Checklist

Use the Environmental Requirements Checklist to answer Question 5 in *Section A, Tell us about your facility*. This Checklist will help you identify the *major* Federal, State, tribal, and local environmental requirements that apply at your facility, but it is not an exhaustive list of all environmental requirements that may be applicable at your facility.

Fill in your facility information below and enclose the completed Checklist with your application.

Air Pollution Regulations

Check all that apply

- 1. National Emission Standards for Hazardous Air Pollutants (40 CFR 61)
- 2. Permits and Registration of Air Pollution Sources
- 3. General Emission Standards, Prohibitions, and Restrictions
- 4. Control of Incinerators
- 5. Process Industry Emission Standards
- 6. Control of Fuel Burning Equipment
- 7. Control of VOCs
- 8. Sampling, Testing, and Reporting
- 9. Visible Emissions Standards
- 10. Control of Fugitive Dust
- 11. Toxic Air Pollutants Control
- 12. Vehicle Emissions Inspections and Testing

Other (you must list these if applicable)

- 13. Federal, State, tribal, or local regulations not listed above.
- 14. ID Numbers (specify whether State or Federal).

Hazardous Waste Management Regulations

Check all that apply.

- 1. Identification and listing of hazardous waste (40 CFR 261)
 - Characteristic waste
 - Listed waste
- 2. Standards Applicable to Generators of Hazardous Waste (40 CFR 262)
 - Manifesting
 - Pre-transport requirements
 - Record keeping/reporting
- 3. Standards Applicable to Transporters of Hazardous Waste (40 CFR 263)
 - Transfer facility requirements
 - Manifest system and record-keeping
 - Hazardous waste discharges
- 4. Standards for Owners and Operators of TSD Facilities (40 CFR 264)
 - General facility standards
 - Preparedness and prevention
 - Contingency plan and emergency procedures
 - Manifest system, record-keeping, and reporting
 - Groundwater protection
 - Financial requirements
 - Use and management of containers
 - Tanks
 - Waste piles
 - Land treatment
 - Incinerators
- 5. Interim Standards for TSD Owners and Operators (40 CFR 265)
- 6. Interim Standards for Owners and Operators of New Hazardous Waste Land Disposal Facilities (40 CFR 267)
- 7. Administered Permit Program (Part B) (40 CFR 270)

Other (you must list these if applicable)

- 8. Federal, State, tribal, or local regulations not listed above
- 9. ID Numbers (specify whether State or Federal).

Hazardous Materials Management

Check all that apply.

- 1. Control of Pollution by Oil and other Hazardous Substances (33 CFR 153)
- 2. Designation of Reportable Quantities and Notification of Hazardous Materials Spill (40 CFR 302)
- 3. Hazardous Materials Transportation Regulations (49 CFR 172-173)
- 4. Worker Right-to-Know Regulations (29 CFR 1910.1200)
- 5. Community Right-to-Know Regulations (40 CFR 350-372)
- 6. Underground Storage Tank Regulations (40 CFR 280-282)

Other (you must list these if applicable)

- 7. Federal, State, tribal, or local regulations not listed above.

8. ID Numbers (specify whether State or Federal).

Solid Waste Management

Check all that apply.

1. Criteria for Classification of Solid Waste Disposal Facilities and Practices (40 CFR 257)
2. Permit Requirements for Solid Waste Disposal Facilities
3. Installation of Systems of Refuse Disposal
4. Solid Waste Storage and Removal Requirements
5. Disposal Requirements for Special Wastes

Other (you must list these if applicable)

6. Federal, State, tribal, or local regulations not listed above.
7. ID Numbers (specify whether State or Federal).

Water Pollution Control Requirements

Check all that apply.

1. Oil Spill Prevention Control and Countermeasures (SPCC) (40 CFR 112)
2. Designation of Hazardous Substances (40 CFR 116)
3. Determination of Reportable Quantities for Hazardous Substances (40 CFR 117)
4. NPDES Permit Requirements (40 CFR 122)
5. Toxic Pollutant Effluent Standards (40 CFR 129)
6. General Pretreatment Regulations for Existing and New Sources (40 CFR 403)
- Name of POTW
- ID # of POTW
7. Organic Chemicals Manufacturing Point Source Effluent Guidelines and Standards (40 CFR 414)
8. Inorganic Chemicals Manufacturing Point Source Effluent Guidelines and Standards (40 CFR 415)
9. Plastics and Synthetics Point Source Effluent Guidelines and Standards (40 CFR 416)
10. Water Quality Standards
11. Effluent Limitations for Direct Dischargers
12. Permit Monitoring/Reporting Requirements
13. Classifications and Certifications of Operators and Superintendents of Industrial Wastewater Plants
14. Collection, Handling, and Processing of Sewage Sludge
15. Oil Discharge Containment, Control and Cleanup
16. Standards Applicable to Indirect Discharges (Pretreatment)

Other (you must list these if applicable)

17. Federal, State, tribal, or local regulations not listed above.
18. ID Numbers (specify whether State or Federal).

Drinking Water Regulations

Check all that apply.

- 1. Underground Injection and Control Regulations, Criteria and Standards (40 CFR 144, 146)
- 2. National Primary Drinking Water Standards (40 CFR 141)
- 3. Community Water Systems, Monitoring and Reporting Requirements (40 CFR 141)
- 4. Permit Requirements for Appropriation/Use of Water from Surface or Subsurface Sources
- 5. Underground Injection Control Requirements
- 6. Monitoring, Reporting and Record keeping Requirements for Community Water Systems

Other (you must list these if applicable)

- 7. Federal, State, tribal, or local regulations not listed above.
- 8. ID Numbers (specify whether State or Federal).

Toxic Substances

Check all that apply.

- 1. Manufacture and Import of Chemicals, Record-keeping and Reporting Requirements (40 CFR 704)
- 2. Import and Export of Chemicals (40 CFR 707)
- 3. Chemical Substances Inventory Reporting Requirements (40 CFR 710)
- 4. Chemical Information Rules (40 CFR 712)
- 5. Health and Safety Data Reporting (40 CFR 716)
- 6. Pre-Manufacture Notifications (40 CFR 720)
- 7. PCB Distribution Use, Storage and Disposal (40 CFR 761)
- 8. Regulations on Use of Fully Halogenated Chlorofluoroalkanes (40 CFR 762)
- 9. Storage and Disposal of Waste Material Containing TCDD (40 CFR 775)

Other (you must list these if applicable)

- 10. Federal, State, tribal, or local regulations not listed above.
- 11. ID Numbers (specify whether State or Federal).

Pesticide Regulations

Check all that apply.

- 1. FIFRA Pesticide Use Classification (40 CFR 162)
- 2. Procedures Storage and Disposal of Pesticides and Containers (40 CFR 165)
- 3. Certification of Pesticide Applications (40 CFR 171)
- 4. Pesticide Licensing Requirements
- 5. Labeling of Pesticides
- 6. Pesticide Sales, Permits, Records, Application and Disposal Requirements
- 7. Disposal of Pesticide Containers
- 8. Restricted Use and Prohibited Pesticides

Other (you must list these if applicable)

- 9. Federal, State, tribal, or local regulations not listed above.
- 10. ID Numbers (specify whether State or Federal).

Environmental Clean-Up, Restoration, Corrective Action

- 1. Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund). Please identify and include date of Record of Decision.
- 2. RCRA Corrective Action. Please provide date of RCRA/HSWA permits that require corrective action.
- 3. Other Federal, State, tribal, or local environmental clean-up, restoration, corrective action regulations not listed above. Please include date of requirement.

Facility Name Rockwell Collins - 35TH Street Facility

Facility Location: 855 35TH Street NE, Cedar Rapids, Iowa 52498

The National Environmental Performance Track is a U.S. Environmental Protection Agency program. Please direct inquiries to 1-888-339-PTRK (7875) or e-mail ptrack@indecon.com.

To submit your application:

- 1) E-mail the completed application to ptrack@indecon.com,
and
- 2) Fax the completed an signed Section E (**not** the entire application) to (617) 354-0463.

If you cannot e-mail the application, mail a hard copy of the entire completed application to:

The Performance Track Information Center
c/o Industrial Economics Incorporated
2067 Massachusetts Avenue
Cambridge, MA 02140
