

# Friendship Force International visits TCU in June

---

During the first week in June, TCU hosted a group of Chinese and American Citizens for a tour of our facility. They were members of Friendship Force International. They are a global network of non-profit exchange organizations dedicated to the principle that each person can make a contribution to global goodwill. Through home-stays and other exchange experiences, they promote cross-cultural understanding to help overcome differences between people and nations.

TDK Components USA, Inc. was happy to take time to support the efforts of the Friendship Force. This is an integral part our continuing effort to contribute to our local community and international cultural understanding.
