

C.A.R.S.: Carpooling & Resource Solutions

C.A.R.S. is the Bentley Prince Street **Carpooling and Resource Solutions** committee to encourage the active utilization of alternate transportation by our employees. The company has also incentivized workers by awarding points for participation in ride share activities which applies towards earning a year end bonus. The committee members are hourly and salaried employees from all departments, whether clerical or manufacturing, and meet monthly to plan activities and discuss communication of transportation issues and information. Meetings and distributed materials are bilingual to encourage participation by all.

C.A.R.S. hosts activities and encourages participation through the following:

- Transportation Fair
- Designated carpool days to encourage the exploration of alternate modes of transportation
- Dedicated carpool spaces in all parking lots
- Community bulletin boards providing information about bus and train schedules
- Pre-tax bus pass purchasing through payroll deduction
- Vanpool arrangements for long distance commuters
