

Denver International Airport Environmental Policy

The Department of Aviation, which operates the Denver International Airport (DIA) is committed to protecting the environment in which it operates. The purpose of this policy is to support the City and County of Denver's Goals and the Department of Aviation's Objectives, Vision, and Mission, and to safeguard and enhance the public's investment in the airport. To implement the Airport's Vision, the department will:

- Systematically manage its environmental aspects to pursue continual improvement;
- Comply with all applicable regulations;
- Maximize its material and energy efficiency and pursue pollution-prevention opportunities;
- Foster environmental stewardship at all levels within the organization;
- Promote sustainability best management practices;
- Engage all business partners to support the DIA environmental commitment, and
- Recognize and take advantage of opportunities to drive business value through improved environmental performance.

This policy furthers the Department of Aviation's commitment to incorporate community partnerships in creating a better City and County of Denver and State of Colorado for future generations.

Turner West
Manager of Aviation
City and County of Denver
