

Clark Public Utilities Green Lights Renewable Program

The program that directly supports solar and wind power in the Northwest

Columbia Vista: Carbon Neutral

Monthly Current Carbon Footprint (pounds of CO2 per month with green lights included)	Current Monthly Green Lights 100 KWh Blocks	Additional Monthly Blocks Needed to be Carbon Neutral * see note below
-51,707	1,332	0

Additional Cost @ \$1.50 per 100 KWh Block per Month	Current Average Monthly Bill	New Average Monthly Bill
\$0.00	39,134	39,134

Increase in Average Monthly Bill
0.0%

Note:

* 100 kWh Block of wind power per month for a year prevents creating 1,680 pounds of carbon dioxide or prevents creating 140 pounds of carbon dioxide per month.

Columbia Vista currently purchases 869 Blocks per month which reduces the carbon footprint by 121,660 pounds of carbon dioxide per month... the current carbon footprint
